Ayer's Sarsaparilla,
For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system that undermine health and settle into troublesome disorders. Eruptions on the skin are the appearance at the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, where acting they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions, and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

NOTICE.
In the Probate Court, in and for Salt Lake County, Territory of Utah.
IN THE MATTER OF THE ESTATE OF J. H. PICKNELL, DECEASED.
IT APPEARING TO THE JUDGE OF the Probate Court of Salt Lake County, U. T., by the petition of E. M. Weijer, Le Grande Young and Urban Picknell, Executors of the Estate of J. H. Picknell, deceased, praying for an Order of Sale of Real Estate, that it is necessary to sell a portion of the Real Estate, to pay the allowance to the family, the debts outstanding against the deceased, and the debts, expenses and charges of Administration.
It is therefore ordered by said Court, that all persons interested in the Estate of the said deceased, appear before said Court, on Monday, the 15th day of August, A. D., 1881, at 10 a. m., at the Court Room of said Court, at the County Court House in Salt Lake City, to show cause, if any, why an Order should not be granted to the said Executors, to sell so much of the Real Estate of the said deceased, as shall be necessary, and that a copy of this Order be published at least ten successive days in the DESERET EVENING NEWS, a newspaper printed in said County.
Dated August 3rd, 1881.
E. SMITH, Probate Judge.

The President's Condition.

EXECUTIVE MANSION, Washington, D. C., 5, 1.15 p. m.—The President continues to make slow but steady progress toward recovery. He ate about the usual quantity for breakfast this forenoon, consisting of beefsteak, potatoes, toast and milk, and has, up to this hour, rested quietly and comfortably. His pulse is not high. He is entirely free from fever.

Executive Mansion, 7 p. m.—The President has passed another good day. The appearance of the wound and the character and amount of the discharge of pus continues satisfactory. He has taken an adequate quantity of nourishment and has had several pleasant naps during the day. At 12:30 the pulse 98, temperature 98, respiration 18. After 4 p. m., his temperature began to rise as usual, but to a moderate degree and without perceptible dryness of skin. At present his pulse is 102, temperature 100, respiration 15.

Gorham a Adventurer.

NEW YORK, 5. — The *Tribune* thinks George C. Gorham is still laboring under a delusion; he is continuing to be the candidate of republican Senators for Secretary of the Senate. The *Washington* newspaper, of which he is said to be editor, spoke of him a day or two ago, as the present candidate for the position; and adds that his election was only deferred through the deadlock which characterized the extra session of the Senate last spring. If Gorham is anything except a conscientious adventurer, which may perhaps be doubted, he is an anti-administration man. That itself ought to, and no doubt will settle the business.

They Will Put Their Heads Together Next Week.

The convention of the American Bankers' Association, to be held at Niagara Falls next week, promises to be the largest gathering of the kind ever held in this country. There are to be fewer loud essays, a greater number of speakers and more improved addresses. On the opening day of the convention Lloyd Tevis, of California, will read a paper on the industrial growth of California.

How Is This, James?

The *Times*, noting certain comments of a Canada paper on the post-office on the mail bag controversy, says: They appear to mean that an artificial scarcity of mail bags in the United States was created for the benefit of certain favored contractors, and that employees of our post-offices were only too ready to encourage their needy brethren on the other side of the border in using property which did not belong to them. There seems to be room here for further investigation.

A $12,000 Loon.

The grand jury ordered an indictment of libel against John W. Loon, the private detective who supplied the facts for the sensational article recently published in a newspaper here, regarding the robbery of Stewart's remains. The alleged libel consisted in stating that John F. Barrett had received $12,000 for returning the bonds stolen from the Manhattan Bank.

Wool.

BOSTON, 5.—This has been a quiet week, if it can be called quiet when sales amount to 2,000,000 pounds and upwards. There has been some concessions of fine fleeces, but most holders where firm and indifferent about selling. Sales of Ohio, Pennsylvania and West Verginia were at 40@42 for X and XX; 41½ for XX and above; Michigan fleeces, 39@40 for X, but quiet at these prices, buyers freely offering at 37@38; medium and No. 1 fleeces, including Ohio and Michigan fine, sell at 44@47, and combing and delaine selections have been in demand at 44@46 for fine delaines, 46½@48 for fine and medium combing; unwashed combing have been sold at 25@33 for coarse and medium, including considerable Missouri at 30@31; unwashed fleeces have been in steady demand at 16@23, for low and course; 25@31 for fine; 27@35 for medium, including considerable West Virginia medium at 34@35 per pound. Medium and combing wools appear to be the most sought after, are quiet and steady, while there is pressure to bear on fine wools down to lower prices.

Convicts Killed and Captured.

SAN FRANCISCO, 5.—A Folsom dispatch yesterday says that five convicts at the Branch Prison, George Lupton, George Walker, Bob Durkin, John Cooney and James Gordon, made a break for liberty, knocked down the guard, and ran for the river. Officers and guards pursued. Durkin was woudded in the leg and captured; Walker was shot dead, Cooney captured, being afraid to attempt to cross the river; Lupton tried to cross but was drowned; Gordon is not accounted for.

An Assassin Hunt.

LITTLE ROCK, 5.—Reyton and Isom have been arrested at Perrysville for assassination and warrants are out for ten or twelve more. The town has quieted down.

800 Miles More of It.

DENVER, 5.—The opening of the Denver and Rio Grande railroad to Durango, 450 miles from Denver, in Southwestern Colorado, was celebrated there to-day. This is the completion of one of the several extensions of that road, now being constructed in that State. The extension just finished is 200 miles long, beginning at Alamosa, on the Rio Grande, and terminating in the Los Animas valley. In this valley are immense coal deposits, hundreds of miles wide. It is also the natural outlet for the rich mining district at San Juan, which has been but little developed owing to the want of the proper transportation facilities. Other extensions will tap the San Juan on the East and North—a region covering an area as large as the State of Massachusetts, and intersected by various mountain ranges and traversed by many rivers. At present two thousand men are employed on this extension, and about three miles are laid daily. In April 1880, 337 miles of road were operated. On the first of this month 895 miles were in operation, showing that during the last sixteen months 488 miles of road have been completed. These roads are being built in a mountainous country, and will tap a section of the State rich in mineral resources.
Eight hundred miles more road are now under contract, and construction is being pushed as far as the Utah borver. The extension to Gunnison City will be completed on Monday next. The other extensions to mining camps are being pressed forward to completion before the early snows. The increase of miles of road operated, and the great development of the industries of the State, have caused a proportionate increase in the earnings. In 1880, the gross earnings for seven months ending July 31st, were $1,459,460.40; for the same time in 1881, $3,104,042.86. The net earnings for the first six months in 1880 were $520,218.53, and for the same time this year, $1,173,889.46.

FOREIGN.

O'Kelley, O'Connor and O Gladstone.

LONDON, 5.—The House of Commons, last night, on going into committee supply, Parnell brought under review the suspension of O'Kelley, home ruler, some weeks ago, for characterizing a statement to Tenham, conservative, as lying and calumnious. Parnell argued that the standing order under which O'Kelley had been suspended was intended only to check persistent obstruction, and not punish hasty use of language, and he blamed the speaker for not giving him an opportunity of withdrawing the language he used in the first instance, when he was suspended by vote of the House, for persisting in spite of the speaker's ruling, in reading the question of the Irish political prisoners. Gladstone commented warmly on the liberty assumed by Parnell, of appealing to the rules of the House, and severely censured him for interfering with the subject at a time when it was impossible for the House to pronounce judgment. Considering that O'Kelly had used insulting words immediately after O'Connor had been called to order for using such words as "mendacious," he thought the charge against the speaker completely failed.

Conservatives to Investigate Ireland.

In view of the avowed determination of a few Parnellites to obstruct the business of the House of Commons, the views of the opposition have been ascertained in regard to the urgency for supplying the poor. The result of the inquiry has encouraged the government. It is believed that if this step is necessary, the opposition will cordially co-operate. It is believed that the question of releasing some of the prisoners in Kilmainham jail will be deliberated upon at an early cabinet council. It is stated that a deputation of prominent conservatives is about to go to Ireland to inquire into and report upon the condition of laborers, living respectively under and working for resident and non-resident landlords and farmers. The object of the deputation is to form a basis by its report, for legislation upon the labor question.

Where is that Crowe?

In the House of Commons to-day, Harcourt, Home Secretary, read a dispatch from United States Minister Lowell, informing Earl Granville that he had wired Secretary Blaine on the 19th of July, an account of a conversation he had with Tenterden, Under Foreign Secretary, respecting the infernal machines at Liverpool, to which he had received a reply from Blaine, stating that the national, state and municipal authorities are strenuously endeavoring to discover the authors of the plot, in which he had reason to believe but very few were engaged, and that no pains would be spared in discovering and prosecuting them.

The Bow Street Runners Can't See It.

Bradlaugh did not appear at Westminster to-day. He appeared at the Bow Street police court and presented information upon which he demanded summons against the police for assault, which simply alleged that an assault had been committed on him. The magistrate said this was insufficient; that Bradlaugh appeared to have invited assault; that he should have refused summons if all the facts were before him, and certainly should on what appeared in the information. Bradlaugh intends to proceed further by mandamus.

The "Lancet."

The *Lancet* says: It is to be remembered that unless President Garfield's bullet causes local disturbance, it would not be in accordance with modern surgical practice to attempt its removal.

Labor Strikes Capital Again.

CORK, 5.—The laborer's strike is extending everywhere at Queenstown, Mallow, and the different centers of labor. The men who joined the strike movement have merged into a general agitation for an increase of wages. Employers are stubborn.

Gambetta's Programme.

PARIS, 5.—Gambetta, at a banquet, warmly elogized Grevy, and regretted that the Legislature had not adopted the resolution of Scutin De Liste. Gambetta declared himself in favor of the existence of the two Chambers, in spite of the faults committed by the Senate, but desired to see the two houses animated by one spirit. He would try to modify the electoral system, and questioned if the irremovability of Senators was not contrary to the principles of suffrage. He advocated a complete secular election, and measures for making an entrance and examinations for public service, independent of private means. France, he said, would never find that she paid too dearly for intellectual culture. He should like to see developed a system of life insurance of crops. He summed up what he thought must be asked of universal suffrage, as follows: Constitutional reform of Senate construction; of majority truly represented in the country, and administrative reform. France would solve other questions to be raised, because she is Democratic from her very heart. In a few days she will loudly proclaim what she desires; whatever may be her decision, no thought and stupidity, or resistance, will enter the mind of anyone. If there be a division, it will be one of rivalry for the performance of duty, not for the attainment of power. Prolonged cheering greeted his speech.

DR. PRICE'S CREAM,	30.14	0.12	30.30
ROYAL,	30.10	0.12	30.22

A known and weighed quantity of baking powder was incinerated in a silver crucible until only a grey residue was left. This is the *total ash*. It was carefully removed to a glass vessel and acted upon by hydrochloric acid and distilled water at the boiling point; what dissolved in that menstruum has been called *soluble*, and that which did not, *insoluble ash*.
I have the honor to be, sir, yours very respectfully, R. S. G. PATON, Chemist of the Health Department.
We have always claimed that the Perfection is the highest grade of baking powder that can be produced from cream tarter and soda. Respectfully,
SPRAGUES, WARNER & GRISWOLD, CHICAGO.
