BOOK BINDING AND PAPER RULING
GEORGE Q. CANNON,
EDITOR & PUBLISHER.

OUR SUBSCRIBERS in the country can
at any time ascertain the date on which
any paper was published by referring to the man-
ners attached to the name of their paper
1-4-3 means first day, 1-2-3 means second day,
1-4-3 means third day, 1-2-3 means fourth day,
or April 1st, 1872, 1-2-3 means July 14,
1872, &c., &c.

Those names having no numbers close with
the end of the volume.

Subscribers understanding this will be able
to renew their subscriptions prior to the time
of expiration so that their papers may con-
tinue without interruption.

[SPECIAL TO THE DESERET NEWS.]

By Telegraph.

PER WESTERN UNION TELEGRAPH LINE

EASTERN DISPATCHES.

NEW YORK.—It is expected, to-day,
that Jay Gould will be re-arrested at
the suit of the Erie directors, but no
movement has yet transpired.

Judge Faunce to-day issued an
order to the Erie company, on applica-
tion of F. G. Sherman, to show cause
why the order of arrest against Gould
should not be suspended. An order was
also granted to take the depositions of
Horace F. Clark, to be used in motion.

Gould has made an affidavit denying, in
general terms, the allegations of Watson's
and Smith's affidavit, stating that, as far as
all matters of fact in Watson's affidavit
are concerned, they were liable to appear
in a false light by the suppression of other
facts, which must be known to Henry N.
Smith, from whom Watson obtained all his information; that Watson
knew the Erie R. R. had granted him a release at the meeting at which
neither deponents nor Fisk were pre-
sent, and purposely suppressed the
fact, and, probably, to recite the
fact that at the time of the meeting, he
was actively engaged in buying the
north western stocks, while Watson
and Smith were on the other side, and
deposited to the belief that the action was
commenced against him in hope that
he would be unable to procure the ex-
terior ball vote, and would be thus
kept from carrying on his operations
and hoping thereby to produce a panic.

The *Examiner*, this evening, says the
club rooms are full of gossip about Mr.
Greeley's loss of reason from a paralytic
attack, and seeking an asylum at
Bloomington, etc., and says we dis-
cover that all and hope soon to see
him restored to health. Sinclair, pub-
lisher of the *Transcript*, stated to the *Express*
reporter to-day, that Greeley's
mind was not seriously affected, and
that he was suffering only from nervous
prostration. Another interviewee ob-
tained from the office the statement
that they knew nothing of Greeley's
insanity, or of being placed in an
asylum. He had been moderately depressed
for some days, and was greatly prostrated,
but when last heard from, he
had sufficiently recovered to be able to
eat regularly, and converse with his
friends. Greeley is in need of rest and
seclusion from the annoyance of visit-
ors on account of his infirmities.

Judge Gilbert, of Brooklyn, has de-
nied the motion for a stay of proceedings
in the case of Henry Rogers, sentenced
to be hanged for the murder of
officer Donohue.

The Methodist preachers meet-
ing to-day proposed that the pray-ter test of
Professor Tyndall be discontinued and the
decision reached was that the test was
impossible.

A public reception and a quiet will
be given to Minister Washburne, by
the Union League club, December 4th,
prior to his return to Paris. Invita-
tions have been sent to the President
and Cabinet, the diplomatic corps, the
governors of the neighboring states, and
other distinguished persons. The
President has signified his intention of
being present, as also Governor Jewell,
the staff of Generals Sherman and Mc-
Dowell, and the staff of other eminent
military men.

The counsel of the bondsmen of the
abstaining revenue collector Bailey,
against whom a trial was set for to-
day, has been adjourned to December 1st,
some time ago, to-day moved to open
the judgment. Judgment was reserved.

If the judgment is opened the bondsmen
will make the defense that the
government failed to use proper dil-
igence to prevent Commissioner Baile-
y's arrest, and to obtain his arrest,
and the attorney of his party as
soon as grounds of suspicion were
shown.

The anniversary of secession day
was celebrated to-day by a parade of
the veterans of 1812, a banquet, etc.

A Washington special says the British
forces have withdrawn from San
Juan in accordance with the Berlin de-
claration.

Walter S. Griffith, an old merchant,
and the second vice-president of the
Chamber of Commerce, died in Brook-
lyn to-day, aged 64 years.

BOSTON, 25.—The body found in the
ruins of the fire yesterday has been
identified as that of John Dillon, a res-
ident of South Boston. Another body
was found to-day, but it has not yet
been identified.

The collection of Franklin, Snowdon,
& Co., E. Snow & Sons, Gorham, &
& Co., and Hall, Merrill & Co., all fab-
ric dealers, is announced.

The revenue fraud case against Wm.
Wild & Co., is said to have been com-

promised by the defendant paying into
the United States Treasury four hun-
dred thousand. The amount originally
claimed by the government was one
million four hundred thousand. The
suit against the same firm in New
York has been compromised by the
payment of one hundred and twenty
thousand.

WASHINGTON, 25.—General Terry
will command of the Department of
Dakota, vacated by General Har-
cock.

An important recommendation con-
cerning the efficiency of the navy will
be made in the forthcoming report of
Secretary Robeson. It is believed that
more money is often spent to re-
pair old vessels, as authorized by Con-
gress, than would construct new ones
of greater strength and on an improved
model and appearance, as instanced in
the *Pensacola*, which cost \$25,000,
but her repairs more than twice as
much. Old vessels, including the
Guerrero, *Nevada*, *Texas*, and
California, to put them in thoroughly good
condition would require an amount far
exceeding their original cost, their timbers
being much decayed, having been
originally unseasoned white oak.

The opinion of naval officers is that there
should be least twenty good active
steam vessels always in condition for
immediate use. It is recommended
that the government send vessels
thither to protect American citizens,
it is stipulated to find a sufficient
number of steam vessels to send, and
only five ironclads could be spared, while
Spain at the same time had two
ty-three vessels in the Gulf in the vicinity
of Cuba. The Chief of the Bu-
reau of Construction and Repairs, it is
understood, recommends that compound
engines be placed on all our vessels,
both on account of economy of fuel and
increases of speed. It is stated that not
more than one-third of the ironclads can
be rendered useful for naval purposes,
therefore the movement will dispose
of the remainder of them. The twenty
light draught monitors, built during
the war, cost sixteen millions and never
fired a gun, and were never called into
service. A part of the secretary's
report will be delivered to the Senate
on the subject of reorganizing the navy, and
repeat the recommendations in his last
annual report, to supply the places of use
the vessels with good ones.

The President, to-day, in private con-
versation with a ship builder, said he
would, in his forthcoming message, recom-
mend to Congress to take action to
protect the commerce of the country to
the condition it was in before the late
civil war.

The President, to-day, in private con-
versation with a ship builder, said he
would, in his forthcoming message, recom-
mend to Congress to take action to
protect the commerce of the country to
the condition it was in before the late
civil war.

Furnished to the *Evening News*,
and received by the Bureau of Construction
and Repairs, and will pay the latter \$1,000.
