English Opinion Regarding Situation Not Much Influenced by Reassuring Dispatches.

BIG BATTLE IS YET TO COME.

Decisive Engagement to be Fought-Praise for Kuropatkin's Masterly Retreat.

Lordon, Sept. 7 .- English opinion regarding the situation in the far east is not much influenced by Gen, Kuropatkin's reassuring dispatches. Almost all of the difficulties of the retreat reported in the latest Russian dispatches have been foreseen by the English military observers, and indeed the Russian confidence, following so closely the period of what was regarded here as exaggerated depression combined with complete Japanese silence regarding the pursuit, leads the Daily Graphic to believe that the Japanese generals have not yet given up all hopes of infleting a crushing blow on the Russian

BATTLE STILL TO COME.

The Daily Mail's Mukden correspondent wiring under date of Sept. 5, appears impartially to sum up the situation, saying that the "relative positions of the opposing forces are just the same The enemy is advancing from the south, and threatening the Russians at the same time from the east, but the decisive battle is still to come,"

The Standard, which comments upon what it terms St. Petersburg's "attack of nerves," and its not altogether surprising readiness to believe anything. however disastrous, thinks that if the Russians can get to Harbin, there will be a long pause in the war. The same paper has no doubt that the Japanese will follow their enemy there, as they did to Liao Yang, but it does not think that the pursuit can be carried out as far as Harbin until after the winter

KUROPATKIN WON THE RACE.

"Kuropatkin has won the race," says the Daily Telegraph, "and saved the greater part of his army by one of the masterly retreats of military history. Few things in the record of war have been finer thanthe energy and determin-ation with which the ezar's commander-in-chief prevented the victors from converting a defeat into a catastrophe and the result will have the most far reaching influence upon the whole fusolid staying powers of Ivan Ivano-vitch, the tactics which saved the situation after Liao Yang and again at Yental, saved it outer more at the Hun river and protected the crossing of the bulk of the forces."

SUFFICIENT TO SAVE DAY. At what cost this was accomplished

and whether the Japanese have been 'ret wholly thwarted of their prey." the Daily Telegraph says will not be known for some days, but, assuming that Kuropatkin had 190,000 men at Liao Yang the paper says he will be comparatively fortunate if he leads 170 000 men to Tiebling or to Mukden, save prospects for the immediate fu-

JAPANESE TRIUMPH.

Though Kuropatkin's resource meets with such praise, the Daily Telegraph declares that the Japanese triumph from every point of view, is one of the most extraordinary features of arms wer performed by any people, and vinicutes the claim of the Japanese to be regarded as a great power treating on equal terms with the foremost of western states and counting with the Britsh empire and Russia as one of the three permanent decisive factors in the

TIMES HAS DOUBTS.

The Times doubts whether Kuropatkin has entirely extricated himself, es-pecially in view of the report that the Japanese are north of Yentai. It dismisses the suggestions of intervention as Laseless ground that the "unwayer. ing persistence of Russia and the exto which this war tas kindle i th devotion of the Japanese people results the idea that either is recent. 10,000 SICK JAPS.

Over Half that Number Suffering From Beri Beri.

London, Sept. 7 .- The Daily Mail's Newchwang Newchwang correspondent, cabling under date of Sept. 6, says: The Russians are relying mainly on Tiehling and are avoiding Mukden. Eight transports arrived here today with troops, which immediately took train for Liao Yang. The Russians have been partly intercepted between Liao Yang and Mukden."

BERI BERI RAGING.

The Chronicle's correspondent at Che Foo, telegraphing tonight, says that 10,000 Japanese sick or wounded are at Dalay: that over half of them are suffering from beri beri, and that they succumb rapidly.

HEAVY RICE CROP.

The Standard's correspondent at Tokio says that the unusually hot summer has resulted in the finest rice crop of recent years. The yield, he says, is estimated to exceed the normal by 20 per cent, and that the prospect of an abundant beyond abundant harvest, coupled with the victories in Manchurfa and the briskness of Japanese foreign trade, pro-duced a feeling of ease and prosperity throughout the country.

HOW HEALTH CAINED

The story of a great deal of the unhappiness of women is a story of lost health. Women wonder how it is that little by little the form loses plumpness, the cheeks grow hol-

low and sallow, and they feel tired and worn-out all the time. In a large proportion of cases when women are weak, run-down and falling off in flesh and looks, the root of the trouble can be traced to womanly diseases which under-mine the general health. The proof of this is that women who have been cured of painful womanly diseases by the use of Dr. Pierce's Favorite Prescription have recovered their general health,

gained in fiesh and in appearance.
Dr. Pierce's Favorite Prescription cures the womanly diseases which sap the general health. It establishes regularity, dries weakening drains, heals inflamma-tion and ulceration and cures female

weakness.

"I suffered for three years with ovarian trouble," writes Mrs. Anna Quinn (Treasurer trouble," writes Mrs. Anna Quinn (Treasurer Moman's Athletic Club), of 60: Sycamore St., Milwankee, Wis. "The treatment I took did not do me a particle of good, until a good neighbor who had been using Dr. Pierce's Favorite Prescription advised me to give it a trial. The next day took my first dose, and it was my first step toward recovery. In nine weeks I was a different woman: my fiesh which had been flabby became firm, complexion clear and my cyes bright. It was simply an indication of the great change within from pain and suffering to health and happiness."

Scattle, Sept. 6 .- Charles Anderson, a laborer of this city, was shot and per-haps fatally injured by City Detective Lane last night:

Bad Money in Montana.

Missoula, Mont., Sept. 6 .- J. T. Daly was arrested near Iron mountain yesterday at the instance of the Salmon ity, Ida, authorities on the charge of burgiary. An examination of Daly's camping outfit, which was found near Iron mountain, disclosed a quantity of unterfeit silver dollars crude appliances with which the spuri-ous coins might have been made. One hundred and fifty of these coins were found, and but for a perceptible lightness, are exceptionally good counter-feits. Daly will be held here for ap-pearance before the United States courts, although the Idaho sheriff is en route to take him back to Salmon City.

NEXT BATTLE AT HARBIN. Not Thought This Will Occur Until Next Spring.

Paris, Sept. 6.-An official of the Japa anese legation today says he expected the battle deciding the future of Manchuria will occur at Harbin as Gen. Kuropatkin's flight had been too hurted to permit him to entrench at Mukden. Owing to the distance of Harbin from Mukden, about 2% miles, and the approach of winter, the battle, the offi-cial said, probably will not occur before

spring.
In the meantime, if Russia desires peace she would be able to open nego-tiations, but the Japanese government would never make the first propositions is they are calculating that the war will last three years and are making

The Temps quotes an "eminent Russian," which is understood to mean the Russian Embassy here, as follows: "Russia will never make the first proposition for peace. Furthermore, she will entertain no proposition for intervention, even if it comes from the powers having the greatest sympathy for her and which she considers her friends. This is the unalterable determination of our Emperor and govern-

Russian Retreat Carried Out Under Very Heavy Pressure.

Mukden, Sept. 6.—A Russian correspondent of the Associated Press supplies the following: "Our retreat is being carried out under heavy pressure and with the Jap-anese on our heets. The task is addi-

hands of the Japanese. The number of lives sacrificed and the loss of supplies by burning, bridges being blown up, etc., can only be ex-

St. Petersburg, Sept. 6 .- The report that Senator Platonoff, a member of the council of the empire, had been appointed minister of the interior and chief of the department of police in succession to the late M. The Associated Press is assured that Senator Platonoff is not considered a likely He is an estimable funclonary and a member of the council of the empire, but he is looked upon as hardly the man to take charge of the ministry of the interior.

VLADIVOSTOK NEXT.

After Port Arthur Northern Port Will Receive Attention.

Washington, Sept. 6 .- The navy department has received a cablegram from Lieut. N. A. McCully dated at Mukden, saying that he is leaving there immediately for Vladivostok. Lieut. McCully has been at Port Arthur almost constantly since the outbreak of the war. That he is going to Vladivostok leads to the supposition here that he expects the Japanese to turn their attention to that port in the event of the fall of Port Arthur.
