The first four names are republican and the last four democratic candidates.

Clerk of the Board."

The Sun's New Orleans special claims that the woman Pinxton, when cross-examined, said she received her wounds from negroes. That she don't know what became of her child, nor what the color of the men was who killed her husband.

The World's special says she admitted that there were colored men among the assailants, and that soon after the affair she had said it was all the work of negroes and no whites.

WASHINGTON, 29.—Public business was generally closed in the Executive Department at noon today, when the employees began their thanksgiving holiday. Nearly all the annual reports of the heads of departments are completed and the substance of all of them has been handed to the President for reference during the preparation of the message.

Secretary Morrill has completed the Treasury report, and is now engaged in reading proof and making whatever revision may be necessary.

The Attorney General is preparing his report which will probably be ready to lay before Congress when the President's message is sent in. The President received the following dispatch last night:

"Columbia, S. C., 28.

"His Excellency U. S. Grant, President of the United States.

"House and Senate organized today. The democrats on the refusal to admit the members from Edgefield and Laurens counties, withdrew, leaving sixty members in the House, a quorum of all the members chosen; the House then proceeded to business. The Senate organized without delay. Gen. Ruger has preserved peace, and acted with perfect impartiality and great good judgment.

(Signed)

"D. H. CHAMBERLAIN,

"Governor of South Carolina."

St. Louis, 29.—In the Metcalfe-Frost case, Judge Lindley this morning ordered a peremptory mandamus to issue compelling the county clerk to change the returns from precinct number 57 from 292 for Frost to 272, as originally written, and to certify the returns of the third congressional district to the Secretary of State in conformity with this order. This will give Metcalfe a republican majority.

CHICAGO, 29.—General Sheridan arrived this morning from New Orleans. He states that the stories of intimidation have not been overdrawn, and cannot be. There was, he says, in reality no election in many parishes, the form being merely a blind for frauds, which will clearly be proven. Attempts were made to wreck the train on which he returned on Monday night. Three different plans were laid, but in each case the engineer's vigilance averted the calamity which might have resulted.

COLUMBIA, S. C., 29.—The situation is unchanged with the exception that the republican House has been in session all morning, but unable to transact any business on account of absentees, which leave it without a quorum. The Senate is discussing the concurrent resolution passed by the House yesterday to go into the canvass of the returns for Governor and Lieut. Gov. The democratic House went into secret session in Carolina Hall, receiving the report of the committee, appointed yesterday to obtain the returns from the Secretary of State for Governor and Lieut. Governor. The committee reported that the secretary had surrendered the returns to Mackey, the Speaker of the republican House.

The military still garrison the State House.

The supreme court met and adjourned without transacting any business, the lawyers being engaged

in making returns to the habeas corpus case of the board of canvassers in Judge Bond's United States circuit court.

The sergeant-at-arms of the republican House is engaged in looking up absentees, without success so far.

FOREIGN.

LONDON, 28.—A special from Vienna announces the existence of a crisis caused by the agitation in Austria against the scheme for the establishment of a plan known as the Austro-Hungarian Bank. This scheme forms part of a plan known as the Austro-Hungarian compromise, for settling the relations between the two halves of the Empire, and has excited great dissatisfaction in Austria as unduly favoring Hungary. The committee appointed by the Austrian National Bank has recommended the rejection of the bank scheme. There is much excitement, as without the agreement on the bank question, the renewal of the Austro-Hungarian compromise is impossible.

The British foreign office publishes a despatch from Sir Henry Elliott, Ambassador at Constantinople, strongly denying the statement made by the correspondent of the Times, that he had advised the Porte to hold itself in readiness to stand upon its rights, and make demonstrations of force.

The Times dispatch from Berlin states that the Porte intends moving at the conference for international arbitration upon the question of Russia's right to dispatch volunteers to Serbia, and if she has not the right, the Porte will demand a large indemnity for the prolongation of the war occasioned by the Russian volunteers.

The Times Vienna dispatch says a dispute has arisen regarding the line of demarcation around Alexinatz. The Russian project includes Deligrade and Alexinatz in the neutral zone, while the Servians claim that Alexinatz should be evacuated on the ground that it was occupied by the Turks after the armistice began.

The steamer *Britannic*, which sails from Liverpool for New York to-morrow, takes out \$1,250,000 in American gold coin.

LIVERPOOL, 29.—While the Allan line steamer *Prussian*, which was appointed to sail from this port for Portland to-morrow, was taking in coal to-day, an explosion of coal gas occurred, by which ten laborers were terribly mutilated, some it is feared fatally. The steamer's lower deck was blown up, and she was otherwise injured.

LONDON, 29.—It is officially announced that Sir Bartle Frere has been appointed Governor of the Cape of Good Hope.

CONSTANTINOPLE, 29.—A ministerial crisis has arisen in consequence of the Grand Vizier having refused assent to the constitution proposed by Midhat Pasha, and has appealed to the Sultan to support his refusal.

HAVANA, 29.—The present campaign was opened by a severe fight on the plains of Manos, between Remedios and St. Esmerito. The Spanish accounts say that their force consisted only of 400 infantry. The insurgents, numbering 300 infantry and 400 cavalry, had taken up their position on the plains and attacked them. The Spaniards were encamped in ambush, and the insurgents, by sending out some guerrillas, enticed a portion of the Spanish forces into the plains, where a number fell on them, and whilst these Spaniards were fighting for their lives, the remainder of the insurgents attacked the other Spanish troops. Both parties claim a victory. The insurgents seem ahead. The Spanish lost 33 killed and 59 wounded, and the insurgents 24 killed. The foregoing is

from a Spanish official. Private accounts say the Spaniards lost 170 killed and wounded. In order to resist the attack of the insurgents, the cavalry and Spanish troops formed squares, which were twice broken. Gen. Martinez Campos was at Remedios during the fight.

PARIS, 30.—The committee on the bill relating to military escorts at the burial of members of the Legion of Honor, has decided to report against making any compromise. It is expected that the bill will be withdrawn, and a ministerial crisis is no longer apprehended.

LONDON, 30.

The Vienna correspondent of the Times says, in a circular dispatch to her ambassadors, Russia does not claim the right to alone occupy Turkish territory. She wishes the other powers to take part. If they refuse, she will take the execution in her own hands. Russia will ignore the Turkish constitution. She claims that Turkey has already invalidated the treaty of Paris, by not meeting her obligations to improve the condition of the Christians. This is the general line of policy to be followed. Ignatieff will have large discretionary powers.

The Moscow Gazette says funds are being subscribed for the purchase in America of letters of marque for vessels to be employed against the English merchant shipping in the event of war between England and Russia. Similar subscriptions have been opened in other Russian towns.

LONDON, 1.

An Aberdeen newspaper states that the captain of the whaler *Jan Mayon*, of Peterhead, recently encountered an Esquimaux who informed him that a tribe of Esquimaux, living far to the northward of Cumberland Gulf, many years ago massacred Capt. Crozier, second in command of the Franklin expedition, and five other whites, because they refused to surrender guns and ammunition.

The Times Vienna dispatch says the interest shown by the powers in the cause of Bulgaria, Bosnia and Herzegovina, produced agitation among the Christians. In the other provinces of Turkey the Greek subjects of the Sultan are particularly active in protesting against giving special privileges to Christians of Slavonic descent, demanding equal reforms for all Christians. A petition from Epirus and Thessaly sets up this claim in a threatening manner. The Jews and Armenians are also petitioning the Porte. These movements are very convenient to the Porte on the eve of the conference, strengthening its opposition to the concessions demanded for the various provinces. With a view to a possible insurrection, measures for the defense of Epirus and Thessaly against invasion from Greece have been taken. The passes between these provinces have been fortified, the garrison for Larissa strengthened, the frontier guards reinforced, and the Mahometan population of Thessaly organized as a national guard.

St. Petersburg, 1.—The Grand Duke Nicholas has left to join the army.

VIENNA, 1.—A dispatch to the News reports that the commander of the Black Sea fleet, in addressing the men at Nikolaieff, concluded with the following words: "This year you are destined to fight against the enemies of our religion. Remember the sailors of the Black Sea gained glory at Sebastopol."

The reports from the principal wine producing districts of Europe are, that the vintage this year, both in quality and quantity, falls far below the common average. The loudest complaints come from France, Spain and Portugal, but Italy and Germany have also suffered, and one half the production is represented unfit for exportation. The main cause of the failure in France is attributed to the ravages of phylloxera, while in the Rhine districts unfavorable weather has operated to produce unfavorable results.

A special from Constantinople says an inundation has occurred at Adrianople, by which 1,000 houses were swept away.

The Russian commission has assumed the management of the railway connecting Russia and Roumania.

BERLIN, 2.—Bismarck gave a parliamentary dinner yesterday, at which he made a speech wherein he promised to make a statement upon the political situation at the debate in the Bundesthag upon reading the estimates. In the course of his speech Bismarck laid great stress, repeatedly, upon the neutral attitude Germany would assume in the event of warlike complications arising, and the weight which the powers attach to Germany's relation with Austria took a particularly prominent place in his observations. He concluded: If war breaks out, it is requisite that it should be localized, and therefore England should be induced not to isolate from other powers and engage in a quarrel with Russia. He said the preservation of peace ought not yet to be despaired of; but if war ensues, which certainly seems probable, Russia and Turkey will, after a time, tire of it, then Germany will be able to mediate with better prospects of success than now. Advice to Russia now would anger the Russian nation, which would be worse than passing dispute with a government. He hoped England would not wage an open war against Russia. If Austria's existence is threatened Germany would support her, thus unselfishly continuing to act like lead in the framework which causes a puppet to stand upright. Austria, moreover, possesses greater vitality than most people think.

PARIS, 3.—A dispatch from St. Petersburg to the *Estafette* asserts that the Russian Government has ordered twenty million cartridges in the United States.

The damage to crops was less than expected, but the loss of life has probably been understated. Ninety per cent. of the plough cattle has been lost. Sickness prevails, but fears of destitution are removed.

A terrific gale has prevailed throughout the British Isles since Saturday. Floods are reported in many places, which have caused much damage. There have been numerous disasters to the shipping on the coast with considerable loss of life. The water of the Thames is very high and a disastrous overflow is feared.

A Berlin dispatch to the Times says the mobilized Russian regiments are being successively sent to the south, and in the latter part of December a quarter of a million of armed men will be on the Pruth ready to cross. Eighty-four military hospitals have been formed, capable of receiving forty-two thousand men. In several provinces of Russia the inhabitants have been ordered to furnish lists of plate and other silver articles in their possession. It is supposed that in the event of a prolonged war the metals will be seized and scrip given in return.

A dispatch from Pesth says it is reported that the Turks are making preparations for a struggle with terrible earnestness. Formidable fortifications are being erected at Widdin, Rustchuk, Silistria and Schumla, and artillery are being sent to those places.

Centaur Liniments.

[Letter from a Minister.]

Wm. H. Hickox, Rector of St. John's P. E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a weak back, caused from a sprain more than 40 years ago. I have not found anything to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain." "Jan. 2nd, 1876."

This is a sample of many thousand testimonials received, of wonderful cures effected by the Centaur Liniment. The ingredients of this article are published around each bottle. It contains, Witch Hazel, Mentha Arnica, Rock Oil, Carbolic, and ingredients hitherto little known. It is an indisputable fact that the Centaur Liniment is performing more cures of Swellings, Stiff Joints, Eruptions, Rheumatism, Neuralgia, Sciatica, Caked Breasts, Lock-jaw, &c., than all other Liniments, Embrocations, Extracts, Salves, Ointments, and Plasters now in use.

For Toothache, Earache, Weak Back, Itch, and Cutaneous Eruptions, it is admirable. It cures burns and scalds without a scar. Extracts poison from bites and stings, and heals frost-bites and chilblains in a short time. No family can afford to be without the Centaur Liniment, white wrapper.

The Centaur Liniment, Yellow Wrapper, is adapted to the tough skin, muscles and flesh of the animal creation. Its effects upon severe cases of Spavin, Sweeney, Wind-Gall, Big-Head and Poll-Evil, are little less than marvelous.

Messrs. J. McClure & Co., Druggists, cor. Elm and Front Sts., Cincinnati, O., say:

"In our neighborhood a number of teamsters are using the Centaur Liniment. They pronounce it superior to anything they have ever used. We sell as high as four to five dozen bottles per month to these teamsters."

We have thousands of similar testimonials. For Wounds, Galls, Scratches, Ring-bone, &c., and for Screw Worm in Sheep it has no rival. Farmers, Livery-men, and Stock-raisers, have in this Liniment a remedy which is worth a hundred times its cost.

Castoria.

Mothers may have rest and their babies may have health if they will use Castoria for Wind Colic, Worms, Feverishness, Sore Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphia, nor alcohol. It is as pleasant to take as honey, and neither gags nor gripes.

Dr. E. Dimock, of Dupont, Ohio, says:

"I am using Castoria in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what everyone says. Most nurses in New York use the Castoria. It is prepared by Messrs. J. B. Rose & Co., New York, successors to Samuel Pitcher, M. D.
