ONE BIG REALTY DEAL.

'Nothing doing in realty," was the "Nothing doing in realty," was the statement of several real estate men this morning, "other than the deal of Fred Wey and James Breen of Mon-tana, with the Zion's Savings Bank & Trust company, for the Beck's Hot Aprings property of 100 acres, for \$60,-600." The property has been a golden opportunity for some investor with grit and cash to these many years, as the opportunity for some investor with grit and cash, lo these many years, as the hot sulphur springs there are peculiar-ly valuable in medicinal properties -just as good, if not better than the hots springs in Arkansaw. Three years ago there was a serious move made by Ohio capitalists to secure this property, hat they were frightened off by stories of the wonderful boring abilities of the countless swarms of mosquitoes said to infest the entire district there. But the discoveries of medical and sanitary sci-enc since that time have practically abated fears in that direction, for it is now known that mosquitoes can be ex-terminated by scientific methods. The new owners propose to erect a fine saniwaists, light silks, light suitings, in fact all washable goods. The call for mil-linery is gratifying to dealers, the de-mand running to the sailor styles and trimmed hats. The demand for light silken gloves continues strong, so that as soon as one lot of goods is disposed of, the trade is ready immediately for another consignment. Dealers say it is hard work to keen course sumplies ou new owners propose to erect a fine sani-tarium and bathing privileges there, and have the street car line extended, which will make the resort one easy of access.

#### THE BUILDING SITUATION.

Reports have gained circulation and credence that it is costing now 10 per cent less to build than it did 60 days ago, on account of alleged decrease in cost of material. This is warmly disage, on acterial. This is warmly dis-puted by dealers in such material. Building continues right along, though it is not as extended as was hoped for op account of prevailing high prices, and moderate homes continue to go up all over the residence quarters. There is a growing belief that by another year there will be a strong building movement along the entire north bench, up to the boulevard on Eleventh avenue. The air up there is so pure and the view so engaging, that each year this section of the city is regarded with more and more favor. There is no more complaint about shortages in brick, as the makers are able to fill or-ders without delay. In fact the brick making market is in a better condi-tion now for business than it has been for a long time.

ing trade. Buying of sheetings and drills continues, with an inclination on the part of merchants to disfavor ex-porting. Plece dyed flannelettes have advanced from ¼ to 1 cent yer pard, with printed varieties sold up tight for the coming year. Buyers are report-ed operating more freely on napped cloths than heretofore. The selling of fancies in white goods is going on more satisfactorily for spring, domes-tic lines in broached stripes and pop-lin effects being noticeable. Corded stripes of tape widths are being taken freely, also a line showing cross cords. Checks are being sought freely, as are dimities also. A setback for colored fabrics is reported, and until there has been a cleaning up of surplus retail stocks agents are not much encour-aged in pushing on new spring lines. Summer silks are moving freely, the warm weather creating a rush in all lines. naired hides. BANK CLEARINGS.

LUMBER PRICES STATIONARY.
The lumber market prices are remaining stationary where they have been for some time, notwithstanding morning paper reports to the contrary. There are a few shillings variation in wholesale prices now and then, either is does not cut any figure in retail prices. The shutting off of much was recently made in print, was only a transient affair, as the demand in California, of which so much was recently made in print. Was only a transient affair, as the demand that quarter is again as strong as it ever was for northern lumber. The situation here has been a little easier than it was, because of the temporary easing in the car shortage that has been severe in times past. But lumbermen observe with a sigh that the short order, with prospects of continuate for a car of lumber to reach swhere as it now requires from 30 to 40 days. One occasion of the delay is to send into the Hill railroad country for loading with lumber for delivery of harriman lines, for the Hill count of the Harriman lines, so the shippers will not send their cars onto the Harriman lines, so the shippers will not send their cars onto the Harriman lines, so the shippers will not send their cars onto the Harriman lines, so the shippers have a been better than for anumber of Junes; and dealers here a number of Junes; and dealers here any has been better than for anumber of Junes; and dealers here white sales. It is of interest to note the logging camps will be shut.

DEMAND FOR HARNESS GOOD.

The hardware trade reports general business as very astisfactory, with high prices. There is quite a demand for mantels and tilling just at present. The advent of settled weather has given an impetus to trade that promises well, if there is no further labor troubles to make afraid. The demand for har-nesses from outside contractors con-tinues heavy and encouraging. tinues heavy and encouraging.

#### DRY GOODS TRADE BRISK.

DRY GOODS TRADE BRISK. The wholesale dry goods market is devoid this week of any special fea-tures locally, as most of the summer goods have been closed out, and what market remains is of the light summer goods variety. This latter class of goods is still in good demand, and it will be several months before there is much of a demand for fall supplies. There is no lowering of prices, with prospects for advance along some lines. The old difficulty still exists in setting goods, as the manufacturers still tell the well worn tale of hard-ships in securing raw material and in holding on to their help. Jobbers re-

There is more Catarrh in this sec-tion of the country than all other dis-cuses put together, and until the last faw years was supposed to be incur-able. For a great many years doctors pronounced it a local discase and pre-scribed local remedies, and by constant-by failing to cure with local treatment, pronounced it incurable. #### LONG LIVE THE KING!

LONG LIVE THE KING! is the popular cry throughout Europ-ean countries; while in America, the cry of the present day is "Long live Dr. King's New Discovery. King of Throat and Lung Remedies!" of which Mrs. Julia Ryder Paine, Truro, Mass., says: "It never fails to give immedi-ate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhabitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed; and for coughs and colds it's the proven rem-edy. Guaranteed by Z. C. M. I.
