TERMS IN ADVANCE.

GEORGE Q. CANNON,
BRIGHAM YOUNG,
Editors and Publishers.

Local and Other Matters.

FROM WEDNESDAY'S DAILY, NOV. 28.

Messages.—There are messages at the Western Union Telegraph office for W. F. James and J. G. Spaeth.

Steam Boiler.—The new steam boiler manufactured by Mr. Thos. Pierpont, for the new tannery, was being placed in position to-day.

Concret.—Concrete sidewalk is being laid on the north side of Second South Street, between Commercial Street and the Idaho corner.

Theatre.—That able and popular comedian, Mr. J. K. Emmett, appears in the Theatre on Friday and Saturday evenings, Dec. 7 and 8, in his famous play of "Frit." [Secure your seats.]

For Washington.—This morning Hon. George Q. Cannon, Delegate to Congress from Utah, left for Washington, for the purpose of attending the regular session of the National Legislature, which opens on Monday, December 3d.

The Coal Business.—We believe the coal business in this part is now entirely in the hands of the Union Pacific Railroad Company, the negotiations between the latter and the owners of the Weber mine have been concluded some time since.

Stolen Goods.—A quantity of blankets and other goods, recently stolen from Camp Douglas, were found last night, by the police, in a Second South Street second hand store. The proprietor of the store will be requested to explain from whence he obtained those articles.

Information Wanted.—Mrs. Burnside (maiden name Brighton), of Glasgow, would be pleased to hear from her brother, W. S. Brighton, believed to reside in this city, or some other part of the Territory.

Address care of Alexander Rankin, 536, Dobbies' Loan, Cow Cadens, Glasgow, Scotland.

United.—This morning a Mill Creek couple, late of New York, George Holt and Elizabeth M. Shaw, were united in wedlock by Justice Pyper. The pair appeared to belong to the humbler walks of life, but the bride, a buxom young woman, appeared as smiling and happy as if surrounded by all the "pomp and circumstance" of a "marriage in high life."

Ingenuity.—Mr. Joseph J. Daynes is an excellent musician, but his talents are by no means confined to that line. He has a small private printing office, he has made several ingenious improvements in music stools and stands, he has mastered the art of making wax flowers, he has made a peculiar musical instrument, constructed wholly of a number of pieces of hard wood, he colors photographs after a recently adopted method, and has lately turned photographer, taking very good pictures. His mind appears to be of the versatile order.

Frozen to Death.—
SILVER CITY,
Nov. 28th, 1877.

Editors Deseret News:

An old man, apparently fifty years of age, was frozen to death, near Silver City, last night. He was thinly clothed and is supposed to have been under the influence of liquor, as a bottle was found by his side. He has not yet been identified.

District Court.—Wednesday, Nov. 28th.—Walker Bro's. vs. Chas. Pepper; motion for a new trial overruled; plaintiffs, by their attorney, excepted.
J. E. Bamberg et al vs. Geo. Ebel et al; case dismissed on plaintiff's motion.

Re-modelling.—The Twelfth Ward School-house is being remodelled. The basement is being fixed up to be used for school purposes. The main hall of that portion will be 36 feet square, and there will also be a class room 36 by 16 feet. The basement is excellently ventilated, new floors are being put down, and it is expected to be ready for school operations about Christmas.

The interior of the upper or principal part of the building is also being renovated and improved.

Mr. Joshua Midgley has been at work calculating the ceiling and walls, and laying the cornice in delicate shades of color. He has made a very fine job of it.

Sentenced to be Shot.—The following special came by telegraph: PROVO, Nov. 28.

Deseret News:

Salt Lake.

At one o'clock this day, Wallace Wilkerson was sentenced to be shot on December 14th, next, between the hours of ten a.m. and three p.m., in this District. The sentence was impressive, but was received by the prisoner without emotion. When asked if he had anything to say he said he had acted in self-defence, and that his life was sworn away by thieves who were afraid he would tell their secrets. He asked for further time that distant friends might see him before execution.

Troops Gone.—About one hundred men and a number of officers of the Fourteenth Infantry left Camp Douglas this morning for the region of Fort Hall, Idaho, Indian agency. The reason of their going there is in consequence of another Indian outbreak being anticipated. It will be remembered that some time last summer an Indian, in a state of drunken excitement, shot a couple of freighters, near Ross Fork, Idaho. He was not arrested until a few days since, when he was handed over to the Sheriff of Oneida County, who took him to a store in Malad City. While he was there another Indian entered the premises and shot and killed a white man for a revenge, and fled.

In consequence of this killing, United States Indian agent W. H. Danielson, of the Fort Hall agency, became alarmed and telegraphed for troops, the detachment from Camp Douglas having been sent in answer to his request.

Veteran Departed.—Sickness—Dull—Discovery.—Our Kanab correspondent forwards the following, under date of November 16th:

"On the 13th inst., at 8 p.m., an old and respected citizen, Philip B. Lewis, breathed his last. He was seventy-four years old, died from the effects of an attack of bilious fever, was active and energetic as a young man, and made the remark two weeks before his death that he was good for twenty years yet. He leaves a wife and child. He was one of the noblest works of God—an honest man. For the last six months he had been preparing to go to the Temple to work for his kindred, but did not have the time granted to accomplish it. He died firm in the faith, loved and respected by all who knew him. He was a patriarch in the Church, and a man of faith and good works. He joined the Church forty years ago, was well acquainted with the Prophet Joseph, and had labored with him. In the early days of the Church he was chosen as one of the Council of Fifty, and has held many high and honorable positions. He was buried on the 15th inst.

"There is much sickness in our midst, mostly among the adult portion of the community. In the western part of the county, at Rockville and Grafton, the people are afflicted with ague and fever, nearly half of the inhabitants of

these settlements being sick with the malady. The cold weather coming on seems to have a beneficial influence over the complaint.

"Times in this country are very dull. We have plenty to do so we have no time for outside issues. The coming and going of our Arizona missionaries gives us a little change in our dull routine.

"Our weather is exceedingly fine and dry, but very cold and clear at nights. The Fall crops are all in.

"Reports from the different wards in this Stake show that the Stake organization has done much good.

"The people at Orderville have discovered an extensive vein of Fuller's Earth of excellent quality. I understand this article is imported from the east. There is no more need of this importation, as it is easy of access and a good road to ship it on."

City Council.—The Council met last evening, Mayor Little presiding.

A petition was presented from James McKnight, accompanied by a bill for tools and supplies used in connection with the gasoline lamps, amounting to \$62.20. The petition being disrespectful was laid upon the table and the bill referred to the committee on claims.

Barratt Bros' petition for auctioneer's licence for one year from November 3rd, was granted.

Mrs. Elizabeth Proctor, a widow with a large family depending upon her for support, was granted a free license to keep a small store in the Tenth Ward.

The committee on public grounds submitted the following:

Your committee, to whom was referred the communication of Solomon Brothers in relation to the Hot Spring Lake, setting forth that they had occasionally resorted to the lake for the purpose of hunting and boating for pleasure and recreation; that Malcolm Macduff, Esq., had forbid them going on to the lake unless they paid him fifty cents a day for the privilege; that said Macduff had posted notices around the lake as follows: "No boating, hunting, fishing or trespassing allowed on these premises. Any person found doing so will be prosecuted according to law."

Report that the Hot Spring Lake is within the corporate limits of Salt Lake City, and held by the corporation in trust for the use and benefit of the inhabitants thereof.

That the corporation has never ceded, granted or conveyed to any person, any title to said lake or any part thereof.

That it has always been held as a place of public resort for pleasure and recreation—skating, boating, hunting and fishing, free of charge. (Except so far as temporary privileges have been granted to individuals, to clean off the snow for skating purposes, for which they charge a small fee to skaters.)

Your committee recommend that the Hot Spring Lake be held, and the rights of the people defended, by the corporation of Salt Lake City for the free use and benefit of the inhabitants thereof, for the purposes of pleasure, recreation and amusement.

And for the better protection of the rights of the public, and for the convenience of ingress and egress to and from the lake, they also recommend that the City Surveyor be instructed to survey forthwith a street eight rods in width running north and south, as nearly as practicable, the west line of said street to be on the east margin of the lake, and that the Mayor be authorized to secure the legal title to said street, as provided for by section 76 of the city charter.

The report was accepted, the recommendations adopted and the City Surveyor instructed accordingly.

Council adjourned till Tuesday evening, December 4th, at 6.30 p.m.

Professor.—"In one evening I counted twenty-seven meteors sitting on my piazza." Class expresses great astonishment at the social character of the heavenly bodies.

Correspondence.

The Logan Temple—Mason Work Closed—Condition and Prospects.

LOGAN, Nov. 27, 1877.

Editors Deseret News:

On Saturday, Nov. 24th, the mason work upon the Logan Temple ceased for the season, there having been laid up to that date 2,500 tons of rock, 2,000 bushels of lime, and 325 tons of sand. Fifty thousand feet of lumber has been used, thus far, and the present situation of the building requires quite a quantity more.

The walls of the Temple have been carefully and properly covered with suitable material to protect them from the frost and snow of winter, of which latter we usually have the lion's share.

The other departments of labor pertaining to the building question are being vigorously pushed, at present, and will be during the winter months, which labor consists of quarrying and hauling rock and sand, sawing and hauling timber, cutting and hauling wood for lime burning, &c.

The superintendent, Bro. C. O. Card, has judiciously provided these various camps with comfortable quarters for man and beast, and it is intended, no unforeseen circumstance arising, to have a large quantity of the aforementioned materials on hand in the ensuing spring with which to commence at as early a date as possible the mason work and other labors upon that edifice.

The Saints of the several Stakes who have the work of the building of Logan Temple in hand feel alive to the same, as is evinced by their labors during the past season. A good feeling prevails among them, and an earnest anxiety is manifest for the completion of that house as soon as possible, considering the extent and magnitude of the work.

The weather for the past six weeks has been remarkably propitious for the laying of rock, and continued so nearly up to the time of cessation. All that was expected to accomplish this season has been successfully executed, to the entire satisfaction of Brother John Parry, the master mason in charge.

The people of this northern region have much reason to be grateful for the marked success and prosperity that have attended their labor thus far upon the Temple, no accidents of any consequence having occurred, and the blessing of God has attended them in every department.

The work upon the Utah and Northern R. R. extension is being pushed ahead, several hundreds of men and teams being employed.

The good people of Cache are pursuing the even tenor of their way, no casualties or other incidents arising to disturb the tranquillity of the proverbial quietude of this beautiful valley.

Yours very respectfully,

JAMES A. LEISHMAN.

DIED.

In East Bountiful, Davis County, Nov. 21st, 1877, of dropsy, ROBERT, son of Samuel and Hannah Naylor, born Sept. 5th, 1871.

Millennial Star, please copy.

In the 16th Ward of this city, Dec. 1st, of brain fever JOSEPH E. son of Benjamin and Adelaide Hampton, aged two months and six days, died at 12 m. to-morrow, at residence of parents. Friends of the family are invited.

At the residence of Bishop Joseph S. Tanner, in Payson, U. T., on the 29th day of Nov., 1877, POLLY COOK, aged 80 years, 1 month, and 7 days.

Deceased was born in Warren County, State of New York, Oct. 22, 1797, and was baptized into the Church of Jesus Christ of Latter-day Saints in the year 1833. She was united in marriage to Edward Cook, in 1814, and started with him to join the settlement of the Saints in San Bernardino, California, in 1856. Mr. Cook died on the journey, but deceased reached her destination in safety. In one of the memorable years of the Buchanan war, viz., 1858, she came to this Territory, with the rest of the California Saints, and has since that date resided constantly with the family of Bishop Tanner, in Payson. She was modest and retiring in her disposition; was a sincere, whole-hearted Latter-day Saint; had recently renewed her covenants with the Lord in the waters of baptism, and died with full faith in the promises of a glorious resurrection.—COM.
