FOREIGN.

FRANCE.

\$300,000 Fine—A Denial.

PARIS, 8.—Daniel's printing house in Lille, the largest establishment of the kind in France, has been burned; loss \$300,000.

An anonymous letter, understood to have emanated from the Premier of Italy, Sig. M. Minnelli, refutes Blanqui-Durandouze's charges against the Italian government, is published in Paris and Florence. It denies that the Pope is a prisoner, and declares that the government of Victor Emanuel will faithfully maintain the Papal guarantees.

FACTS AT WORK.

A scheme for a coalition of the Right and Left Centres of the Assembly is progressing. Much depends on the election of the President of the Left Centre at the caucus to-morrow. The coalitionists support M. Christopher, the anti-coalitionists are making for a union of the extreme and moderate Right in opposition to constitutional bills.

Negotiating—Serrano's Plan.

It is reported here that Don Carlos is negotiating with ex-Queen Isabella.

It is said that Serrano's plan for the suppression of the insurrection is to occupy the entire line of the Pyrenees frontier, and, taking the Carlists in the rear, drive them towards the army of General Morones.

FLASHING.

HENDAYE, 8.—Fighting has been going on at Oyarrow since 8 this morning; the firing has been heavy this afternoon.

TURKEY.

Munificence of the Sultan. CONSTANTINOPLE, 8.—The Sultan has given \$100,000 for the relief of the famine-stricken people of Angora; the proceeds of the sum are improving the prices of provisions—reduced, and agriculture is reviving.

RUSSIA.

A Fateful Storm. ST. PETERSBURG, 8.—A violent storm here, last night, did great damage. The tide rose so high that it left many parts partially inundating the lower portions of the city, driving many poor families from their houses; over a thousand persons were sheltered by the police, and public kitchens were opened to feed the sufferers.

SPAIN.

The "Virginia" Affairs—Dissestions Increasing—War Loan.

MADRID, 8.—The minister of foreign affairs has handed Mr. Cushing, minister from the U. S., a note on the Yezidis question, and an amicable settlement is expected.

It is reported that the dimensions in the Carlist camp are increasing.

Bankers here have advanced 150 million reals to the government for military purposes.

GREAT BRITAIN.

The Conservatives Wrangling. LONDON, 8.—A quarrel between the conservative members of Parliament was held last Saturday. The question discussed was on the succession to the Premiership, in case ill health obliges Disraeli to resign, and the result of the discussion showed that the Earl of Derby had a very slender majority, and that the Duke of Richmond or the Marquis of Salisbury would be the choice of the so-called reactionary wing of the conservative party. There was manifested considerable difference of opinion.

Lost his Sight.

Sir John Karlake has become totally blind, caused by overwork; but there is hope that it may prove only temporary.

Relief of Barbarism.

It is hard work to emerge from barbarism into refinement, or even into plain civilization. The old fashion notion was that jurors should be starved into accord; that is, they should be kept out on a case given them, without food or drink, until they agreed. In that case justice depended upon the stomach of a man rather than upon himself. That barbarism still exists in Delaware, where the whipping post is still an institution. In a late case of murder in that State the jury was out fifty-eight hours, casting four of the jurors insisting on a verdict of guilty. The court considered a verdict of not guilty and those four to remain silent. This was done and as the jury was not "polled"—that is, each juror not enquired of if the verdict of the foreman was his verdict—the condition of things was not discovered.

In this case we take into account how seldom one finds even two men who are perfectly agreed upon a conclusion based upon certain facts, it is only a wonder that so many juries agree.

* * * But in late years our judiciary system has been taking on common sense notions and now in civilized States there is a general abhorrence of whipping posts, they do not practice such cruelty to jurors and such indifference to suitors as to starve a jury into an agreement. Delaware might make an improvement in this thing, by having a deputy sheriff with a long pole and a spike in the end remain inside the jury room so as to prevent the jurors from getting into sleep. If one nodded after having been out twenty-four hours, why stir him up with the spiked pole and make him agree with his fellows.—*Cleveland Herald*.

ALL THIS PARADE.—The New York Sun says the principal defense of "Rev." Mr. Glendenning, on trial before his church in Jersey City for the ruin of Mary Pomeroy, appears to be that Miss Pomeroy ran after him and shoved too much partiality for him.

This probably is one of the statements of the lion of Brooklyn, when he said, that the Tilton lamb "sought his society," etc., etc. It also puts us in mind of the fellow that went out into the fields, and saw a sheep, which came after him with open mouth, and he shot it in self-defense.—*Colorado Democrat*.
