GOOD ROADS ASSOCIATION.

At the annual meeting of the Good Roads Association of Weber county held at the Weber city last evening, officers for the ensuing year were elected and the reports of the various officers received and filed.

President Boxy in retiring told of the work of the association during the past year and made a number of recommendations. Judge Howell's resolution for the consideration by the association of the proposed bill to be presented to the legislature was adopted.

The following officers were elected: J. A. Howell, president; A. L. Brown, vice president; J. L. Reynolds, secretary; W. E. Porterfield and W. O. Wilson, directors.

SPORTSMEN MEET.

Fifty sportsmen of Weber county at a meeting held last evening decided to take steps toward the securing of better fish and game laws in this state.

A resolution was adopted protesting the establishing of fish ponds near the head of mountain streams where trout go in the spring and are prevented from returning to the main streams after spawning.

A. L. Brewer, Oscar Madison, Moroni Shaw, Fred Wilson, W. J. Anderson and George A. Brown were elected delegates to the State Fish and Game Association which meets in Salt Lake City, Jan. 21.

HELD FOR ROBBERY.

Upon the charge of robbery, the three proprietors of the Apex saloon were bound over to the district court under bonds of \$500 each by Judge Murphy yesterday afternoon. The defendants in the action are H. J. McGuire, B. E. Zimblet and J. H. Garrett.

The complaining witness in the case was Frank Goff, an old man, who charged that he was drugged, robbed and held a prisoner in the Apex saloon and a rooming house over the saloon. According to Goff's story and which was substantiated by several of the witnesses for the state, he had been when he went into the saloon about a week before Christmas, and after taking three drinks, remembered nothing until four days later when he came to, since then in bills for in gold and a \$25 watch.

The witnesses for the state yesterday afternoon were Bert Cady, "Slats" Roach and "Reddy" Collins, who carried Goff from a rooming house in the saloon, where he has been held a prisoner for two days, to a room over the saloon. Dr. Ketter and Belnap testified that they attended Goff. The case was taken by the state to the district court and the three defendants, which action will probably be taken by the police committee of the city council next Monday evening.

There are two other cases against the defendants which will probably be taken up next. The charges in both are held by the complaining witnesses to be true and the defendants deny them to keep and which was never returned.

This is the first case of this nature that the county have had to deal with in several years. During the days of the building of the out-of-control Great Salt Lake, the reports that reached the state of having been robbed by a salaried or salaried proprietor were common that not much attention was paid to them, and several cases were heard where the "boss" merchants became very wealthy.

SIXTY DAYS FOR LAURENCE.

Charles L. Troop, who was arrested Tuesday evening at the Union depot while attempting to steal a valise belonging to a traveler, has been sentenced to serve 60 days in the city jail by Judge Murphy of the police court.

Troop, who the police state was formerly with the Hotel Carmichael company, claims that while under the influence of liquor, he went to the depot and mistook the valise for his own, and he took it.

HEADACHES AND DIZZINESS

This Rockford Woman Was Discouraged but the Tonic Treatment Cured Her.

The first thing to do in nervous debility is to stop the cause of the trouble. If possible, whether it is irregular living, worry, or whatever it may be, the nerves must be given special nourishment and the blood must be kept pure and rich. This is the mission of Dr. Williams' Pink Pills and this is why the pills have been used with such great success in nervous troubles that did not yield to ordinary methods of treatment.

Mrs. Frances D. Holmes, of No. 216, South Horsman street, Rockford, Ill., who was cured by the remedy, says: "I was a great sufferer for over two years with nervous spells and sick headaches. I never felt well after the birth of my little girl. I was all run down and there were times when I could not see or stand up, because of the dizziness. My head ached continually, could not sleep, was nervous, irritable and gradually grew worse and more and more discouraged. I thought I would never get any better. I was treated by my doctor for over a year but finally gave up his medicine and began taking Dr. Williams' Pink Pills. When I had taken them for a while I began to feel better and seemed to be getting stronger. The dizzy spells and headaches were less frequent and my nerves became steady. I took several boxes and was entirely cured. I cannot tell how thankful I am for what Dr. Williams' Pink Pills have done for me and will praise them to everyone suffering as I did."

The pills contain no morphine, opiate, narcotic nor anything to cause a drug habit. They do not act on the bowels but make new blood and strengthen the nerves. If you want good health you must have new blood.

This blood means starved nerves, weakened digestion, functional disorders, headaches, possibly neuritis, sciatica, and even partial paralysis. Dr. Williams' Pink Pills build up the blood, repair waste and prevent and check disease. They are for men and women, young and old. They are not drugged by all druggists, or will be soon, at a receipt of price, 50 cents per box; six boxes, \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

According to the facts in the case as were investigated by the officers, Black received the suit case in question from another negro who left it for security for \$2. The borrower not returning for the case, Black sold it and then it was found out that the valise had been stolen and Black was held under arrest until an investigation was made.

DEATH OF OLE JENSEN.

Prominent Citizen of Sanpete Closes Honored Career. Special Correspondence. Manti, Jan. 19.—Ole Jensen, one of the prominent wool growers and progressive citizens of this city, passed away yesterday afternoon after an illness of several weeks.

Mr. Jensen was born in Denmark, Sept. 18, 1849, and came to Utah with his parents in 1852. He participated in the Indian wars in this valley and has always been a factor in the county's progress. He was for a number of years a resident of Seipio, where his parents died in 1874.

Since that time he has been called to fill a mission to Apache country, Ariz., where he did much for the upbuilding of St. John and surrounding country. He has also visited his native land as a missionary and has been energetic in his efforts to improve the country.

He was a member of the high council of the South Sanpete stake and was a worker in the Manti temple. His wife, to whom he was married in Seipio, in 1870, passed away a number of years ago leaving him and three grown children. His children all reside in this city. They are Mrs. Ernest Madsen, Mrs. Spencer Moffitt and Henry O. Jensen.

RELIGION CLASS CONVENTION.

Heaton Murder Trial—Lecture on the Book of Mormon. Special Correspondence. Richfield, Jan. 18.—A convention of the Religion class workers of Sevier stake was held in this city yesterday. A special meeting was held in the morning for the officers and workers, and in the afternoon a public meeting was held in the tabernacle. Elder Louis A. Keisch of the general board was present and gave some valuable instructions along the line of Religion class work. A public meeting was also held in the evening at which Judge John E. Booth was the principal speaker, taking the Book of Mormon for his theme, and weighing the evidence of its genuineness from a legal standpoint. His argument was unique and made a splendid impression. He spoke over an hour and a half.

HEATON MURDER TRIAL.

The prosecution in the Heaton case is still examining witnesses. Today was mostly spent in legal arguments. The prosecution introduced the confession of the defendant, preceding it with a witness, Thomas Chamberlain, who was expected to tell of the circumstances under which the confession was obtained. The defense promptly objected to that until the jury was removed and the matter could be submitted to the court for a ruling. The jury was sent out and then two witnesses told the court about the confession and how they had gone to the jail at the request of the officers to

PROBATION.

Washington letter in Boston Transcript.—The statistics tell an interesting story of the homes that have been wrecked by intemperance. Drunkenness was the sole cause of divorce in 35,516 cases in the 29 years. It was a cause in combination with some other cause in 17,764 cases. Therefore, it was a direct cause either alone or in combination with other causes, in 53,281 cases.

The attempt was made to ascertain the number of cases in which intemperance, although not a direct cause for divorce, was an indirect or contributory cause. The number of such cases was returned as 130,257. Probably this number includes those cases in which the fact of intemperance was alleged in the bill of complaint, but not specified among the grounds for which the divorce was granted. It appears that intemperance existed as an indirect cause of divorce in nearly one-fifth of the divorces granted to the wife on other grounds. It was present as a contributory cause in one-third of the cases in which the wife obtained a divorce on the ground of cruelty, and in one-fifth of the divorces granted to the husband for neglect to provide. The contrast as regards divorces granted to husbands and those granted to wives is very marked.

American Bank Citizen Loan is for state prohibition, wiping saloons out of the state entirely, from every county, town and hamlet. All these members of the Alpine state presidency, Stephen L. Chipman, James H. Clark and Able John Evans, addressed the tabernacle gathering Sunday on the question of temperance, and after their addresses a vote was taken and a resolution embodying the above ideas was adopted without a dissenting vote.

To make it more binding, four petitions asking for state prohibition were presented to the people at the different exits and were signed by them as they went out. These petitions will be

presented to those who were not at church, and then a committee will present the petitions to our representatives in the legislature and ask them to help enact a state prohibition statute.

Too late Transcript. Prohibition is having a swinging boom in this city for the petitions to the legislature are being signed by all classes of citizens, even by the very men that spend most of their means in drink, and a signature from them certainly preaches a powerful sermon in the cause of the good work that is now being carried on in the cause of prohibition. When the drunkard calls to help it is time that the sober men wake up to their duty.

Iron County News. Petitions are being circulated and signed enthusiastically by our people for the purpose of petitioning our legislature to enact a state law prohibiting the sale and manufacture of intoxicating liquor in the state. The movement has spread all over the state and indications are that such a power will be brought to bear on our law makers that it will be next to impossible for them to refuse. It is understood, however, that the salient element of Salt Lake City has put us some \$5,000 with which to fight the move and it is to be hoped that our legislators will not be so foolish as to be won over to their way of thinking. Prohibition state wide means the saving of thousands of souls from perdition and the making of Utah an ideal state in which to live.
