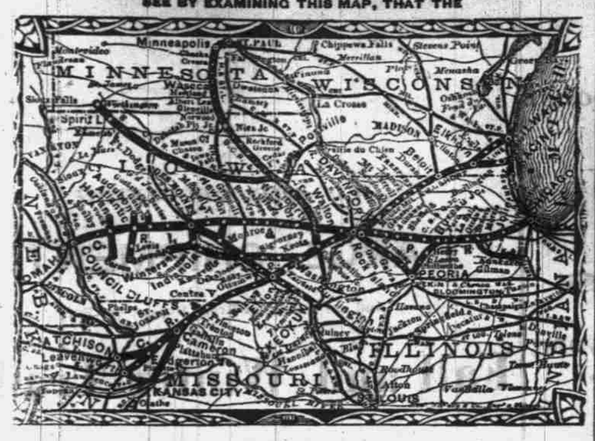
A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY WILL SEE BY EXAMINING THIS MAP, THAT THE



CHICAGO, ROCK ISLAND AND PACIFIC R'Y

Being the Great Central Line, affords to travelers, by reason of its unrivalled geographical position, the shortest and best route between the East, Northeast and Southeast, and the West, Northwest and Southwest.

It is literally and strictly true, that its connections are all of the principal lines of road between the Atlantic and the Pacific

By its main line and branches it reaches Chicago, Joliet, Peoria, Ottawa, La Salle, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Keokuk, Knoxville, Oskaloosa, Fairfield, Des Moines, West Liberty, Iowa City, Atlantic Avoca, Audubon, Harlan, Guthrie Center and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri, and Leavenworth and Atchison in Kansas, and the hundreds of cities, villages and towns intermediate. The

"GREAT ROCK ISLAND ROUTE,"

as it is familiarly called, offers to travelers all the advantages and comforts incident to a smooth track, safe bridges, Union Depots at all connecting points, Fast Express Trains, composed of COMMODIOUS, WELL VENTILATED, WELL HEATED, FINELY UPHOLSTERED and ELEGANT DAY COACHES; a line of the MOST MAGNIFICENT HORTON RECLINING CHAIR CARS ever built; PULLMAN'S latest designed and handsomest PALACE SLEEPING CARS, and DINING CARS, that are acknowledged by press and people to be the FINEST RUN UPON ANY ROAD IN THE COUNTRY, and in which superior meals are served to travelers at the low rate of SEVENTY-FIVE CENTS EACH.

THREE TRAINS each way between CHICAGO and the MISSOURI RIVER.

TWO TRAINS each way between CHICAGO and MINNEAPOLIS and ST. PAUL via the famous

ALBERT LEA ROUTE.

January 1882, a new line will be opened, via Seneca and Kankakee, between Newport News, Richmond, Cincinnati, Indianapolis and La Fayette, and Council Bluffs, St. Paul, Minneapolis and intermediate points.

All Through Passengers carried on Fast Express Trains.

BY ALL ODDS THE BEST EQUIPPED RAILROAD IN THE WORLD

Let it be forever remembered that the

CHICAGO & NORTH-WESTERN RAILWAY

is the best and shortest route to and from Chicago and Council Bluffs (Omaha), and that it is preferred by all well posted travelers when passing to or from

CALIFORNIA AND COLORADO.

It also operates the best route and the short line between

Chicago and St. Paul and Minneapolis

Milwaukee, LaCrosse, Sparta, Madison, Fort Howard (Green Bay), Wis., Winona, Owatonna, Mankato, Minn., Cedar Rapids, Des Moines, Webster City, Algona, Clinton, Marshalltown, Iowa, Freeport, Elgin, Rockford, Ill., are amongst its 500 local stations on its lines.

Among a few of the numerous points of superiority enjoyed by the patrons of this road, are its DAY COACHES which are the finest that human art and ingenuity can create; its PALATIAL SLEEPING CARS, which are models of comfort and elegance; its PALACE DRAWING ROOM CARS, which are unsurpassed by any; and its widely celebrated

NORTH-WESTERN DINING CARS,

the like of which are not run by any other road anywhere. In short, it is asserted that IT IS THE BEST EQUIPPED ROAD IN THE WORLD.

All points of interest North, Northwest and West of Chicago, business centres, summer resorts and noted hunting and fishing grounds are accessible by the various branches of this road.

It owns and controls over 5,000 miles of road and has over four hundred passenger conductors constantly caring for its millions of patrons.

Ask your ticket agents for tickets via this route. AND TAKE NONE OTHER. All leading ticket agents sell them. It costs no more to travel on this route, that gives first-class accommodations, than it does to go by the poorly equipped roads.

For maps, descriptive circulars and summer resort papers, or other information not obtainable at your local ticket office, write to the

PRICKLY ASH BITTERS

The majority of the ills of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irregular and Sluggish action of the Bowels, Headache, Sickness at the Stomach, Pain in the Back and Loins, etc., indicate that the Liver is at fault, and that nature requires assistance to enable this organ to throw off impurities.

Prickly Ash Bitters are especially compounded for this purpose. They are mild in their action and effective as a cure; are pleasant to the taste and taken easily by both children and adults. Taken according to directions, they are a safe and pleasant cure for Dyspepsia, General Debility, Habitual Constipation, Diseased Kidneys, etc., etc. As a Blood Purifier they are superior to any other medicine; cleansing the system thoroughly, and imparting new life and energy to the invalid. It is a medicine and not an intoxicating beverage.

ASK YOUR DRUGGIST FOR PRICKLY ASH BITTERS, and take no other. PRICE, $1.50 per Bottle.

EVENING NEWS.

Wednesday, - Sept. 24, 1884.

White Animals and Black.

Some very curious physiological facts bearing upon the presence or absence of white colors in the higher animals have lately been adduced by Dr. Ogle. It has been found that a colored or dark pigment in the olfactory region of the nostrils appears to be essential to perfect smell, and this pigment is rarely deficient except when the whole animal is pure white. In these cases the creature is almost without smell or taste. This, Dr. Ogle believes, explains the curious case of the pigs in Virginia adduced by Mr. Darwin, white pigs being poisoned by a poisonous root which does not affect black pigs. Mr. Darwin imputed this to a constitutional difference accompanying the dark color, which rendered what was poisonous to the white-colored animals quite innocuous to the black.

Dr. Ogle, however, observes that there is no proof that the black pigs eat the root, and he believes the more probable explanation to be that it is distasteful to them, while the white pigs, being deficient in smell and taste, eat it and are killed. Analogous facts occur in several distinct families. White sheep are killed in the Tarentino by eating Hypericum criseum, while black sheep escape; white rhinoceroses are said to perish from eating Euphorbia candelabrum; and white horses are said to suffer from poisonous food where colored ones escape. Now, it is very improbable that a constitutional immunity from poisoning by so many distinct plants should, in the case of each widely different animals, be always correlated with the same difference of color; but the facts are readily understood, if the senses of smell and taste are dependent on the presence of a pigment which is deficient in wholly white animals.—*A. E. Wallace in Phrenological Journal.*

The Cause of Earthquakes.

A good dal of thought has been expended in weaving the theories to account for earthquakes. Professor Newcomb thinks he explains the cause when he says: "The fluid matter beneath the earth's surface in cooling contracts, leaving a vacant space between it and the solid portion, causing the heavier parts to sink, and an earthquake results." Professor George H. Morrison, of Rutger's College, New Brunswick, has also a theory on this subject. It is this: The crust of the earth floats on and imposes an immense weight on a liquid substance, which is inconceivably hot. Now, as to the way an earthquake may be caused. Suppose moisture trickled gradually, year after year, through this crust into the heated mass. In our atmosphere steam would be produced. Thirty miles below us the pressure is so great that it is not likely that steam could be generated. One thing though: The pressure of 10,000 tons to the square foot, a pressure exerted in every direction would be incressed. Some effect must be produced there, and it is easy to see that if one place in the earth's crust is weaker than another near the region where the water trickled in, "the weakest place must stand the strain." It is not unreasonable to suppose that this pressure below might be so great that the earth's covering was shifted a little to adapt itself to the pressure from below. I believe this theory has the greater reason on its side, because earthquakes are almost always in the region of volcanoes, and volcanoes are always in or near the ocean.

A Queer Boston Merchant.

A Boston merchant who lived and died on Summer street, was a curious instance of one who had been an invalid from childhood, always extremely hypochondriac, who never imagined himself ill when he was not, nor exaggerated his actual illness, nor feared, unduly, sickness or pain, or death itself. But it was the business of his life to take care of his health; and he devoted himself to this work with wonderful assiduity. He rode just so far each day, when the weather was fair, and at such an hour. He had a great variety of clothing, which he regulated with precision by the thermometer, sometimes changing his dress many times in a day; and selected for his over-clothes, when he rode out, the very garments which the mercury indicated.

He had a weathercock put upon his stable, within fair view from his bedroom and sitting room; and that and his thermometer, and possible or impossible signs of the weather, he was watching constantly, and found in these occupations a very agreeable way of employing all his day and all his days. How far his long life is to be attributed to this excessive care it is hard to tell; but he outlived every brother and sister, every brother's wife and every sister's husband, and his own wife, and died in 1887 at the age of 81.

The Old Log Court House.

If the traveler on the Colorado Central road will notice as he passes through the western suburbs of Idaho Springs, he will observe an old log cabin, one story high and insignificant in general appearance, yet there was connected with this building a history closely woven with the affairs of Clear Creek County. Twenty-four years ago it was the court house within whose walls all the business in the then new section of country was transacted. Here were recorded the location certificates, deeds, etc., of the early pioneers. In the same building at that time a young man had his law office, and between times of making a few dollars in defending some one or prosecuting some other he worked as a clerk for the recorder. Great changes have taken place in Clear Creek since then. Cities have been built and handsome residences and costly public buildings reared. The old log court house has been exchanged for a more commodious structure, and the young man who worked as attorney and clerk now occupies the proud position of Secretary of the Interior in the cabinet of President Arthur.—*Colorado Miner.*

Russia's Principal Sights.

Russia presents no beauties of nature except in the Ural mountains on the Caucasus. The country along the great railroad lines is a monotonous prairie, but less fertile. The cities of St. Petersburg, Moscow, Warsaw, Kief and Odessa, especially the first two, contain all that is interesting to a traveller. St. Petersburg represents new Russia, Moscow old Russia. The principal sights in both are palaces and churches. They are filled to overflowing with treasures of silver, and gold, and precious jewels.

The winter palace and hermitage at St. Petersburg, the summer palace at Peterhof, the palaces of the Kremlin in Moscow are bewildering and oppressive by the treasures which unlimited power has accumulated for centuries. The churches, too, are overloaded with precious stones and glittering gold. The finest churches are St. Isaac's in St. Petersburg, built by Nicholas I., the Church of the Lady of Kazan, modeled after St. Peter's in Rome, and the Church of the Redeemer in Moscow, built in commemoration of the deliverance from the French in 1812, completed and consecrated in 1883 at enormous cost.

CONTRASTED SALARIES.—Our minister to France gets $17,500; England pays her minister to France $50,000, and gives him a palace to live in. The United States pays its ministers to England $17,500. England pays her minister to Washington $30,000 a year, and gives him a great mansion, fully equipped and furnished and $6,000 a year for entertainments. England pays her minister to Persia $25,000 a year and gives him a palace. We pay our chief justice $10,500 a year and our associate judges $10,000. Chief Justice Coleridge gets $40,000. The The other eight judges of his court get $25,000 a year each. Even the English consul at New York receives a salary of over $30,000 a year. Gen. Sheridan gets something like $15,000 a year. Gen. Weisely gets about $40,000.—*Chicago Herald.*

A STRAW WATCH.—A young man now serving a five years' term of imprisonment for horse stealing in Phoenix, has turned his enforced leisure to use, and manufactured a straw watch five centimetres in diameter by two in thickness. The works comprise a few bits of straw, some cotton, two needles and a pin, a small piece of paper forming the dial. It is said to go for six hours, and could be made to go twelve with a few improvements.—Ex.

TUTT'S PILLS

TORPID BOWELS and DISORDERED LIVER.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, averse sion to exertion of body or mind, Excitation of food, Irritability of temper, Low spirits, a feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, Highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work, and are a perfect
