Here to Engage in Conference With Messrs, Kimberly and Buhl.

Gathered in this city is an array of mining talent employed directly or indirectly by the Kimberly-Buhl syndicate. The capitalists from the Quaker state have acquired such vast interests in Utah and other parts of the west that it is impossible to visit all of their properties, so their managers and superintendents were called in to report. From the Annie Laurie mine at Gold Moun-tain, came Capit. C. T. Rader; from the Henorine, of Stockton, Supt. E. J. Rad-datz, has responded. The Coconinno mine, just over the line dividing Utah and Arizona, is represented at the conference by Supt. E. P. Jennings Other interests of the capitalists are likewise represented and all of the field men of the Western Exploration company are spending a few days at home upon the orders of those in authority.

He states that the development of that property is progressing uninterruptedly and that there is nothing to indicate discourage-ment anywhere. Energy is being dis-played at the present in running an up-raise from the tunnel to the incline shaft.
