ARE CONSOLIDATEDArticles of \$4,000,000 Company  
Filed With Secretary of State.

## OFFICERS AND DIRECTORS.

All Ten Shares Represented Among  
the Incorporators—Number of Valuable  
Properties Taken Over.

The articles of incorporation of the Consolidated Railway & Power company were filed with the secretary of state yesterday afternoon. The articles for filing amounted to \$1,000. As has been stated heretofore the capitalization of the big transit company is placed at \$4,000,000, divided into 40,000 shares at the par value of \$100 each, and the officers of the company are: G. C. Road, president; W. P. Read, vice president; and Joseph S. Wells, secretary and treasurer. These officers in addition to E. V. McCune and E. M. Blacklock are named as directors for the first year, or till the first stockholders meeting on the third Monday of June of next year.

The articles of incorporation set forth the names of the incorporators: Joseph S. Wells, E. V. McCune, E. M. Blacklock, W. P. Read, E. B. Critchlow, Spencer Dawson, C. L. Road, G. S. Gannett, E. Calvin and E. W. Wilson. Each of these gentlemen got one share, making a total of all of the par value of \$1,000.

The object of the new company, according to the articles, is the "improvement, holding, maintaining, operating and extending" the lines which heretofore came under the control of the Rapid Transit and the Salt Lake companies. These properties are incorporated in the papers as follows: Salt Lake City Railroad company line, 21.91 miles; East Bench Street Railway company line, 1.35 miles; Poplar Street and Port Douglas Rapid Transit company line, 1.472 miles; a total length of the lines, including double tracks, switches and sidings, 22.837 miles.

The board of directors of the new company were to have held their first meeting in the Hooper building at 4:30 o'clock this afternoon when a portion of the future policy of the company will be outlined.

## WILL INSPECT UTAH FISH.

Superintendent of Fish Commission  
Talks of the Finny Tribe.

Eugene A. Tullan, superintendent of the United States Fish Commission, is in the city having come to Utah to see how the eastern fish that have been shipped here are thriving in the Utah streams and lakes. Mr. Tullan says that so far as he has heard the rainbow and speckled trout and the black bass have done well. The white fish brought here four years ago from the Great Lakes, are, perhaps, not doing so well in Utah lake because of the shallowness and warmth of the water. But he says that the white fish have done well in the lake and other northern lakes where the waters are deeper and cooler. Mr. Tullan says that the yellow catfish is a very desirable fish and ought to be well in this country.

## MAN AND BOY IN RUNAWAY.

John J. Hottling Thrown Into the Street  
and Ran Over.

John J. Hottling, who is employed at the James Plumbing company, was thrown from a wagon in a runaway yesterday afternoon and severely hurt. The accident occurred near North Temple and Second West streets, and after being pitched into the street the vehicle passed over his body.

Hottling had some work in the vicinity of the accident and was driving back home in company with a little boy when the hold-back strap, which harness broke and the wagon rolled over on the horse's heels. That frightened the animal and caused it to start down the street on the dead run. Hottling tried to hold the horse, but it was impossible. He saw that the animal was making directly for a freight train that was crossing North Temple and he was violently on one line to turn the horse to the right the wagon was thrown off, taking Hottling and the boy with it. The youngster fell clear of the wheels and was run over. When some men who were nearby reached him he was unconscious, and they thought at first he was dead, but Dr. Beer was called and he was revived. Hottling was lying on Second South street, in his rig, it having been caught. He received some severe bruises on the limbs and one shoulder was sprained, but he will be able to resume work in a day or so.

## FAMILY LEFT DESTITUTE.

Arnold Von Hoke Has Not Written His  
Family for a Month.

Arnold Von Hoke, who formerly lived at 564 east South Temple street and who is a painter by trade, left the city some time ago for Butte, Montana. For a month past he has failed to write to his family or send any money for their support. Their condition has become more destitute all the time until they have had to abandon their home on South Temple, and go to live with Mrs. Von Hoke's brother in another part of the city.

Mrs. Von Hoke has written several letters to her husband at Butte and she therefore thinks her husband is still in Butte. She has written to the chief of police of that city informing him that when she last heard from her husband his address was 61 West Broadway in that city.

## SCANDINAVIANS MEET.

Members of Viking League Assembled  
Last Night—Accomplished Nothing.

In order to, in some way, settle the rift between its factions, members of the Viking league held a meeting in one of the basement rooms of the city and county building last night. Nothing definite was accomplished. It was held that the intention before the meeting was to expel President J. R. Mattson and A. F. Lawson from the league, and re-organize under the name of the Scandinavian-American club. This was not done.

After some conjecture as to what the

meeting had been called for President Mattson took the chair and announced that he was ready at any and all times to answer any charges against him, but that he deemed the meeting irregular and declared that he could not be expelled except at an authorized meeting. A motion was made to adjourn, and the meeting broke up, several leaving and several remaining.

J. O. Nyström was called to the chair, after part of the members had gone, to preside over a meeting of the new organization, the Scandinavian American Republican club. A motion was made that the club proceed to the election of officers, but the motion was lost and the meeting adjourned without any action whatever being taken.

## LABOR DAY PREPARATIONS.

Grand Spectacular Parade in the  
Forenoon and Lagoon in Afternoon.

The general labor day committee held an animated meeting at Federation hall last evening and succeeded in adding an impetus to the preparations for the coming celebration. The program is nearly perfected and assurances have been received from twenty of the unions in the city that they would be represented in the parade with floats, and that every labor organization in the city would be in the line of march bedecked in uniform. The unions from Ogden, Pocatello, Evanston and other points have sent word that they will heartily co-operate with Salt Lake and make the occasion, gala day indeed for labor.

All the railroads will make a half-fare rate and this ensures large delegations from Park City, Brigham, Eureka, Murray, Sandy and other near points. The parade in the morning will be a pleasant like of which was never seen in this city on any Labor day. Nearly every hand in the state will be in line and a demonstration will be made that will never die out of the memories of those who will be fortunate enough to witness it. A sub-committee on finance was appointed last evening composed of John Osborne and Dan Elton.

The decision to spend the afternoon at Lagoon is definite. At the resort a fine program of speeches and sports will be given, including a league game of baseball.

## A NOTED TRAVELER.

A. F. Lundquist on His Way to the  
Philippines.

A. F. Lundquist of Chicago, a noted Swedish traveler and writer, is spending a few days in Salt Lake City and is a pleasant addition to the city. Lundquist is gathering data for a book that he will publish in Sweden next year. It will be his "Reminiscences of America." From here the gentleman will go to the Pacific coast and from there he anticipates going to the Sandwich Islands and the Philippines. On his return trip he will visit Cuba. From there he will go to his native land. Mr. Lundquist says he came to Utah with many erroneous notions of the people here, but he leaves with the very best impressions. He admires the genius that is evident everywhere in the building of this prosperous state. Mr. Lundquist speaks several languages and understands eleven. He has visited Germany, France, Turkey, Spain, Italy and Switzerland before coming out this way.

No External  
Symptoms.

The blood may be in bad condition with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an insupportable weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.

"My wife used S. S. S. as a blood purifier and it worked up a weak and ailed system, with a marked effect by way of improvement. We regard it a cat tonic and blood purifier."—J. F. Duff, Jackson, Mo.

S. S. S. is the greatest of all tonics, and you will find the appetite improves at once, strength turns, and nervousness vanishes as new pure blood once more circulates through all parts of the system. S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free booklet on blood and skin diseases and write on physicians for any information or advice. No charge for medical advice.

## CUP COMMITTEE SO DECIDES

Old Boat Has So Far Shown Better  
Qualities Than New One—Sham-  
rock May Win.

New York, Aug. 10.—Reports having been received in this city by cable message to the effect that Thomas Lipton had information that the Columbia would defend America's cup against the Shamrock II, a reporter for the Associated Press was informed that, although the trial races between the Constitution and the Columbia will not be held for three weeks, a majority of the cup committee has agreed that unless alterations now under way make the Constitution a much improved boat it would be inadvisable to select her as the cup defender.

J. Pierpont Morgan, being asked if he had heard of the cup committee's views, said:

"It is absurd to talk of this before the trial races. I decline to say anything further."

## TEACHERS AND COLLEGE MEN

Praise and Recommend Pe-ru-na.

Hon. J. A. Simpson, Secretary of the Board of Education of San Francisco, Cal., writes:

"I have found Peruna an ideal tonic. Some months ago I suffered with neurasthenia (systemic catarrh), caused by too close application to office work. My system seemed worn out and I felt far from well. I found Peruna benefited me very much. It built up the entire system and made me feel like a new man. I believe it is well worthy the high praise bestowed upon it."—J. A. Simpson.

Systemic catarrh always gives fair warning of its approach, and can be easily warded off by the proper treatment. Floating brown specks before the eyes, mental confusion, fits of nervous headache, sleeplessness, flashes of heat, chilly sensations, palpitation, irritability, despondency, any of these symptoms or all of them should be promptly met by the use of Peruna.

## A Traveler's Letter.

J. Edward Clark, 409 Temple street, Los Angeles, Cal., writes:

"I fully believe Peruna saved my life. About two years ago after returning from Alaska I was taken with catarrh of the stomach and in fact of the whole system. My stomach failed me, as nothing I ate seemed to do me any good, but always gave me pains and belching of gas. My kidneys got sore and weak, I had palpitation of the heart, my lungs were sore, and it was difficult to draw a long breath. I also had fainting spells, and while walking was afraid I might fall to the sidewalk. I also had to get up at night and sit in a chair to keep

from smothering. My legs and arms pained me most of the time, my feet were cold on the hottest day, my tongue was coated, I had chills from my head to my feet. I was weak and had very little life and everything looked dark to me, and often I wished for the end.

"I took all kinds of medicine—do not think there is a drug store in this city that I did not get some truck from. I also used vapor baths, doted, drank all the mineral waters, had many consultations with two of the best doctors of this city, used their prescriptions, but all seemed of no use.

"After months of this kind of work I fully made up my mind to try Peruna, and thank God for it, as I had not used over two bottles until I felt a change, and have been getting better ever since, and now I am well and strong. All my friends tell me how well I look. Let me say to those who are sick, try Peruna if you have any of my symptoms; it will cure you. Don't expect to be cured by one bottle, but stick to it until cured."—J. Edward Clark.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.
