In spite of the rain and muddy condition of the field, Salt Lake and Butte played the final game of the series yesterday afternoon. In the presence of about 500 fans, and because the Butte players are better mud larks than are the Salt Lakers they won by a score of 5 to 3. It was not baseball by any means, but it was a game, and it was played in the spirit of sportsmanship. There were one or two individual plays that were good, especially a long running back handed catch by "Rabbit" Sturgeon.

TWO VIEWS OF SAM CRAWFORD, LEADING BATTER OF TIGERS

Judging by the way "Wahoo Sam" Crawford, the hard hitting outfielder of the Detroit Tigers, is batting the ball this season, it now looks as if his teammate, Tyrus Raymond Cobb, will have to look to his laurels as the leading stick artist of the American league. Although Cobb is mauling the ball as hard as he ever did, his side partner, Crawford, has eclipsed his feats many times since the season opened. Crawford is about the hardest hitter in the American league. Maybe "Wahoo Sam's" averages have not been as high as a good many sphere maulers after a season's play, but "Wahoo Sam" drives the ball harder than any of them. His one weakness rests in the fact that he doesn't run out the little ones the way he might. Samuel is used to knocking the cover off the ball that the scratch kind don't appeal to him. This, coupled with the fact that he is the original hard luck batter, has kept him from hitting around the 400 mark. In a recent game in Detroit Crawford put the ball over center field for a home run. It was the longest hit ever made in Bennett park.

WHAT WOULD TEDDY SAY ABOUT THIS?

The following communication was received by the sporting editor of the "News" this morning:

While making an inspection of his chicken coop this morning Mr. Leo Young of 2400 south Seventh East street got interested in the movements of a hawk. He was taking his Winchester and he greatly surprised his friends, who had taken up a position on the back of a distance of 35 yards. It measured four feet five inches from tip to tip. The party was surprised on inspecting it further to see a large frog creep out of its back and jump away.

New York Bookmakers Disgusted And Will Invade Canadian Tracks

New York, May 17.—As soon as racing opens at Montreal, Toronto, Hamilton, Windsor and Fort Erie, many of the leading bookmakers, who have been features of the New York tracks for years will take up their occupation there. Announcement made at their club last night indicated that they did not believe in their ability to make a living at New York tracks this summer, because of the restrictions on betting and the limited number of racing dates. It is believed that the invasion of the Canadian tracks by New York bookmakers will drive the home bookmakers out of the field and will result in livelier times on those tracks.

After canvassing the results of the two days' experience on the Belmont track last week, the bookmakers last night seemed to be of the opinion that there was no money for them this year in New York. Under the "oral betting" permitted by recent court decisions, the bookmakers are able to accept bets only from persons whom they know personally and whom they can trust for a later settlement of their accounts. It so happens that most of the persons whom the bookmakers know are as well versed in the chances of the various horses to win as are they themselves. Therefore their chance to win is very small and from an exceptionally limited field.

PREST. CONDRON DISCUSSES MEET

Predicts That Venture of Thoroughbred Racing Will Be Brilliantly Successful.

"I look for a crowd of about 6,000 racegoers on next Saturday, the first day of our spring and summer meeting at the fair grounds," remarked President John Condron of the Utah Jockey club four or five minutes after the outbreak of the first time in the State of Utah that thoroughbred racing of the higher class will be attempted and if Utah sportsmen but live up to their proverbial reputation of recognizing a good thing when they confront it, I am sure the venture will be a highly successful one. The club's disbursements will be about \$2,000 a day while the racing is attracting fully 500 strangers here during the six weeks of its duration who would not otherwise be here. Today there are 1,500 racing folk in town from all parts of the country spending among our merchants, hotels, theaters and entertainment places quite a good deal of money. Of course we all know that the very finest class of horses in the west today are here with us and we shall have racing of a corresponding character. Our officials are of the highest repute and are expert to the highest degree in the management of the race track. I believe we have brought to a manner stroke, that is, the Utah Jockey club feel a personal gratitude for the work he has done. He has made it possible to have a new racing course in 18 days time at an outlay of \$15,000 when we expected to have it for \$20,000.

SATURDAY'S BIG FEATURE RACE.

The Cullen handicap is the event of the day on Saturday. It will be at three-quarters of a mile and run off as the fourth race in all probability. It is a race in which both Glorio and Jack Nunnally will go down to the post. Both these wonderful sprinters have been working well and are in point for every possible springing distance race they can make. The rain of Sunday has been in bad condition but a warm sun today and tomorrow will dry out the course and once again leave it a better place for the race. It is a sure starter along with Sevenfold but if Glorio is real good he is the only one who will be a great race and one well worthy of taking first stand on the program of the inaugural day. Every race enthusiast in town is pulling for a bright clear afternoon and favorable conditions. Hundreds of thousands of persons have been in point for every possible springing distance race they can make.
