

BRITISH KILL 250 TIBETANS.

Did So During Pursuit After Force
That Opposed Col. Young-
husband's Advance.

JONG STRONGLY FORTIFIED.

Every One Approaching the Town is
Fired Upon—Chinese Are
Under Suspicion.

New York, May 11.—Mounted infantrymen returned May 6 to camp on the Karola and reported that they had killed 250 Tibetans during the pursuit after the force that opposed the advance of Col. Younghusband's mission, says a Times dispatch from Gyang Tse, Tibet.

There is some suspicion of collusion between the Tibetans and the Chinese. Two English rifles were recaptured, one of which had been lost by Lieut. Grant at Phari some months ago.

The Tibetans have strongly fortified Jong and opened upon the expedition. Some hundreds have taken residence in the monastery, whence they have opened fire upon the British troops. Persons of importance arrive daily at Jong and Lhasa send telegrams from monasteries and villages in a wide radius.

In the attack on the mission command May 2, which eight servants of the British actually gained the walls. Only their shouting betrayed them in time to prevent indiscriminate slaughter of the post, weakened by the detachment of men for an expedition. The defenders were quickly in position and drove off the invaders. The sick men in the hospital insisted in joining the fighters and gave valuable assistance.

The correspondent adds that Col. Brander's victory at Karola probably will have great effect, but it is clear the Tibetans contemplate a combined effort to exterminate the mission.

MISSION SERVANTS BUTCHERED

London, May 11.—The Times this morning publishes a dispatch from Gyantse, Tibet, which reports the butchering of eight servants of the British mission by Tibetans. The dispatch says that the Tibetans are constantly getting the better arms and ammunition which are manufactured at Lhasa and that it is clear the Tibetans contemplate a combined move to overwhelm the mission.

British Officer Held for Murder.

New York, May 11.—Lieut. Kay and Sergeant Davis of the 13th Cavalry, who were charged with the murder of a British officer, have been held by a British officer, says a dispatch from Barbadoes, B. W. I. The action was the outcome of a coroner's inquest into a row between a British Indian soldier and members of the First Worcestershire in which one West Indian was killed and another wounded.

No New Peruvian Cabinet.

Lima, Peru, May 11.—The transport Constitution will arrive at Callao tonight and will on the day land the remains of President Candamo, which will be in state until Saturday, when they will be removed to the cathedral for burial.

No new cabinet has yet been formed.

Prof. Henry Clark Jackson Dead

New York, May 11.—Prof. Henry Clark Jackson, author of many text books and an assistant corporation counsel of this city since 1889, has been found dead in his apartment here from heart disease. He became, in 1898, professor of Latin and secretary of the faculty of Lehigh university, a post he held for eight years. After taking up the active practice of law in this city he became counsel for many large corporations.

Bondholders to Sue California.

San Francisco, May 11.—Some of the holders of Montgomery avenue bonds are moving to bring suit against the state for the principal and interest remaining unpaid. It has been decided repeatedly that the city is not liable. According to the federal constitution, a state cannot be sued without its consent. By a law passed in 1903, California has given formal consent to have itself sued in matters involving a violation of contract or where negligence is shown. It is under this law the bondholders are to sue. There were \$1,500,000 of these bonds issued in 1873 bearing 6 per cent per annum. They matured last year and the unpaid interest amounts to \$900,000. Holders of \$347,000 are interested in the proposed suit. Many of these securities are held in London and Paris.

Col. Bristol, Retired, Dead.

New York, May 11.—Col. Henry B. Bristol, 83, retired, died at his home here. He was born in Detroit, Mich., in 1838; entered the army under Gen. Lewis Cass, and after the Civil war served in several Indian campaigns.

Domezand Kalbaza Acquitted.

Manila, May 11.—The trials of Dr. Dominguez Gomez and Buenaventura Kalbaza resulted in their acquittal. Dominguez Gomez, a former Spanish officer and ex-president of the Union Labor union, was arrested in September last upon the charge of rebellion and insurrection for inciting labor leaders in the province of Luzon to take up arms against the authority of the United States.

Buenaventura Kalbaza, president of

THE GUARDIAN OF OUR BODY.

The foremost biologist of our day, M. Metschnikoff, has shown the world of science that there are leucocytes in our blood that act as scavengers for poisons. These policemen which are called phagocytes look out for the noxious or poisonous elements in our blood. Various offending elements are picked out by the blood and tissues by these policemen and destroyed. Therefore our lives are protected by these blood-cell policemen, the phagocytes, and we enjoy immunity from disease so long as our blood contains plenty of phagocytes and red blood corpuscles.

A new broom sweeps clean—and in order to keep our blood in order we must get rid of all the poisons in the blood with a new broom such as an alternative extract made from roots and herbs—without the use of alcohol, as Dr. Pierce's Golden Medical Discovery, a specific for poisoning from the blood. In some way the poisons in the blood are increased in number and strength—so that we are put in the best possible shape to resist disease—to cure neuralgia, colds, catarrh, and incipient consumption.

The more study and time is given to the subject the more we find that the blood is the center of life—says Dr. K. V. Pierce, the noted specialist of Buffalo. "The health and comfort of the average person depends entirely on this blood supply—for the heart must have pure blood or it will not pump and keep the body supplied regularly with the beautiful automatic engine it is. The nerves must be fed on pure blood—or we suffer the pain of neuralgia, which is the effect of the starved nerves for food. Head aches, cold in the head, catarrh—and many other things are due to stagnation of the blood."

Dr. Pierce's Pleasant Pellets are a mild laxative. No other medicine equals them for gentleness and thoroughness.

The Nationalist party, was arrested at the same time and held to answer on similar charges of rebellion and insurrection.

Korean Cabinet Resigns.

London, May 11.—A dispatch to the Central News from Seoul announces that the Korean cabinet resigned in a body today as a consequence of the emperor having sharply censured his ministers for neglect of their duties.

DENVER'S MUDDLE.

Election Commissioners Compelled to Obey Mandamus.

Denver, May 10.—In obedience to an alternative writ of mandamus issued by Judge Malone of the district court, the election commissioners today furnished Chairman Hodges of the Republican city central committee with a complete copy of the registration lists. The Republican chairman charged that these lists were being withheld from him.

At the hearing, Harry C. Riddle, the Republican member of the commission, who is in the minority, testified that the registration books had been completed on last Saturday. This was a refutation of the charge by the Democratic members that the work of entering up the books had not yet been finished.

A report, which has a peculiar significance, but which is not substantiated by Adj.-Gen. Sherman Bell, is in circulation tonight. It is that an order will be issued tomorrow for the first registration of the national guard of Colorado to mobilize near Denver for target practice, on May 18, the day before the city election. The cry is heard that an attempt will be made to steal the election by fraud and there are those who believe that if the guard is gathered together so near the city on election day it will be for no other purpose than to answer a call for aid in the suppression of fraud at the polls.

CHINA'S INTENTIONS.

It is to Make Her Own Armory-plate and Steel Rails.

Chicago, May 10.—Viku Lee, Tsun Yuan and Tse Shao Yung, three commissioners of the Chinese government, have arrived here from Peking. They are mandarins of the first class, and have been sent out to investigate the steel plants of America and England. "China intends constructing a plant of her own for the manufacture of armor plate and steel rails," said Mr. Lee. "She already possesses a steel plant near Shanghai, but it is of an old pattern and is not up to date. The new plant will be located in the interior somewhere, exactly where has not been decided. But we want the most improved machinery, the newest models, in order to turn out steel in quantity and of the best quality."

TOOK RED CROSS MONEY.

Gen. Schwedoff Did So Because of Bad Speculations.

Berlin, May 10.—The Post publishes a news agency dispatch from St. Petersburg which says that Gen. Schwedoff lost over \$1,000,000 in speculation in stocks and took the money from the Red Cross treasury. In order to avoid scandal the empress coxswain, who is the principal of the Red Cross society and a friend of Gen. Schwedoff, reimbursed the sum.

The dispatch further says that Prince Galitzin and Count Linsky have also been guilty of irregularities in connection with the Red Cross management.

Indiana for Hearst.

Indianapolis, Ind., May 10.—Democratic leaders are gathering for the session of the Democratic state convention, which will meet Thursday to select delegates to the St. Louis Democratic and Presidential elections. An adjournment will then be taken until July 29, when a platform will be adopted and a state ticket nominated. Of the 547 delegates to the state convention it is estimated from 450 to 500 are for Hearst and the rest for Parker. The party leaders say the convention will instruct for Parker and adopt the unit rule.

Woman's Nature

Is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread.

Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free. THE BRADFIELD REGULATOR CO., Atlanta, Ga.

WENTZ'S BODY TAKEN TO PIECES.

By Physicians and Detectives in
The Course of the Coroner's
Inquest.

NO VERDICT ARRIVED AT YET.

Cause of Death May Have Been
Accidental, Suicide or
Murder.

Bristol, Va., May 10.—The shrunken and decayed body of Edward L. Wentz was literally taken to pieces this afternoon by physicians and detectives in the course of the coroner's inquest, which was begun at 4 o'clock in the dark cavern of Black Mountain and was closed without a verdict by the coming of night. At 7:30 the jury was adjourned until 9:30 tomorrow morning when another session will likely be held at Big Stone Gap and many witnesses will be heard.

A 32-caliber pistol had been found in the body, which might have been discharged from the empty pistol of the same caliber found eighteen feet from the remains. The ball had passed through the fifth rib, entering in front, and had penetrated the heart. Several holes were found in the clothing where other bullets had entered, but beneath the body was intact. A white pearl button, which could not have belonged to the murdered man, was found nearby. Many articles in his pockets were found intact.

At the conclusion of today's inquest it was decided that nothing further could be gained by holding the body here longer, consequently the special train which brought the brothers of the dead man, physicians and detectives to the scene this afternoon, will leave at 4 o'clock Wednesday morning. It was stated today by persons close to the Wentz family that the question of reward will be settled as to the amount and time of payment after the verdict is rendered. There is a great difference of opinion as to the cause of Wentz's death, whether by accident, suicide or murder. Tonight many believe it was suicide.

CHESS TOURNAMENT.

At Conclusion of Tenth Round Americans Were Ahead.

Cambridge Springs, Pa., May 10.—At the conclusion of the tenth round of the international chess masters tournament today Marshall of Brooklyn took the lead by beating Showalter, Janowski not having finished his game with Fox. As this game is at best a draw, Marshall leads Janowski by at least half a point. Lasker remained in third place. The results of the games follow: Napiel and Delmar drew in a Philidor's defense, after 50 moves. Fox and Janowski adjourned a Ruy Lopez after 33 moves, the game being probably a draw.

Marshall beat Showalter in a queen's gambit declined after 34 moves. Pillsbury and Hodges drew a French defense after 40 moves. Barry defeated Teichmann in a Ruy Lopez after 33 moves. Mieses and Schlechter drew a Sicilian defense after 35 moves. Lasker defeated Lawrence in a queen's gambit declined after 34 moves. Teichmann lost to Marco in a French defense after 30 moves.

Protest Against Forest Reserves.

White Sulphur Springs, Mont., May 10.—The people of Meagher county have addressed a petition to the secretary of the interior protesting against the further creation of forest reserves in that county, on the grounds that the range facilities of the county are restricted to such a degree that the stock industry is threatened.

Sen. Clark Entertains Children.

Butte, Mont., May 10.—Senator W. A. Clark, celebrating Arbor day in this city today by entertaining 20,000 children at the Columbia Gardens, his pleasure resort in the mountains about three miles southeast of this city. The army of tots were collected by streetcars in all sections of Butte and given free rides to the gardens.

A Bad Woman Indicted.

St. Louis, May 10.—The grand jury today returned eight indictments against Sophie W. Wren, charging her with enticing young women from Germany to this country for improper purposes. The woman, who has been twice arrested on the same charge, said when first taken into custody Saturday that the girls were brought to this country by her to serve as waitresses in a garden for the world's fair concessionaire. She now says she had nothing to do with bringing them to this country.

Palmer House Changes Hands.

Chicago, May 10.—After nearly 40 years the Palmer House has passed from the hands of the Palmer family into the control of the Chicago Hotel company, recently incorporated. Mrs. Potter Palmer and the other heirs to the estate will have an interest in the corporation.

The transfer of control of the hotel itself in no manner affects the real estate. The company merely leases the hotel. Its officers are Willis Howe, president, and Edgar C. Dexter, a distant relative of Potter Palmer, who is secretary and treasurer. Both have been connected with the management of the hotel for a long time.

From Stanford to Cornell.

Stanford University, Cal., May 10.—Prof. Albert William Smith, head of the department of mechanical engineering at Stanford university, has resigned from the faculty to accept the position of dean of Sibley college of mechanical engineering at Cornell university.

Oelrichs Thrown from Bicycle.

San Rafael, Cal., May 10.—Herman Oelrichs was thrown from a bicycle late this afternoon and severely injured about the head. Oelrichs was riding near his country home in Ross valley, Marin county. A large dog ran out and attacked him. He was riding quite rapidly at the time and his wheel struck the dog, throwing Oelrichs with violent force to the ground.

GERMAN ART FACTIONS.

Impressionists Resent Emperor's Preference for Classical School.

Berlin, May 10.—The rechristening again intervened in the long quarrel of the German art factions, which the preparations for the art exhibit at the St. Louis exposition forced upon public attention. The impressionists

The amount of energy
in a food doesn't count
so much as the amount
you can get out with the
least effort.

"FORCE" is easily
digested, and it is likable
beyond description.

Sunny Jim

have always bitterly resented the emperor's partiality for the classical school, but lacked the occasion to appeal to the rechristening until, as they claimed, the action of the government in their participation in the St. Louis exhibit imposed.

There have been many debates in the Reichstag on the subject, but until today no opportunity was found for action. A resolution adopted almost unanimously demands that the emperor's representatives be expelled from the Reichstag according to just principles.

Deputy Arenst circled the sending to St. Louis of a picture by Franz Stuck after the Reichstag had refused to allow it to be hung in its precincts.

Count von Posadowsky-Wehner, the home secretary, answered almost laughing that the picture cost \$7,500, and he hoped it would find a purchaser in the United States. Count Orlova thought that the fact that only seven of the 36 pictures taken from the galleries and sent to St. Louis were of the emperor's family, proved that the government had not been successful in filling the vacancy caused by slighting the impressionists.

FEARS AMERICANISM.

Pope Will Send Satolli to Make An Investigation.

Rome, May 10.—The Tribune today says that the pope is sending Cardinal Satolli to the United States for a thorough inquiry into Catholicism there, the Vatican fearing a revival of Americanism. "Nine archbishops of the United States have informed the Vatican that it is impossible to apply to America the rules laid down by the pope with regard to the Gregorian chant, as the suppression of female singers in churches is contrary to American training. Cardinal Gibbons indorsed this statement."

"Cardinal Satolli also is charged with the task of settling the affairs of which the Associated Press is authorized to deny any statement tending to convey the impression that Cardinal Satolli is going to the United States with an avowed or a secret mission. The cardinal will leave Rome May 27 and his visit will be made merely to accept invitations of his many friends there to revisit the United States, of which he retains delightful remembrances."

THE VICKSBURG'S ACTION.

Official Reports Refutes M. Pavloff's Assertion.

Washington, May 10.—The attention of the bureau of navigation of the navy department today was called to the official report of M. Pavloff, attaché naval at St. Petersburg, of the Vicksburg's refusal, after the engagement at Chemulpo, to take aboard his vessel wounded men from the Russian warship Varyag. The attaché, who is a complete rebel, in a communication to the bureau produced the following extract from the report of Commander W. A. Marshall, commanding the Vicksburg at Chemulpo, which the officials regard as a complete rebuttal.

"About 12:30 p. m., Feb. 3, both vessels (Korietz and Varyag) headed in toward their anchorage at full speed, and they approached each other within 400 yards to the northward and westward of the Talbot, with the Elba about 600 yards to the southward of her."

"In the morning that she had quite a number of wounded men, I sent our medical officer on board to render assistance."

"100 dozen Ladies' white, low neck, sleeveless Union Suits, with cotton loop trimmed, tape drawn neck and arm-holes, all sizes, best 50c grade; special 25c all this week at 25c."

"20c Vests for 10c."

"Ladies' white, low neck, sleeveless Vests, with loop trimmed, tape drawn neck and arm-holes, all sizes, a splendid 20c quality, our this week's leader 10c."

"Best 40c Vest for 25c."

"Ladies' extra fine Lisle Thread, low neck, sleeveless Vests, trimmed in French Valenciennes Lined in the arms and armholes, all sizes, the best Underwear 25c value on record, at 25c."

Suffering

Will Not Help Your
Disease, but Will
Weaken Your
Nerves.

Folk who think it is better to bear pain than soothe it—are wrong. Old-fashioned doctors used to say it was better, because they had nothing with which to ease pain but dangerous, head-aching drugs.

But now, that a safe remedy has been found, Dr. Miles' Anti-Pain Pills, it is wrong to suffer, for nothing can be gained but weakened nerves.

A safe rule to remember is: When in pain, take an Anti-Pain Pill.

This will soothe your quivering nerves. Dr. Miles' Anti-Pain Pills relieve pain by restoring the natural functions, in which they differ from opium and similar narcotic drugs, which relieve pain by checking the action of the glands.

They are sure and harmless, and are the latest medical treatment for the cure of Headache, Neuralgia, Backache, Rheumatism, Dizziness, Stomachache, Menstrual (Monthly) Pains. Also nerve irritations like Sea-Sickness, Car-Sickness, Sleeplessness, Indigestion, etc.

Pleasant to take, quick in results.

Free Write to us for Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also Symptom Blank. Our Specialist will diagnose your case, tell you what to do, and how to get it. Free. DR. MILES' MEDICAL CO., LABORATORIES, ELKHART, IND.

distance. The same was done by the Talbot, Elba and Paeval, a little later on, on its being reported that the Varyag was in a sinking condition, two of our cutters and the whaleboat, with boats from the other cruisers, assisted in taking off her personnel and putting them on board the Talbot and Elba. Two Russian officers (engineers) were brought on board the Vicksburg and taken care of for some time, and on my offering to have the Varyag used as temporary quarters they were taken to the Elba, where their captain detained them and declined my offer, with thanks.

It is pointed out by the chief of the navigation bureau, that the Varyag, which was tendered as a hospital ship, is a roomy naval transport and was much more suitable for the accommodation of the wounded than the little Vicksburg with her cramped quarters.

BET SUGAR INDUSTRY.

Great Increase in the Number of
Factories in United States.

Washington, May 10.—A report on the progress of the beet sugar industry in 1903, prepared by the department of agriculture, shows there has been an increase in the number of beet sugar factories in the United States from 23 at close of 1902 to 36 at the beginning of 1904.

According to the report the beet crop of 1903 amounted to a little more than 2,000,000 tons, harvested from 242,575 acres, the average yield being about eight and a half tons to the acre. The price received for beets ranged from \$4.50 to \$5.00 per ton, the average being nearly \$5. The average gross returns were \$25.50 per acre. The estimated cost of growing beets by irrigation is \$40 per acre, and in sections where irrigation is not necessary, \$30. In some of the sugar beet areas the returns were very much higher than this general average. Many farmers have cleared from \$25 to \$50 per acre. The amount of sugar made from the beet crop of 1903 was 289,004 tons, as compared with 215,405 tons from the crop of 1902, and 181,055 tons from that of 1901.

BATTLE OF THE YALU.

Official Report on the Casualties
Sustained by Either Side.

Antung, May 6, via Seoul, May 11.—An official report of the casualties at the battle of the Yalu shows a list of 31 Japanese officers killed and 29 wounded; 160 men killed and 666 wounded. On the Russian side, 1,365 men were found dead on the field, 4,150 wounded are in Japanese hospitals, and 128 men were taken prisoners.

Most of the Russians who surrendered at Antung, west of Chiu Lien Chong, where the Japanese charged the Russian rear guard, were wounded.

The Russian soldiers who have since died in hospitals are buried on a hill top near Antung and were followed to the grave by a Japanese guard of honor and the staff officers. A Danish Lutheran missionary, the only foreigner living at Antung, read the funeral services over the remains.

The captured Russian munitions of war being brought into Antung include 30 field pieces, 10 machine guns, much small arm ammunition, 20 transport wagons, two ambulances and band instruments, the latter perforated with bullets. Most of these things were abandoned in the precipitate flight of the Russian troops.

SWEETSER, PEMROKE & CO.

Firm Adopts a Policy of Gradual
Liquidation.

New York, May 11.—One of the great drygoods jobbing houses in the country, Sweetser, Pembroke & Co., of New York, has adopted a policy of gradual liquidation.

A meeting of the directors just held,
