BETTERMENT OF CIVIC CONDITIONS

Improvement League Discusses Dog Pest and Unsanitary Condition of Water System.

HEARINGS IN DISTRICT COURT

Hospital Notes—Mrs. Jennie Freeman Succumbs to Lung Illness—Junction City News Notes.

Ogden, Sept. 7.—The Civic Improvement league held a lengthy session last evening discussing various matters pertaining to the welfare of Ogden. It was reported to the league that the Ogden waterworks reservoir was not in good sanitary condition; that the summer heat, the dust blowing and leaves falling, have all helped to make the reservoir unsanitary; and that unless something is done immediately to remedy these conditions, Ogden may suffer from an epidemic of typhoid fever, that already several cases of typhoid exist, supposed to have resulted from the water of the reservoir. When the new franchise was granted the waterworks company, a promise was made that the reservoir would be thoroughly cleaned, made larger and cemented, also that the company would build another large reservoir for the storage of water for culinary purposes, but these promises have not been fulfilled. Pres. Nye was instructed to send a letter to Chairman Condon of the board of health asking him to investigate the report and see what truth there is in it. The committee appointed to ascertain the cost of a right of way to a boulevard from Ogden to the mouth of Ogden canyon, asked for more time in which to get the data in readiness to make its report. The request was granted.

The matter of so many worthless dogs being permitted to run the streets and thus escape taxation, came up for considerable comment, and it was

DISTRICT COURT CASES.

Demurer in Fish Hatchery Case—Libel Hearing Oct. 2.

Ogden, Sept. 7.—In the case of the State of Utah against Joseph Barker, charged with maintaining a fish pond and hatchery illegally on a branch of the Ogden river, Mr. Barker has filed a demurer to the complaint setting forth that the complaint does not set up facts sufficient to constitute a cause of action, that the complaint is ambiguous and unintelligible in that it does not state whether or not the streams mentioned therein were really public streams over which the state exercises control.

In the case of the state against Rogers, charged with burglary in the third degree, the jury after being out several hours returned into the court unable to agree on a verdict. On motion of Dist. Atty. Halverson the action was dismissed and the prisoner discharged from custody.

J. W. Cooper was permitted to plead guilty to petit larceny and was sentenced to 30 days in the county jail. He with Rogers, it was alleged, burglarized a room in the Montana house, but the evidence in the case was very weak.

The hearing of the Viola Lewis and Thomas G. Richards, libel suits, now pending in the district court against William Giesmann and the Standard Publishing company was set down for trial on Oct. 2 before Judge Chidister.

Judge Howell has made an order granting all water users on the Weber river systems 30 days' more time in which to file claims for water.

While driving home with the horse and buggy the horse became frightened and ran away, throwing the lady out, fracturing her skull, which caused a blood clot on the brain. Her condition was critical when taken to the hospital, but after the removal of the clot she regained consciousness and will soon be well again.

Tangier, Sept. 6.—Responding to a request of the diplomatic corps that he take steps to arrest the needless exodus from Tangier, caused by the prevalence of local disorders and the circulation of false and alarming reports, the Moroccan war minister, El Ghibbas today proposed the institution of a summary tribunal before which malefactors and persons guilty of circulating damaging and exciting rumors could be brought. The representatives of all the powers agreed to the project. Advice from Fez under date of Sept. 3 says it was then believed that Sultan Abdol El Aziz intended to leave for Rabat probably Sept. 7. DISCORD OVER MOROCCO.

Madrid, Sept. 6.—The Globe today reiterates that discord exists between King Alfonso and Premier Maura regarding Spain's Moroccan policy. The paper adds: "Senator Maura intends to ask the king whether he has confidence in the ministry which involves the possibility of a ministerial crisis, which would put the liberals in power. If the sentiment in favor of intervention in Morocco was stronger in Spain the government would dispatch 4,000 men and a number of warships to Morocco."

JEROME GETS GRAND JURY.

New York, Sept. 6.—Dist. Atty. Jerome today obtained an order for a special grand jury in addition to the regular grand jury. Mr. Jerome did not announce the purpose further than to say that the present public business required the special jury. This was the course he followed in investigating the insurance cases. Unusual interest in his action is displayed because William M. Ivins, who is investigating the affairs of the Metropolitan street railroad, declared yesterday that he intended to call the district attorney's attention to the fact that the books of the company
