

PENROSE TO BE COURT-MARTIALED

For Failing to Prevent and Suppress the Riot at Brownsville, Texas, Last August.

ALSO CAPT. E. A. MACKLIN.

Will be Done on Recommendation of The General Staff—Case is That Of the Negro Troops.

Washington, Dec. 14.—On the recommendation of the general staff, the secretary of war has ordered the trial by court-martial of Maj. Charles W. Penrose and Capt. Edgar A. Macklin of company C, First battalion, Twenty-fifth Infantry, under the sixty-second article of war, for "conduct to the prejudice of good order and discipline," in failing in their duties in preventing and suppressing the riot at Brownsville, Tex., last August.

The specifications will include among other things the charge that the two officers named failed to exercise due diligence in preventing the occurrence when the condition of affairs at Brownsville made it necessary that all proper caution should be taken to prevent a clash between the troops and civilians; and also, that they did not examine the rifles of the men until daylight, although they learned of the true state of affairs by 1 or 2 o'clock in the morning.

The details as to the membership of the court and the place where the trial will be had have been left to the discretion of the commanding officer of the department of Texas.

PENROSE IS SURPRISED.

Oklahoma City, Okla., Dec. 14.—Maj. Charles W. Penrose, whose trial by court-martial was ordered today, received the first news of the order when the Associated Press dispatch from Washington was read to him over the telephone to Fort Reno tonight. When he would not discuss the order, it was evident that he was very much surprised. His quick reply, "Does that mean the action was taken on the recommendation of the general staff?"

Capt. Macklin also is at Fort Reno.

TO STUDY CORPORATIONS.

National Civic Federation Will Name Commission to Look Into Them.

New York, Dec. 14.—The industrial economic committee of the National Civic Federation today decided to name two commissions, composed of leading men from the various states, for the study of corporations and the income tax.

Prof. Edmund R. A. Seligman of the chair of political economy of Columbia university, it was announced, will head the tax commission. The other will be a number of tax commissioners, selected, one at least, from each of the different states that have such officers. It is expected that the commission will not make a report of its investigations for several months, and possibly not until the next annual meeting of the National Civic Federation.

Announcement was made as to the personnel of the corporations committee.

ADMIRAL MASON WOULD BUILD AMMUNITION VESSELS

Washington, Dec. 14.—Declaring that in the design of vessels of the battle fleet, the space and weight assigned to ammunition has been so restricted that the conditions of battle, would be expended in less than an hour, Rear Admiral Mason, chief of the bureau of ordnance, in his annual report urges the building of two vessels of considerable size, one on the Atlantic and one on the Pacific coast, devoted exclusively to the carriage of ammunition, and he states that ultimately there should be one of these vessels with each fleet.

The lessons drawn from the war with Spain, Admiral Mason says, lead him to also recommend the equipping of auxiliary vessels for use as a machine shop and store vessel with the fleet.

In explaining his estimates for a considerably increased appropriation for target practice, Admiral Mason calls attention to the fact that he anticipates there will be in full or partial commission during the fiscal year 1908, 24 battleships, 12 first class cruisers, 60 second and third rate cruisers, 40 torpedo boats and 15 auxiliaries, making a total of 177 vessels. This, he says, represents an increase of 38 vessels over the present fleet year.

Special attention is called to the batteries of the Iowa, Brooklyn and other vessels. Admiral Mason says that unless they are equipped with modern guns, mounts and sights they can no longer be considered efficient vessels and it for service.

On the subject of armor, it is stated that the standard of quality required by the bureau is still met in a most satisfactory manner, while experiments with high explosives such as bursting charges for ramming, have progressed in enough to justify the expectation that such an explosive can be adopted in the near future.

SENATOR SMOOT WILL SPEAK IN HIS OWN BEHALF

(Special to the "News.")

Washington, D. C., Dec. 14.—Senator Smoot's case will probably not again come up in the senate until after the holiday recess. The senator himself, who remains here during the recess, will address the senate in his own behalf. Many senators have expressed a desire to hear him, and in consequence he has determined to speak in support of the contention that he is entitled to continue to occupy his seat in the senate.

BRITISH AMBASSADOR.

There is Probability That James Bryce Will Be Appointed.

London, Dec. 14.—Parliamentary circles here show much interest in the prospect of James Bryce's appointment to the ambassadorship at Washington and some of the Irish members asked the chief secretary for Ireland if they might congratulate him. Mr. Bryce did not deny the report, but merely replied, "You must not believe everything you hear."

Should Mr. Bryce go to Washington it is by no means certain that Winston Spencer Churchill, now under secretary for the colonies, will take his place in the cabinet as has been suggested.

Mr. Thomas Shaw, the Lord Advocate for Scotland, a man of great ability, is said to be anxious to obtain the Irish chief secretaryship. The fact that filling the vacancy will involve a by-election, favors the appointment of Mr. Shaw, whose seat is safe, whereas Churchill's seat at Manchester is now regarded as being far from secure.

GREEN CONSOLIDATED COPPER CO. CONTROL.

New York, Dec. 14.—It was reported in Wall street today that control of the Green Consolidated Copper company has been purchased by interests representing the Butte Coalition company of Montana and that control of the Cananea Central another Green property, had been acquired by the Americanized Copper company. Formal announcement of these changes, it was said, probably will be made later.

PAWN SHOP ROBBED.

Omaha, Dec. 14.—Three men today entered the pawnshop of Joseph Bonenberg at 135 Douglas street, bound and gagged the proprietor, Mike Morrissey, a clerk and a customer named Frank Swan, and filling a suitcase with diamonds and jewelry escaped. As they went out of the alley, Samuel Gross, a fireman, tried to stop them and an exchange of shots followed. Later one of the robbers giving this name as Ed Elliott of Denver was captured by the police and part of the plunder recovered. The pawnbroker reports his loss at about \$3,000.

BURNHAM NOT SENTENCED.

New York, Dec. 14.—The imposition of sentence upon George Burnham, Jr., president of the Mutual Reserve Life insurance company, who was convicted of grand larceny of the company's funds a few days ago, was postponed today until Monday. Justice Greenbaum said he wanted to consider a legal question in the case before passing sentence.

LUTHER BEARSKIN.

Bannock Indian Who Killed Two People Captured.

Poncha, Colo., Dec. 14.—Luther Bearskin, the Bannock Indian who on Tuesday murdered Frank Ramsey and Mrs. Charles Ingram, two other Indians, on the morning of Dec. 10, was captured here, and escaped on horseback to the south, was captured at noon today at Malad by Town Marshal Henry W. Evans, and will be brought to this city tomorrow.

MOTORMAN FAINTED.

Car Jumped Track and Fourteen People Injured.

Los Angeles, Cal., Dec. 14.—According to the explanations of employees of the company, the street car accident on the Washington street division of the Los Angeles railway at Washington and Figueroa streets at midnight last night, in which a car jumped the track on a curve and turned completely over, injuring 14 out of 21 passengers, was the result of a peculiar cause. It is stated that Motorman Lamott suddenly fainted at the rear, and his body falling forward struck the controller and threw on full power just as the car reached the curve. The
