

COLLEGE YOUTHS IN TRACK SPORTS

Logan City to Entertain Enthusiasts From Many Neighboring Towns.

SPECIAL SALT LAKE TRAIN.

It Will Leave Here at 8:30 O'clock, Carrying 200 University Students and Athletes.

UTAH'S BEST TRACK RECORDS

When the youngsters of the Agricultural college clash with the youngsters of the university in track and field sports tomorrow, both sides will hurl their physical strength against players who are visible only in the record of their accomplishments. To pass the best mark ever previously made is the individual goal of each of the 25 contestants entered. Here are the records they will have to exceed to win this honor:

100-yard dash—Horace Whitney, U. of U., '04; 10 seconds.
220-yard dash—Horace Whitney, U. of U., '04; 22 seconds.
440-yard run—Val Rideout, U. of U., '04; 52.5 seconds.
Half mile run—Jack Hume, U. of U., '05; 2:05 3-5.
Mile run—James Wade, U. of U., '05; 4:39.
120-yard hurdles—Ben Roberts, '03; 17 seconds.
220-yard hurdles—Will Butler, U. of U., '05; 26.4-5 seconds.
Shot-put—Joe Smith, L. D. S. U., '04; 40 feet 4 inches.
Hammer throw—Fred Bennion, U. of U., '06; 136 feet 11 inches.
Pole vault—Morgan Adams, B. Y. U., '04; 11 feet 9 inches.
High jump—K. Stephenson, U. of U., '05; 5 feet 10 inches.
Broad jump—M. Swapp, U. of U., '05; 22 feet 1/2 inch.
Half mile relay—U. of U. team, Pitt, Moore, Whitney, Rideout, '04; 1:34.

A large assembly of college men, women and their friends will gather in Logan city tomorrow to witness the opening of spring athletics. Two contests between the Agricultural college and the university which form the day's center of interest are a baseball game at noon, and a track and field meet at 2 o'clock.

Interest and rivalry in both events are keen and the northern men hope to capture the ball game, if not the track meet. For the latter Coach Walker promises to spring some genuine surprises on Maddock and his men, and to keep them hurrying to the final event before the victory bird decides on whose banners to perch.

There will be many people besides the Logans in the north tomorrow. Special excursions will run from all surrounding towns, and from Brigham City and Ogden. A special train leaving Salt Lake at 8:30 o'clock will carry the university rooters and the track team, and it is thought that they will take 200 people or more. Coach Maddock and the baseball team left yesterday for the north, and the track team will go under the charge of Asst. Manager Moore.

Mr. Moore stated this morning that the team was in good shape to perform its normal work with the exception of Conville, who is hopelessly out of it, through a bad finger. It was hurt in baseball practice and it may keep him out of events during the entire spring.

The men who will make the trip are Richardson, Ferguson, Brinton, Gutting, Carlick, Carmichael, Jessup, Judd, Alley, Anderson, Nelson, Hunt, Young and Russell. For the sprint events Richardson, Ferguson and Brinton will be depended upon; for the middle distances, Bailey, Jack Brinton and Ferguson; for the mile run, Alley, Judd and Bailey; and for the field events, Russell and Anderson for the pole vault; Nelson, Carlick, Hunt and Anderson for the jumps; and Richardson, Young and Russell for the weights.

Gutting, Carlick, Carmichael, Jessup, Alley and Richardson are new men this year who have given exceptional promise. One remarkable feature of the meet is that in no event the holder of a state record is entered, and this is the first time for several years such a condition has occurred.

Nasal Catarrh, an inflammation of the delicate membrane lining the air-passages, is not cured by any mixtures taken into the stomach. Don't waste time on them. Take Ely's Cream Balm through the nostrils, so that the feverish, swollen tissues are reached at once. Never mind how long you have suffered nor how often you have been disappointed, we know Ely's Cream Balm is the remedy you should use. All druggists, 50c. Mailed by Ely Bros., 55 Warren Street, New York.

NEW ENLISTMENT FORM.

National Guardsmen Must Hereafter Show Their Fitness for Membership.

To protect members of the National Guard in all ways is the announced policy of the administration officers of the organization. This policy includes the enlistment of men who are fit for such service as may be required of the state's citizen soldiers to the exclusion of all others. It means also that those who are already members of the organization will be protected in matters pertaining to their health and association with it persons. To further this policy, the first step has been the adoption of a new form of enlistment blank and combined description of the recruit.

This blank is a decided departure, providing for a statement of the applicant and present, his standing in the community in which he lives, his status as a citizen with regard to his criminal record or lack of it, the first acting as a bar to enlistment.

Following the filing of an application for enlistment, the recruit will be required to present himself before an examining surgeon of the medical department of the National Guard. The surgeon's report on the examination of the recruit must show a satisfactory condition before the recruit will be accepted in the following particulars: Weight, height, vision, hearing, chest measurement, general condition of chest, abdomen and extremities, various organs of the body, nose and throat and teeth.

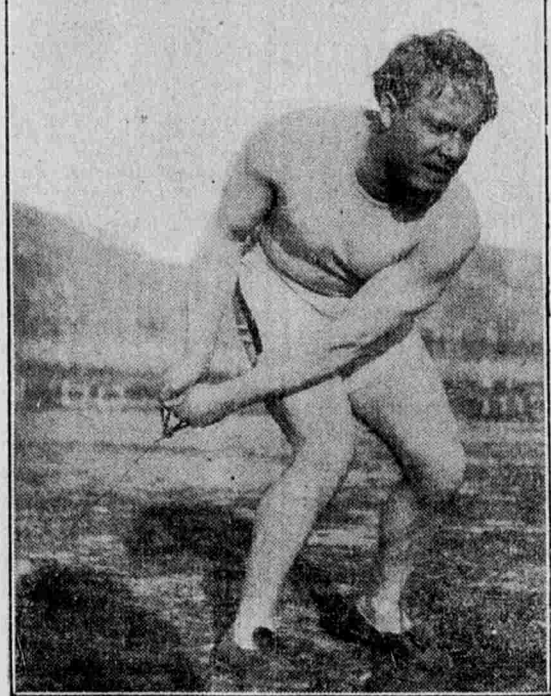

BUMP CHIEF PITT ON REFORM WORK

When He Tries to Show Contempt For His Orders He Is Overridden.

BEFORE LICENSE COMMITTEE

Police Head Recommended Licenses Not Issue for Stated Reasons, but His Word Went for Naught.

The contempt of the license committee for Chief of Police Tom Pitt was shown at a meeting of the committee last night, when three recommendations of the chief of police in regard to allowing liquor licenses were turned down. The chief had recommended that the license of the Heidelberg saloon in Third South be held up for the reason that the proprietor of the place had put in the doors to his upstairs side rooms after taking them out by order of the police department. The owner of the place said others were violating the rule, and he did not see why he should

RUSSELL AT THE HAMMER.

This Spring's Meets Conclude His Long Record of Athletic Activities.

WOOL GROWERS SAY NO

Are Positive That No One is Selling at Anything Like Ten Cents Per Pound.

E. H. Callister, president of the Utah Woolgrowers' association, doubts the truthfulness of the story that five cars of Utah county wool have been bought by Marcus Harris of the B. Harris company, Boston, at prices ranging from 10 to 12 cents per pound. Mr. Callister says he is as certain that no Utah woolgrower is selling at the prices named, as he is that the sun rises in the east. "I have talked with Mr. Austin and others and they do not know that a pound of wool has been bought or sold in Utah county or any county in this state, for that matter, let alone at the ridiculous prices mentioned. Why 13 cents has been offered right along; why, then, should buyers let buyers grab it for 10 cents? Woolgrowers of this state have got together to get a decent price for their products and if anyone not affiliated with the Utah association or sub-associations, sell it would be known in their localities, for every locality has an organization."

Mr. Callister is not alone in this position as woolgrowers living in this city say they do not believe for an instant that wool has been sold in this state for 10 cents. They brand such a statement as ridiculous. When it is explained to them that Mr. Harris has papers to prove the veracity of his statements the woolgrowers become not one whit less positive. All are most positive in their assertions that every wool raiser of importance is in sympathy with the movement to hold out for better prices, and if there is anyone selling this would be known.

The Drink Question

is by no means confined to the excessive use of alcoholic stimulants.

The amount of coffee containing a poisonous alkaloid—caffeine—which is consumed in this country, is said to be over ten million bags a year.

And there's more "nervous prostration" in America than anywhere on the globe.

If you really want strong nerves and a clear brain, stop coffee and use the wholesome cereal beverage,

POSTUM

It is made from wheat, including the vital phosphates from the grain, placed there by nature for rebuilding brain and nerve cells.

AFTERMATH OF AUDITORS

Now the City Hires a \$100 Expert Accountant to Untangle and Explain Their Work.

The latest evidence of the value of the work of the "220,000 beauties," as the special auditors were dubbed by ex-Councilman Mulvey, is the request sent to the council by City Auditor Rudolph Alf. In addition to the straining out of a \$5,000 job, which was to have been completed in three months, to a \$20,000 piece of work requiring a year, and which is not yet complete, it now becomes necessary to employ an expert accountant in the office of the city recorder in order to explain what the system established by the special auditors means.

The request from Mr. Alf was received by the council at its regular meeting last Monday evening, and asked for a special man at \$100 per month to assist in the work of the office. This was granted by the council, and the time set for his retention in office at 90 days. The matter went up to the mayor, and he could not see the point, and rumors were afloat that the city executive would put his foot down on this additional expense, to that into which the municipality has already been plunged on account of the "special auditors."

But it is not to be. The auditor has seen the mayor and "shown" him. The special man is necessary. The request will be complied with, and it is good bye to another \$300, for the joy of having the "special system" untangled.

AMUSEMENTS.

Theater—A night of unbounded hilarity is what Francis Wilson and his excellent company of players provided in their new comedy, "When Knights Were Bold." Holy week is proverbially the worst theatrical period of the year, and many companies suspend operations altogether during that time, hence it surprised no one to see only a moderate turnout last night. Mr. Wilson himself appreciated it, and in one of his delicious curtain speeches, which the audience insisted on demanding he modestly said that in view of the penitential season, he was surprised and pleased to see so many men present.

The story of the play is a most amusing conceit. It tells the dream of a young English lord living in the present century, who is so haunted and harried by his relatives on the necessity of living up to the family glory and modeling his life on that of the "days of old" when knights were bold, that he dreams he is transplanted into the days of Richard the First, and an entire act is given up to the Twentieth century Englishman, mingling with men and women 700 years prior. The complications and the episodes that arise are of the most side splitting character, and it is needless to say that Mr. Wilson was

WHAT CAUSES HEADACHE

From October to May, Colds are the most frequent cause of headache. LAXATIVE BROMO QUININE removes cause. E. W. Grove on box 25.

LEAVES FAMILY OF ORPHANS.

While in a state of despondency, Axel Hulgren, a Murray machinist, committed suicide last night by swallowing carbolic acid. The deceased leaves three small parentless children, the mother having died a year ago from consumption. Since that time the little ones have had no care, except that bestowed upon them by their father. It is thought that Hulgren's mind was affected when he took his own life.

Dr. Price's Wheat Flake Celery Food

Is a scientific combination of wheat and celery, which are among the most healthful of all growths of the vegetable kingdom, a fact which will make it the leading breakfast food of the world. Try this delicious food; it will satisfy any taste and prove conducive to good health.

tor of "heavies," and the other artists, filled in the picture most capably. The scenery and the oldtime costumes were objects of decided interest, while the music and general mountings were of the best. The bill will run out the week, and it ought to do handsome business.

Mr. Wilson is accompanied to Salt Lake by his wife, and both are being entertained by a number of old friends whom they made a dozen years ago. They dine this evening with Mr. and Mrs. C. S. Burton, whom they entertained at their home in New Rochelle, New York, when the Burtons were on their wedding tour, 15 years ago.

The advance sale is now going on at the Theater for James J. Corbett's engagement, which opens Monday in "The Burglar and the Lady."

Orpheum—last night saw another big house at the Orpheum, and this evening being "Society" night, still another great turnout is assured.

Grand—Mr. Lorch expects to move to duplicate this week's success in his new production entitled, "A Factory Girl," which he will bring out next week.

Lyric—A Night in Morocco is in its closing performances and the Zina management expect the good business of the week to continue.

PROMINENT ODD FELLOW ILL.

Word has been received in Salt Lake of the serious, and perhaps fatal illness of W. W. Thompson of Eureka, at Muscatine, Iowa. It is not known by his friends in Utah how he comes to be in the Iowa city, unless it happened

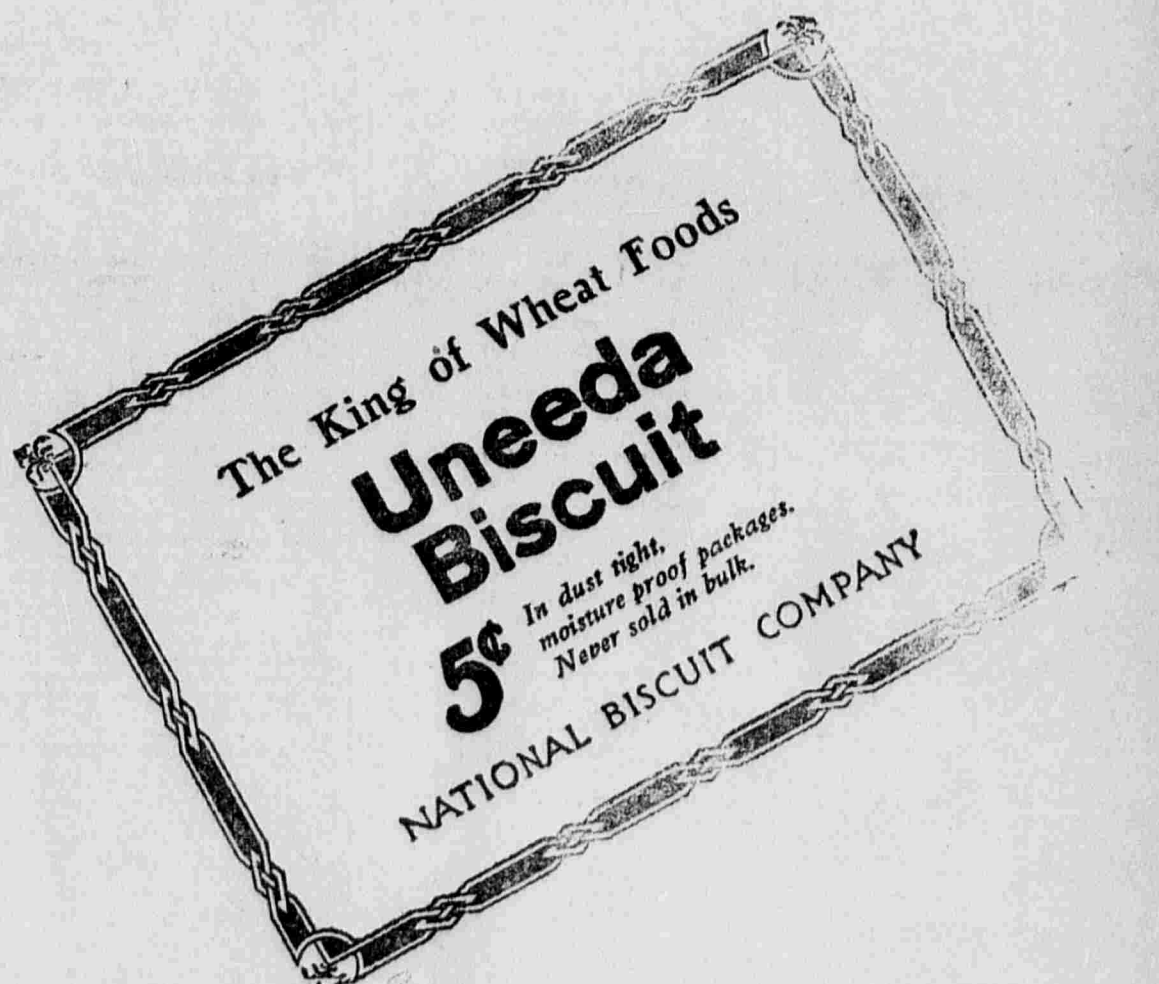

that he was stricken while on his way west by a rather circuitous route. Mr. Thompson is grand master-elect of the Utah Odd Fellows, having been elected to that position after leaving here temporarily to regain his health in the Lone Star State. He is 32 years of age, and has a wife and one child. Tuberculosis is the ailment from which Mr. Thompson is suffering.

TRIED TO STEAL STEEL.

A daring attempt to steal 500 pounds of steel bars belonging to the city was made yesterday afternoon by two men. The steel was stored by the engineering department in a vacant lot at Fourth South street between State and Second East streets. The men drove to the place in a wagon and were loading the steel when some one questioned them. They declared they had been sent for the bars, but said they would go to the joint building and get an order. As they neared the building the men ran and have not been seen since.

STRIKERS DISMISSED.

G. J. McElroy, former foreman in the Rio Grande shops and C. J. McNulty, foreman of the Helper shops, were on trial before Justice Blinn yesterday for alleged participation in a street fight which happened March 22. The brawl came when a number of strikers and strike-breakers met on the corner of Second South and West Joseph street. The two men named were dismissed as no case was made against them and this caused no end of indignation among the ranks of the strikers who contend that the charges were brought against McNulty and McElroy to cast unmerited disgrace upon strikers.

Two Days off and my store teeming with

Good Clothes

THAT is a combination which insures good business. I've made a good many friends in the years I've been in business here. Possibly I should say that my clothes have made them, for while personality may have something to do with it, I know that my good clothes must stand the test which men put them to, or business friends would not stand by me long.

My clothes this year will make more friends than ever, I think, for they are even better than heretofore. Stylish in cut and cloth and prices, as always, are shaded just a little lower than most dealers sell for—

\$15.00 to \$40.00
