The union of the great leaders who tonight are address-ing the people from the same platform in Madison Square Garden, the earnest support of Tammany Hall, and an aroused Democracy throughout the State is sufficient to accomplish it. And if the thirty-six electoral votes of New York are all that shall be wanted to secure the election of the Democratic nomines, then W. J. Bryan is the next

"That was greater than all this glory -- to be free! And so I say with reference to this policy of imperialism proposed to us in the event of Republican success. Better than your wars of conquest; better than ruling over subjugated peoples; betteer than enlarged armies and navies; better than the spirit and pride which comes of being accounted a world power—better, far better is it for us to be ambitious of being a just nation, true to those principles of government made sacred to us ples of government made sacred to us by the sacrifices of the fathers, and time-honored through more than a cenfairs of government in our nation. In every land and clime our Constitution has stood a star of hope to those who would flee from the woes of despotism. Shall we resign this proud station of honor? Destroy the force of the object lesson our example constitutes? Shall we by proving recreant to our own principles and traditions, and adopting the imperialistic tendencies and policies now ten-tendered us by the Republican party allow free government to perish from

J. Bryan and the Democratic party, for this is the issue—aye, the paramount is-sue—in this campaign."

it is Medicine. Peter Knox, a carpenter employed in the freight department of the Rio Grande Western company, took a drink of concentrated lye early yesterday morning, and is now lying in St. Mark's hospital, his life having been saved by very narrow margin. Knox is not married, and lives with his mother at began complaining of trouble with his lungs, Dr. Bascom waited upon him and prescribed for him. He left some mediine which was placed on a shelf in the upboard close to a can of lye. About o'clock Sunday morning he arose and went to the cupboard to get the medicine, but took the lye by mistake swallowed a large quantity of it before he realized what he was drinking. His cries of agony were terrible, and in or-der to get him under medical treatment as soon as possible his mother and sister sent for the patrol wagon and he was taken to the pelice station. He had been somewhat delirious for several days past and was haunted with the idea that there were some men who were seeking his life. Drs. Bascom and Ben-
