

MR. TAFT PREACHES ANOTHER SERMON

Took as His Text Proverbs XVI,
32, Which He Did Not Quote
Quite Correctly.

GOOD ADVICE TO HUSBANDS

We Have Popular Government Because
We Believe in Long Run
It the Best Government.

Fresno, Cal., Oct. 10.—From the time-copied series of yesterday, President Taft plunged today into the summer heat of the San Joaquin valley and arrived here shortly after 2 p. m. with the thermometer hovering about the nineties. He was greeted by practically the entire population of the city and the surrounding country, and after a short automobile trip through the business section, addressed a gathering of many thousands in the court house square.

The president's speech was in reality another Sunday sermon, the third he has preached since his trip began. His text, quoted from memory, was "That he who conquerseth himself is greater than he who taketh a city," and from it drew the lesson that popular government must be a failure unless it is based upon sound common sense and the self-restraint that goes to make the good loser. He drew an analogy between the American people in this respect and those peoples who, in their attempt at self-government, follow an election with a revolution.

On his way here President Taft stopped at Merced for three hours and attended morning service at the Presbyterian church. His greeting at Fresno came from probably the most cosmopolitan community he has met in all his travels.

In the throngs that lined the sidewalks was a commingling of Chinese, Japanese, Armenians, Portuguese and a dozen other nationalities. In fact, it was told to the president, that in one of the public schools of the city, 26 nationalities are represented. One-half of the Armenians of the entire country are said to be gathered here.

A feature of the president's visit to Fresno was the presentation of an address of good will from the Japanese residents of the city. This read:

Mr. President, we, the Japanese residents of Fresno city and surrounding country, have the great honor to offer to you our sincere and most friendly greetings and to accord you a most joyous welcome to our community. We hail you, sir, as the honored chief of a great nation, which we are glad to be the friendliest terms with ours; and we also rejoice that our beloved country, Japan, has the honor and great privilege of reciprocating such fraternal regard.

The president left here at 6:30 p. m. for Los Angeles. He stopped at Bakersfield tonight for a few minutes to make a car-end address.

Mr. Taft was a little stiff from his long mountain walk of yesterday, but declared he would like to have a similar experience every day.

The meeting held in the courthouse square was arranged by the Ministerial association of Fresno, and nearly all the churches of the city were represented. The president spoke for the first time since last Wednesday noon. He was introduced by Mayor Howell and said in part:

PRESIDENT'S SERMON.
It has not been my part, until I began this trip, in religious exercises, to

ANOTHER WOMAN CURED

By Lydia E. Pinkham's
Vegetable Compound

Gardiner, Maine.—"I have been a great sufferer from organic troubles and a severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial—and was entirely cured after three months' use of them."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 30, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial. This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

do other than form one of the audience, but I have found it impossible, under friendly urgency of ministers of the gospel, who occasionally desire a lay substitute, to keep from taking their place and attempting to preach a sermon.

I want to say first, with respect to this audience, that the presence of the veterans of the Civil war is always a great inspiration. I thought, to higher moral standards and to everything that goes to make our country worth living for.

There is a text; I don't know that I can quote it exactly, but to those gentlemen before me, who have taken part in the battles of the war, it will come by reason of its comparison with great significance. "That he who conquerseth himself is greater than he who taketh a city."

Now the home application to the individual of that text I need hardly point out.

There are so many instances in little things. I like to dwell upon the importance of little things in life, for life is not made up of one great series of grandstand plays—it is made up of the little things that go either to make others happy or to make them unhappy.

It is the conduct of the husband, as he comes home after a tired day, in restraining himself while he is met by his eager, curious wife, who wants to know how he has been living during the day and what has happened. Perhaps something has happened that does not please him and he does not like to refer to it, and he cuts her off with a short answer. I know it, and so do you. You have done it—so have I. Now, it is the over-coming of that disposition, the keeping constantly in your mind and heart her happiness, and not your comfort and

GIRL FINDS HER FATHER MURDERED

Walking in Cornfield Said, "Some
One Has Knocked Papa's
Scarecrow Over."

IT WAS HIS DEAD BODY.

When She Recognized It, She Screamed
And Felt in a Faint—A Very
Mysterious Murder.

Washington, Pa., Oct. 11.—"Look, somebody's been knocked papa's scarecrow over, wait until I go over and set it up," said Miss Maud Heufnagle, to her companion as the two girls were walking along a path through a cornfield on their way to church yesterday. A moment later a scream from the young woman drew her companion to the spot. She found Miss Heufnagle stretched in a dead faint beside the mutilated body of her father, which the daughter had at first mistaken for a scarecrow.

The finding of the corpse revealed one of the most mysterious murders in the history of this section. Charles Heufnagle's body, found in a fence corner, was literally hacked to pieces by his slayers. He was one of the wealthiest residents of northern Washington county. He left home on the morning of Sept. 20 to go to Pittsburgh to visit a

sick daughter and on his way to the train took a short cut through the cornfield. It is believed that he was waylaid and murdered while walking along this path. There are signs of a desperate struggle.

Heufnagle is known to have had large sums of money and valuable papers in his clothes and these are missing.

Muskogee, Okla., Oct. 11.—For the first time in many years the fullblood Creek Indians have failed this year to send aside a portion of their crop to pay the expenses for a trip to Washington for their chief, Crazy Snake.

Crazy Snake is gone. Some say he is dead. Others aver he is living quietly on a ranch in Oklahoma. The Creeks, who heretofore have had to contribute corn each year to his expense fund, are willing to drop the question. "No Crazy

SELF-RESTRAINT LACKING.

Now, why is it that this works that way? It is because the majority and the minority do not govern themselves and do not exercise that self-restraint, without which popular government is absolutely impossible. And that is the application of the text that comes home to me in thinking and dealing with these countries that are struggling for popular government. A minority that is beaten in the election cannot stand the defeat. It has to go to the woods. They are not good losers, and the majority are not good winners.

Popular government is a most difficult thing to establish. We have had to hammer it out in a thousand years of Anglo-Saxon suffering and controversy and contest. And now it rests where? It rests in the common sense and the self-restraint of the American people. It rests in the knowledge of the majority that it has got to keep within the checks of the law and the Constitution if the government is to be preserved. And it rests in the knowledge of the minority that it is much more important that the government should be sustained than that the minority should for the time being have control of or a voice in the government. It rests in the knowledge of the majority that the rights of the minority and the individuals of that minority are as sacred as the rights and the wills of the individuals of the majority.

The people rule—there is no doubt about that, but they rule according to law and under the Constitution, and they voluntarily and willingly placed that Constitution and that form and method of expression upon themselves in order that they might act with deliberation and with the checks that were sure to secure moderate, clear-headed, well thought out policies, and therefore when the American people voted that Constitution, and now that they are maintaining it and supporting it, as I hope they always will, they are governing themselves, and are more to be credited than he that taketh a city.

**SISTERS FOUND THEIR
LONG LOST BROTHER**

New York, Oct. 11.—Two sisters have unexpectedly found a brother who was lost when all of them were little children in Germany. Miss Clara Preiser, a resident of Chicago, came here to visit her sister, Mrs. Minnie Lehman of Brooklyn, during the Hudson-Fulton celebration.

Both attended a reception given to the officers of the German warships in the harbor and there they were introduced to Second Lieut. Fritz Hehl, whom they immediately recognized as the long lost brother.

When eight years old he was sent to market in Germany and lost his way. He was sent to an institution and from that was graduated into the navy. He had not seen his relatives for more than 20 years and through his sisters learned the name of his home town.

**CHEAP SUBSTITUTE
FOR RADIUM FOUND**

New York, Oct. 11.—Since the discovery of radium and its value as a therapeutic agent, laboratory workers have been striving to find an efficient substitute for this costly agent to the outfit of physicians and surgeons, and Dr. J. B. Shober seems to have found one that is cheap and reliable.

The discovery resulted from his investigations of the radio-active property of coconut charcoal. Dr. Shober says he passed a slow current of air through a celluloid tube eight inches long and three-quarters of an inch in diameter, coated on the inside with a colloidal solution containing one milligram of strong radium bromide, into a porcelain vessel containing a quantity of coconut charcoal. At the end of a week he found the charcoal strongly radio-active, discharging his electro-scope more rapidly than would a specimen of high grade pitch blende ore. He then spread a quantity of this charcoal over a key on an X-ray plate and obtained a strong picture of the key after an exposure of four days.

ROCKEFELLER ON RELIGION.

He Advocates Less Scripture and More
Practical Christianity.

Cleveland, Oct. 11.—John D. Rockefeller advocates less Scripture and more practical Christianity in a talk before the children of the Euclid Avenue Baptist Sunday school yesterday.

"When I was a lad of 19," he said, "we had two neighbors, both good men, but their methods of practicing Christianity were far apart. One would quote Scripture all day long, but he was a hard man to agree with. If he had preached less Scripture and given his men more nothing he would have done much more good."

"The other man," continued Mr. Rockefeller, "tried to live according to the Bible, but outside of the church was never heard to quote a line. His deeds spoke much louder than his words."
