MINING, BUSINESS AND STOCKS

GREAT WORK OF UTAH COPPER.

Gen. Supt. Gemmell Rapidly Getting Mine Ready for Big Production.

CHANGE COPPER BELT TRACKS

Mine Building to be Moved up Canyon Temporarily-To start Steam

General Superintendent Robert C. Gemmell, after busying himself for several days in the camp of copper-Bingham, was back at his desk this forenoon.

With the work of mill construction at Garfield in safe hands, Mr. Gemmell is devoting the most of his energies to preparing the Utah Copper company's mines for the great draft to be made upon them in the shape of tonnages when the big plant is com-

"We have lots to do," said Mr. Gem-mell to a "News" representative, dur-ing the day, "and it takes a whole lot of time to get things shaped up, especially for an enterprise of the magnitude like this one of the Utah Copper, but by the time the mill is ready to start. I guess we will have all the necessary facilities at hand for the movement of the train loads of that will go down to the valley for

Regarding the report that it would be necessary to change the tracks of the Copper Belt railroad to make room the Copper Belt railroad to make room for the company's yards to be maintained in Bingham canyon, Mr. Gemmell admitted that this was true but that the changes to be made would not in any way interfere with the grades or the operation of the Copper Belt's high line, or the branch which goes up the mountain to the Boston Consolidated and neighboring mines. solidated and neighboring mines. The mine buildings, now located near

the entrance to the tunnel, are to be moved further up the canyon tempor-arily, and Mr. Gemmell has ordered work to begin without delay. One he steam shovels will be placed in operation within a few weeks.

MR. KIRB ARRIVES.

An Enthusiast Over the Possibilities Of Fairview, Nev.

Manager John A. Kirby, manager of the Montana Tonopah mine at Tonopah and one of the Salt Lakers who played fortunate in getting into the Fairview. Nevada, district at the right time, has arrived from the west and will remain

Mr. Kirby is an enthusiast over Fair-view and believes it is going to develop into one of the largest camps in Ne-

NEVADA HILLS ORE.

First Shipment Comes in From Young Fairview Mine.

The first shipment of high grade ore from the Nevada Hills mine at Fair-view, Nev., is said to have arrived at the samplers and likewise is the first ore to come out of that Nevada camp. discovery and development which has been credited largely to Salt Lake talent. The Miner of Fairview says of the

development of the property.

Work in the adit tunnel is being vigorously pushed. Cars and rails are now on the ground for use in this tunnel, and the work will be carried on with

the same vigor that has marked all previous operations on this property. previous operations on this property. It certainly is encouraging to see shipments go out from this camp and the honor of this is credited to the Nevada Hills Mining company. Surely this property is sustaining its ceputation as a bonanza and all the good things which have been said about it.

In last week's issue it was stated that 50 sacks was the daily production. This, however, has been increased during the past week to 100 sacks per day. Little sorting is necessary on the en-

Little sorting is necessary on the entire face, with the exception of some few high grade boulders, and the ore is being sacked as it is broken. These boulders themselves carry good values and are being stored in the mill dump as second grade ore.

WILL FORM WATER COMPANY.

W. H. Clark, for himself and associates, has purchased a ranch, together with valuable water rights, which, it is said, will form the basis for the organization of a water company with the intention of supplying the camp of Fairview, Nev. The property is located some distance from the new mining camp.

in general when away from here as can be seen from the many exchanges which reach our office.

"Los Angeles is just waking up to the fact that we have a great camphere," said Mr. Hodson, "and on all sides Fairview is the chief topic of conversation in mining circles. I met the shipment going out and it certainly looked good to me to see ore shipped from this camp in such a short space of time."

BOND RENEWED.

J. S. McCullough of Marysvale to Op-

erate Old Copper Belt.

J. S. McCullough of Marysvale, a for-

about a year ago, says the Sun of Richfield, and secured a bond on the old Copper Belt property near Marysvale for himself and L. K. Stevens of Joliet, Ill., has succeeded in getting a renewal and will soon start a development campaign.

Camp of Fairview.

only awaits capital and mining methods to develop.

ties. The paper says:
The first payment was made Thursday on the purchase by C. C. Higgins, for himself and associates, of the Last Chance and Flatiron, and a half inter-Chance and Flatiron, and a half interest in the New Yorker No. 7, the Sunnyside and the Fallon Extension properties. The New Yorker and Sunnyside join the Sonsado, on which the rich Ridge-McLaughlin strike was recently made, while the Fallon Extension and Wedge lie between the Lookout No. 1 of the Luce-Peery syndicate and the Sidewinder. On account of the out No. 1 of the Luce-rest syndicate and the Sidewinder. On account of the surface showing and choice location, the ground is considered among the best undeveloped holdings in the district. Mr. Higgins was for many years a resident of Utah.

a resident of Utah.

A force of men is now at work building a skid roadway from the open out to the nearest point of the wagon road that is to be graded. Sacking of ore continues, the values being about \$500. The first load of ore left the mine Tuesday night on the wagons of J. B. Young, about 50 sacks in all, and was not consigned. It will be held at Hazen until at least a carload is there for shipment. The ore went through town shipment. The ore went through town late in the evening, and the enthusiastic citizens were denied the sight of the first load to leave the camp.

Tunnel No. 1 is now in about 50 feet.

The main ledge will be encountered at feet, and at the expiration of about days. The formation now by soft, and nand-drining is being used, an air drill will be installed.

A LUCKY ASSAYER.

W. H. Tremaine Operating a Copper Property Near Battle Mountain.

W. H. Tremaine, the well known asof this city, is the owner of a sayer of this city, is the owner of a copper property out near Battle Mountain, Nev., which is likely to develop into a big bonanza. Little has been said about it, but the facts are, Mr. Tremaine has had a force of men busily engaged at the property for the last year during which time a number of year, during which time a number of shipments have been made which gave eturns of anywhere from 20 to 40 per ent copper. A carload of this ore is at the sam-plers today, and others will follow

ELECT NEW OFFICERS.

Late last fall, about 400 feet west of the shaft in the old workings, a five-foot ledge of high grade copper ore, carrying values in gold, was cut. It was encouraging, to say the least, and an appropriate finale to the season's work. Now, just so soon as the disappearance of the snow will permit, trails will be broken to the mine, and tools and supplies rushed up the hill. It is the intention of the management to begin work of sinking a new shaft on last fall's discovery and to prosecute the work with vigor. CANADIANS TAKE PLACE OF LAST IMPERIAL GARRISON on hast fails discovery and to prosect the work with vigor. Mr. McCullough is an old time mining man. Notwithstanding that the Marysvale district is one of the oldest

Victoria, B. C., May 17.—The last imperial garrison in Canada, that of Esquimalt, which has been replaced by Canadian troops in accordance with the recent decision of Canada to take over her own defences from Great Britain, left for England this morning. The embarking for Vancouver, where a special troop is waiting to convey the imperial troops to Quebec for embarkation on the steamer Virginian, was attended by an enthusiastic gathering of citizens to bid farewell to the last British troops seen in Canada. The first imperial garrison came to Esqui-Victoria, B. C., May 17 .- The last first imperial garrison came to Esqui-malt in 1858 and did considerable ploneer work in the then colony, making roads and laying out townsites which afterwards became prosperous cities and four years later was returned to England. A hiatus of about 40 years occurred when volunteers held the sta-tion, and in 1892 another imperial gar-rison arrived from England to occupy Esquimalt, and construct the defenses and the small village of barrack buildings at that point. This and subsequent imperial garrisons constructed the four fortress works and other defenses of Esquimalt built the barracks. the works were turned over to the newly-formed Canadian troops whose strength will be less than half that of the departing garrisons.

BEARS DID ABOUT AS THEY PLEASED.

Met no Opposition and Put Out **Enough Stock to Drive** List Down.

TRADING DULL ON RALLY.

Dullness Became Progressive; Nothing Putting Energy Into Dealings.

New York, May 18.-Opening prices in the stock market today were inclined to sag under a light volume of offerings. A rise of half in Atchison was the only exception amongst the prominent market leaders. Anaconda fell 2. Chicago Terminal 1% and Northern Pacific a point. Bear operators found that they met no serious opposition in depressing prices and put out enough stock to drive the list down about a point. Pennsylvania, St. Paul, Union Pacific and the principal metal stocks were heavily sold. The market quieted at 11 o'clock and was becoming steadier. Anaconda fell off 4½, Northern Pacific 2 Sugar 1½, Pennsylvania and Tennessee Coal 1½, Union Pacific. Locomotive and Lead 1½, and St. Paul, Delaware & Hudson, New York Central, Baltimore & Ohio, Smelting, Colorado Fuel, Distillers' Securities and Central Leather 1.

There was a slow movement toward recovery, led by Reading, which was lifted half over last night. Trading was very duil on the rally, Delaware & Hudson fell 2 and Southern Pacific, Kansas City, Southern, American Car and Pressed Steel I.

Bonds were steady at noon. list down about a point. Pennsylvania, St.

Steel I.

Bonds were steady at noon.

Prices were almost at a standstill during the noon hour.

A decline of a point in Brooklyn was the only feature.

The duliness became progressive and even a rise of a point in Reading falled to instill any energy into the trading. Comparisons with yesterday's closing prices showed little change though the undertone continued heavy. Corn products improved 1%, but Atlantic Coast Line lost 1.
