

IRISH LEADERS
ISSUE ADDRESS
Redmond, McHugh and O'Donnell
To Their American Friends.
MISSION VERY SUCCESSFUL.
Editor of United Irish League Will
Be That of Parnell and Land
League Taken Up Anew.

New York, Dec. 10.—John E. Redmond, leader of the Irish parliamentary party, and his associates, Messrs. McHugh and O'Donnell, have issued a far-reaching statement to their American friends. It is announced that their mission has been the most successful since the days of Charles Stewart Parnell, and the envoys will start on their return to Ireland today with the assurance that a fund of \$100,000 will be raised for this purpose.

"We came here at the request of the United Irish league, which is the organization of an absolutely united Irish people at home. The organization has been endorsed by the votes of the people in the ballot boxes at the general election, which took place twenty months ago and which resulted in the return of the English parliament to a body of nationalist members, all united together in one political party and under the same leaders.

"We have no quarrel with Irishmen who desire to go further and who contend that our policy is insufficient. Every Irishman who desires to strike an effective blow against English domination, but we have come to America to ask sympathy and support for the present Irish movement which is organized upon lines that the experience of the past twenty years has proved to have been wise and successful."

"The policy of the Irish league, it is announced, is the policy of Parnell and the land league taken up anew. The Irish visitors say that one of the foremost aims in the program of the United Irish league is the promotion of the Gaelic revival movement. It is the fact that the Irish people at home contributed \$150,000 to spread the organization. Mr. Redmond and his associates ask that "in the future this burden shall be shared in America. The particular form in which we ask support for our movement in America is the creation of an United Irish league of America on the same lines as the land league of America twenty years ago."

CASHIER SKIPS.
Takes \$100,000 From Los Angeles Farmers' and Merchants' Bank.

Los Angeles, Cal., Dec. 9.—H. J. Fleishman, cashier of the Farmers' and Merchants' bank of this city, has disappeared with a sum of the bank's cash which Vice President T. W. Hellman estimates at \$100,000. The shortage was discovered today. Fleishman has not been seen since 3 o'clock Saturday morning. At that hour he was at his club. He notified the bank people that he was ill Saturday morning and would not be at his desk. Nothing was thought of the matter at the time. When Fleishman failed to report today his accounts were gone over and the shortage discovered. The exact amount has not yet been ascertained.

Fleishman had been cashier and assistant cashier of the Farmers' and Merchants' bank for many years. He began work for the bank when a boy in 1875. He was under bond with a surety company for \$50,000. In addition to this he had real estate and personal property in this city amounting to \$100,000, with a surplus of \$1,000,000 and deposits of \$5,000,000.

H. W. Hellman Jr., said of Fleishman: "Fleishman had no valid excuse for taking the money. He has property enough to realize the amount he has taken from the bank. He was always considered a man of fine habits and unimpeachable integrity. He was at a complete loss to account for his action. The bank is amply protected and will not lose a cent."

"We haven't the slightest idea of his whereabouts. It is probable that he left Saturday immediately after telephoning the bank that he would not be down. Of course, with such a start, it may be some time before he is located. However, we are not worrying about the money, since we have bond and collateral sufficient to protect us fully."

Will Carry Soldiers to Philippines.
San Francisco, Dec. 10.—The United States cruiser Philadelphia has come down from the Mare Island navy yard, where she has been undergoing repairs, and is now awaiting orders. It is expected that she will go to Panama. The army transport Hancock is scheduled to sail for Manila on the 16th of this month with 1,100 soldiers of the Twenty-second infantry, who will come from Chicago. The Sheridan will be in readiness to sail at the same time, and it is as yet undecided whether she will be ordered away soon. She is to carry 1,700 soldiers and passengers.

Negro Sentenced to Hang.
Waco, Texas, Dec. 10.—Anderson Norris, colored, who killed Mrs. Emma French Dec. 5, 1900, by hitting her on the head with a barrel of a target rifle, has been sentenced by Judge Scott to be hanged on the 15th of January next.

Preacher Sentenced for Bigamy.
Waco, Texas, Dec. 10.—Rev. J. F. Harrison, a preacher, recently convicted and given two years in the penitentiary, was sentenced by Judge Scott, in accordance with the verdict of the jury. Harrison made a sensation in the courtroom by reiterating a former statement that he was divinely inspired to contract a second marriage, which constituted the offense of which he was convicted. He thanked his lawyers, saying no man could defend him unless divinely inspired.

Alcohol as Muscle Food.
New York, Dec. 10.—Before the biological section of the New York academy of sciences at the Chemists' club last night, Prof. F. S. Lee, of the college of physicians and surgeons, gave the result of his experiments on the action of alcohol on muscle. He had found, he said, that in certain conditions, alcohol was essentially a muscle food and that with its aid greater results could be obtained than under nor-

Young Girls

Are often engaged in doing the work of a home under the most trying conditions. Nature cries out against the stooping and lifting, the running up and down stairs times when labor should be as light as possible. It is owing to overstrain or self-neglect under these conditions that the foundation is laid for serious womanly diseases. Irregularity is the first step to impaired womanly health. Perfect regularity may be established by the use of Dr. Pierce's Favorite Prescription. It will heal inflammation and ulceration and cure female weakness. It makes weak women strong and sick women well.

"I can thank Dr. Pierce for the great good received from the use of his 'Favorite Prescription' and 'Golden Medical Discovery.' I had suffered for three years or more at monthly periods. It seemed as though I would die with pains in my back and stomach. I could not stand at all without fainting. Had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's 'Favorite Prescription.' With but little faith I tried it, and before I had taken two bottles I felt better. Now I have taken two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery,' and am entirely cured, and in two months time when all other medicines had failed."

Dr. Pierce's Common Sense Medical Adviser, paper covers, sent free on receipt of 21 cent stamps, to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

mal conditions. While Prof. Atwater worked on living subjects, Prof. Lee conducted his experiments on frogs' legs, in which the alcohol had been injected before amputation, so that the blood might be excluded from the leg. Prof. Lee found that when he used a definite amount of the spirit the legs, excited by electrical stimulation, were able to put forth greater efforts than those not so treated.

On the other hand, when too great an amount had been employed, the effect was exactly the opposite. He said his experiments demonstrated the truth of Prof. Atwater's results, that in proper proportions, alcohol was an excellent muscle food, furnishing the power as well as the stimulation to greater effort.

War of 1812 Widow Dead.
Hamilton, O., Dec. 9.—Mrs. George D. Dick, said to be one of the last four American widows drawing pensions from the war of 1812, is dead at her home in this country. Her first husband was John Hartman, and it was on his account that she was pensioned. Mrs. Dick was 81 years old.

De Wet Close to Hellbros.
New York, Dec. 10.—De Wet is reported to be close to Hellbros with 2,000 men, and to have come very near surrounding Kitchener's fighting scouts under Col. Wilson, says the London correspondent of the Tribune. Col. Lemington, by making a night march of 30 miles, relieved Wilson and both columns retired to Hellbros, with a few casualties.

A NATIONAL UNIVERSITY.

Carnegie to Make a Ten Million Dollar Donation for One.

GOVERNMENT TO CONTROL IT

To Be Greatest Institution of Its Kind in the World—Solely for Post Graduate Work.

Washington, Dec. 9.—The Post-Office will say: President Roosevelt has received a letter from Andrew Carnegie in which the latter offers to make a donation of \$10,000,000 to the United States. This letter will be referred to Congress by the President in a special message.

Mr. Carnegie's gift is for the purpose of establishing in Washington a university for higher education. As far as his idea has been developed, it proposes a gift after the manner of the bequest of James Smithson, the Englishman, who gave \$1,000,000 for the establishment and maintenance of what is now known as the Smithsonian institution. Smithson desired the institution founded by him to be a factor in the diffusion of scientific knowledge.

Mr. Carnegie proposes that the university which he is to endow shall be the greatest institution in the world for the development of higher education. He has consulted President Gilman of Johns Hopkins university, President Hadley of Yale, President Eliot of Harvard, ex-President White of Cornell and all the leading educators in the country. They heartily endorse his plans.

The proposed university will not interfere in the least with the educational institutions already established, but will supplement them, for, according to the present plan, its doors will be open only to those who desire to take up a post-graduate course.

Mr. Carnegie also wants the new university to take the lead in original research, so that the United States can eventually stand side by side with Germany. If not exact that nation, in scientific development.

Mr. Carnegie's plan does not propose a national university in the sense that an appropriation will be asked or needed. The government is simply to be the trustee of the magnificent endowment, just as it administers the fund bequeathed by Smithson. It is probable that a board of trustees will be appointed, as in the case of the Smithsonian institution, or it may be that the government will be represented upon the board of directors, which is contemplated, shall consist of men of national reputation.

Mr. Carnegie has kept the proposed endowment a secret until he could definitely arrange the plan and scope of the new university, even yet all these details have not been arranged, so that little more than the outline of his plan can be published. It is known, however, that he does not propose to ask from Congress a single foot of land upon which the uni-

versity buildings will be constructed. The entire expense is to be borne out of his endowment. No site has yet been selected. It will, however, necessarily be very large, as it is proposed to erect a series of magnificent structures. The amount of money to be given by Mr. Carnegie equals the sum of the present endowment fund of Harvard, and is considerably more than the invested fund of Yale.

PROPERTY FOR STANFORD.

San Francisco, Dec. 10.—The deeds of gift executed by Mrs. Jane L. Stanford conveying property valued at from \$25,000,000 to \$30,000,000 to the Leland Stanford, Jr. university do not affect her life time. The total of her endowment is said to be three times greater than that ever before given by one individual to educational purposes by any person in the history of the world. The properties given to the university, now the subject of existence, are enumerated as follows:

Interest-bearing stocks and bonds of higher class, conservatively valued at \$15,000,000, and mostly bought with the following estimated possession two years ago: 250,000 shares Southern Pacific stock at \$10 a share, \$2,500,000; 10,000 shares Central Pacific stock at \$25 a share, \$250,000; Market street railway stock \$1,500,000; one-fourth interest in Pacific Improvement company, \$7,000,000; total \$29,250,000. Real estate, including 100,000 acres of land valued at \$12,000,000; Vina ranch, Tehama county, \$55,000; enormous brand and agricultural place, Griddle ranch, Butte county, \$2,000,000; largest wheat ranch in the world; Palo Alto ranch, Santa Clara, \$300,000; farm hill, San Francisco; Stanford residence, Sacramento and extensive tracts of real estate in seventeen other counties of the state, the lands aggregating about 100,000 acres.

Since the university first opened its doors, October 1, 1891, after being legally founded in May, 1891, it has received about 4,500 matriculated students from all parts of the world and has conferred degrees upon 1,500. The ground of buildings all in new, yet splendidly grown and still growing, and a large campus settlement has developed with beautiful residences and a neighborhood with a population of 1,500. Instruction at the university is free.

Attack Vaccination Methods.

New York, Dec. 10.—Dr. W. R. Inge Dalton, at a meeting of the Society of Medical Jurisprudence, held last night, attacked the system employed by the board of health in the manufacture and distribution of anti-toxin serum and vaccine virus. Recalling the recent deaths in Camden, St. Louis and other cities from tetanus, or lock-jaw, Dr. Dalton attempted to fix the responsibility therefor. His paper, which was entitled "Commercialism and Responsibility in Connection with Anti-Toxin and Vaccine Virus," precipitated an animated discussion in the course of which the New York City government was attacked and defended, and Dr. Love, formerly of St. Louis, denounced the authorities of that city for vaccination methods in unmeasured terms. The action of the state authorities in providing for the inspection of serum and virus by the state board of health was informed and members of the society who are members of the bar association expressed the opinion that to safeguard the public health a revision of the laws relating to the manufacture and sale of these preparations would be advisable.

Kruger in Better Health.

New York, Dec. 10.—Commandant W. D. Smyth, formerly on the staff of Gen. De Wet, recently visited Holland, and while there spent two days with President Kruger and the envoys. He has returned to this city, and reports for health that at any time in the last four years. Commandant Smyth brings from President Kruger a message of thanks to the friends of the Boer cause. It has been definitely decided that President Kruger will not visit the United States.

THE FIELD OF VICKSBURG.
New Yorkers Go to Locate Spot Where N. Y. Troops Fought.

New York, Dec. 10.—There will start from this city tomorrow morning a party of seven New Yorkers who are pointed by Gen. Sickles, chairman of the Gettysburg and Chattanooga commission, which has already placed monuments and tablets on the various spots about these two great battlefields where New York troops distinguished themselves.

The members of the Vicksburg committee are Col. Andrew D. Baird, M. J. David P. Wright, Capt. Henry Dreyer, and Lieut. J. J. Johnson. They will be accompanied by Col. Lewis R. Stegman, Maj. Chas. A. Richardson and Maj. A. J. Schaffel. The party will spend a week in tramping about over the historic ground.

Carnegie's Oratorio Party.

New York, Dec. 10.—Andrew Carnegie's "oratorio party" at Music Hall last night was an affair for which in all probability no precedent could be found. The hall was packed with musicians, the enthusiastic members of the People's Choral union and its classes, drawn from all sections of the various boroughs, with the largest contingents from the East Side and Harlem, more than 2,000 of them; the entire body of the public school music teachers and a selected list of professional singers from church choirs and private choral societies. Under the stimulus of the occasion, Mendelssohn's "Elijah" was superbly sung. Just before the final chorus, Mr. Frank Damrosch, the conductor, addressed the audience, suggesting that if all joined voices in a great hymn of praise the mighty burst of song would be an effective expression of their thanks to their host.

The orchestra then struck up the Hallelujah chorus.

G. A. R. Staff Appointments.

Chicago, Dec. 10.—The executive committee of the National Council of the G. A. R. will meet Thursday to consider the time and place of the next National encampment. In a general order the following appointments on the staff of the commander-in-chief have been announced:

Adjutant-general, Silas H. Towler, Minneapolis; quartermaster-general, Chas. Burrows, Rutherford, N. J.; inspector-general, Wilfred A. Webster, Boston; judges-advocate-general, Henry M. Buford, Detroit; chief of staff, A. Noel Blackman, Mount Vernon, New York.

Street Car Riders Shot.

Scranton, Pa., Dec. 9.—The most serious of the many riots which have occurred here during the street car strike happened today. Special Officer Frank Schofield, accompanied by Detective Caspary, whose head was cut in Sunday night's riot, went to the scene of Sunday night's disturbance to apprehend any one the detective might be able to identify as having been among the assailants. They attempted to arrest a man in

LIFE SAVED BY SWAMP-ROOT.

The Great Kidney, Liver and Bladder Remedy.

SAMPLE BOTTLE SENT FREE BY MAIL.

Swamp-root, discovered by the eminent kidney and bladder specialist, promptly cures kidney, liver, bladder and some of the early symptoms of weak kidneys are pain or dull ache in the back, rheumatism, dizziness, headache, nervousness, catarrh of the bladder, gravel or calculus, swelling, urine cloudy, puffy or dark circles under the eyes, suppression of urine, or compelled to pass water often day and night.

The mild and extraordinary effect of Dr. Kilmer's Swamp-root is soon realized. It stands forth as the most wonderful cure of the most distressing cases. If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle of Dr. Kilmer's Swamp-root and a pamphlet that tells all about it, including many of the thousands of letters received from sufferers cured, both sent free by mail. Write Dr. Kilmer & Co., Binghamton, N. Y., and please mention that you read this generous offer in the "Desert News."

a saloon but no sooner was the warrant shown than a crowd of miners attacked them with clubs, clubs and knives. They retreated backward, protecting themselves with drawn revolvers, when some one in the mob fired a shot. The officers and a non-uniform motorist, who accompanied them, scattered their revolvers, thereby scattering the mob and then ran. The mob kept up a steady fire from places of concealment. Three of the mob were shot but their wounds are not serious. Schofield is a striking conductor. He is serving as a special officer in a magistrate's court to fill in time until the strike shall be ended.

South African Concentration Camps.

London, Dec. 9.—Lord Lansdowne, parliamentary secretary of the colonial office, while speaking at Kew last night announced that the concentration camps in South Africa had now been placed under the control of the civil authorities; that no pains or expense would be spared to place them in the healthiest possible condition and that those concentration camps which had been placed in the hands of the military would be freed to go to the coast.

Lord Lansdowne added that the larger concentration camps were being broken up into smaller ones from 1,500 to 2,000 persons each and that if the government found matters did not improve in the future they would not hesitate to turn to the experience which has been gained in India in dealing with the plague.

Texas School Fund Purchase.

Austin, Tex., Dec. 10.—State Treasurer Robbins stated at the state board of education has commuted a large bond purchase for the school fund. The purchase was \$400,000 1 per cent Texas state bonds, which were bought of New York city at about 112, making the net interest about 1 per cent. This is one of the largest purchases in recent years.

Lord Curzon at Rangoon.

New York, Dec. 10.—A correspondent of the London Times and New York Times wiring from Rangoon says Lord Curzon arrived here yesterday and was heartily welcomed by all classes of the community during his triumphal progress through the streets. Among the addresses of welcome from the several races, that of the Chinese was

noteworthy in its assertion of the appreciation of the advantages of freedom, equality and justice under the British flag. Lord Curzon, in his speech of thanks to the friends of the Boer cause, said that the Boer resources of the country, he said, had just been scratched, and were sure at some time greatly to increase its wealth. At the conclusion of his speech, he said:

"If Burmah is a benighted country, where are progress and enlightenment to be found?"

Father W. J. O'Kelly Dead.

New York, Dec. 10.—Father W. J. O'Kelly, the Catholic priest who injured his hand while fishing at Rockaway beach a month ago, and who refused until too late to allow one of his thumbs to be amputated for the reason that he feared it would interfere with his work as a priest, is dead, the result of blood poisoning.

To Cross Atlantic in a Balloon.

New York, Dec. 10.—A dispatch to the Herald from Paris says:

The journals announce that M. Capazza, the first aeronaut who crossed the Mediterranean from Marseilles to Corsica, is about to undertake a most daring journey. M. Capazza, when interviewed, said:

"The project which I desire to carry out and which I have studied with M. Elise Reclus and Baron Roger, the lecturer on physical geography at the Sorbonne, is that of traversing the Atlantic in a balloon, starting from the Canaries and landing at the southeast of Panama."

"As to my steerable balloon, I hope to have it constructed next year."

No Franco-German Alliance Possible.

New York, Dec. 10.—The leading Austrian papers say the Vienna correspondent of the London Times and New York Times, while giving serious attention to the recent speech of M. Maschke in the French chamber of deputies in which he suggested the influence of a Franco-German alliance, do not believe that such an alliance is possible at present. The improvement in the relations of the two countries since the Waldeck-Rousseau ministry have into power is noted, but the Neue Presse declares that Germany cannot yet afford to relax its vigilance which Von Moltke said would be necessary for half a century.

The Wiener Presse adds that not even Emperor William, who is full of bold ideas, would regard the right moment for such a coalition as being at hand.

Rapid Transit for England.

New York, Dec. 10.—According to the London correspondent of the Tribune, promoters of the London & Brighton Electric railway make the announcement that they will convey passengers the 47 miles in 32 minutes. The suggested length of their tunneling is enormous. It is proposed that there shall be fourteen tunnels, with a total length of nineteen and one-half miles. The scheme is looked upon as an interesting but costly experiment.

Good Chance for Ireland Now.

New York, Dec. 10.—A telegram from Dublin to the London Times and New York Times says that William H. K. Redmond, M. P., speaking at a Gorey, County Wexford, meeting of the United Irish league, said there never was a time when there was a better chance than at present to strike a blow for Ireland. "Thanks be to God," he said, they had lived to see the day when John Bull had been caught by the throat by the men in South Africa who were giving him the greatest whaling he ever got. Mr. Redmond said he prayed that God might strengthen the Boers until they danced on John Bull's chest.

Great Bargains in Portrait Frames This Week.
If you want a portrait enlarged, remember it pays to deal direct with the artist. If portrait don't suit pay nothing. Bring your old frame in today. We make cabinet photos from any old picture or tintype. Entirely new process.

CHRONIC DYSPEPSIA

of the most stubborn and distressing kind positively cured permanently by NATURE'S REMEDY, DR. KILMER'S SWAMP-ROOT, which is now recognized in medical circles as the only specific known. No matter how long you may have suffered you can find immediate relief if you will do what thousands of others have done. Try this wonderful remedy. It is not a patent medicine. It is the prescription of one of the most famous physicians in the world, and has been doing good for the past ten years. A woman who weighed 145 lbs. for 25 years found perfect health through this marvelous medicine. Hundreds of men and women who were miserably troubled for from 10 to 20 years have been cured. Ordinary cases of dyspepsia in from one month to six years' duration—cured with one bottle. If you have a sore spot in the pit of the stomach, if you are subject to vomiting, severe pains, flatulency, bloating, reproduction of food in the mouth, a distressed, heavy and aching feeling before eating, or after eating, or if your tongue is coated, or if you are subject to dizziness, or some breath, or any of the other symptoms of dyspepsia, and you desire permanent relief, there is nothing but DR. KILMER'S SWAMP-ROOT will give it to you. Beware of so-called remedies that only offer temporary help. \$1.00 a bottle, 6 bottles for \$5.00, express prepaid at P. O. Schramm, Des Moines, Iowa, and Hill's Drug stores, or Frank Van, Portland, Oregon, or 300 Broadway, New York.

In Spotted Town upon my soul
They all must use Bamberger coal.
It burns so bright it is so clean,
No smoke or dirt can there be seen.

WATCHES IN GRAND ARRAY AT LEYSON'S.

For one week, beginning Monday, December 9th, we are going to place before the public a line of Watches at special prices which are unsurpassed in point of quality, lowness of price and general assortment by any house in the entire West. We sell watches on their merits—and quality determines merit.

A Watch and our Guarantee.

A Watch must keep accurate time to be of any value to its owner. The cost is soon forgotten if the watch performs properly—but watches are like people—most of them are good, but some are bad.

Because of this we guarantee to our customers a year's test of the watch bought. If the watch keeps good time for one year our responsibility ceases and it then looks reasonable to expect the watch to last indefinitely—if given proper care.

This Week's Bargains.

Ladies' Gold Filled Hunting Case, Elgin or Waltham movement, case guaranteed for 20 years **\$12.75**

Ladies' Solid Gold 14-k Hunting Case, Hampden Movement **\$25.00**

Gentleman's 12 size, open face, 20-year Gold Filled Case, Elgin or Waltham movement **\$12.00**

Gentleman's 12 size Hunting, 20-year Gold Filled Case, Elgin or Waltham movement **\$14.25**

This Week's Art in Watches. The Sale.

A Watch to most people means a polished case of gold or silver with a lot of wheels on the inside.

Few people know that modern designing is being carried to no greater artistic effects than that applied to watch cases for ladies' and gentlemen, and at prices within the reach of all.

Leyson & Co., has a line of gentlemen's open face watches of the thin model—the cases of which were designed and made in Paris, finished in gray, green, yellow and purple effects that surpass anything ever shown in Salt Lake before. They appeal particularly to the artistic taste.

Price with High Grade Swiss movement **\$30.00**

J. H. Leyson Company,
