

NELSON TALKS OF FUTURE PLANS

Battler Combining Business With Pleasure—Interview in London.

HIS OPINION OF FIGHTERS.

Thinks Dabaz White is About as Good As Any of the English Boxers—Willing to Fight.

London, Jan. 28.—"I'm in this business to make money, and I intend to make it." This is the way Battler Nelson expressed himself when the question was put to him.

"Of course," he remarked, "I have obtained a great measure of success already, but I am not going to retire. I'm as good, if not better, than ever, and think myself capable of at least doubling my present assets."

Asked by the Press representative what plans were, Nelson replied that he meant to have "a jolly good time."

"I intend staying in England for at least a month," he continued, "and when I make up my mind to visit the continent I shall call home for my father. I have heard about good old England, and I shall be happy until I have seen the historic parts of Britain. After my tour round the famous parts of the British Isles I intend crossing to Denmark, where I hope to be accompanied by my father. We mean to do things in style, for I wish to let the people in my native country know that we have seen from quite a humble position to something of standing, that after visiting Copenhagen he intended touring Norway, Sweden, Japan, China, Australia, crossing the Pacific ocean to Hawaiian islands, and on to California.

"We have a lot of stuff with us," the boxer remarked, "and we mean to enjoy ourselves and at the same time transact some business."

Nelson is at a loss to understand why bigger purses should not be obtained in England than in America.

"Here in London, with all your 7,000,000 people, you don't care for them," he remarked. "We have not that number in all our states, and how we draw the enormous amount of over £13,000 at the little town of Goldfield, in Nevada, on the day of my fight with Gans, in September."

Producing a photograph of the fight, Nelson said: "Look at the crowd all round, and that will convince you of how the fight was supported." (Callow means the houses of the ladies present.)

"I understand," continued the Dane, "that you run big buildings, such as the Olympia, the Agricultural hall and so on; why can't you run big fights there? England is the home of boxing, and it only wants a little enterprise on the part of some Englishman to make the thing go."

Although not really on fighting business, Nelson is open to meet any boxer in the world at 5 stone 7 pounds. But he stipulates that the money must be paid in advance, and that he is capable of extending him. Nelson remarked: "No! I shall not go out of my house to meet any one. Many a champion has been tipped by giving away money, and that is just too much. Something tells me that Dabaz White, who is said to be the reason of his unsuccess, is the only man who has given weight to fight me at the prescribed weight. The Birmingham lad, who, by

It Costs Nothing

To find out for your health whether or not you have a weak heart; it costs nothing. If so, you should know it now, and save serious consequences. If you have shortness of breath, fluttering, palpitation, hungry spells, hot flushes; if you cannot lie on left side; if you have fainting or smothering spells, pain around heart, in side and arms, your heart is weak, and perhaps diseased. Dr. Miles' Heart Cure will relieve you. Try a bottle, and see how quickly your condition will improve.

"About a year ago I wrote to the Miles Medical Co., asking advice as to my heart trouble, and I had been for two years. I had pain in my heart, back and left side, and had been for two years. Any little exertion would cause palpitation, and I could not lie on my left side without suffering. They advised me to try Dr. Miles' Heart Cure and Nervine, which better health than I ever before had, having gained 14 pounds since I commenced. I took about 15 bottles of the two medicines, and I have been bothered with my heart since."

the way, I succeeded when he lost to Britt at San Francisco, in 1905. I was just his best, but had science and stamina equal to any lightweight I have seen."

It is interesting to hear the opinion of Nelson on the relative abilities of English and American boxers. Nelson is of opinion that England is as well, if not better, served than America in the boxing world. He regards Abe Attell as the greatest lad in the bantam class in America, and the man to oppose either Joe Barker or Owen Moran at 8 stone between Attell and Jimmy Welsh, Nelson said: "Attell displayed remarkable ability and Welsh, who had hitherto enjoyed a great reputation, was outclassed from the start."

Asked as to a parting shot, what he thought of Young Corbett and Terry McGovern, Nelson replied that he thought these men were "in."

BERT IS OUT.

San Francisco, Jan. 28.—J. Cal. Ewing today received a telegram from Eugene F. Bert, tendering his resignation as president of the Coast League. Mr. Ewing has been successful in his efforts to make for this reason wishes to sever his connection with the baseball organization.

tural College and the Brigham Young University. Each of these schools has some husky wrestlers, and it is thought a considerable interest can be worked up between them. It is contemplated holding the wrestling match in conjunction with the basketball team, shortly forthcoming. Among the strong men of the University are Barto, Russell, Bennion and Pome. Some of the A. C. U. huskies are Nelson, Hansen and Jameson, with the B. Y. U. Huskies, from whom we will be a real event in college sporting circles.

CURED LUMBAGO.

A. B. Cannon, Chicago, writes March 28, "Having been troubled with lumbago, at different times and tried on physician after another, then different treatments, and tonight I was cured. So I tried once more, and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can heartily recommend it, and will add my name to your list of sufferers." S. B. Cannon, Chicago, 112 and 114 South Main Street.

SOCIAL AND PERSONAL.

Social interest centers around the Hartman violin recital at the Congregational church tonight, a large number of well known people to attend in parties with dinners preceding.

Mrs. C. W. Mason entertained at a pleasant afternoon affair yesterday at the Post in honor of Miss Margaret Shearer.

Another delightful affair of yesterday was the luncheon given by Mrs. J. T. Massey at the Kenyon, covers being set for about a dozen friends and "909" being played afterwards in Mrs. Massey's apartments.

laquered goods, largely of children and women figures, pastoral scenes, and particularly flower and basket work with colored paper effects. These latter are very cute. They are of various forms and devices calculated to attract the attention, particularly of the young, and have had a great run. Much ingenuity and a great variety of talent is being displayed by manufacturers of these articles, and the water in securing bizarre and striking effects in calendars, and one thing I am glad to see, is the introduction of eastern millinery, camp, rance and prairie scenes. Such scenes will always take with western business houses especially. Yes, the season for 1908 has now actively begun, and calendar goods for the next year are being pushed."

FORTY-TWO CARS ARRIVE.

And Situation Relieved by the Arrival Of Some Consignments.

Forty-two cars of coal arrived yesterday, which greatly relieved the local stringency. The Central Coal & Coke company received 15 cars, the Martin Coal company, seven, the Kemmerer company, three, the Bamberger, 10 cars, and the Citizens' company, seven. The day's receipts amounted to 1,600 tons. With warm weather and sunshine now on, the outlook is more encouraging than it has been for some weeks. The receipts were divided among the various dealers, who delivered to their most needed customers. A. C. Ridgeway, general manager of the Rio Grande, is in this city looking after the movement of coal over the Rio Grande, and according to W. Derrah, assistant general freight agent of the R. G. W., 150 cars were brought in by this line yesterday. Of his amount, big portions were delivered to the Salt Lake Route and around the various consignees. All in all, the coal situation seems to be lifted, temporarily at least.

A HELPING HAND.

Is Gladly Extended to a Salt Lake City Citizen.

There are many enthusiastic citizens in Salt Lake City prepared to tell their experience for the public good. Testimony from such a source is the best evidence, and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. M. J. Stevens, of 1217 West Third South St., Salt Lake City, Utah, says: "I can safely say that kidney trouble had bothered me for thirty years and there were times when I could hardly keep up and about. Backache made life miserable for me and the kidney secretions were irregular and contained a sediment. I had headaches and dizzy spells and at times was unable to attend to the simplest household duties. At my time of life it seems wonderful that after using Doan's Kidney Pills, procured at the F. J. Hill Drug Co., a store I am feeling better than for years past. In fact, better than at any time since the trouble commenced. The action of the kidneys shows a great improvement and the backache is all gone. I trust that other sufferers will be led to discover how really wonderful Doan's Kidney Pills are."

Remember the name—Doan's—and take no other.
