

CHUNG SIN GOES ALL TO PIECES

Occasion Was Entrance of Expressman Who Carried Trunk With Elsie's Body, Into Cell.

IDENTIFICATION WAS POSITIVE

Chinaman Protested, "All Mistake, Never See You Before"—But He Shook In Fear.

New York, June 30.—The complicity of Chung Sin, once the roommate of Leon Ling, who is wanted for the murder of Elsie Sigel on June 9, went all to pieces this afternoon when Arthur Logan, an expressman, walked into the cell where Chung Sin is held and shouted:

"Hello."

Logan is the man who carried the trunk containing the girl's body downstairs from Leon Ling's room on the day of the murder. He has told the police that Chung Sin is one of the men he saw on the top floor of the house. Chung, on the contrary, has sworn by his ancestors that he neither saw the trunk packed nor moved.

"You are the man," Logan said to Chung Sin today, "who told me to take the trunk downstairs with you in the room, the same fellow that came over to the office half an hour before to give me the order to call for the trunk."

"All mistake," protested Chung, "never see you before."

The Chinaman's voice broke and he shook as if in fear as Logan was led out, still positive in his identification.

Chung was not kept waiting long before he had another visitor—this time Martin Luria, the chauffeur who drove a Chinaman and a trunk from a Harlem laundry to the chop suey restaurant in New York on the morning of June 10. The police had adopted the theory that Chung Sin might have paid the fare and not Leon Ling. But Luria could not identify Chung Sin, and he believes it was Leon in his taxi.

A letter from Chung Sin written since his arrest to the Society of the Four Brothers, was today translated for the district attorney's office. It protests that the murder was done by one man, and that therefore only the murderer should be held, denounces the authorities and implores the aid of all members in freeing him.

The police believe little reliance can be placed in any of the various rewards and offers of co-operation promised by the clans of Chinatown. According to Dist. Atty. Jerome today wrote John Endicott Gardner of the University of the Pacific at San Jose, Cal., requesting his cooperation in the case, as a trustworthy interpreter.

WANTS INTERPRETER. HELP.

San Francisco, June 30.—John Endicott Gardner, to whom the New York authorities have addressed a letter asking him to go east to assist in running down Elsie Sigel's murderer, is an inspector in the Chinese division of the immigration bureau in this city. He has made a life study of Chinese languages, and is familiar with most of the dialects. He is connected with the University of the Pacific only in an honorary capacity.

Mr. Gardner said today that compliance with the request of District Attorney Jerome would depend upon the department at Washington.

LITTLE GIRL STOLE BABY BECAUSE SHE LOVED IT

New York, July 1.—Alice Holzer, the 13-year-old daughter of Mrs. Agnes Holzer of St. Louis, who is visiting relatives here, was the cause of such excitement in the Bronx yesterday that it was not until today that the population recovered itself. Alice's fondness for babies is so strong that she saw a pretty little infant in a baby carriage in front of a store in the Bronx and she walked off with the vehicle and the baby. When the mother came out of the store she set up a cry that

her child had been kidnapped, the neighborhood was aroused and police reserves from several stations were put on the case. Newspapers published extra editions, detailing reporters on the case. Before the day was over, hundreds of men and women became volunteer searchers and even baby and its possessor was scrutinized.

Later in the evening Alice Holzer was found by a woman who had read the papers, at a point far removed from where the child was taken. Alice could not explain why she had taken the baby, except that she had always wanted one and her father had jokingly said he would steal her one some time.

PROPER TREATMENT FOR DYSENTERY AND DIARRHOEA.

The great mortality from dysentery and diarrhoea is due to a lack of proper treatment at the first stages of the disease. MORE BEER DRUNK IN MISSOURI THAN EVER

St. Louis, July 1.—Although more than 80 Missouri counties are dry and the Sunday closing laws are enforced vigorously, the month of June just closed shows greater consumption of beer than any corresponding month since the creation of the office of beer inspector eight years ago.

The report of State Beer Inspector Ernest Marshall, will be received by State Treasurer Sowell today with the receipts of \$43,385. Only \$41,494 was taken in during June, 1904, the world's fair year. No June until now has equalled the receipts of that one. The wholesalers have done a big business in dry counties, many consumers buying beer by the barrel and whisky and wine by the case where formerly they bought the drinks as they wanted

them. No check is kept on the whisky and wine sold in Missouri, the inspection being confined to beer.

BURGLAR KILLS POLICEMAN.

Chicago, July 1.—Policeman Henry Schnade was killed early today by a burglar who was attempting to arrest. The burglar, who is thought to be a Negro, was forcing an entrance to a store at Wabash avenue and Thirty-fourth street, when surprised by the policeman. In an exchange of shots the policeman was wounded, dying a few minutes later. His assailant, who escaped, also is thought to be wounded.

LIFE 100,000 YEARS AGO.

Scientists have found in a cave in Switzerland bones of men, who lived 100,000 years ago, when life was in constant danger from wild beasts. Today the danger, as shown by A. W. Brown of Alexander, Me., is largely from deadly disease. "If it had not been for Dr. King's New Discovery which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough." To cure Sore Throats, Colds, obstinate Coughs, and prevent Pneumonia, its the best medicine on earth, 50c and \$1.00. Guaranteed by Z. C. M. I. Drug Dept. 112-114 Main Street, Salt Lake City. SUCCESSFUL CURE OF SPINAL MENINGITIS

Chicago, July 1.—The first entirely successful cure of spinal meningitis ever recorded in Chicago became a matter of fact yesterday when Edward Herzog, 2½ years old, was able to leave his bed, where he had been confined four weeks, and walk out of doors, pronounced cured.

The child was saved as the result of the discovery of a new serum by scientists in the new Rockefeller Institute at New York, which was founded a short time ago for the purpose of searching for and perfecting a cure for spinal meningitis.

NURSE WEDS PATIENT.

Pittsburg, July 1.—While a nurse supported him in his cot at the Allegheny general hospital, Louis Behl, aged 21, was married last night to Miss Lena Gottmann. The wedding had been planned to take place at the bride's home, but a week ago Behl took violently ill. The bride insisted the

wedding should go on and last night's ceremony was the outcome.

CHARGED WITH INGRATITUDE

Chicago, July 1.—That the Salvation Army be requested by the members of the Liquor Dealers' association of Illinois not to send the Salvation Army women into their saloons to solicit funds is suggested by Fred Rhode, president of the association. In a report which he has submitted to the association, "The reason given by President Rhode was the 'gross ingratitude' displayed by the Salvation Army in allowing its members to take part in a temperance parade last fall, the report declaring that members of the Salvation Army have no right to enlist under the prohibition flag and continue to invade the saloons soliciting funds."

WILL CELEBRATE 105TH BIRTHDAY JULY FOURTH

New York, July 1.—Joshua Zeitlin, living in Brooklyn, is preparing to celebrate his one hundred and fifth birthday on July 4. He is in good health and says he will live to be 120. Mr. Zeitlin does not attribute his longevity to abstaining from liquors and tobacco as many centenarians do, but on the contrary, drinks half a pint

of whisky daily and six glasses of beer and smokes a pipe regularly. He has one son 70 years and his youngest "boy" is 45 years old.

STARVED TO DEATH.

Is what could truthfully be said of many children who die. They have worms, poor little things—they don't know it and you don't realize it. If your child is cross, fretful, noisy, capricious and loses weight for no apparent reason, give it White's Cream Vermifuge; you will be surprised at the results and how quickly it picks up. PETROSINO'S ASSASSIN SAID TO BE UNDER ARREST

New York, July 1.—A man believed to be Fazio Camillitti Domenico, the alleged assassin of Detective Joseph Petrosino at Palermo, Sicily, is under arrest in Mexico City, according to advices received by the Herald. That Domenico had been in prison there for a week developed in the Mexico City police court when an official assertion was made that requisition papers for his return to Italy were on their way to Mexico. Until then the Mexican police had kept the fact of Domenico's arrest a secret.

At police headquarters in this city it was said today that the man in Mexico City had not been positively identified, according to the police advices, and further than the description they had no way of determining if he was the man sought.

BREAKFAST IN A BALLOON.

New York, July 1.—A piping hot breakfast 10,000 feet up in the air was the novelty enjoyed by A. Holland Forbes, acting president of the Aero Club of America, and his guests, Herbert and Mabel Lippner, novelists. They are back in New York after a remarkable flight in Mr. Forbes' balloon from Pittsfield, Mass.,

to Fairfield, Conn., on Tuesday night. After being entranced by their all-night journey over the moon-lit country, they attained an altitude of 10,000 feet to witness the sunrise on the Atlantic ocean, and at that distance over the earth they heated coffee and prepared eggs and toast for breakfast over an alcohol stove.

PRISONERS ESCAPE THROUGH CHARGED WIRES

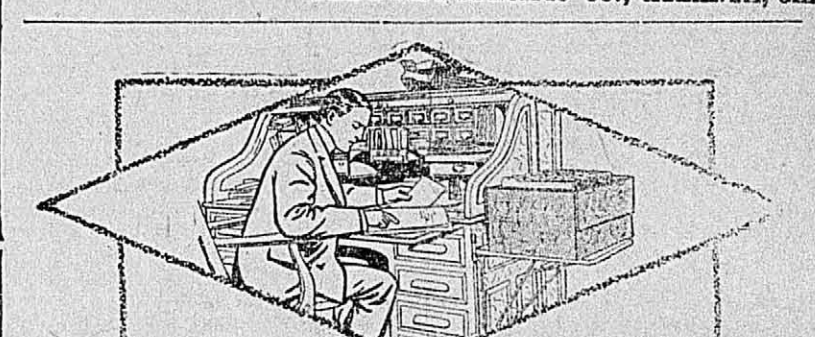

New York, July 1.—That a heavily-charged criss-cross of electric wires from the principal prison wall restrains the many military prisoners at Fort Hancock, on Sandy Hook, has come to light by the escape of two prisoners. The convicts were recently taken to Fort Hancock from the federal prison at Leavenworth, Kan., to finish their terms. They escaped from their new prison late last night and in some manner, which will cause an investigation, they successfully made their way through the network of copper wires surrounding the prison and which carry about 4,000 volts. Had either of the men touched one of the wires with his bare skin, he would have been instantly killed.

Scouting parties sent out for the fugitives found them hiding in a sandpit at quite a distance from the prison, and they were easily captured. It is believed that they had insulated themselves with heavy clothing and gloves before attempting to run the blockade of electric wires.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S.S.S. thoroughly cleanses and renovates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead of a sour, weak stream, depositing acid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures Rheumatism. S.S.S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.
