ATROCIOUS FALSEHOODS EX-POSED.

WE have paid some attention to the antruthful and deceptive methods employed by certain individuals to gain gress "in behalf of the Association" an appropriation of \$80,000 for the beneft of "The Industrial Christian Home Association of Utah. Our readers will have observed that we have not opposed the establishment of any institution here for dependent "women States? and children," whether they are such as have "renounced polygamy" or not. But we have exposed the means by which funds have men drawn from the but we do not wish to enlarge upon public treasury for the purpose, and which was simply obtaining money the author or endorser of them was under false pretences.

In proof of the charge we have made we could cite from the Congressional distortion of the truth through the Record a great deal of evidence, but we do not wish to take up valuable space with a mass of abusive matter. However, there is a statement made truth, plainly told is the only present by Mrs. Angle F. Newman which ap- available antidote to the poison of pears in the Congressional Record of anti-"Mormon" falsehood. October 3d, and which we cannot pass by without special notice. It is as follows:

"On the second Monday in March I visited the penitentlary in Salt Lake City and addressed a great host of polygamous brethren. These men are mostly incarcerated for a term of six months, and therefore many such groups have come and gone since the famous Rudger Clawson case, of which John T. Caine had the temerity to de-clare before the committee, 'It was the last of which he had knowledge.'

'I found in one cell 10 by 13% without floor, six women, three of whom had babies under six months of age, who were incarcerated for "contempt of court" in refusing to acknowledge the paternity of their children. When I plead with them to answer the court and be released they said, 'if we do there are many wives and children to suffer the loss of a father.'

In another cell were two girls, one fourbeen, one sixteen, each married to her own father, both with babes, and yet polygamy is a lost art!"

The bare-faced and malicious falsehood of the last of these statements No such cases were ever known to the perintendent, in forwarding the intercourts of Utah. No such imprison-

shal's statement contradicts her's and his is taken from the record. But the third statement is a whole-cloth and wilful falsehood. If Mrs. In on the New York Control Contro number of the first general confer-ences of the Church were held and Joseph received a number of important revelations, was a one-and-a-half-story log heuse. It was torn down many years ago, but the size on which it stood is well known Newman was told this story by some we passed through one corner of the farm. Mr. Ford told us a number of malicious person, why did she not say interesting things in regard to the Smith family, but when he informed she was so informed? It is about a quarter of a mile north-west of a small cluster of houses (about six in number) locally known as Joliytown office in Pa'myra, 57 years ago. We found him living in a comfortable

frame house on Gates Street. He is a remarkably well-preserved man, 86 years old, and withal gentlemanly and intelligent. He seemed to take pleasure in relating to us the particua small cluster of houses (about six in number) locally known as Jollytown, named after a family by that name, which is mentioned in the early history of the Church. The village formerly called Fayette, about four miles east of West Fayette, is now generally known as Bearytown. We ex-amin the since the shock. Passengers give many different ac-counts of the PROBABLE CAUSE lars connected with the printing of the Book of Mormon. If such things had been facts they would have been telegraphed, with sensational exaggerations to every part of the United States, and would have appeared with flaring headlines in all the newspapers taking the press dispatches. It is simply an atroclous and wicked fabrication for the purpose of extorting money.

In order to obtain information from official quarters, a representative of the DESERET NEWS applied to Marshal Dyer, Warden Pratt and Mr. Doyle, one of the chief guards at the Penitentlary. Tney all declared the statement about the two girls incorrect, and without any foundation in fact.

Sitting on this holy and historica ground, the scene of some of the should be deeply impressed, and that we should give way to unusual and
