

(This has reference to the shipping of "saints," introduced by the knowledge of God was lost.) Christ has come with the power of God, (see 2 Thess. 1: 9), "with all power, and signs, and lying wonders," instead of genuine miracles. The true church has been departed from and is given to seducing spirits and doctrines concerning devils or rather demons. (See 1 Tim. iv: 1) Thus the church was pouring after her the stream of false doctrines. The church was flooded with them until the pointed time, when God again, true to His promise, opened a new era, laying the foundations of that kingdom which shall never be overthrown.

LAND REVIEW.

Women's Rights Under the Pre-emption and Other Land Laws.

WASHINGTON, July 3, 1888.

Editor Deseret News:

Continuing the subject of last week's paper, I will give a few points respecting women's rights under several statutes, beginning with the

PRE-EMPTION LAW.

A widow or maid over twenty-one years of age is entitled to land upon compliance with the statutory requirements respecting pre-emptions. Full citizenship is not a requirement, declaration of intention being all that is necessary in that respect.

Any woman who is the head of a family, though less than twenty-one years old, if otherwise qualified, may secure land under these laws.

A married woman is not entitled to the right of pre-emption. A single woman who marries after filing her declaratory statement and before making proof and payment, forfeits all rights as a pre-emptor and cannot acquire title to the land, though she and her husband continue to reside there.

In the event of the death of a pre-emptor before making proof and payment, the title may be perfected by or for the benefit of the heirs. Ordinary widows are not heirs, and cannot make final proof and payment for their own benefit. In some States widows are by statute made heirs of their husbands, and where such is the case, should there be no other heirs, the widow may perfect and enjoy the benefit of title to the land. Should there be several heirs the widow as one of them may perfect title for the benefit of all. Where the state law allows the widow only a dower right—or less estate—in the property of her deceased husband, she cannot acquire title to his pre-emption claim, but may as guardian make proof and payment for the benefit of minor heirs.

UNDER THE TIMBER-CULTURE LAWS, any unmarried woman under the age of twenty-one, or any single woman who is the head of a family, under that age, may enter and perfect title to land.

No residence is required on timber-culture entries, and marriage after instituting entry will not affect the rights of a woman to perfect title. The acts of cultivation, planting, etc., required by statute may be done by an agent as well as by the entry-woman in person.

THE DESERT LAND LAW.

Authorizes any woman, whether married or single, who is a citizen of the United States, or of requisite age who may be entitled to and has filed her declaration of intention to become a citizen, to initiate entry and acquire title to land upon compliance with its requirements. She may employ an agent to perform the acts necessary to reclaim the land as well as to perform the same herself. The wife's right to take land under this law is not overridden or interfered with by reason of her husband having exercised the privileges extended by the law.

THE STONE AND TIMBER LAND LAW,

Applicable to the states of California, Oregon and Nevada and Washington Territory, extends the privilege of entry to the extent of one hundred and sixty acres to every citizen of the United States or person who has filed a declaration of intention to become a citizen, regardless of sex.

Married and single women stand upon an equal footing with men under this law.

Rights may be abridged only by the voluntary acts of the person. The law allows but one hundred and sixty acres to be taken by one person or association of persons. Of course any one who is a member of an association making entry under this act waives his or her individual entry right.

It is held that a married woman in California cannot make an entry under this act with community (family) money, if her husband has exercised his privilege of entry under the act. Under such circumstances the husband and wife are considered an "association of persons," and entitled to but one entry.

THE MINERAL LAND LAWS

Extend to women all the rights and privileges that men may exercise or enjoy, without regard to the marital relation.

AT PUBLIC SALES OF LAND

Women stand upon equal terms with men; and, further, they may purchase as great a quantity of land

AT PRIVATE ENTRY

as they may be able to find subject to

disposal in that manner, or as they have the cash, scrip or warrants to pay for.

Accidents.

Last Sunday Mr. Joseph Hart, of West Weber, broke his leg. The young man, an employee of the railway transfer, was riding leisurely along Wilson's Lane on a young horse. As he crossed the D. & R. G. track, the horse, seeing an approaching train, became frightened and began kicking and jumping. As the train passed, the horse collided with the cab, throwing horse and rider to the ground with the result of breaking Mr. Hart's left leg just above the ankle. He was carried into the first house in the lane and Dr. Allen summoned, who set the broken limb. The young man was doing better yesterday and will soon be around again.

Sunday evening Mr. Joseph Clark dislocated the little finger of his left hand. He had jumped on his horse to go to the fire in the lane when the horse threw him with the above result. Mr. Clark was around yesterday, but as may be expected his finger pained him considerably.—Ogden Standard.

The C. & N. W.

Something of an unusual nature is taking place on the Sweetwater. During the past week a large force of men, bringing with them plows and scrapers, have come into that region and established camps, and are making preparations to do a large amount of grading, supposedly for a roadbed for the Northwestern. They seem to be heading for Independence Rock, but are so reticent in regard to their intentions that nothing can be learned of them. They are under the supervision of Crisman & Weller, Salt Lake contractors, and civil engineer J. R. Malady is one of the party. They are working over a survey formerly made by Negus & Wilkes. One party when spoken to said he did not know what the intentions of the directors were, but imagined they intended to do rock work enough to hold the right of way over the survey they were following. Camps are placed twenty miles apart and about twenty men are left at each camp. On Monday, at the camp three miles from Meyerville, the gang of men stationed there began breaking ground, and the teams were sent back for more scrapers and plows.—Lander (Wypmng) Mountaineer.

Murdered Man Found.

The Eagle Rock (Idaho) Register contains the following:

On the fifth day of April last a man by the name of Nelson Bump, who had for the past three years lived on the Dennis Small ranch in the Medicine Lodge settlement, started with a team and buckboard for Lost River, to attend to some business. He was well prepared for the trip; provided with supplies, blankets, etc. He expected to make the round trip in about five days. After a sufficient time had elapsed for his return, and he not having put in an appearance, inquiries were made from parties coming in from Lost River, who reported that he had not been seen in that part of the country. Months passed and no word being received from him, letters were written to his children who live in Montana, to ascertain whether he had gone there, but nothing had been heard from him. It was then surmised that he had been foully dealt with, and it was likely that if his team had run away from him they would have been seen by some one. Nothing was heard of him from that time till the third day of the present month, July, when Frank Robson, who lives on Lodge Creek, rode across the valley and accidentally discovered the buck board in a shallow ravine with the body of Nelson Bump lying across the back end of it, upon his face. The lower portions of his legs were hanging over the iron railing, the left arm doubled under the body, the head partially hanging over the side rail, a bullet hole through the clothing, in the right breast, and one in the head. The flesh had nearly all disappeared, nothing being left but the clothing and a ghastly skeleton. He had on a pair of buckskin gloves, rubber boots with moccasins inside, a wide rimmed hat lay on the ground where it had fallen from his head. The harness lay in front of the buckboard all complete, just as it had been taken from the horses, the whip in the socket. There was nothing to indicate that there had been a struggle of any kind. Coroner Davis was notified and on the 6th, proceeded to the place and held an inquest over the remains. The verdict of the coroner's jury was that he had been foully murdered by some person or persons to the jury unknown. Mr. Bump was about 40 to 45 years of age, was a member of the G. A. R. having served in the Union Army during the rebellion, was wounded in the right hand, also had his left eye shot out.

WASHINGTON, July 18. — Senator Platt was authorized by the Senate committee on inter-state commerce to report back (with verbal amendments) the Spooner bill subjecting the telegraph companies to the jurisdiction of the inter-State Commerce Commission and regulating their operations in much the same way as the inter-state commerce law regulates the affairs of railroads.

A Correction.

"A Bird" writes as follows from Kanosh, July 14:

Editor Deseret News:

In a recent communication from this place, describing a nocturnal visit of the deputy marshals, and the gathering in of several of our citizens, presumably for having more than one wife, your correspondent is made to say that Brother William Prows absconded, whilst the company was sleeping at Cove Creek Fort. It was Brother B. H. Watts. Brother Prows has never been arrested. Please correct and oblige.

The account of the raid above referred to, given by "A Bird," was very readable, and we would be pleased to hear from him again. But he and all newspaper correspondents should spell out in full the surnames of persons, instead of using their initials. The use of initials was the cause of the above error.

Accidents.

Byron Doolin, son of John P. Doolin, of this city, met with an accident on Sunday last which resulted in the loss of his left hand. He and a number of other boys went up Rock canon in search of berries. They came across an old saw mill, entered and proceeded to start the machinery going. One of the boys set the water on, and Bryan, picking up a piece of lumber, attempted to saw it in two. While doing so his foot slipped and he fell across the saw, his hand resting in front of the saw, which severed the hand almost entirely from the wrist, the hand being held only by the skin. The party came at once into town, to Dr. Simmons, who sent for Dr. Pike and it was found necessary to remove the hand. The boy is doing as well as could be expected.

Two accidents occurred a couple of days previous to the one above reported, at a tie camp at the head of Provo river, about sixty miles from here. A twelve-year-old boy was with his father, Robert Jennings of Springville, engaged in cutting ties. While Mr. Jennings was sliding the ties down the mountain, the boy, unknown to his father, got in the way of the rolling logs, one of which struck the little fellow on the leg, breaking the small bone. The father heard the boy's cries, came down the mountain and at once got his team for the purpose of bringing the boy to Provo. They traveled the sixty miles, getting here the following morning. Dr. Simmons set the boy's leg.

The other accident occurring at that place was in the case of James York, Jr., a young man residing in Provo, and engaged also in tie cutting. While splitting a log the ax glanced and struck his right foot, almost severing his big toe. He came to town at once, traveling all night, and got here on the morning of the 13th. Dr. Simmons dressed the foot, and has some hopes that the toe will not necessarily have to be amputated.—Provo Enquirer.

MARRIAGE LICENSES.

TO MEET THE REQUIREMENTS OF the lately enacted Territorial law, providing for a marriage license being issued by the Clerk of the Probate Court of the county in which the intended bride resides before a marriage can be legally performed, there has been issued from the press at this office a supply of licenses of approved form, which Probate Clerks will do well to avail themselves of. The law also requires that the person performing the ceremony return with the license, within thirty days after the marriage, a certificate over his own signature and countersigned by two or more witnesses present at the ceremony stating the date and place of the marriage. These certificates, suitable for either a civil officer or an Elder of the Church to use, can be had at this office in any quantity, and Probate Clerks ought to keep some of them on hand also, so that if necessary they could supply the person applying for a marriage license with a certificate also, to provide against the possibility of the person who is to officiate in performing the ceremony not having one to furnish them with.

Advices from Shanghai say that after an enormous sacrifice of money and labor all efforts to close the breach in the banks of the Hoang Ho river have been found to be futile.

—Santa Barbara, Cal., July 5.—About 3 o'clock this morning Ed. C. Davis and J. F. Donahue, who had been gambling and drinking, got into a fight in Steve Quimby's saloon. The men went away, but Donahue returned, commenced quarrelling with Quimby, drew a revolver and shot Quimby in the leg.

Prescott, A. T., July 15.—Captain Askett, chief of the Mojave Indians at Needles, and Merriam, and a Mojave scout were in Prescott today to get Governor Zulick to intercede with the government to obtain rations for the tribe. They depend on the annual rise of the Colorado River for irrigation to raise crops, and as the rise has not come this year they claim that great suffering will ensue unless they are provided with rations by the government. They say that they have sufficient supplies on hand to last till October, at which time they solicit aid.

Walla Walla (W. T.), July 14.—Governor Stevenson of Idaho offers a reward of \$1000 for the apprehension of Samuel Wilson and William Manemire, who are charged with the murder of Henry L. Pitts and Pittman Smith, deputy sheriff, and the mortal wounding of one Townsend at Graham, I. T. Manemire and Wilson were quarrelling with Pitts and shooting in a saloon, when Pittman Smith entered and commanded peace. In the fracas which followed the parties were killed. Ben Manemire, who was present, surrendered to the authorities.

A Sound Legal Opinion.

E. Bainbridge Munday, Esq., County Atty., Clay Co., Tex., says: "I have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters."

This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach Disorders stands unequalled. Price 50c. and \$1. at A. C. Smith & Co's Drug Store.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottles free at A. C. Smith & Co's Drug Store.

Large Bottles \$1.

The 'Exposition Universelle de l'art Culinare' awarded the highest honors to Angostura Bitters as the most efficacious stimulant to excite the appetite and to keep the digestive organs in good order. Ask for the genuine article, manufactured by Dr. J. G. B. Siegert & Sons, and beware of imitations.

DOCTORS' BILLS.

Nearly all diseases originate from inaction of the liver, and this is especially the case with chills and fever, intermittent fevers and malarial diseases. To save doctors' bills and ward off disease take Simmons' Liver Regulator, a medicine that increases in popularity every year, and has become the most popular and best endorsed medicine in the market for the cure of liver or bowel diseases.—Telegraph, Dubuque, Iowa.

In 1850 "Brown's Bronchial Troches" were introduced, and their success as a cure for Colds, Coughs, Asthma and Bronchitis has been unparalleled.

EVERY NIGHT I SCRATCHED

Until the skin was raw. Body covered with scales like spots of mortar. Cured by the CUTICURA Remedies.

I am going to tell you of the extraordinary change your CUTICURA REMEDIES performed on me. About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, then the next night the scales, being formed meanwhile, were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your CUTICURA REMEDIES, and purchased them from my druggist, and obtained almost immediate relief. I began to notice that the scaly eruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the CUTICURA Remedies, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommended the CUTICURA REMEDIES to all in my vicinity, and I know of a great many who have taken them, and thank me for the knowledge of them, especially mothers who have babies with scaly eruptions on their heads and bodies. I cannot express in words the thanks to you for what the CUTICURA REMEDIES have been to me. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and clean as a baby's.
