Radical Supporters Want Government To Prosecute Officers and High Functionaries Responsible.

Paris, July 13 .- This was the closing day of parliament and it was largely devoted to the rehabilitation of Alfred Dreyfus so that the national holiday tomorrow may witness his return, to the army and the official effacement of the stain of his good name. The chamber of deputies met at 9 in the morning for the purpose of hastening the proceedings and War Minister Etienne presented two government bills, one restoring Capt. Dreyfus to the rank of major of the artillery and the other promoting Col. Picquart to that of brigadier general. M. Etienne asked for speedy action, adding thtat it was the government's intention to inscribe Dreyfus' name on the list of candidates the cross of the legion of honor. This announcement brought out a storm of applause. The bills were referred to the army committee, which at ence went into session, approved them and drafted strong, fayorable reports which

Ill Feeling Between Dr. Ewell and Atty. Ferguson Intensified.

Pittsburg, July 13 .- Dr. Marshall D. Ewell, the Chicago handwriting expert, who testified yesterday that some of the letters in the Hartje divorce case were "fabricated," was on the witness stand the greater part of this morning and was severely cross-examined by Atty. J. Scott Ferguson, Hartje's coun-sel. The ill-feeling engendered between the two men yesterday was intensified

and they had many angry tilts. Dr. Ewell's attempts to be facetious at the expense of the attorney were frequent and Mr. Ferguson was obviously annoyed by them. Assi. Dist. Atiy. John S. Robb was again present during the taking of tes-timony. Mr. Robb said the hearing in the conspiracy charges against Augus-

Teheran, Persla, July 13 .-- There is a recrudesence of politcal unrest among the mullahs and divinity students which was noticed earlier in the year and it is creating great uneasiness in government circles. The divinty students broke out into active opposition to the authorities yesterday and forcibly released a professor who had been imprisoned on the charge of using seditious language. In an affray a student was killed and two were wounded. The heads of clergy immediately assembled in the great mosque and issued insistent demands for the imme-

diate granting of the reforms previous-ly promised in January. All the shops except the butchers and bakers are closed, the city is patrolled by troops and the grand vizler and other ministers who were in the country have hastily returned to their posts. Constant conferences of the authorities are taking place, but the

situation remains strained and nothing thus far has been done to satisfy the demands of the malcontents. According to dispatches from St. Petersburg Jan. 22, a movement was on foot in Persia to obtain a constitutional government. A thousand mer-chants and mullahs suddenly left Teheran, the capital, as a protest against the government of the shah and in a neighboring village took steps to es-

On Feb. 3 a dispatch from St. Petersburg suid the revolutionary upheaval in Persia was assuming a more acute character. Alexiadis, who is a powerful man, took his wife in his arms and leaped from the schooner before she sank. It was dusk when he started with his wife on a two-mile swim to a small island on the west coast of Cuba, The couple reached land in safety but were marconed for two days until a passing steamer sent out a boat and brought them to Havana. CASE HAS AN UGLY LOOK.

Undoubtedly it is Work of Fire-Bug Whose Identity is Not Officially Known.

Strange Story of a Threatening Letter, Startled Neighborhood and Mystery All Around.

At 2:25 this morning, a terrific explosion on Center and Fourth North streets awakened and startled residents of that section. Men and women rushed from their homes in their night clothes, thinking there had been an earthquake. They discovered that a butcher shop conducted by Seth Brown, was in flames, and that the windows in nearby houses were demolished by the force of the ex. plosion. ...

THREATENING LETTER.

Unquestionably, incendiarism was the cause of the fire and the subsequent explosion. The authorities are now making an investigation and some sensational disclosures are expected within a few hours. Threats were made against Brown that his place would be destroyed by fire. Yesterday Mr. Brown received a letter which stated that the writer "had it in" for Brown; that attempts had been made before to get even with him, and that within a few days the place would go up in smoke The letter concluded by saying: "I tried to get you before but falled. The next time I will get you, and get you good and plenty."

DIDN'T FEAR IT.

It is said Brown regarded the commu nication as but an idle threat worthy of no consideration whatever. Therefore, he did not notify the police or Chief Vail of the fire department. Had he done so, his place would probably not have been destroyed. But he said nothing, and the events which followed make it certain that his enemy carried out his threat and Brown's place of business is now little better than an

ash heap. The building was a one-story frame affair valued at \$1,000. The contents were placed at \$400. Insurance on build-

The alarm was turned in over the Bell 'phone at the time stated. Central

alarm was given by a woman who was

screaming frantically at the 'phone. The apparatus from No. 2 and Asst. Chief Crosby from No. 1 responded and made a quick run to the scene. But by

the time the firemen reached the place, it was practically gone and they turned their attention to saving other property.

The windows in nearby houses were broken and the roof and walls were

MRS. BROWN'S STORY,

Mrs. Seth Brown was very much wors

ried when she was interviewed by a "News" reporter at her home half a

block above the burned meat market or Fourth North street. She said that Mr

Brown had gone down to the Knight

Packing company to arrange about is new meat supply, and when asked

about the threatening letter, she said

that it was true that such a jetter had

been received, and showed clearly the nervous strain from living under the

fear of a constant threat hanging over the family. "This is the second attempt made to burn the shop down," said Mrs.

Brown. Six weeks ago someone tried it, and failed, and right after that trial the letter came. It was a very insult-ing letter, and told Mr. Brown the writ-

er would get him next fine. Mr. Brown took the letter to the insurance company who carried his insurance,

and he was worried a good deal about it. He kept a copy which he has with

him, and also gave a copy to the sheriff,
