

Ute Indian Delegation Perfectly Satisfied With Secy. Hitchcock's Assurance.

## **GIVEN FIFTEEN DOLLARS EACH.**

This Greatly Pleased Them-"But You Must Not Go into Bar Rooms Or Low Dives."

(Special to the "News.") Washington, D. C., March 22 .-- The final conference between the Utah Indians and the officials of the government, respecting the opening of the Uintah reservation was pulled off today with Secy, Hitchcock. The conference resulted in a love feast and the pipe of peace being smoked. The Indlans withdrew from the august presence of the secretary of the interior satisfied that the rights of the Indiana would be protected by the general gov-

would be protected by the general gov-ernment. Possibly as much as any one thing conducive to the general air of satis-faction which showed on the faces of the red men was the announcement made by Secy. Hitchcock that he had approved the order giving each of the 11 Indians included in the delegation of Uintain White river and Uncom-phagre Utes \$15 spending money. There were loud grunts of pleasure over this statement. "But you must not go in harrooms or low dives," said the sec-retary, "You have conducted your-selves with much decorum since you have been in Washington, and I hope this spending money will not be your undoing." This was sanscrit to the In-dians, but it sounded good, and loud "Ughs" went round the circle. As a result of the conference it was agreed that the Uncomphagre Indians who had been albed bad lands should be per-mitted to take new allotments on Uin-tah Jands. tah lands.

tah lands. The Upcomphagres told a remarkable story to the secretary, which he could hardby credit, "that allotments had been made by agents of the govern-ment to these Indians, which existed only on paper; that the Indians had never seen the lands alloted to them and had no knowledge of the lands as-signed them until the matter had been brought to their attention by a former agent of Ulniah reservation, Capt. W. A. Marcer now at Carlisle. Capt. Merbrought to their attention by a former agent of Ufntah reservation, Capt. W. A. Mercer, now at Carlisle. Capt. Mer-cer, in his last report from the Uintah agency, recommended that the Uncom-pangres who were allotted absolutely barren lands be permitted to take in Heu thereof lands in the Uintah coun-try, and this recommendation will be strictly carried out. strictly carried out.

strictly carried out. There are a number of very import-ant matters to be decided upon before lands in the Uintah reservation will be turned over to the general land office for opening. The law provides that the president shall set aside a forest re-servation in addition to the reserve now existing in Uintah reservation. This must be done before allotments are made. Then again each Indian is given 80 acres of irrigable land, wife and children receiving 40 acres. For the purpose of setting aside these lands inspector Code, irrigation engineer of Inspector Code, irrigation engineer of the Indian service, has been ordered to Washington to meet Capt. Hall, who

confidence in the fair sex than in their confidence in the fair sex than in their own. These observations are called out by the fact that the Deseret News was yesterday made the medium through which a young lady and gen-tleman were greatly embarrassed. This is how it was done: Late in the afternoon just before the last edition went to press a mes-senger came into the office of the city editor with a note announcing that

the last edition went to press a mes-senger came into the office of the city editor with a note announcing that Miss Edith Dramer and Mr. W. L. Wimmer had gone to Ogden earlier in the day, and that when they returned it would be as hashand and wife. A closing word in the way of a wish for future happiness followed. However as the note was unsigned it was set aside for non-publication. In about 10 minutes a telephone message was re-ceived from a lady asking if the note had arrived, and to be sure and see that it was published as she was the "Interested lady" and they wanted their friends to know. With a very kind "thank you" the phone was hung up and the incident ended with the pub-lication of the item. But as the sequel showed the young couple were not mar-ried. They had gone to Ogden during the afternoon but the object of the trip was purely a business one on the part of Mr. Wimmer. Judge, therefore, of their surprise when they saw the ar-ticle in last evening's paper. For hours they were being congratulated over the telephone and were kept busy explain-ing that there was no truth whatever in the story. In the meantime they have worked in vain to ascertain the identity of the 'Interested lady' who informed the "News" in such polite lan-guage that she wanted it made public so their friends would know all about it.

SHORT CIRCUIT BY EAGLE.

#### Big Bird That Demoralized the Power And Light Service.

It transpires that the cause of the shutting down of the electric current on the high tension line from Ogden Sunday morning, was of an unusual nature. A large eagle, measuring 6 feet 2 inches across the wings, was found by the jine riders lying across the wires one and a half miles south of the We-her mine bus sheet circuiting the circuiting the

whole circuit. On removal, th

whole circuit. On removal, th was been used an inter the shoulder of one wing, and at the bend of the other, while its talons were tightly clenched. Death had ensued at the instant of contact. The eagle is now being stuffed at a local taxidermist es-tablishment. The bird was found one hour after the accident, and then the current continued as hefore. Similar accidents have happened to the high tension lines of the Utah Light & Rai,way company hefore. A pheasant in trying to balance itself on one of the wires in Mill Creek, feil over on the other, and was immediately electro-cuted, and short circuited the current. A sunflower stalk was either blown or thrown across the wires not far from the same place, and as soon as the rain wet it, the moisture effected a short cir-

the same place, and as soon as the rain wet it, the moisture effected a short cir-cuit in short order. A cat got caught on the wires of the Niagara Falls Power company several years ago, and cut off the power from the city of Buffalo for several hours. When found it was burned to a crisp. At the Zoological gardens in New York the keepers heavily charge a wire that the keepers heavily charge a wire that runs along the top of the walls sur-rounding the place and as rats at-tempt to climb over to get at the small birds and small game in the enclosure, they strike this live wire and die forthwith forthwith.

# CIVIL SERVICE EXAMS.

#### Several Good Positions Under Government Open for Competition.

There will be civil service examinations in this city, on April 13 next, for the position of assistant in the division biological survey, department of agriculture, salary \$900; also, an April 26, for field assistant in forestry, department of agriculture and Philippin vice with the salary from \$1,200 to \$1,800 per annum: for bookkeepers, depart-mental service, salary \$600 to \$1,200 per annum; and inspector of clothing, in the quartermaster's department, with

**GRAND PUSH FOR** so their friends would know all about UNIVERSITY "GYM"

> Students Assemble and Pledge Themselves to Contribute the bum of \$5 Each.

# CLASS BODIES WILL GIVE \$100

Enthusiatic Meeting Decides to Solicit Subscriptions From Leading

Business Men. That the students of the University of Utah are a unit in the effort to equip the school with a brand new gymnasium, is evident from the spirit manifested this morning when the student body assembled and pledged themselves to ontribute \$5 each to the proposed building, the money to be raised beschool has 1,000 students the school has 1,000 which, with the \$15,000 which, with the \$15,000 appropriated by the Legislature, will do much towards meeting this require-pient of the institution. In addition, each of the class organizations has, agreed to contribute the sum of \$100. agreed to contribute the sum of \$100,

agreed to contribute the sum of \$100, while a committee will be appointed to solicit subscriptions from leading business men. All in all the outlook is most encouraging and as a result the students are greatly delighted. The meeting was presided over by John C. Brown and those who spoke were Profs. Reynolds, Lyman, Cum-mings, Instructor L. E. Young, Oscar Carlson, Mr. Sherman and Will Dunn. Howard Harold sang two solos, which were highly appreciated, while Mr. Sherman and others referred to the production of "Christopher Jr." at the theater tonight and advised the stu-dents to turn out en masse. It is unlents to turn out en masse. It is un derstood that many of the classes will attend the play in a body. It was de-cided that the money for the "gym" should be handled by Prof. D. R. Allen, treasures of the University treasurer of the University. U. OF U. SUMMER SCHOOL. The University of Utah summer school will open June 12 and will con-tinue six weeks. There will be courses in the subjects required for teachers' certificates and diplomas and a variety of college subjects leading to the de-gree A. B. and the normal diploma,

tion in Federal Court. Bernard A. Knoth, a druggist of Ogden city sought relief from his cred-itors this morning by filing a petition of bankruptcy in the federal court. He schedules his Habilities at \$10,855.63 and his assets at \$7,005, most items of both accounts being involved with his drug business. Of his Habilities \$7,421.49 is unsecured, and represents mostly open accounts for drug store stock. His leading asset is the stock in trade, valued at \$5,000. The only item he claims to be exempted is \$150 in house-hold goods.

## A Guaranteed Cure For Piles.

Itching, Blind, Bleeding or Protruding Piles. Your druggist will refund money if PAZO OINTMENT fails to cure you in six to fourteen days. 50c.

To Prove What Swamp-Root, the Great Kidney Remedy, will de for YOU, Every Reader of "Deseret News" May Have a Sample Bottle Sent Free by Mail.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow.

Your other organs may need attention -but your kidneys most, because they do most and need attention first.

If you are sick or "feel badly," begin taking Dr. Kilmer's Swamp Root, the great kidney, liver and bladder remedy, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone,

The mild and immediate effect of Swamp-Root the great kidney and bladder remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root will set your whole sys-tem right, and the best proof of this is a trial.

big a trial.
53 Cottage St. Meirose, Mass.
Dear Sir:
Jan. lith, 1904.
"Ever since I was in the Army. I had
more or less kidney trouble, and within the past year it became so severe and complicated that I suffered everything and was much alarmed—my strength and yower was fast leaving me. I saw an advertisement of Swamp-Root and wrote asking for advice. I began the use of the medicine and noted a decided improvement after taking Swamp-Root only a short time.
I continued its use and am thankful to say that I am entirely cured and strong. In order to be very sure about this, I had a doctor examine some of my water today and he pronounced it all right and in splendid condition.
I know that your Swamp-Root is purely vegetable and does not contain any harm for our some and in splendid swamp-Root to all sufferers, I am."
Yery truly yours.
L C. RICHARDSON.

Swamp-Root is not recommended for everything but it promptly cures kid-ney, liver and bladder troubles, the symptoms of which are—obliged to pass your water frequently night and day, marting or irritation in passing bricksmarting or irritation in passing, brick-dust or sediment in the urine, headache, backache, lame back, dizziness, poor digestion, sleeplessness, nervousness, heart disturbance due to bad kidney trouble, skin eruptions from bad blood neuralgia, rheumatism, diabetes, bloating, irritability, wornout feeling, lack of ambition, loss of flesh, sallow complexion, or Bright's disease. If your water, when allowed to

It your water, when allowed to re-main undisturbed in a glass or bottle for twenty-four hours, forms a sedi-ment or settling or has a cloudy ap-pearance, it is evidence that your kid-neys and bladder need immediate attention. Swamp-Root is pleasant to take and

is for sale at drug stores the world over in bottles of two sizes and two prices-fifty cents and one dollar. Remember the name, Swamp-Root, Dr.

KAISER'S PROPOSED VISIT TO MOROCCO EXCITES COMMENT

> Paris, March 22.—Emperor William's proposed visit to Morocco at the mo-ment when France is establishing her paramount influence there, attracts marked attention and comment. Coneffect that France had taken umbrage are distinctly denied, as it is pointed out that there is nothing incorrect in such a visit which is altogether natural during a cruise in the Mediterranean. However, the authorities recognize that FRANCE HAS SENT NO ULTIMATUM TO VENEZUELA the visit is being used in unfriendly quarters as a pretext to stir up ani-mosity and exercise the Moors to be-liev that they should resist the accept-ance of the French plan for administer-ing the country. The officials here say they do not regard the Germans as being a party to this maneuver, which is attributed mainly to the Mo-rocco correspondent of a leading Lon-don newspaper. Owing to the Anglo-French agreement, the authorities here expected that British official and press opinion would assist in the execution of the French policy. This policy has now reached a crisis as the French mission at Fez is awaiting the sul-tan's final answer. Therefore, the British press representations that Em-peror William's visit may interrupt the French policy are strongly disapproved. the visit is being used in unfriendly

rights in Morocco as France.

## ASYLUM CHANGES.

salary at \$960 per annum.

#### Meeting of State Mental Hospital Board Considering Them at Provo.

There was an important meeting of the state mental hospital board at Provo today, but up to a late hour this aftnoon no announcements were forthcoming. The meeting was attended by Gov-ernor Cutier, who went down from Salt Lake this morning. There was a report in circulation to the effect that some changes were to be made in the official personnel of those in charge of the hos-pital, but it could not be confirmed. It is known, howaver, that there are a number of applications before the board for the position of medical su-perintendent, now held by Dr. Hardy. Whether a change will be made in this office, however, will not be known until tonight. ing. The meeting was attended by Gov-

## A DOLLAR'S WORTH FREE TO ANY RHEUMATIC SUFFERER.

T ask no deposit-no reference-no secur-ity. There is nothing to risk-nothing to promise-nothing to pay, either now or later. Any Rheumatic sufferer who does not know my remedy may have a full dollar's worth free to try. — Twilingly make this liberal offer be-rause I know that Dr. Shoop's Rheuma-tic Remedy may be relied upon AL-wAYS to bring the utmost relief that medicine can. Years before I discovered this remedy. I studied the nature of Rheumatism. For Rheumatism is really

## Crystalized Poison!

Crystalized Poison! Your blood is always full of poison-the poison you eat and drink and breathe into your system. It is the purpose of the blood to absorb and carry off this yery poison. And the kidneys, which are the blood and send it back through the system clean, to gather more poison which, they, in turn, will eliminate. But sometimes the kidneys full. And sometimes, from some other cause, the blood gets so full of poison that they can-not absorb it all. This is the start of Rheumatism. The poison accumulates in crystalizes. The crystals bock like little grains of sugar or of fine white sand, the blood carries them and they increase in size. Then, when it can carry them o longer, it deposits may here it is the start of Rheumatism of a sugar or of fine white sand, the blood carries them and they increase in size. Then, when it can carry them and crystalizes are then and they increase in size. Then, when it can carry them of the subsorb it of the source of the white sand, the blood sarries them and they increase in size. Then, when it can carry them of the subsorb it of the source of the source of the twisted limbs and unspecaable an-symptoms to go unheaded and unattend of for years—these are the evidences to what Rheumatism includes lumbago, selaten, the source of the subsorb is and the source of the

Rheumatism includes lumbago, sciatica, neuralgia, gout-for all these are the re-sults of rheumatic poison in the blood.

Plainly, the first thing to do is to re-move the pelson. But this is not enough The FORMATION of the pelson must be stopped, so that nature may have a chance to dissolve and eliminate the crys-tals which have already formed. Unless this is done there can be no cure—no per-manent relief.

I spent twenty years in experimenting before I felt satisfied that I had a cer-tain remedy for this dread disease—a rem-edy which would not cuty clean out the polsen, but one which would step its formation.

#### Certain Relief.

The secret lay in a wonderful chemi-cal I found in Germany. When I found this chemical, I knew that I could make a Rheumatic cure that would be practi-cally certain. But even then, before I made an announcement-before I was willing to put my name on it-I made more than 2.000 tests! And my failures were but 2 per cent.

This German chemical is not the only ingredient I use in Dr. Shoop's Rheuma-tic Cure-but it made the remedy possi-ble-made possible an achievement which. I doubt not, could have been made in no other way.

This chemical was very expensive. The huty, too, was high. In all it cost me \$4.90 per pound. But what is \$4.90 per pound for a REAL remedy for the world's most painful disease-for a REAL relief from the greatest torture human beings know?

I don't mean that Dr. Shoop's Rheuma-tic Cure can turn bony joints into desh again-that is impossible. But it will drive from the blood the poison that causes pain and swelling, and then that is the end of the pain and swelling-the end of the suffering-the end of Rheu-matism. That is why I can afford to make this liberal offer-that is why I can afford to spend the FIRST dollar that Rheumatic sufferers, the world over, may learn of my remedy.

## Simply Write Me

The offer is open to everyone, every-move the poison. But this is not enough The FORMATION of the poison must be stopped, so that nature may have a chance to dissolve and eliminate the crys-tals which have already formed. Unless this is done there can be no cure-no per-manent relief. I searched the whole earth for a specific for Rheumatism-something that I or any physician could feel suff in prescribing -something that we could count on not only occasionally, but ALWAYS. For the ravages of Rheumatism are everywhere and genuine relief is rare. Mild cases are sometimes cured by a single package.-On sale at forty thou-

New York, March 22 .- Official an-New York, March 22.--Official an-nouncement of a reduction of telephone tolls in Manhaitan, to take effect on May 1, has been made by Union N. Bethell, first vice president and gen-eral manager of the New York Tele-phone company. All direct line busi-ness subscribers of the company will be charged the new schedule of science

ness subscribers of the company will be charged the new schedule of rates, regardless of the rates named in the contract now existing between the sub-scribers and the company. This action was determined on at a meeting of the board of directors of the company, who have not only re-duced the schedule of rates on limited calls, but have revised other schedules, to go into effect in the near future. This revision refers to the schedule of toil rates between the several teletoll rates between the several tele-phone districts in New York City. The whole subject has recently been the cause of much agitation in the newspa-

at Albany. What reduction will be made in the tolls between the various boroughs of Greater New York is as yet unknown, but the schedules made public so far show that rates for direct line business will be lowered on the basis of 20 per cent to small subscribers and about 10 per cent to large subscribers

In other words, a customer who now pays \$75 a year for 600 outgoing mess-nges will obtain the same service for \$60. The subscriber who pays \$228 now for 4,500 calls will pay \$204, a reduction of about 10 per cent.

ULTIMATUM IU VENELUELA Paris, March 2.—The Matin says Am-bassador Jusserand will confer with President Rooseveit today relative to Venezuela, and adds: "An ultimatum has not been sent. Pres-dent Qastro having taken the case of the French Cable company to the courts, France intends to leave it there until a decision is given, when she will be pre-present to adopt all the measures neces-sary to secure respect for the rights of French clitizens. The French Cable company has receiv-ed a further dispatch from M. Brun, the postponement of the decision of the court relative to the company's conces-sion. He says the postponement was she derstood that the representations pointed ocnern and that an unfriendly attitude toward it would amount to an unfriendly attitude toward the French government. —The company is redicent as to its future attitude is still unalvised of any cutting of cables and expresses a desire for an micable adjustment with President Cas-tro. French policy are strongly disapproved. Relative to the suggestion that Germany seeks equality of trade rights in Morocco, it is said, that the Anglo-French agreement distinctly provides for an open door policy whereby the United States, Germany and other countries have the same commercial

#### Polygamy in Honolulu.

Washington, March 22.—Although the officials of the department of jusice are non-committal on the subject, it is known that reports have reached the depart-ment that polygamy is being, practised in some parts of the Hawailan islands, and United States Atty. Breckons at Honolulu has been instructed to make an investigation of the subject. Petersburg, March 22, 5:39 p. m.-At admiralty it is strongly intimated Admiral Rojestvensky will effect a. ture with Admiral Nobagotoff with-days and then proceed to meet Ad-1 Torce.
