The announcement of the fall of the Russian stronghold created little surprise in official and diplomatic circles, where it had been discounted by recent events. It was known as early as last October that, not with standing the brave rces were nearly at an end.

In fact, it was confidently asserted that Russia would only regard t, surrender of Port Arthur in the light of a fresh incentive and will spare no efforts for its recapture,

First Secy. Poklewsky-Koziel, in the absence of Ambassador Benhendorff from the embassy, gave voice to this sentiment when he said that he felt satisfied the surrender of the fortress would only serve to unite all Russia in the determination to put forth her whole strength in the spring with a

view to retrieving the situation.

The general tone at the Russian ambassy formed a striking contrast to the cheeffulness and activity prevailing at the Japanese legation. COMMENT OF PARIS.

Paris, Jan. 2.—The news of the sur-render of Port Arthur created a pro-found impression here and was the universal theme of conversation in offiouss it at much lefigth and in a tone of sadness. The Russian officials here learned the situation from dispatches from Tokio, and the Japanese legation received a brief official summary of the progress of negotiations.

The prevailing French view is summed up by the Temps, which says the historic defense of Sevastopol has now been surpassed. Port Arthur adding a glorious page to military annals, which will long remain unequalled. Continuing, the Temps points out that the surrender will exert a tremendous moral effect favorable to Japan. The Japanese, the paper says, are now re-venged for the loss of Port Arthur ing the final siege, the correspondent

Maj-Gen. Sir Alfred Turner thinks that, in the face of such a great blow to her prestige, Russia, to reinstate herseif, will turn her attention to the northwestern frontier of India.

The sympathies of the British press naturally flow in the direction of Great Britain's ally, but nothing could exceed the generosity of the tributes paid to Gen. Stoessel's magnificent defense. There is much difference of opinion as to the lessons to be learned from the to the lessons to be learned from the siege, but the majority of the editorial writers take the view that the defense of Port Arthur was a tactical error, and that the fortress exercised a fatal faschation for the Russian army and the Russion ficet, and that, had Russia atandoned Port Arthur at the outset, she would probably have been enabled

Another point exciting keen interest is the status of Wet Hai Wei, which, according to treaty, was only to be held so long as Russia remained in lossession of Port Arthur.
