

## BICYCLE RACES ON THE SAUCER

Turville and King Will Race for  
Ten Miles,

ON THEIR MOTOR CYCLES.

When Professionals and Nineteen  
Amateurs are Entered for the Sprint  
Events—One Mile Slow Race.

Manager Rishel says the events  
scheduled for the saucer this evening  
comprise about the best program of the  
season. The riders are tired of laying  
off merely to gratify the whims of Ju-  
nior Plutus, and they say they will  
have a meet this evening if it rains  
tomorrow.

There will be a big crowd on the  
track and it they are not careful some  
bad spills may result. In the profes-  
sional sprint races, fifteen riders have  
entered, as follows:

Joe and John Lawson, Vaughan,  
Chase, Charles and Clem Turville,  
Kramer, Chapman, Samuelson,  
Kramer, Staver, Edmunds, Walne, Green  
and Emery. The race for the sprint  
events these "pros" are entered is to  
be a distance of one mile; in time, any-  
where from 5 to 6 minutes. It will  
be run in French style. The method is  
popular in the east, but it is very  
difficult if it will be so here. As an  
example of the start of such a race here  
from the spokesmen-Ram account of a  
contest between Frank Kramer  
and "Majah" Taylor:

"The start was a fiasco, neither man  
making the mark at the shot of the  
bell, each declining to take the lead.  
The front wheel of their bicycles  
were pushed over the line and held  
there, the crowd hooting and yelling  
for the riders to get away.

Finally the referee pulled his watch  
and demanded that Taylor, who had  
the pole, should start. The colored  
rider refused at first, but ultimately  
went 15 feet and stopped.

"Kramer, who was a 'balancing act',  
was going at the proverbial  
pace, his momentum was so great  
that it forced him ahead of the negro,  
and he went down the banked track  
for the first quarter, but straightened  
in the second and rode fairly well.  
About 500 yards from the line Kramer  
made a sport, and Taylor, although he  
had the best to break down the slight  
lead was beaten on the tape by half a  
wheel."

No kind of a race won't go  
unless the prize is for the last  
man over the tape.

The amateur race will be a one-mile  
handicap affair, with Eddie Smith on  
the tape. In this event there will be  
12 riders, as follows:

Eddie Smith on scratch with Hume 50  
yards; Hegren, 65; Munson, 55; Young,  
60; Kelly, 110; Hopper, 30; Grames,  
60; Leyland, 75; Fullentine, 100; Wil-  
liams, 15; Smith, 115; Sheldahl, 50;  
Bowers, 20; Henmans, 65; Angell, 75; Moss,  
40; Bergess, 100, and "H" King,  
30 yards.

The main event will be a 10 mile race  
between W. F. King's new motor and  
Turville's big machine.

**TWO GAMES TOMORROW.**  
Lagoons Claim a Chance to Win  
Second Money.

It is generally admitted that the  
White Wings have a pretty safe lead  
for the position of second place, but  
Digger Stoney of the Lagoons thinks  
he has a chance yet. Tomorrow the teams play  
two games at the lagoon park and if  
the Farmers win both contests they will  
have a percentage of 50, and Salt Lake  
will have but 35. In that event the  
percentage game with Ogden will have  
to be played. If victory then perches  
on the White Wings there would be a  
tie with Lagoons. If the locals win  
either of tomorrow's contests second  
money is theirs for sure.

Manager Stoney will do all in his pow-  
er to win both games. He will put  
Sommer in the box, and it is said  
he borrows "Lif" Nagle and Casey  
from the Ogden bunch just for tomor-  
row's affair. The games will be seven  
innings each. The Lagoons club re-  
turned from Poncaelle last evening af-  
ter making monkeys out of the Pockies.  
Buddy Sawyer pitched against the  
team giving but one hit and winning  
his game by a score of 14 to 1. Three  
out home runs, four got triples and  
there were numerous singles all  
from Dubanks.

**League Meeting Tonight.**  
President Beardsley of the Inter-  
mountain league has called for a meet-  
ing at his tavern tonight when it is ex-  
pected the formation of a new schedule  
will be attended to.

**"Why McQuaid Was Released."**  
Under the above touching caption the  
Spokane-Review of August 18th has  
the following:

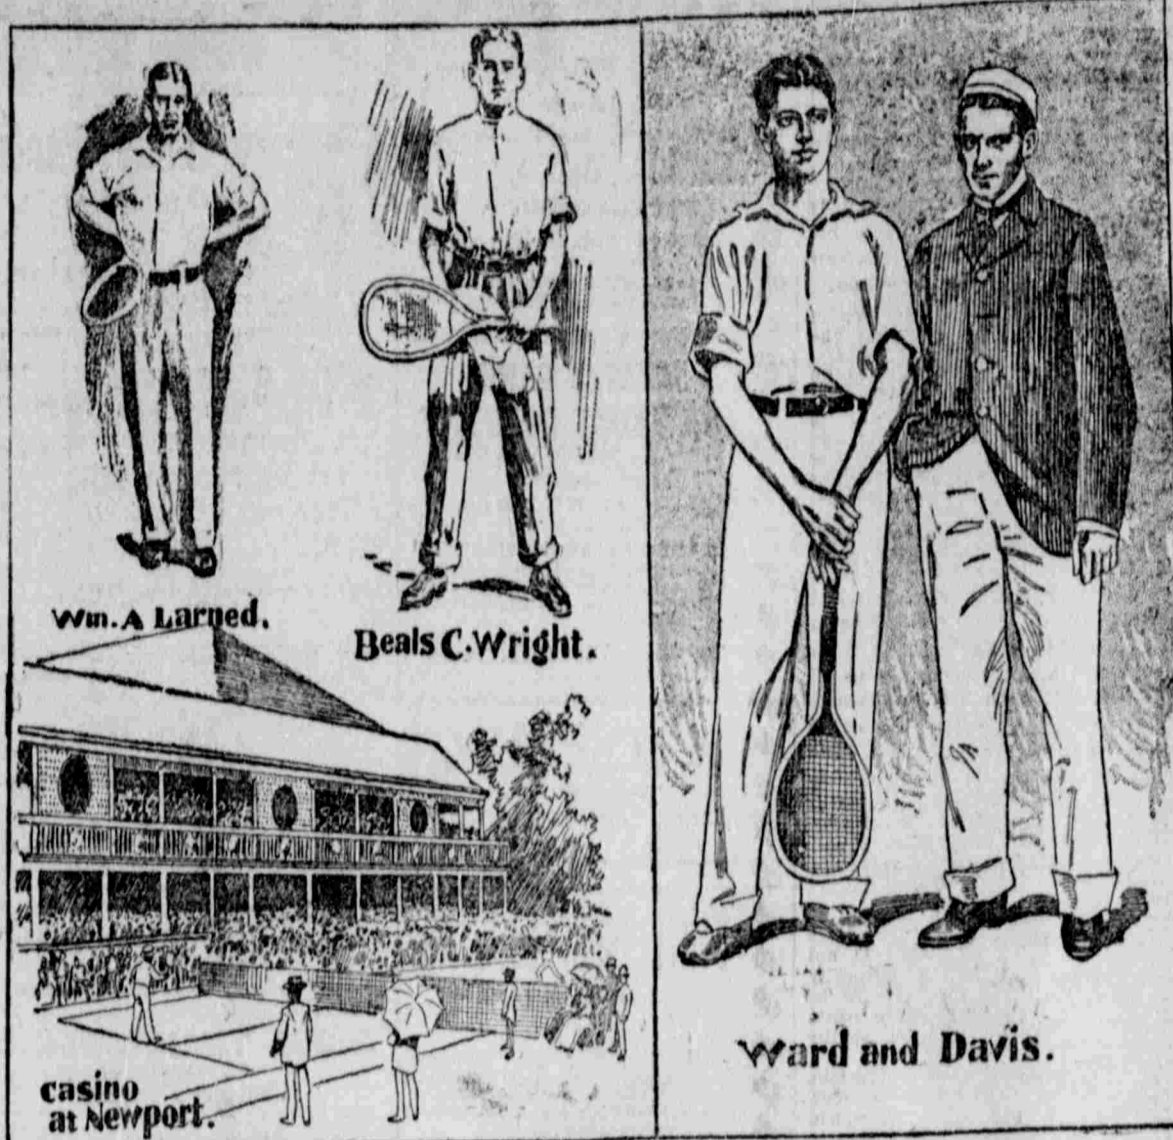

"One of the queer dreams of baseball  
is that of an alleged baseball writer on  
the Tacoma Leader. It sounds like the  
tale of old 'Dad' Clark, who was sent  
home from Spokane early in the season.  
The Tacoma writer not only is  
the man misinformed as to conditions,  
but he shows a pitiful ignorance when  
he offers a gross insult to the Spokane  
Amateur Athletic club. He intimates  
that the Spokane club forced the base-  
ball management to release Right  
Peder McQuaid. The article in the  
Leader says:

"According to reports that have  
drifted across the Cascades, the  
troubled Tacoma team has scheduled  
McQuaid will have all  
kind of opportunities to look for work,  
and the other men will continue to draw  
Joe Brown's salary checks. In view of  
the fact that the strikers have the  
alternative of walking home or going  
to work, a settlement is not surprising.  
Donahue will be back in the game, and  
this will give the Bunchgrassers a large  
edge, for there has been a  
high at the third corner since he  
dropped out of the running."

"Local men are surprised at the de-  
claration that McQuaid had failed to  
make good, for he appeared to be a  
good stickler and was clever on the  
base. Moreover, he did a good day's  
work in the outfield. The influence of  
the Spokane Amateur Athletic club is  
declared to be the primary cause for  
the trouble. The Athletic club is not  
blamed with a large appreciation for  
excellent baseball, but has a predilec-  
tion for the sport article its own  
members offer. And to placate the at-  
tention association and head off opposi-  
tion concessions must be made."

"The official score for the last three  
weeks of McQuaid's engagement has  
these records:

In the series with Tacoma McQuaid  
was three at bat and got 4 hits. In  
the series with Portland he was at bat  
21 times and made not the semblance  
of a hit. In the series with Seattle he  
was at bat 19 times and made 5 hits.  
The totals for 15 games are 60 time at  
bat and 10 hits, a batting average of

### LEADING CONTESTANTS IN THE NATIONAL TENNIS TOURNAMENT.

The revival of tennis as a popular sport is shown by the great interest taken in the annual contest for national cham-  
pionships which is under way this week at Newport. The tournament is being watched by thousands of spectators, and  
tennis experts in all parts of the country are closely following the results of the matches.

136. And McQuaid was hired to take  
the place of Kelly, who always batted  
over .400.

In the three series McQuaid had 22  
putouts and assists and seven errors,  
a percentage of .758, even worse than  
Kelly's had fielding average.

**AT THE RESORTS.**

The butchers will give their annual  
outing and barbecue at Lagoons tomor-  
row. This evening at eight o'clock  
the knights of the cleaver will give a  
monster torchlight parade, which will  
march through the business portion of  
the city to the strains of Held's band.  
Tomorrow afternoon all the butchers'  
shops in Salt Lake and Park city will  
be closed and the proprietors and their  
employees will board the observation  
train, pull out for Lagoons and witness  
the rail race en route. In the after-  
noon an athletic carnival will be in  
order at the resort, including a ball  
game between the Salt Lake and Og-  
den purveyors of the succulent steak  
and sizzling roast. Over a ton of prize  
meat will be roasted out at Lagoons and  
a large crowd is expected to participate  
in the festivities.

Despite the drenching rain of yester-  
day a big crowd of Davis county school  
children gathered at Lagoons and spent  
a very good time. In the afternoon a  
baseball game between the rival teams  
of Kayville and Bountiful was started,  
but had to be abandoned after the sec-  
ond inning had been played.

The Home Finding association, whose  
object is to provide homes for destitute  
orphans and abandoned children, gives  
an outing at Saltair today. A number  
of prominent residents of this city are  
interested in the society, and it is ex-  
pected that a good crowd will go out  
to the lake in order to help along such  
a worthy cause.

Tomorrow the Wheelmen's Protective  
association will gather at Saltair, where  
an attractive program has been pre-  
pared. One of the largest list of prizes  
of the season has been secured, so that  
anyone who buys a twenty-five cent  
trip ticket will stand a chance of draw-  
ing one of the two bicycles offered, to  
say nothing of the other prizes of cash,  
clothing, jewelry and various articles  
of value which have been donated by  
the merchants of this city to the as-  
sociation.

Today the Twelfth ward Sunday  
school of Salt Lake, and the Nether-  
land society of Ogden are having their  
outing at Lagoons.

**Comments on Islander Disaster.**  
London, Aug. 20.—The disaster to the  
Canadian Pacific liner Islander is com-  
menced upon by nearly all of today's  
papers. In some particulars the trag-  
edy recalls the loss of the North Ger-  
man Lloyd steamer Elbe, which sank off  
the southeast coast of England in  
January, 1899. On that occasion 255  
lives were lost, but the circumstances  
of both collisions were curiously sim-  
ilar.

**Conditions in South Africa.**  
Washington, Aug. 20.—The state de-  
partment has received a long report on  
conditions in South Africa from Consul  
General Stowe, at Capetown, dated a  
few days before his resignation was re-  
ceived at the department. The war and  
the plague, says Mr. Stowe have pre-  
vented customs officials from collect-  
ing the trade for the calendar year, 1900,  
and as all imports for the use of the  
imperial and national military forces  
are admitted duty free it is impossible  
to make an accurate comparison with  
the trade of the preceding year. How-  
ever, the figures available show that  
the imports from the United States in  
1900 were greater than those of 1899,  
and that this country still stands sec-  
ond along the nations exporting direct  
to South Africa and in addition ships

**CATARRH**  
Catarrh has become such a common  
disease that a person entirely free from  
this disgusting complaint is seldom met  
with. It is customary to speak of Catarrh  
as nothing more serious than a bad cold,  
a simple inflammation of the nose and  
throat. It is, in fact, a complicated and  
very dangerous disease; if not at first, it  
very soon becomes so.

The blood is quickly contaminated by  
the foul secretions, and the poison through  
the general circulation is carried to all  
parts of the system.

Salves, washes and sprays are unsatis-  
factory and disappointing, because they do  
not reach the seat of the trouble. S. S. S.  
does. It cleanses the blood of the poison  
and eliminates from the system all catar-  
rhal secretions, and thus cures thoroughly  
and permanently the worst cases.

Mr. T. A. Williams, a leading dry-goods mer-  
chant of Spartanburg, S. C., writes: "For years  
I had a severe case of  
catarrh, with all  
the disagreeable effects  
which belong to that  
disease, and which  
make life painful and  
unbearable. I used  
medicines prescribed by  
leading physicians and  
suggested by numbers  
of friends, but without  
getting any better. I  
then began to take S. S. S.  
It had the desired  
effect, and cured me  
after taking eighteen  
bottles. In my opinion S. S. S. is the only medi-  
cine now in use that will effect a permanent cure  
of Catarrh."

Newport, R. I., Aug. 20.—The police  
commissioners at a special meeting  
have taken final action on the petition  
of Prof. Agassiz and others who had  
asked that the board enforce the laws  
of the city and state against the fast  
driving of automobiles. The petition  
was aimed at the races to be held by  
the National Automobile Racing as-  
sociation of which William K. Vanderbilt  
Jr. is president. The city solicitor,  
whose advice has been asked in the  
matter, stated that the commission had  
no power to stop the races, but could  
arrest and fine any one who exceeded  
the legal rate of ten miles an hour.  
The association looks upon this as a  
funny, and will proceed with their  
plans, taking chances on being arrested.

**SOUTH AFRICAN SITUATION.**  
**Once More There is a Renewed Feel-  
ing of Hopefulness in England.**

New York, Aug. 20.—There is a re-  
newed feeling of hopefulness that the  
war in South Africa will soon be at an  
end, says a London despatch to the  
Tribune. The position is different from  
that obtaining at any time since the  
outbreak of hostilities in October, 1899.

Natal is clear; Cape Colony is rid of  
Kritzkiger; in the Orange River Col-  
ony there is practically little opposition,  
while in the Transvaal there are not  
many symptoms of Boer activity.  
Rumors of important developments are  
freely current. It is stated that the  
funds of the Boer leaders in Europe are  
now absolutely exhausted, and it is  
certain that the rigors of winter have  
told on the burghers in the field.
