FROM MISSIONARY FIELDS.

New Zealand Mission.

Tokaru, Bay of Islands Dis.
October 29, 1898.

To the Editor:

I have been requested to send in the following report of a very successful conference, held at Tokaru, Bay of Islands Dis.

We were favored with a visit from our worthy presidents, Elder Joseph Kendall, Hyrum Wright, and secretary of the mission, Elder H. T. Judd. The following Elders were present: M. R. Andrus, of T. Duncan; G. S. Cannon, J. C. Thompson, H. B. Adams, L. H. Robinson and D. Hoth.

I may just state that on the evening of the 27th, just prior to the conference, we were favored with a concert, and had a very pleasant time. The following took part: Hyrum P. C. Young, a native of Utah; Jens Smith. After conference we were requested to go to the house of Elder A. L. Skeen to tea.

We Elders and a number of Saints were invited to remain and spend the night and next day. The meeting for the benefit of our time was likewise a treat to the Saints, and we were all very much benefited and edified by the remarks made.

All in all, the social affairs of a conference of this kind are a great benefit to the Saints and Elders. The visit of the presidents of the mission was very timely, and we appreciate their counsels very much. Everyone here seems to be in the best of health and spirits. "Have we seen any miracles?" Many from the outside world would ask. Those among whom we labor have seen many such. Many have been healed from a variety of diseases, and many have been blessed in a manner not understood by the world. Elder Hyrum P. C. Young, a native of Utah, was taken very sick with typhoid fever while on a visit to Auckland, and died, when Elder Judd administered to him, and he was restored to health. Elder Judd also administered to Lorena Ngati from Akaroa, who was very sick with typhoid fever, and she was restored to health. Elder Judd also administered to Parewai Ngati, Joseph Smith, Hyrum P. C. Young, John Taylor and Wilford Woodruff, and they were healed. Elder Judd also administered to Hemi Ngati, who was very sick with typhoid fever, and he was restored to health. Elder Judd also administered to Parewai Ngati, who was very sick with typhoid fever, and she was restored to health
