PROVO.

PROVO, UTAH, - SEPT. 30, 1893.

First District Court.

Judge Smith declined to send Adelbert Lash, the bad boy from Spanishville, aged 13 years, to the reform school, being of the opinion that a boy of such tender years could and should be controlled by his parents.

In the mining case of E. J. McClure vs H. H. Patten, the jury returned a verdict of $500 for plaintiff.

Joseph L. Graham has been granted a divorce from Sarah A. Graham on the ground of desertion.

The case of W. E. Warner, a Spanish Fork doctor vs E. B. Sorley, a druggist of the same city, to recover $5000 damages alleged to have been sustained on account of certain slanderous statements made by the druggist concerning the ability and character of the M. D., came on for trial yesterday, and again occupied the time of court today.

The jury returned a verdict for plaintiff of $100 and costs of court.

The Tuttle assault cases, in which Hyrum Hyde, Adelbert Collins and Cass Sullivan are interested, will be tried next month. The Hyde case is first on the list and is set for Monday next.

George R. Williams, of Springville, was yesterday brought before U. S. Commissioner Dailey on the charge of adultery, alleged to have been committed with Mrs. Frances Amra Ostrom Denetsa Aplegate McClurdy Wing (name complete.) The complaining witness was Dr. Joseph S. Wing. He told a long and disgusting story of his experiences of his wife's unfaithfulness. He claimed that in May last one became the mother of an immatured child of which he was not the father, and that she had told him a wonderful and weird story of its paternity. His wife claimed, he explained, to be a descendant of Napoleon I, and the child referred to was to have superseded the czar of Russia, etc. After hearing the testimony the commissioner dismissed the case. Wing has a suit for divorce pending in the District court. He does not allege adultery as a cause of action, but only desertion.

Notes.

Several pieces of property belonging to J. R. Milner were to have been sold by Deputy Marshal Berry at the suit of the National Bank of Commerce. The property was bid in by the bank for $400.

BACK VOLUMES
—OF THE—
DESERET WEEKLY.

The sixth volume of the DESERET WEEKLY in the present form is now bound. A limited number of copies of these six volumes can be obtained at the DESERET NEWS Office, Salt Lake City, to bound form at $2.00 per volume. It is the best history of current events to be obtained, and by far the cheapest, and the time is not far distant when they will be eagerly sought after by students of history, anxious to be informed of the stirring events which have transpired within the past three years—the most interesting period of the history of the Latter-day Saints. Every person who can afford it should secure these volumes while they are to be had for future reference, and especially should they be obtained for every Sunday School, Improvement Association and Ward library. Apply early to make sure of getting them.

PARK CITY.

PARK CITY, - SEPT. 23, 1893.

A Quiet Week.

This week just past has been one of extreme quietness to all lines of business. The people have not been overdoing themselves in any great extent, and all are anxiously awaiting a turn of events in regard to the starting up of the Ute mines. It was thought last week that with the starting of the Silver King some others would follow immediately. But's would have been the case but for the reason that the smaller mines are very slow and cautious in making contracts for ore. It is thought, however, that the Anchor and possibly the Crescent, will receive shoves to start up again in a few days. There are plenty of ore men ready to step in. It should be thoroughly known throughout the country that work is going here at present. It will be well if people do not flock in when the mines do start up.

Ore Shipment.

A small lot of ten tons of Mayflower ore has been shipped to the Keystone company at Sandy this week, also a lot of Northland ore.

Bullion and ore shipments from the Masser and Ontario still keep up regularly, and the Ontario and Daly mines have sent out their usual shipment of first class ore.

The Daly West.

Mr. J. J. Daly has been to the Park several times during the week, and rumors are afloat that he is making arrangements to start up work on the Daly West. Should this prove true it will not be long before all the Ute mines to be one of the last to camp.

Paying the Men.

R. C. Chambers has been in the city during the week paying off the many men employed at the Ontario and Daly mines and Ontario and Masser mills. He is always welcome.

The Weather.

The past week has been a remarkable one as far as weather is concerned. It has been as warm as in August. Rain has fallen twice, and this morning a change came over the inhabitants of a snowstorm, which promises to continue for some time.

Notes.

W. V. Rice and wife returned to the Park this week after a lengthy visit to Canada. They are both looking well, and glad to be home again.

Deer are reported plentiful in the hills around here, and several parties have been organized to hunt them. No returns yet as to the success of any of the hunters.

Politics in Salt Lake is looked upon with amusement by the citizens here, and many are the remarks uncomplimentary to the Liberal party. It seems that the Liberals will not have a ticket in the field in Summit county this fall, but the fight will be an open one between the Republicans and Democrats.

Several candidates are in the field to succeed Postmaster Harding who, but very little interest as to which one gets the office, as the people are satisfied with Mr. Harding, and no change is wanted by the great majority.

Improvements in several of the Main street store buildings for better handling of trade is attractive and a larger amount of merchandise has been arriving during the past week, than for a long time. Fall trade and winter supply vessels are at hand.

Railway Rumor.

Rumors fast and thick the past week indicate that a party of rich Salt Lakers are in the field preparing to build a railroad from Coalville to connect with the Union Centre at Kimballs. It is hoped that the Will prove true, as it is by far the most practical solution of the coal question for both Salt Lake and Park City.
