

The Mitchell Farm and Spring Wagons and Road Carts are manu-factured expressly for the Utah, idaho and Montana trade, of the very best material that money can bay and under the superintendency of Henry Mit-chell, a practical wagon manufacturer of over Rity years experience. We per-sonally guarantee that they are first class in all respects, and second to none in the market. the market.

The Walter A. Wood's Harvesting Machines are absolutely unequalled for strength, Durability, Easy Running and Simplicity. Read the following record of machines made and sold by the Wood Company 1. e • 1880-27,903; 1881 40412, 1989 44 992 45 993, 1984 49 215 workload by the superiority 1881, 40,413; 1882, 44,226, 1883, 45,032; 1884, 48,315; nothing but the superiority of the machines could possibly cause such extensive and constantly increasing sales. The above figures speak louder words of praise than anything we could possibly say They have enlarged their factory so as to be able to fill increased orders for 1885.

The John Deere Plows have a world-wide reputation for excellence The fact that Deere & Co. have the largest steel plow manufactory in the world is sufficient guaranty of the superiority of the goods they manufacture. ual relations.

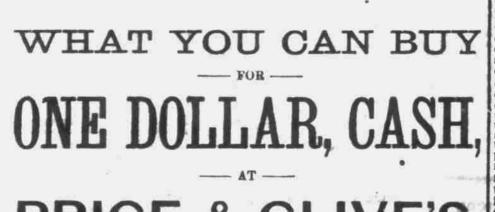

Russell & Co's Threshers, Engines and Saw Mills, are fast taking the lead, and in the near future will stand without a rival. A person that has over used a Massillon Thresher will never use any other. Every Machine we have sold has given the most perfect satisfaction.

The Gilpin Sulky Plow is the only single lever sulky plow made. The "Glipin" to-day stands without a rival for strength, lightness of draught, simplicity and quality of work No person having any regard for horse flesh will purchase any other sulky plow after using the one-lever Gilpin.

The Gale Manufacturing Company spare no expense to make their Sulky Rake superior to any in the market. Call and examine their goods, and be convinced of the superiority of their Rakes also of their Chilled Plows.
