

HEADED FOR KLONDIKE.

"Rock" Savage and Party Now on Their Way to the Yukon.

WELL EQUIPPED TO HUNT FOR GOLD.

Impressed business in the Yukon. The Junction Incorporated, Colorado Point Mill, South Study—Miscellaneous.

H. E. Savage, son of the veteran prospector, U. H. Savage, and formerly known as "Black," left this morning for the Yukon, with a party of men, accompanied by women, Randall and Hart, the former a late student of the Oregon school of the Pacific. The party, Mr. Savage, is well equipped for the hunt for gold in a cold and rigorous climate such as they expect to encounter before they reach the Yukon. Mr. Hart, taken along a part of the party, with which he expects to be much in determining the status of the country visited and the status of the party in determining where the gold is to be found.

Mr. Savage's experience with the U. S. government, especially in the Yukon, has been of great value to him, and he has undertaken, and while some of his nearest friends doubt the idea of his making northward, they believe in his ability to do so. The party will start at Tacoma and proceed to the Yukon, where they will be engaged in the hunt for gold. The party is well equipped for the hunt for gold in a cold and rigorous climate such as they expect to encounter before they reach the Yukon.

Another Klondike well known. James Clark, the well known Klondiker, and who has been in the Yukon for some time, is now in the Yukon, where he is engaged in the hunt for gold. The party is well equipped for the hunt for gold in a cold and rigorous climate such as they expect to encounter before they reach the Yukon.
