MINING, BUSINESS AND STOCKS.

MINING STOCK MARKET QUIET

Trading Was Much Scattered With Prices Very Firm.

YANKEE STILL TOBOGGANS.

Century, Grand Central and Daly-Judge Continue Strong—Wabash Slumps—Lower Mammoth Firm.

This morning's session of the mining exchange was exceedingly quiet in comparison with that of yesterday morning and yet a very fair business was transacted. Not many stocks were active but no fewer than 24,068 shares and $15,183 were involved in the business recorded.

Interest during the regular session centered in Century, Lower Mammoth and Yankee. The first named stock ascended the price scale to $1.07, while the last named descended to 50. Lower Mammoth with a most important strike remained steady with sales at 84 and 85.

On the open board Con. Mercur was the subject for a bear attack and no fewer than 1,000 shares were put out at $2.03, seller option. Daly-Judge at 11.65 was strong, while California developed some little strength. Comstock was very firm and considerably higher while Wabash continued to toboggan until $2.43 was reached at which figure many offerings of stock were made.

The mining share market appears to have much more underlying strength. There is according to the more substantial and larger brokers a multitude of outside buying orders, while the increased attendance at the exchange sessions indicates a more widespread interest on the part of local investors. Conditions are considered very favorable for a fine fall and winter business while present quietness is believed to be consequent to the attempt of "shorts" to cover before the market develops to a size corresponding with the present outlook at the mines.

The session this morning closed on the following market:

LOWER MAMMOTH HAS BIG STRIKE

Magnificent Ore in Shipping Quantities on 500 Level.

"BEST APPEARANCE EVER."

Superintendent Ball Reports 500, 1,000 and 1,100 Levels in Fine Condition—Two Carloads Ready.

Late advices from the Lower Mammoth indicate that the condition of that property at the present time is more favorable than at any time in the history of the mine. From Superintendent Ball the information was obtained late last evening that on Sunday a great vein of ore carrying fine values in silver and copper was broken into on the 500 level and that the superintendent and two men broke down a railroad carload of ore which will carry at least 100 ounces silver and from 11 to 12 per cent copper, while exploring the strike Sunday and Monday. The vein is believed to be the same as that on the 600 level. On the 1,000 foot level the showing is very encouraging and on the 1,100 the vein is expected to be encountered at an ytime.

There are now two carloads of first countered at any time.

class ore awaiting shipment, while from the new strike two car loads of ore are on the dump and will at once be loaded and shipped.

It is stated today on pretty good authority that the control of the Lower Mammoth which has been ...ting around for some time has nearly been acquired by certain heavy stockholders and that at the next annual meeting the management will pass into other hands.

At noon today a telephone message from Supt. Ball stated that the ore body is holding out fine and the face of the drift and all sides are in ore that broken down by machine drills just as it is will carry 100 ounces silver and 12 per cent copper. The superintendent further stated that throughout the ore there are streamers of a black iron-copper formation that assays 420 ounces silver to the ton. Supt. Ball says that the mine looks now "very much bonanza like" to him.

KIMBERLY CROWD BACK.

Much Delighted With Iron County's Big Resources.

On this morning's train from the south Peter L. Kimberly, F. H. Buhl and William L. Wallis of Sharon, Pennsylvania; John T. Jones of Michigan, and Walter G. Filer, returned from the great iron deposits near Cedar City. Much delighted were all the gentlemen with appearances there, which are promising of untold millions of dollars.

When Mr. Kimberly was seen this morning he stated that though the trip had been long and dusty it had been altogether very agreeable.

The property controlled by the syndicate certainly appears to be immense, but until it is further explored nothing can be said about future plans. The drills are now being operated and several crews of men are at work developing different portions of the property.

MINING NOTES.

Ore and bullion settlements in this city yesterday, as reported by McCornick and Co., amounted to $101,200.

The total transactions recorded on the mining exchange yesterday involved 95,703 shares and $72,069.

M. H. Walker has gone to Montana to estimate the loss caused by the recent fire at the Alice mine.

Manager Packard of the Star Con. came up from the mine yesterday to dispose of three cars of ore which are now on the market.

H. W. Horne, the mining engineer, has returned from a visit to the Minoia of Park City, which he says is looking very promising.

Manager J. E. Bamberger of the Daly West, accompanied by Mayor Oettinger of Cincinnati, left for the mines at Park City this morning.

Advices from Chicago to Traffic Manager Eccles of the American Smelting and Refining company, informed him that he need not go to that city immediately, as was announced, and accordingly he will return to his ranch in Idaho tonight for another week or so.

Tonopah ore to the extent of 46 car loads was marketed in this city during August. The 46 cars contained about 1,150 tons, worth $220,000.

NEW YORK METAL PRICES

Lead, quiet, $4.12½ Copper, weak, $11.30@$11.60.

BUTTER AND EGGS.

New York, Sept. 3.—Butter—Receipts, 13,500 packages. Steady. State dairy, 15@18; creamery, 15@19½; June creamery, 14@16; factory, 13@15½.

Eggs—Receipts, 12,700 packages. Firm. State and Penna., 20@22; western candled, 20@21; western uncandled, 17@20.

Strike of the Florentines.

Florence, Italy, Sept. 3.—The strike here began because the metal workers employed by the Pignone iron works were discontented over the fact that the directors of the company executed orders for a firm at Leghorn during the recent strike there. This dissatisfaction led to friction and the workmen of the Pignone works made demands which the directors of the company refused to entertain. The Pignone company began dismissing the malcontents in its employ and the strike ensued. One of the directors of the Pignone company aroused the enmity of the workmen because he refused to recognize the labor exchange in the negotiations and the strikers demanded his removal. They also attempted to set fire to his house. The labor leagues, assisted by the Socialist party, then engineered a general strike with the hope of preventing the defeat of Pignone workmen.

The movement has resulted in the complete defeat of the workmen; the compositors have decided to resume work and today only the Pignone and other metal workers, numbering 1,500 men are on strike. Most of the places of these men have in the meantime been filled and work is proceeding.

MARKET UNDER CONTROL OF BULLS

They Lifted Prices of Different Leaders Substantially.

HEAVY READING DEALINGS.

First Transaction Represented 20,000 Shares—News of Accident to President Wiped Out Gains.

New York, Sept. 3.—The bulls had the market well in hand at the opening and lifted prices of various leaders substantially above yesterday's close, particularly in Penna., Southern Pacific and Atchison. Reading opened with a resumption of yesterday's enormous dealings, the first transactions representing 20,000 shares at from 75½ down to 75, compared with yesterday's final figure of 75⅝. Southern Pacific showed a gain over night of nearly a point. After the opening many stocks reacted. Reading went below 75, but a further violent upward rush carried it to 78, and caused the general market to harden again. Amalgamated, Anaconda, Sugar, Missouri Pacific and D. & R. G. also were in increased demand, and a point or more higher. Heavy realizing orders in Reading poured into the market later, causing a reaction of over a point, with some effect on the entire list. Southern Pacific fell back to last night's close. Colorado Fuel lost over 2 points.

When news of the accident to the president was received earlier gains were quite generally wiped out, Reading dropping below 76.

oBnds were irregular. The market was spotty. Special stocks mounted vigorously while others were at a standstill. The pools went to work again with confidence in their favorites, when reassuring news was received regarding the accident to the president's party. Reading touched 78⅝ with a good deal heard of competitive buying.

New York Central declined 4 points. Norfolk & Western became the leading feature and was bought in large amounts up to 78⅝, a gain of 4 points.

Other soft coal stocks responded sympathetically.

Elsewhere the tendency was drooping. North American advanced 7 points and there were material gains in many other obscure stocks. By 2 o'clock the market was very active again and prices rising all around.

MONEY AND BONDS.

Money on call firm at 5½@6 per cent. Prime mercantile paper 5@5½ per cent. Sterling exchange steady, with actual busines sin banker's bills at 4.86@6.25 for demand and at 4.86@8.75@4.84 for 60 days. Posted rates 4.85@4.85½ and 4.87½@4.88. Commercial bills 4.83 @4.83.50.

Mexican dollars, 41.

Corn—Large yellow, steady, 1.40@ 1.52½.

December barley, 99½@98¾.

LIVERPOOL.

Liverpool, Sept. 3.—Close—Wheat,—Sept., 5s 11⅜d; Dec., 5s 10¼d.

WOOL.

ST. LOUIS.

St. Louis, Sept. 3.—Wool, steady. Territory and western mediums, 19@17½; fine, 12@16½; coarse, 12@14½.

MILITARY LIFE AT CAMP FUNSTON

Four Hundred Civilian Soldiers Experiencing it at Lagoon.

THE COMPANIES IN CAMP.

Drill Work, Inspection, Tired Limbs And Big Appetites—Tents on Same Ground as Last Year.

Camp Funston is in full blast, military life is the real thing there, and 400 militiamen are living like regulars for the time being. It was evident that the guard had been in camp before, for they took hold with a purpose and a vim that showed they were not novices. The infantry and signal corps were in camp by 9 o'clock, and the call for guard mount was given, three details of five men each going on duty the first day. The first officer of the guard was Lieut. Smoot of G company of Provo.

The troop of cavalry showed up just as the bugles sounded mess call, and the hungry troopers made a dive for the mess tables. A little later the battery appeared, and notwithstanding a melon feast along the road, the artillerymen had undismayed appetites. Two men responded to the sick call, a tent pole having fallen on their feet. They were Sergt. Paul and Private Watson, who were able however, to respond to the call for duty today. Col. Park drilled the First infantry in the afternoon, and put them through a course of sprouts the boys will not forget right away. A regular drill, inspection and camp life program is being carried out today. The camp is pitched the same as last year. There are 35 tents, 20 of this number being Sibley tents, which hold eight or nine men each. The cavalry, signal corps and battery are located at the extreme south end of the camp. The infantry companies lie above them.

The infantry force is represented by five companies, as follows: Company G, Provo, Capt. Thomas, First Lieut. Smoot; company H, Salt Lake, First Lieut. Greenwood, Second Lieut. Pembroke; company A, Nephi, Capt. Denn, Second Lieut. Lunt; Company F, Manti, Capt. Kamerman, First Lieut. Jensen; company E, Rountiful, Capt. Hardy, First Lieut. Burge; Battery A, Salt Lake, Capt. Grow, Lieuts. Webb, Jennings and Leonard; troop A, Salt Lake, Capt. Sommers, Lieut Savage; signal corps, Capt. Greenwald, Lieuts. A. A. Smith and Skidmore; hospital corps, Maj. Benedict, Stewart Schmolley.

The officers of the brigade are: Lieut. Col. H. M. H. Lund, asst. inspector general and Maj. King, judge-advocate. Col. Park's staff is composed of Maj. Benedict, surgeon; Capt. Munn, adjutant; Capt. Porter, commissary, and Capt. Wolff, asst. inspector target practice.

NOT FELONIOUS INTENT.

Such Was Characteristic of Murder at State Prison.

At the inquest held yesterday afternoon at the state prison, the coroner's jury, composed of J. R. Smith, J. A. James and L. J. Jones, residents living in the neighborhood of the prison, acquitted Convict John Gray of the charge of murdering M. M. McCormick who attacked him Sunday afternoon in the prison laundry, as follows:

"We, the members of the jury, find that the deceased, Mike McCormick, came to his death from wounds inflicted with some sharp instrument in the hands of one John Gray a fellow-prisoner, the said John Gray then and there acting in self-defense and without felonious intent."

This verdict relieves Gray of punishment by the courts, but the warden will reduce him from a first grade to a third grade prisoner and cut off his "good time" he had earned for reduction of sentence. Assistant Attorney Loofbourrow conducted the examination of witnesses. Dr. A. C. Young, the prison physician, testified that the wounds received by McCormick were necessarily fatal. Gray, the accused, testified with a copious shedding of tears and display of emotion that the deceased had written a letter accusing him of being guilty of a crime while in prison; and Gray took McCormick to task for it, calling him a dirty cur. McCormick replied by a violent assault on Gray, knocking him down twice, and cutting him across the chest. Then Gray grabbed the knife and got in his work. "I didn't know I did it," he said, "but I cut him and ran out." What became of the knife witness did not know. He said he had burned up his bloody overshirt after the affray. Three other prisoners, Allred, Curtis and Wilson, corroborated Gray's testimony. Warden Dow, Deputy Stowe, and Guard Peterson testified to the tough formation of McCormick's make-up, and that he had been a bully and a hard man to handle. The warden testified to finding McCormick in the office of the prison clerk where the prisoner had walked and dropped in a comatose condition. The latter claimed to have done the cutting himself. The jury then returned their verdict.

Gray's relatives are supposed to be living in San Francisco. McCormick's real name is Fred Babcock and he came originally from Erie, Pa. But he refused to give any information as to his connections, though he finally asked that Miss Myrtle Stafford of Chicago be communicated with.

The funeral was held this morning in the prison chapel with Mrs. E. B. Rathbone in charge, and the remains were buried in the prison burying grounds.

THE SALVATION ARMY.

Preparation for Its Big Harvest Festival This Month.

Few things come amiss to the Salvation Army; there is no grist that its mills cannot and do not successfully transform to food for the starving, succor for the sick and dying, clothes for the naked and shelter for the homeless. Therefore, in this harvest festival season, its officers appeal to all whom the time of harvest and ingathering finds blest with plenty, that of their abundance they will give abundantly on behalf of those who have nothing, and for the reclamation of whom alike in body and soul the Salvation Army exists.

The dates of the harvest festival are Sept. 27 to Oct. 11, during which time the officers of the local corps will gladly receive, and if desirable call for, any and every gift, whether of produce, manufacture or otherwise, which may be either directly useful or saleable.

The officers desire to be understood that literally no useful object will be unwelcome; articles which may locally have no market value, may none the lers be disposed of at some Army center, with results highly valuable and helpful to the Army work. When it is remembered that there are in the American Salvation Army field 732 corps and outposts, 2,988 officers and employes, 105 social relief institutions, 24 slum settlements, 20 rescue homes for fallen women, 69 shelters for men and six for women, accommodating 9,000 persons nightly, or something like 2,500,000 annually; when beside these it is remembered that there are 24 food depots, 24 industrial homes for the unemployed that there are in the neighborhood of 45,000 annual conversions at Army penitent-forms, and that considerable more than $250,000 are annually expended by the Army in relieving the worthy poor alone—when all this is remembered (and there are many other items of which space forbids mention), it should be easily understood that there are few articles indeed of which Salvation Army workers cannot make some use.

PRACTICAL EDUCATION.

Its Eloquent Story as Told by Registration Rush at Business College.

"Never before has the opening of a school year in this city promised so much for practical business education, as the one that had its beginning this week. By a practical business education, I mean the education that qualifies and fits young men and women for the sterner duties of life so that they can go out and obtain for themselves in the shortest possible time, positions that will bring them a goodly competence and lay contemporaneously a foundation for increasing betterment in the field of affairs."

That is the way Prof. Joseph Nelson of the Salt Lake Business college expressed himself today when speaking of the prospects and condition of the institution over which he presides and the good he expects it to perform in the direction indicated. Continuing, he stated that it was a fact that there was a broader and deeper interest being constantly taken in the effort to secure an education that will make a person independent. That makes it certain that they can provide for their own wants with their own hands and brains. This he believes was largely the result of the positions now being filled by students who have finished their courses in a business college, and for whom there is, he say, a contantly increasing demand.

Referring to his own institution Prof. Nelson declared that the registration rush there the past two days has been something unprecedented. When the rollbooks closed last night 219 students had entered their names. In addition to these the work of adding others has gone on today while still others will be added during the week and for sometime to come. Beginning next week grammar and kindred subjects will be taken up. Meanwhile the business course studies are under way and preparations for other studies are being considered. Mr. M. A. Miller, who has been spending the past two years in Europe, and who is a graduate of the Gem City Business college, is again identified with the faculty of the institution. Mr. Miller has charge of the bookkeeping department.

Burlington Route
There's an Old Proverb,
which reads: "When in doubt, follow the crowd."
Rendered into twentieth century English, this means: Take the Burlington. The "crowd" does.
Always the STRONG line from Denver to the East, the Burlington's leadership was never so great as now.
Two trains a day, Denver to Omaha and Chicago—the Chicago Special at 4 p. m., and the Vestibuled Flyer at 10 p. m.
Two trains a day, Denver to Kansas City and St. Louis—the St. Louis Special at 3 p. m., and the St. Louis Express at 10 p. m.
Through sleeper for Omaha and Chicago leaves Salt Lake City 3:15 p. m. daily. Through tourist-cars Wednesdays and Fridays.
Tickets at Offices of Connecting Lines.
TICKET OFFICE:
79 W. SECOND SOUTH ST.
SALT LAKE CITY.
R. F. NESLEN, General Agent.

ELY, OSCEOLA AND FRISCO
STAGE LINE.
STAGE LEAVES Ely, Nev., every Tuesday, Thursday and Saturday morning, arriving at Frisco, Utah, Wednesday, Friday and Monday evenings.
STAGE LEAVES Frisco, Utah every Tuesday, Thursday and Saturday morning, arriving at Ely, Nev., Wednesday, Friday and Monday evenings.
Reasonable Rates for Passengers and Freight.
Good accommodations and prompt service guaranteed.
