LAST NIGHT'S DISPATCHES.

EASTERN.

Wool.

Boston, 5. Wool is under a steady demand, and for domestic grades prices have ruled about the same as when last reported. Holders are anxious to liquidate their stocks as fast as possible, but manufacturers are still quite indifferent about further supplies, the clip of the entire country being so near at hand. The new spring clip, it is believed, will show a considerable increase since last year, as the wool has met with a ready sale at full prices, and promises to meet with a ready sale for some time to come. Sales of Ohio and Pennsylvania have been at 52 @ 58 for XXX and medium grades, Michigan and other western fleeces from 48 @ 52, down to 45 for low combing, and decline selections at 39 @ 40, the latter price for very superior. Pulled wools have been in demand, and holders are ready to meet the market at some concession on recent current prices, particularly on extra. Sales have been at 42 @ 54 for super and X as to quality.

Republican Socialism.

Montgomery, Ala., 5. J. S. Perrin, late republican member of the legislature from Wilcox co., testified as follows before the committee now investigating the means by which Spencer secured his election to the U. S. Senate. Troops were retained in Alabama before the election, and shown to have been used to intimidate voters. These troops accompanied by U. S. marshals who had notified war with citizens, names prominently displayed, and were to persons who would inform them, were paraded in various counties. I shot a hole in my hat, and reported that I had been shot by K. K. K. I sent troops to arrest my mythical assailants. I kept the troops as long as I could use them as a political machine. Our purpose was to secure the legislature at all hazards, and to elect Spencer. A number of witnesses testified to the same effect.

Summary Dismissals.

Washington, May 5. The sudden displacement of Commissioner of Internal Revenue Douglas was a surprise to many. Douglas was a member of the House of Representatives, and was known in connection with political affairs in Alabama, has been dismissed.

Libel Case Ended.

Springfield, Mass., 5. The Phelps-Bowles libel case ended today with a verdict of one hundred dollars for the plaintiff.

\$40,000 Fine.

Milwaukee, Wis., 5. A fire here this afternoon destroyed the Milwaukee foundry, machine shop, grist mill and wagon shop, loss \$40,000, no insurance.

WESTERN.

San Francisco, 5. The crop reports received to-day from various parts of the State show that the Sacramento Valley the yield of wheat will be from half to three quarters of the average; in Solano county the prospect is good for a fair crop, and the same in Contra Costa and Sonoma valleys. In San Joaquin valley the crops are very bad; and in many localities they will not produce the seed, and the whole valley will not probably average over a quarter of a crop. San Jose valley will produce a good half crop, and the increased amount of wheat in the valley the wheat is in splendid condition on the higher land, covering about seventy-five thousand acres, but on the lower bottom land a crop is the extreme estimate. In the southern counties the grain is generally in good condition, and the increased amount of wheat in the valley the wheat is in splendid condition on the higher land, covering about seventy-five thousand acres, but on the lower bottom land a crop is the extreme estimate. In the southern counties the grain is generally in good condition, and the increased amount of wheat in the valley the wheat is in splendid condition on the higher land, covering about seventy-five thousand acres, but on the lower bottom land a crop is the extreme estimate. In the southern counties the grain is generally in good condition, and the increased amount of wheat in the valley the wheat is in splendid condition on the higher land, covering about seventy-five thousand acres, but on the lower bottom land a crop is the extreme estimate. In the southern counties the grain is generally in good condition, and the increased amount of wheat in the valley the wheat is in splendid condition on the higher land, covering about seventy-five thousand acres, but on the lower bottom land a crop is the extreme estimate. In the southern counties the grain is generally in good condition, and the increased amount of wheat in the valley the wheat is in splendid condition on the higher land, covering about seventy-five thousand acres, but on the lower bottom land a crop is the extreme estimate.
