

MINING, BUSINESS AND STOCKS

LEDGES FOUND IN LA PLATA DISTRICT

Important Developments Have Been Made in Camp North And East of Ogden.

DON MAGUIRE VISITS REGION.

Says Outlook is Encouraging—Activity on Mineral Hill—Ore at Head of Ogden Valley.

The La Plata district, which was the scene of brief excitement in the fall of 1891, is coming to the front and the camp may yet be the location of some good lead-silver mines.

Don Maguire, the well known miner and metallurgist of Ogden, visited the camp recently and for the first time, he says, he saw evidence of ledges. In fact there is no doubt about it and the region has therefore improved very materially in his estimation.

An eastern syndicate, headed by Joseph F. Heald of Boston, has been spending a great deal of money and development under the corporate name of the Utah & Idaho Mining & Smelting company, which is in possession among others, of the La Plata group of claims upon which the huge boulder of galena was found by a lone sheep herder that precipitated the short lived boom.

Mr. Maguire says the Utah & Idaho company has done an immense lot of energetic and systematic work. Since taking hold this corporation has run more than 3,000 feet into the mountains, including tunnels, upraises, crosscuts, etc. The tunnel was run in 1,355 feet, when it was decided to run a drift to the west on a small mineralized seam about 200 feet back. This was done and led to the striking of a well defined ledge, with the contact still about 200 feet away. Naturally the hopes of mineral wealth were revived and the management will push the work of exploration along with greater vigor than ever from now on.

The ore appearing in the ledge encountered, Mr. Maguire says, is of good grade, the values running principally in lead and silver, with some gold. He considers the outlook for the camp of La Plata, particularly the property of the Utah & Idaho company, as being very encouraging indeed.

While the only work of importance going on in the district at the present time is that conducted by the foregoing company, preparations are being made to develop another property on what is known as Mineral hill, only a short distance from the original La Plata discovery.

On Wolf Peak, 10 miles from Ogden on the Paradise divide, are some good looking outcrops of copper and gold ledges. At the head of Ogden valley, also, are some encouraging showings of lead and iron.

ON MINING EXCHANGE.

Trading Not brisk—Prices Some Lower—Closing Quotations.

The week opened with the sale of 18,600 shares of stock for \$21,146.25 on the Salt Lake Stock & Mining exchange during today's forenoon sessions. While the trading was not brisk, the participation of such stocks as Daily Judge and Columbia Consolidated swelled the totals up into the thousands. Both these well known stocks were weak, the market being easily supplied. Beck Tunnel sold down to 90 cents, while May Day sank back to 14 1/2. Complacent among the leaders this forenoon was a number of the well known Nevada stocks.

The closing quotations and sales were:

SALT LAKERS IN IT.

More About the Sale of a Round Mountain Property.

A big mining deal on Round Mountain property has been closed within the past few days, the purchasers being prominent Salt Lake City residents, including Louis Gordon, Capt. A. H. Mayne, John Donnellan, E. H. Meade, Frank Golden and Dick Colburn who formed themselves into a purchasing syndicate, says the Sun of Goldfield.

The property purchased was the Numbers one and two Blue Jay and Hobo, lying between the properties of the Round Mountain company and the famous Antelope, the latter being the one from which the big specimen recently exhibited here was obtained.

The property was purchased by them from the man Scott who made the first discovery in the district on the newly purchased property, containing the certain extent of the strike. He was formerly a resident of this town and is well acquainted with the Goldfield contingent composing the purchasing syndicate.

THREE WEEKS IN GOLD BUTTE.

Well Known Colorado Mining Man Talks Enthusiastically Of New District.

BEST HE EVER SAW ANYWHERE

Says Big Bodies of Ore Will be Developed—Gold Butte Tinned in 150 Feet.

After having spent the past three weeks at Gold Butte, Nevada, J. E. Shipley, a well known Colorado mining man, returned to the city this morning loaded up with enthusiasm over the new southern Nevada camp and declared to "News" representatives during the day that he is firmly of the opinion that it is going to develop into a wonderful gold camp.

"I have never seen anything that looks as good to me as Gold Butte," said Mr. Shipley. "I have seen places, and a good many of them, where the veins show larger at the surface, but as they are explored to depth it will be found that they widen as well as improve in value and I think this fact has been proven by the work that has been done on the Gold Butte and other properties in the camp. In every hole I examined I found a broadening of the fissure. This was exemplified very forcibly in the striking of the Nevada fissure in the Gold Butte mine last week. In the same condition on a claim which I own, and may be adjoining the Gold Butte. So I am as satisfied as anyone can be that when the Gold Butte people penetrate the mountain further with their tunnel they will find some very extensive ore bodies. There will undoubtedly be other good mines opened in the district, which is beginning to attract considerable attention.

Two deals were closed while I was in the camp. Mr. Cobb, the Moana merchant, turned the property of a copper claim to a party crowd, while Crawford and Temple turned another promising proposition over in Cedar basin. Besides a good many prospectors are coming to the camp. Mr. Shipley, who is an uncle of Harry Shipley, the photographer of this city, succeeded in getting hold of six choice locations, some of them covering some promising copper ledges not far from the Gold Butte townsite.

The tunnel being run on the Gold Butte property was in 150 feet on Thursday evening.

The Kimberly syndicate, of which O. Wiser is at the head, will file its articles of incorporation this week, while the Granite Nevada company has ordered equipment for a vigorous campaign.

UNCLE SAM ANNUAL.

Shareholders Meet This Afternoon to Elect Officers for Ensuing Year.

The annual meeting of shareholders of the Uncle Sam Consolidated Mining company is scheduled to occur late this afternoon. Superintendent C. C. Griggs came in from the mine this morning, and at noon presented a report which will be submitted to the shareholders.

In the election to follow, there will probably be no opposition to the retention of the present board.

DAILY WEST'S TROUBLES.

Men Still Out and Mine is Closed—No One Willing to Give In.

There is no change in the condition of the labor difficulty at the Daily West mine today. The men are still out and insist that they will not go back to work until they are permitted to buy a new contract.

In the meantime the position of the management is just where it was at the close of last week. Neither side seems willing to give in to the other.

BUYS NEW EQUIPMENT.

Management of Utah Copper Company Places Big Order.

The management of the Utah Copper company, on Saturday afternoon, placed an order with a San Francisco firm for 1,000 vanners, which are to be used in the concentrator now under construction at Gardfield.

Manager Jackling said today that J. J. Mansch, a renowned concrete authority, had arrived to take charge of the work of putting in the reinforced concrete floors over the concentrating section.

Between 1,200 and 1,500 pounds of steel building material is on the ground and is being put in place as rapidly as possible. The excavations for the second section are being pushed along and the concrete contractors have begun their work.

MINES OF PARK CITY.

Development of Naldriver Property to be Resumed Again Soon.

Work is well under way at the Untah-Treasure Hill property, which is being developed by a company of local men, recently incorporated, says the Record of Park City. A tunnel is being driven in the vicinity of the old Alice mine and already some choice looking bodies of ore have been taken out. The Untah-Treasure Hill is located in a most desirable section, and it would not be surprising if a big thing were made of it. The incorporators are William Ferguson, president; James H. Allen, vice president; E. S. Fisher, treasurer; and H. S. Townsend, secretary, three with Thomas Bell, comprising the board of directors. The capital stock of the corporation is \$750,000 divided into 500,000 shares of the par value of 75 cents per share. The Naldriver mine claim is the one upon which work is now being done.

Samuels of the ore being mined at the Little Bell is said to say that the project is so rich as any ever brought down the canyon. Those in a position to know a good deal about the mine are anxious for the statement that there are immense bodies of this rich ore in sight and ready to be opened up and mined as soon as the management sees fit to do it. In fact more ore is being mined now than can be conveniently hauled down, and no effort whatever is being made to extract more than is necessary in the routine development of the property.

George H. Bond of the Ontario and Naldriver properties returned to the city yesterday after a brief visit in camp. Work in the Ontario tunnel is progressing nicely and at the mine a show of ore is being made which indicates that the old mine is by no means a "has been." It is understood that work at the Naldriver will be commenced in the very near future now, the roads being almost in suitable condition for hauling. No information has

TRADING GAVE SIGNS OF ACTIVITY

Considerable Advance in Grangers Which Held the Market Well.

ST. PAUL GAINED AND LOST.

Other Leaders Moved in Narrow Limits and Business Was Small.

NEW YORK, June 4.—Opening prices of stocks today were fraction higher generally than on Saturday. Trading showed signs of activity in spite of the closed market in London.

A rise at a point in Reading brought the index forward slightly. The standard subsided later and the advance faded, but recessions were slight. St. Paul's gain reached 2 general Electric advanced 2 1/2. Colorado Fuel and Iron advanced 1/2. Lackawanna rose 1/2. Anacoda rose 1/4.

A rise at a point in Reading brought the index forward slightly. The standard subsided later and the advance faded, but recessions were slight. St. Paul's gain reached 2 general Electric advanced 2 1/2. Colorado Fuel and Iron advanced 1/2. Lackawanna rose 1/2. Anacoda rose 1/4.

It is stated that Samuel Newhouse has obtained a lease on the properties of the Security Mining company on War Eagle Mountain, near Silver City, Idaho.

The new mill of the United States Smelting, Refining and Mining company, which has been under construction on the banks of the Jordan south of the smelter for several months past, is completed and will go into commission in a few days.

LOCAL MARKETS.

In today's local markets, poultry is decidedly scarce so many hens are laying that the farmers are not bringing chickens to town. There is a marked increase in the hens as to fish, but in the market the fish is scarce at present. The appearance of striped bass will be welcome. Lemons are growing scarce again, and the price is advancing. Flour is falling, although corn is five cents. Of potatoes, the advancing in price because they are becoming very scarce. California black cherries are about gone, while Royal Ann cherries are arriving. The usual quantities of vegetables and oranges and bananas are being received. The prices obtaining today are as follows:

CHICAGO, June 4.—Cattle—Receipts, 2,000; steady to shade higher. Beef, 4.50@4.75; cows and heifers, 3.50@3.90; stockers and feeders, 2.50@3.00. Hogs—Receipts, 2,500; steady. Pork, 6.00@6.25; lard, 1.25@1.40. Sheep—Receipts, 2,000; market steady. Sheep, 4.00@4.25; lambs, 5.00@5.50.

KANSAS CITY, June 4.—Cattle—Receipts, 1,500; including 2,000 southern; market steady to 10 cents higher. Native steers, 4.00@4.25; cows and heifers, 3.50@3.75; stockers and feeders, 2.50@3.00. Hogs—Receipts, 2,000; market steady. Pork, 6.00@6.25; lard, 1.25@1.40. Sheep—Receipts, 1,500; market steady. Sheep, 4.00@4.25; lambs, 5.00@5.50.

PRODUCE.

NEW YORK, June 4.—Sugar, raw firm. Fair refining 2 1/2-2 3/4 cent centrifugal, 96 test, 11.5-12.00; molasses sugar, 2 1/4-2 1/2 cent. Coffee—Firm, 1.30; powdered, 1.40; granulated, 1.60.

Coffee—Steady. No. 7 Rio, 7 1/2.

GARDNER DAILY STORE NEWS.

What a pleasant change from the heavy underwear of the cold winter days to the light, cool garments of summer.

"A time for everything and everything in its time." Heavy winter underwear, the proper thing a few weeks back, is now entirely out of place and should give way to some of the more reasonable weights.

ENGLAND MAY ENACT LAW EXCLUDING ANARCHISTS.

London, June 3.—The desperate attempt on the lives of King Alfonso and Queen Victoria brings home to Great Britain the question of harboring anarchists. It is expected that upon the re-assembling of parliament after the Whitstable recess, an effort will be made to pass a law excluding anarchists from Great Britain.

ST. LOUIS, June 4.—Wool, steady. Territory and western mediums, 25.00; fine medium, 26.00; fine, 28.00.

Wool.

The effort of the agitation is problematical. Much depends on the result of the investigation being made by Scotland Yard. The authorities are inclined to doubt that the Madrid plot originated here. The evidence so far does not warrant full acceptance of the claim. The general idea is that judgment must be suspended pending the disclosure of details of the conspiracy.

There has long been a deep-rooted sentiment against excluding any political refugees or plotters, however violent, and apparently there has been an agreement among the anarchists not to molest members of the British royal family. It has often been asserted that the British secret police had made the immunity of members of the royal family the subject of the definite part with the anarchists, and that it was enforced by threats of rigorous exclusion. If such a pact exists it was broken by the attack on the queen of Spain. A clause in the "offenses against the person act" passed during the reign of the late Queen Victoria, gives the police power to take action if a conspiracy is hatched in Great Britain.

SOCIAL DEMOCRATS.

Those of Wisconsin Nominate Ticket And Adjourn.

Milwaukee, Wis., June 3.—The Social Democrats of Wisconsin in state convention, which met last night and adjourned sine die at 4 o'clock Sunday morning, nominated the following ticket: Governor, W. R. Gaylord; lieutenant governor, William Kauffmann; state secretary, Charles V. Schmidt; treasurer, Joseph Ammann; insurance commissioner, H. W. Bistorius.

The platform among other things favors the amendment of the Constitution of the United States "so as to abolish the United States senate, which is a bulwark of conservatism and trustocracy—the general referendum of all the people to take its place as a check, under proper provisions. Furthermore, to elect the United States judges by the people of their respective districts, for terms not to exceed six years, instead of having them appointed by the president; this in order to make an end of government by inflection."

"Private monopoly," the document says, "is a curse to the nation." The nationalization of all trusts, the national ownership of the railroads, telegraphs, telephones, express companies and steamship lines are favored.

The platform demands that all elective officers, national, state and municipal, shall be made subject to the imperative mandate and to a recall by the express wish of three-fourths of their constituency.

FINE JOB WORK.

Turned out on short notice at the Deseret News, a big shipment of new types and supplies just in. Our facilities for letter heads, bill heads, tags, envelopes, pads, etc., are unexcelled by any establishment in the west.
