

# PREPARING FOR CUBA'S ANNEXATION

## DIABETES

It was not easy for us to believe that Diabetes is curable, until the first case we came in personal touch with was astonishingly convincing.

We were considering the purchase of Fulton's Compounds and were looking for cases to try them out on. One of our number knew Charles A. Newton, the Cardmaster of the S. P. R. R. Co. at Salt Lake City, a very worthy man. He also knew that Newton had Diabetes and was in a hospital in the Capital City, and that his recovery seemed impossible when he last heard from him. A letter was written to Newton that Fulton claimed his Diabetes Compound cured Diabetes and that we wanted to know if our friends in the Newton family would be (Newton) would take it that we would bring him a supply of it. Newton replied to the offer, some four or five months before we wrote him he had heard about the compound, had taken it, that the sugar was nearly out and he was almost well. His complete recovery followed, and he told us S. P. Engineer who had Diabetes and is recovered.

—

Washington, April 20.—A step toward the ultimate annexation of Cuba is embodied in a resolution introduced in the house yesterday by Representative Helm of Kentucky. It provides that whenever a majority of the voters of the island shall vote in favor of annexation to the United States, the territory of the island shall be annexed on such terms and conditions as the proper authorities of both countries may agree upon.

Mr. Helm, in explanation of the resolution, said:

"It is almost certain that the American people, if it ever goes up in Cuba again to insure the stability of government guaranteed by treaty, will be there to stay. This resolution anticipates that event, and indicates the best, easiest and most democratic way of preserving continued amicable relations; and is in accordance with the resolution adopted when the United States became a member of San Fran p., claimed that Cuba must be free. The resolution, if adopted, is simply the extending of an invitation and an expression of welcome to the people of the Cuban republic. In its broadest significance it must be so construed and understood by them, in that it simply addresses itself to the approved judgment of a majority of the legal voters as to whether their best welfare will be best secured by their becoming a general integral part rather than a ward of this government. There is no reason to be a complete absence in the reenactment of any suggestion of coercion or annexation of power; just as there is now not an American soldier on the island. The entire proposition is put up to the sovereigns—the voters of the republic most concerned."

**COL. ROOSEVELT CHANGES HIS ORIGINAL PLAN**

Mombasa, British East Africa, April 18.—A caligraphy has been received here from Theodore Roosevelt changing his original plan not to stop in Mombasa on his way to the ranch of Sir Alfred Pease on the Athi river. Mr. Roosevelt has accepted the invitation extended to him by the Mombasa club to attend a dinner which will stay two days on the coast before going up country. The new house of Sir Alfred's ranch has been completed and Mr. Roosevelt will be entertained in it.

Natives are coming into Mombasa from all parts of the country to witness the disembarkation of "the great white horseman" and his four-in-hand which has caused quite an unexpected end before Justice Platnick. W. K. O'leary, attorney for Mrs. Batonyi, withdrew from the case after Justice Platnick refused to grant him a further delay for the purpose of securing the testimony of Lieutenant Bravano, who is in Arkansas. The court ordered that she answer in the negative to all the charges of improper conduct made against Batonyi by her wife, and left it to the jury to decide whether or not Mrs. Batonyi deserted her husband. After deliberating ten minutes the jury returned with the verdict that the wife did desert her husband. Today's proceedings must be confirmed by the supreme court.

## S.S.S. PURELY VEGETABLE GREATEST OF ALL TONICS

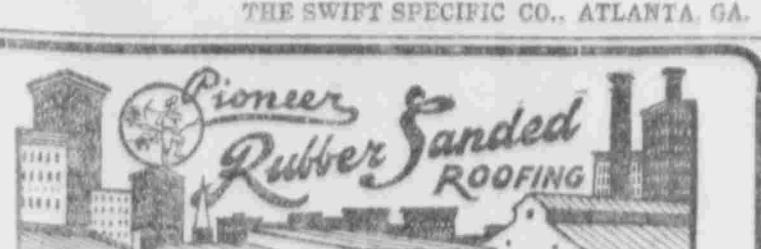

There is scarcely any one, no matter how vigorous and healthy, who does not need a tonic at this particular season. With the first sign of spring-time almost every one begins to feel bad. Some have no particular ailment, but are debilitated, run-down, weak, and their entire system is in a state of disorder. Little physical irregularities upset the perfect working of the blood, the appetite fails, digestion is poor, the energies are depressed, and other unpleasant symptoms give warning that the physical machinery is "out of gear" and needs some healthful, stimulating assistance to build it up to normal, and perhaps ward off some serious sickness or ailment.

This disturbed and disordered condition of health is the result of impure accumulations in the system due to an inactive winter life. The bodily waste and refuse matter is not properly expelled in cold weather, because those members whose duty it is to perform this work of drainage do not receive sufficient stimulation from out-door bodily exercise; they therefore become dull and sluggish in their action; nor is the skin as active in eliminating impurities in cold weather.

These winter accumulations pollute the blood and destroy its rich, red corpuscles to such an extent that when Spring comes, and everything takes on new life, the circulation is so weakened that it is unable to supply the increased demands of the system, and we suffer in consequence.

The healthful, vegetable ingredients of which S. S. S. is composed, and the method of combining and preparing them so that they build up and strengthen every part of the body, make it the greatest of all tonics. S. S. S. is nature's medicine, made entirely of the healing, invigorating juices and extracts of roots, herbs medicine without an equal. S. S. S. has the additional value of being the best of all blood purifiers. It re-establishes the healthy circulation in the blood, rids the body of that tired, worn-out feeling, builds up the appetite and digestion, and insures a return of strength to those whose systems have become weakened or depleted. S. S. S. acts pleasantly and promptly, and any one in need of a tonic should commence its use at once. S. S. S. is perfectly safe for persons of all ages, being entirely free from mineral of every kind. If you have never used S. S. S. a course of it will make you feel better this Spring than you ever felt before, and it will purify your blood and prepare your system for the long, hot Summer months which are to follow. S. S. S. is for sale at all drug stores.

since our first began to sell of the merit of Hostetter's Stomach Bitters, and its ever-increasing popularity proves conclusively that it has been a success and that it has been the means of benefiting thousands of sick persons. It has done so much good that it has become known as the great American home remedy. You'll find it worthy of your confidence after giving it a fair trial, especially when the appetite is poor, tongue coated, bowels inactive and in cases of rheumatism, neuralgia, headache, heartburn and Malitia, our Pioneer Stomach is over the neck of bottles.

KILLED IN COLD BLOOD.

New York, April 20.—John Scott, one of the best boys in Florida in Brooklyn, was shot and killed on the sidewalk in front of his greenhouse at 12th Street and Avenue A. As two policemen approached Alousis Cross, his night watchman, was seen standing over the prostrate form holding a smoking revolver. He admitted the shooting and was locked up. According to Cross he had a grievance against his master for having discharged him.

BAD LUCK OF AVIATOR.

Los Angeles, Cal., April 20.—Vernon S. Griffith, a young aviator, was hurt to the gouty in his right knee when a propeller driven by an automobile, was tilted by an unexpected gust of wind

and smashed against the street curbing.

Griffith has made several successful flights with the Glider in tow of an automobile and once attained a height of 30 feet. He was about 10 feet yesterday when the wind hit him.

The Glider is almost a wreck and it will take about two weeks to rebuild it.

Talk about your breakfast foods, A thousand you can see.

I wouldn't have them as a gift; I have Rocky Mountain Tea.

ALABAMA RATE CASES.

U. S. Court of Appeals at New Orleans Denies Rehearing.

New Orleans, April 19.—The United States court of appeals at New Orleans has denied a rehearing in the railroad rate case of Alabama recently decided in favor of the state. As a result the roads either must begin immediately to try the state rates, or secure intervention by the supreme court of the United States. The state fixes the rates by the bills sustained on 150 commodities and makes passenger fares 25 cents a mile.

FANNY BURK-ROCHE-BATONYI LOSES SUIT

New York, April 19.—Mrs. Fanny Burk-Roche-Batonyi, the daughter of Frank Frank, lost today in her suit for divorce against Aurel Batonyi, the Hungarian horseman and four-in-hand which has caused quite an unexpected end before Justice Platnick. W. K. O'leary, attorney for Mrs. Batonyi, withdrew from the case after Justice Platnick refused to grant him a further delay for the purpose of securing the testimony of Lieutenant Bravano, who is in Arkansas.

The court ordered that she answer in the negative to all the charges of improper conduct made against Batonyi by his wife, and left it to the jury to decide whether or not Mrs. Batonyi deserted her husband.

After deliberating ten minutes the jury returned with the verdict that the wife did desert her husband.

Today's proceedings must be confirmed by the supreme court.

**VENEZUELA RESUMING RELATIONS WITH COUNTRIES**

Washington, April 19.—Gradually the government of Venezuela is resuming relations which were broken off as the result of quarrel with the administration of President Castro. Today word reaches the state department that both Holland and France would send ministers to Caracas.

JULIA HARNED IS REFUSED DECREE OF DIVORCE

Reno, Nev., April 19.—Judge Pike of the Washoe county district court today announced his refusal to entertain jurisdiction in the celebrated proceedings begun last July by Virginia Harned Sothern, the actress, for divorce from her celebrated husband, E. H. Sothern.

Judge Pike's decision, it is conceded, settles beyond question the fact that Virginia Harned Sothern can not secure a divorce from her husband unless either she or her husband comes to the state, and takes up such a residence here as to subject their bona fide side to remain here.

The particular point settled is that on complaint filed by a non-resident plaintiff with process served on a non-resident defendant, who happens to be temporarily in the state, no jurisdiction is claimed for the purpose of allowing a divorce decree to be issued.

Such was Mrs. Sothern's case. She never came to Nevada, so far as can be learned, contenting herself with signing her petition in the east, for which she came to Nevada, where it was an opportunity to serve Sothern while he happened to be in Reno.

Mrs. Sothern relied on a part of the divorce law which allows a decree based on service on the defendant in the county where he "may be found." Judge Pike declares this means "where he may be found as a bona fide resident of the state."

**FOLDING BED FATALITY.**

New York, April 19.—The folding bed accident which used to be common among invalids in the patient beds were not so well constructed as now, causing the death of James F. Mayer, a feather curlier, in Williamsburg yesterday.

During the night the bed began to rise as if pushed by an unseen hand, pinioning both Mayer and his wife despite their struggles and efforts to relieve themselves. A son who heard the noise above, heard his parents' cries and ran to their assistance but before he could extricate them Mayer expired. Mrs. Mayer was taken unconscious. She is little the worse for the experience.

**WHITLA KIDNAPING CASE.**

State Expects to Prove Woman is of a Wealthy Family.

Mercer, Pa., April 19.—That the woman charged with the abduction of little Billy Whitla from Shewell last month is not the wife of James H. Boyle, but the unmarried daughter of wealthy and respectable parents whose character and standing are above reproach, is what the state expects to prove in the approaching trial of the kidnapping case. Detective L. V. Kepner, who disappeared from Mercer immediately after the recent visit of Mr. and Mrs. H.

GEO. W. MCKEEETH.  
50 Second Street, Warren, Ohio.

Last Spring I was greatly rundown in health and had lost a great deal of flesh. Being a horse-shoer, the work required me to stand a long time, which pulled my down and put me in bad shape. I asked my druggist what I should use and he advised S. S. S. and I bought it because it was a pretty good evidence of merit on the part of S. S. S., and as to my appetite, I took it and my appetite was fully built up, and I do not hesitate to give S. S. S. a hearty endorsement.

H. MARTIN.  
1110 Lafayette St., Scranton, Pa.

San Francisco, April 20.—Loisra M. Crabbie, formerly a well known actress, has been awarded a judgment for \$46,544, after years of litigation in the local courts.

The suit was brought against the estate of the late Edwin Fretwell, who had \$26,000 worth of stock in the Western Land company declared the property of the plaintiff. The \$26,000 additional that was allowed as dividends that had accumulated since the suit was filed.

**UP BEFORE THE BAR.**

N. H. Brown, an attorney, of Pittsfield, Vt., writes: "We have used Dr. King's New Life Pills for years and think them such a good family medicine wouldn't be without them." For Children—Constitutional, Billiousness or Sick Headache, they work wonders.

**PACIFIC STATES SENDING FLOUR TO EASTERN MARKETS**

Portland, Ore., April 20.—The Pacific northwestern states are sending flour to the eastern markets, which is almost unprecedented. Several hundred tons have already been sold for transportation across the Rockies and the first shipments are now on their way.

The first lots to go to the new market are started from Spokane and Walla Walla. Four thousand bales of flour have been sold yet to eastern buyers, but it is possible that stocks at Portland and Puget sound points may soon be drawn upon. It is estimated that there is a surplus of fully 60,000 barrels of flour available for this purpose at interior points.

The fact that the easterners are buying in the grain article such as it has been customary to sell the orientals and is for bakers and cracker makers' use.

High grade patent flour is quoted strong in the market. Whether or not there will be a further advance in prices will depend entirely upon the course of the wheat market.

In the meantime Portland will not have dearer bread, as the leading bakers will continue to sell at the old prices.
