Governor Smith is expected there to-night.

WASHINGTON, D. C., 20.—Immigration into the U. S. shows a decrease of 86,000 for the year ending June 30, 1875, as compared with the year ending June 30, 1874.

CHICAGO, 21.—The Times this morning publishes reports as to the condition of the spring wheat crop in the northwest, comprising the States of Wisconsin, Minnesota, Nebraska, Iowa and the northern part of Illinois and Kansas, together with miscellaneous crop reports from other sections of the country. Wisconsin, Minnesota and Nebraska nearly all the reports agree that this will be a year of plenty. The wheat has mostly been cut and stacked, and the quantity is far above the average, the quality was never excelled, and there will be at least one-fourth more wheat exported from those States than in the previous year. From Iowa reports are not so encouraging, all the reports from Kansas are that a more bountiful harvest has never been garnered in that State than that of the present season. In Illinois but little spring wheat is grown, but from the reports it appears that there is no reason for complaint. Taken in the prospect is decidedly encouraging, and it is thought there will be wheat enough to supply the demand, and that the west will be able to supply the European markets with all that may be required.

The Times special from Augusta, Ga., says that peace is fully restored, and the trial of the prisoners begins next Monday. Letters received in the ringleader's house show that 2,000 stand of arms were shipped from South Carolina, and that money had been received from known sources. The negroes are now dispersed and are peacefully dispersing in every direction. 200 arrests have been made, and the Governor is reported, by an interviewer, as saying that if an insurrection be proven, the law will affix a death penalty should be enforced, and there will never be another like attempt in Georgia. All the facts show that the negroes in Briche, Wilkerson, Dodge, Jefferson, Lawrence, and Washington counties,

and in parts of Richmond, in which this city is situated, were to make some general movements in arms to-day, but not that they entertained the blood-thirsty purpose of the ringleaders, Morris and Harris. There is great excitement and alarm still among the negroes generally, at the display of military force by the whites. A number of ladies and children from the threatened district are here for safe keeping. The arrests in Johnson County developed the existence there of an armed and uniformed negro military company not before known to the citizens. All the prisoners agree that all the colored military companies but one in the counties named were under orders to move to-day. The State press seems dumfounded at the disturbance, and differs widely in opinion as to whether an insurrection was intended, but agree that the whole affair is a mystery.

CHICAGO, 21.—A postal correspondent, writing from St. Charles, Ill., in the vicinity of the Bellevue Asylum, says that Mrs. Lincoln is pronounced well enough to leave the Asylum and visit her sister, Mrs. Edwards, of Springfield; it is not likely that she will return to Bellevue, as there is some feeling evinced in the matter of her incarceration by friends who refused to believe her insane. A leading lady lawyer of Chicago has been with her much of late and, with the assistance of her legal husband, she will assist Mrs. Lincoln's restoration to the world. She is decidedly better, sleeps and eats well, and shows no tendency to any mania, but whether the cure is permanent or not, the test of active life and time will prove.

MEMPHIS, 21.—J. A. Schreiner, hospital steward at the jail, committed suicide this afternoon by taking strychnine; alleged infidelity of his wife was the cause assigned. About six o'clock the *City of Berlin* arrived inside Sandy Hook, and was greeted with salutes from the reception committee's steamer and police boat, and national airs of America, Ireland and England from the bands on the waiting steamers. A procession of a dozen or more steamers moved slowly up the bay, the *City of Berlin* at the head, with whistles blowing, bands playing and cheers from the crowds on board the heavily loaded excursion boats, which formed part of the

escorting fleet. A salute of thirteen guns was fired from the U. S. Fort Tompkins, on Staten Island, in honor of the team as the vessels passed on. When the *City of Berlin* came to anchor, at quarantine, she was boarded by the reception committee, and the team were taken on board their vessel and brought to the city, the intervening time being passed in the exchange of congratulations, speech making and general hilarity. At the Battery a section of artillery belonging to the State militia fired a salute of forty guns while the team and escort disembarked.

READING, Pa., 21.—There was great excitement here at the funeral of Mrs. Bessinger and her three children, drowned on Tuesday last. It seems from the stories of the people that the woman had lived unhappily with her husband owing to the introduction by him of another woman into the house, and this unhappiness resulted in a quarrel on Monday, when the husband ordered his wife to leave the house and to take the two girls with her while he would retain the boy. Next day she went to the canal with the children and after filling a basket with stones, in which operation the children assisted, she bound the basket securely to her body and taking the three children in her arms leaped into the canal and all were drowned. As soon as the bodies were recovered and taken to her former home, the police had to guard the house to keep the husband from assault, and at the funeral procession, to-day, which included about one thousand people on foot, they surrounded his carriage, and when the bodies were lowered into the graves the people hooted Bessinger, and made a rush for him. In the confusion one shot was fired, when the police hurried and placed him in a carriage and drove off, receiving on passing the cemetery gates another shot, which it is thought struck him, as he was carried into the house. The police are still on guard, and the people, including many women, continue their threats.

The *Mark Lane Express* in its review of the crops for the past week, says—"The unsettled weather has been very unfavorable for harvest work, which is everywhere delayed, and the high temperature has put the wheat in some danger of sprouting, and while its condition must necessarily be unsatisfactory, the London market, from constant arrivals of foreign grain, has not shown activity or a tendency upward. The Paris market has felt some reaction and the rates have given way one shilling to one shilling and sixpence per quarter. It seems confirmed there, as well as here, that neither samples nor quantity will come up to last year's, while the condition is greatly jeopardized where the gatherings are not complete. In Austria and Hungary the same sort of a result is looked upon as certain, and northern Europe has had much the same sort of weather, therefore the samples must partially be affected. Russia reports a very unequal growth, being most affected by a very early drouth, the damage from which subsequent rains could not repair. Belgium and Holland have been much interfered with in their harvests, and the spread of the potato disease is no longer doubtful.

The *Alberta* rode completely over her, losing her own bowsprit and cut water. It is impossible to describe the scene on board the vessels. The Queen, who witnessed the collision from the deck of the *Alberta*, was deeply agitated, wringing her hands and in dreadful suspense. Every effort is said to have been made to save the party on the *Mistletoe*, which was rapidly sinking. Several of the rescued were severely injured.
