

relief and save them. The Sultan has been lavishing money like water in England and Paris, but his subjects are sweating for it now.

#### MORE SPLENDOR.

This style of camping out bewilders me. We have got boot-jacks and a bath-tub, now, and yet all the mysteries the pack-mules carry are not revealed. Brown has come to believe, at last, that the dragoman has got Aladdin's lamp hidden about his person, and has ceased to be surprised at anything. He has gone out now to inquire if the dragoman has brought a piano along.

MARK TWAIN.

#### BREVITIES.

The people at St. Albans, Vt., are sleighing.

At Cincinnati, the female principal of the normal school receives \$2,000.

The best remedy yet discovered for crazy persons, is to employ them in manual labor.

The Chicago Times says that "prize fights are, beyond question, among the chief productions of Chicago."

The New York Tribune says that half a million of dollars was lost and won on the late election in the city of New York.

There are now 27,000 miles of completed railroad in this country, while the number of miles in course of construction is 17,680.

Speculators in southern Indiana are buying flour at \$13 per barrel to hold until they get \$20 for it.

George Francis Train, Elizabeth Cady Stanton, and others of that school, are going to talk to the Bostonians about universal suffrage, this month.

The Colorado papers do not like the project of cutting off a slice of the territory to put into the territory of Wyoming.

A combination of all the railroad lines from New York city to Chicago is talked of, their capital amounting to \$150,000,000.

Henry Ward Beecher received \$25,000 from Mr. Bonner for "Norwood," and as the story was longer than he anticipated, an additional five thousand has been paid.

Last year, corn was selling at Clarks-ville, Ga., at \$2 per bushel, it is now selling at 40 cents. Other crops in about the same proportion.

The only fruit which grows in every climate is the strawberry. It is the only fruit which, somewhere on the earth, is picked every day of the year.

The wife of a laborer in Ipswich, England, has just given birth to a child with two heads, and the monstrosity still lives and takes its sustenance freely. It is a female, well developed, and apparently healthy.

Mr. Frank Oliver, says the Scientific American, of Biddleford, Maine, writes that he has constructed a machine by which he can sustain himself in the air by working a crank, and sees no reason why larger machines propelled by steam could not work.

Leonidas Moses, a mail carrier in Arkansas, was assassinated recently by some unknown person, while riding along a lonely road. His body was not found until eight days after the murder, and all this time his mule stood guard over the corpse. The faithful animal had to go a mile and a half for water, but invariably returned and resumed its singular vigil.

The late trial of steam carriages for common roads, at Lyons, was a success until they began to move down hill, when they became unmanageable, and rushing against an obstruction they were smashed up, but with no loss to the sixty notable persons who were on the trial trip. On level roads the train rushed all about Lyons at a rapid rate. It is not unlikely that the down-hill dilemma will be solved.

An auctioneer was selling a library at auction. He was not very well read in books, but he scanned the titles, trusted to luck, and went ahead. "Here you have," he said, "Bunyan's Pilgrim's Progress, how much I offered for it? How much do I hear for the Pilgrim's Progress, by John Bunyan? This is a first-rate book, gentlemen, with six superior illustrations; how much do I hear? All about the Pilgrims, by John Bunyan! Tells where they came from, an' where they landed, an' what they done after they landed! Here's a picture of one of 'em going about Plymouth peddlin', with a pack on his back!"

No. 76 to 100.—25 Dress Patterns @ \$6 50 each, worth.....\$162 50  
100 Prizes, Worth \$5,000

Every Certificate will be numbered, and as only 5,000 will be issued, every purchaser will know by the number of his Certificate how the Enterprise is progressing.

It is to be understood that there is no limit to the number of Certificates to be issued to any one purchaser, thus offering to all the opportunity of getting as many shares or chances in the drawing as they choose; the only condition being that Ten Dollars' worth of Goods is to be purchased for each share.

The advantages to be derived by this Enterprise are so apparent that it is confidently expected that all the Certificates will be secured by April, 1888.

It must be evident to all that this is not a Lottery, nor an ordinary Gift Enterprise, for the reason that our Customers get such Goods as they choose, at the Lowest Market Rates, obtaining the full value of their money at the time of purchasing, with the chance of drawing a Handsome Prize in the bargain. Our compensation arising from the greater quantity of Goods sold within a given period.

Disinterested men well established in the confidence of the people will be secured to conduct the drawing, which will be done on a perfectly equitable plan.

Ample notice will be given in the newspapers of the time and mode of drawing.

Finally, we pledge ourselves to faithfully fulfill all the above named conditions.

Goods on the above named favorable terms can be obtained at

### GODDE'S DRUG STORE,

Our General Merchandise Store, in

### EXCHANGE BUILDINGS,

And also at our TIN and STOVE WARE HOUSE, at Sharkey's Old Stand, on West Side of Main Street, in each of which, there is now on hand a complete assortment, and will also be largely replenished with Goods from California.
