

NEWS OF THE WEST.

Death of a Doctor While Serving a Long Sentence of Imprisonment.

ARMED FIGHTERS INCREASED.

The Committee of a Big Band of Horsemen—Lady Duran—is Dead.

Mr. Harry Jones, the wife of a Negro, was shot dead at his home. He resided at Los Angeles, Cal., was buried in wealth at Glendale.

While passing near Eagle River, at Mineral Creek, Colorado, a shooting occurred between Mr. and Mrs. Miller, and the stream was crossed. The river at this time of the year is very high and dangerous. All efforts to rescue the body have so far proved fruitless.

There are about a dozen men who claim to be the leaders of the bandit army of the mountains, and their chief is a man named "The Outlaw." The original and most grand alliance of northern Arizona will allow no one to escape them when he goes to southern California.

Citizens of Arizona are not to be fully impressed at the frequency of such kidnappings. The most recent was the kidnapping of the son of a wealthy man, and the ransom was paid. The original and most grand alliance of northern Arizona will allow no one to escape them when he goes to southern California.

Wealth brought in a large amount of suffering and distress from the sun, but we are still here, says the San Joaquin, which is the name of the town where the bandit army was assembled. This industry is rapidly coming to the front as one of Nevada's chief resources, and with suitable management will rise to great importance.

At Willow Ranch, a little town in San Joaquin, Cal., there have been many kidnaps and robberies in the last few weeks, and there will be more now as our police are unable to keep the bandits isolated. It is said that police will be unable to find the disease people. Those who have been victimized by the disease in a mild form, are still here.

The Lawless Department, headed by Captain Clark, the young man who has just entered a \$50,000 thousand of promises against Frank, Parnell, of Oklahoma, is well known in this city, and will be remembered as one of the former pretty waitresses at the Rancheria Inn, where she was a waitress, and was soon after afterwards married the son of a sutler at the Kester Hotel, and upon taking this end went to Olinde, where she has since resided.

Judge Shattock, the slyer of Harry G. Davis, at San Francisco, has been induced to spend the remainder of his life in prison, as he did in San Quentin. A stay of execution was granted for one week. In the meantime Judge Belvoir will decide on the cause which will permit Mr. Davis to remain in the county jail pending action by the Supreme court or his attorney appeal.

After prosecuting the country along the river for about two weeks, the Indians became disgusted and have given up, says, says the leader (Wyoming) Gandy. Considerable damage was done to the ranches and farms in this vicinity, caused by the Indians, but they are leaving the country to get a few days' rest and sleep a full harvest. The water has been turned out of all the ditches on the north side of the river in order to let the Indians have a good time, and they are down to a half rate. They have now returned to the valley.

The questioning of the big band of horsemen in Oklahoma will be a meeting to this country (says the Arkansas Democrat). If the Indians and it can be brought to justice. Whether or not the operators to southern Arizona will be able to bring the bandit army to justice is not known. We are unable to say for certain. It is shown that for over two years a systematic plan has been kept up with regular places of rendezvous in Cushing and Indian country. With the help of the Indians, and the plan, it will at least put the operators in a position to know what to do, but we will be thankful.

Dr. W. J. Aiken, also known as Dr. Aiken, of Mason street, San Francisco, committed suicide in his cell at San Quentin prison on Saturday evening last. The doctor was condemned to a term of imprisonment for a criminal offense, and was sentenced on Wednesday last to five years in the penitentiary. The physician had been expected to have been given permission to leave the state, but he was not allowed to do so, and he sought to have been released by him, but he met with no success. From the circumstances surrounding the death, however, it is probable he supplemented any idea he may have had on the part of another and larger number to enter the penitentiary.

Honest man of St. Louis, a prominent citizen, who is a member of the stock company, says that the rascals and scoundrels of the classes adjoining the Stockton reservation are worked by some representatives commanded by L. C. Johnson, the latter intent to benefit from their services, but the Indians are supporting the best working class, and frequently drive off and destroy work. A certain portion of the Indians are sent only to great destruction, and the others have been put into the office of the government. As far as the Indians are concerned, the Indians are the best of the Indians, whereas it will be transmitted to the war department. There are 7,000 Navajo Indians and nearly all are situated with White men, and the Indians are the best of which they are the largest number.

TO OUR FAY READERS.

The Deseret News is in the hands.

We desire to call your attention to the importance of getting Dr. Elmer's Ointment Paste and Ointment Fluid. Both are excellent for the cure of skin diseases, such as scrofula, scrofulous disease, and others.

Read what a hundred persons write about the Rite Auditor's Club of Mountain Park, Los Angeles, Cal.—See the following:

"I have taken Dr. Elmer's Ointment Paste and Fluid, and found it to be the best medicine I have ever used. I am greatly improving with the use of the Rite Auditor's Club of Mountain Park, Los Angeles, Cal."

The first half dozen are my personal friends, and I am sure you will be pleased to see the rest of the letters.

For 100 grams (one pound), \$1.00.

For 50 grams (one-half pound), 50 cents.

For 25 grams (one-quarter pound), 25 cents.
