Consecration and benediction. President Horace H. Smith of the state union has expended much time and labor in correspondence and post-age in preparing the above program, and expects a very interesting time at the convention. An effort will be made

to secure extra speakers from among noted eastern preachers and laymen who will on May 17 be passing through en route to attend the annual general assembly of the Presbyterian church at Los Angeles; and if men like Rev. Dr. Parkkurst of New York could be secured to speak, or President J. H. Con-verse of the Baldwin locomotive works, the convention would be greatly en-livened. At all events a large delegation is expected from over the state There has been considerable of a gain

There has been considerable of a gain in general membership, but no gain in number of societies. The most prosper-ous society in the state today, is claimed to be the state prison society, which has remarkably active officers, and has scored an increase of member-ship of 50 per cent in the last year. Rev. P. A. Simpkin told the soldiers at the fort last night, that the State Prison society was the best society in the state.
