## LEAD ORE IN THE A DECLINE IN LOWER MAMMOTH

Hands on the Exchange,

GRAND CENTRAL STRONGER SILVER SHIELD DIVIDEND.

West Sells-May Day Not Very Active-Con Mercur Weakening.

Stocks were very active on the Exchange today notwithstanding yesterday's holiday, Christmas seemed to have little or no bearing on the market which opened with much activity in Over 10,000 shares of the former were sold at prices ranging between \$1.39 and \$1.24%. A steady decline was noticed from the opening figure. The stock fell with each succeeding sale until it was in good demand at better prices. From its opening figure of \$5.56, the stock sold up to \$5.65 on the last sale. Mammoth was not very strong as a result of the recent strike on the 500 levresult of the recent strike on the 600 level. The impending decision has a depressing effect. The stock opened at \$2.29 and weakened to \$2.24%, with the sale of 300 shares. May Day did a little business around 42, while Sliver Shield sold up to 26% on news of the declaration of the January dividend. Daly West let go thirty shares at \$26.35. Joe Bowers was quite active at 344, while Ben Butler dropped 1,000 at 2. Swansea shows signs of softening, being held at \$2.9746, with \$3.60 bld. Roce-Homestake \$3.97%, with \$3.60 bld. Roco-Homestake is still climbing up, while Dexter and Con. Mercur are both a little weaker. Closing quotations were posted as fol Bid. Asked.

Over 16,000 Shares Changed A Two-foot Body of Good Ore

TIERNAN GROUP.

Found in North Tintic Claims,

Mammoth a Little Weaker - Daly - Payment is Ordered - South Swansea Shipment-The Boston Con. Report-Mining Notes.

Newt. Dunyon reports about two feet of good lead ore in the old Tiernan property in North Tintic, which assays between 40 and 50 per cent in that metal with a few nunces aliver per ton. The Lower Mammoth and Grand Central. find was made in the drift 100 feet beow the tunnel level and is considered specially encouraging as, for some time past the management has been followng an iron ore with small patches of galena. The opening up of the present reached its lowest point. Grand Central ore leads the owners to expect a body f similar size and richness to that ound years ago. At that time a great deal of ore was taken out, but it was eet, and after drifting 80 feet on thi level the management made the above strike, which, it is believed, will open ut into something much more inter-

SILVER SHIELD PAYS. Directors Post Dividend Number 2 in the Sam of \$1,500.

The directors of the Silver Fhield Mining company have declared dividend No. 2 of 52 cent per share, or \$1,500, payable on January 10th. The trans-ter books will close on the 5th. The mine is opening up very nicely under the direction of George B. Sessions, who says that a great deal of ore has been opened up on the 300 level, enough, it is aid, to insure dividends for more than

SOUTH SWANSEA SHIPMENT. Management Making Connections on the 750 Level.

The South Swansea of Tintic has seven cars of ore on the market which will be settled for towards the latter part of the week. Conditions at the mine are said to be fairly good. The new shaft is down to the 750 level, where a station will be cut after the solidays. At the same time the man-igement is running a drift on the vein rom the old workings towards the new shaft. As soon as connection is made on this level the shaft will be pushed lown to the 1,000-foot level. Mr. Wheel. with depth but the values are a lit-

CYANIDE TAILINGS.

Henry M. Crowther Discusses the Washing of the Mercur Dumps. Henry M. Crowther, the well-known expert, has an article in the last issue of the Engineering and Mining Journal on the treatment of cyanide tallings of which 1,250,000 tons are in Mercur, the which 1,200 with the control of the values were saved to 56 per cent of the values were saved to 56 per cent of the values were saved The hy simply washing the tailings. The low values above recorded would not allow of chemical treatment at a profit, but in Mr. Crowther's opinion, the mere percolation of half a ton of water through each ton of tailings might be rofitably carried out on a large scale.

## WILD AND EXCITED

Rush Was Made to Purchase a Number of Special Stocks.

OFFERS TO SELL WERE BIG.

Sharp Decline is Checked, and Market Continues Active-Live Stock and Produce Lower.

New York, Dec. 26.-There was another wild and excited opening on the stock exchange today. The galleries of the exchange were crowded as they have been every morning of late, the public being pretty sure of an exciting scene on the floor. There was a very large attendance of brokers on the floor as periods like this are the hey-day of the stock broker's fortune and he has enough business in a few hours to compensate for many months of idleness and apathy while the public refrains from having anything to do with stocks. The interval since Saturday's excited and buoyant close in the stock market had been utilized in all the usual haunts of speculators and traders to exchange all sorts of rumors of important new developments affecting the value of stocks and without restraining influence of actual money prices to establish the status of these rumors, and in the credulous mood of the speculative pubic, these rumors had spread and grown. The consequence was a wild rush to buy a number of special stocks. The

pening in these was sensational and he sympathetic effect on the general was buoyant. But the action of market after the opening served to lisclose the interesting fact that, while he appetite of those without stocks and been whetted to a voracious degree, there were not wanting holders of very large amounts of stocks who were willing and anxious to part with them at the high level of prices. Either they were skeptical of the rumors affecting their stocks or they were satisfied that if true, the prices offered for stocks fairly represented the enhancement in value. The offers to sell were on such large scale that there were some ablarge scale that there were some ab-upt losses of the large price gains and the market became more orderly and dominated more by warranted assumptions and probabilities. The most sensational event of the opening was in Brooklyn transit, in which buying or-ders were executed for 9,300 shares as the chairman's gavel fell. The excited bidding ran the price up to 83%, which was 51% over Saturday's price, but at the same instant other brokers in other parts of the same crowd were buying the stock for 2% points lower at 88. Some of the opening gains in other

Tennessee coal,54; sugar,34; St. Paul, 24; St. Louis Southwestern preferred, 24, and many stocks from 1 to 2 points, The weakness of Northern Pacific was an important factor in causing the break from the opening high prices. Apparently authentic announcements were ublished of any intention to retire the referred stock on the coming first of anuary, Failure to do this would take the edge off of much of the recently un-bridled speculation in this stock, and pathetic decline of nearly 3 points in the preferred resulted. Tennessee coal, St. Paul, sugar and American tobacco-lost practically all their gains, Brooklyn transit reacted 314, and there were net losses in important railroad stocks reaching from a fraction to a point be-fore the decline was checked, and the quietermood came upon the market, The market continued very active and broad ven after this shaking down, and new points of strength were constantly de

veloping. MARKET DETAILS.

New York, Dec. 26.-The market opened wild and excited with striking ongested demand. Tennessee coal was rushed up 51/4, and 8,000 shares of St. Paul rushed the extreme price up to 21/4 on running sales which showed a varia Father Kennedy preached the sermon tion of a point in the simultaneous rooklyn transit carried that stock up quent, part of which was as follows over 5 points, but it fell back near-what rules so widely as the light and yet what ever comes so quietly as the slient footsteps of the dawn? What the silent footsteps of the dawn? What pears probable that the property will open up like the Highland Boy into the wind comes forth from its first faint the wind comes forth from its first faint shares. There was no market in London today, but arbitrage brokers were large dealers on account of Monday' Prices turned abruptly downward un-der a flood of long stock invited by the through the heavens, the forces of nature do their appointed task and all in silence. And it is still more the case in spiritual things that silence is the condition of perfect power."

The effort was to show that it was fitting that the Redeemer should come into the world quietly and unheralded less acutely, but tobacco lost 3 and less acutely, but tobacco lost 3 and less acutely, but tobacco lost 3 and less acutely. less acutely, but tonacco lost 3 and sugar 3½. St. Louis Southwestern pre-ferred rose 2½, and general electric got up 4 points. Some important rallroad stocks fell below Saturday. Northern the market was highly irregular.

The effort to rally the market did not neet with great success. After a re-

covery in some of the active stocks, prices ran off again. Sugar fell back o Saturday's level and important railroad stocks got as much as a point un-der Saturday night. In this list were ket dropped into a condition of strongly

steel stocks, which rallied from 1 to 2 points. Reading first preferred rallied 14. Missouri Pacific 14. and People's ras continued its rise to 1.0514. The response in the general market was rather languid. The high level invited callging again, and there were reac-jons of a fraction to 1½ in Brooklyn ransit. Missouri Pacific railled again o 72½ and gas to 1.06. The close was active and with prices moving in both

SAN FRANCISCO GRAIN. San Francisco, Dec. 26.-Wheat-May,

green manuscrans and a second LIVE STOCK CONVENTION.

gramman mannaman The Southeastern Passenger Association, with headquarters in Chicago and jurisdiction over the territory south of the Ohio river and east of the Mississippi, have granted a rate of one-and-onethird for the round trip from southeastern points to Salt Lake on the occasion of the fourth annual convention of the National Live Stock association.

Among the most interesting exhibits at the coming live stock show to be held in this city during the convention week will be that of a steer weighing 3,800 pounds. This unique animal is the property of W. A. Cowghanour of Payette. Ida., and is a crossbred animal from a buffalo and a Polled Angus. It is essentially a freak, and one which will put the famous cow of A. E. de doqles in the shade. For further particulars ask de Ricqles,

The Elko (Nev.) Daily Independent, published in the heart of a cow country, devotes considerable space in its col-umns of last issue in denouncing what It terms "Gall" (with an upper case G) on the part of the press committee in Burlington, Pennsylvania and Erie com-mon. After this shaking out the mar-asking that progressive sheet to publish a news item pertaining to the live stock convention that is of interest to every cattleman from Maine to California,

Secretary Martin this morning received a communication from President Byers of the Denver chamber of commerce and board of trade stating that the following delegates had been appointed to attend the convention here: F. A. Keener, B. Frank Hunter, R. Brackenbury, A. E. de Ricqies, A. Beck-er, Elijah Bosserman, F. H. Herbert, J. P. Adams, W. M. Lampton, Geo. Pren-

In addition Mr. Martin has also reeived the following notices of appointments of delegates:

New Jersey-George L. Gillingham, Moorestown: William K. Twombley, Madison: John O. Magie, Elizabeth. Vermont-Henry C. Cleveland, Coventry: Clement F. Smith, Morristown; Dana H. Morse, Randolph. National Wool Growers' association— J. G. Coy, J. A. Brown, H. T. Miller, L. W. Bennett, W. A. Drake, Charles Blunck, Carson Adams, Fort Collins; W. C. Stiles, Loveland; J. Y. Munson, A.

Knott, Berthoud, Grand River Stock Growers' association-F. D. Squires, Riffe, Colo.; Thomas West T. Glover, Parachute, Colo.; W. R. Lee (al. 2 p. m. ternate), Glenwood Springs, Colo.

Under date of December 19, Frank H. Hitchcock, chief of the section of for-eign markets, department of agricul-ture, writes to Secretary Martin from Washington as follows:

I thank you for your letter of the 15th inst., in which you very kindly invite me to be present at the coming conven-tion of the National Live Stock associa-tion, to be held January 15th to 18th, at Salt Lake City, Utah.

If my official duties would permit me o be absent from the department long nough to make the trip to Salt Lake should certainly make an effort to atwill be a meeting of great importance I notice from the program which yo sent that several subjects in which I a specially interested will be discussed and I should like very much to be pres ent in order that I may profit by the discussion. We have so much work or hand just now, however, that it will be possible for me to take the time that would be required for so extended a journey. I shall hope for an opportunity to attend some future con-vention to be held at a point not so far

distant from Washington. I have several times received letters from Mr, Springer relative to our export rade in live stock, and I have followed with much interest his energetic efforts as president of the association. Your organization has certainly been doing a good work in behalf of the live stock
