

carcless driving of his automobile past the field where the boy was at work, frightened the horse attached to a hay rake and caused the animal to run away, throwing Wardle against a fence and dragging him along it for some dis-tance, cutting his hands and body on the wire. Another allegation is that the defendant sounded the auto horn loudly and in such a manner as to⁴ cause the horse to take fright.

Interesting and Complicated Developments in Notorious Water Suit.

THE FRED J. KIESEL COMPANY.

Standard in Default ---- Auto Driver Sued for Damages-Old Folks at Glenwood-Girl in Sorry Plight.

Ogden, Utah, Aug. 10 .- Evidence in the contempt proceedings against the Eden irrigators, was heard yesterday before Judge M. L. Ritchie. The water users were cited to answer why they should not be punished for contempt for rebuilding a dam in North Fork creek, shutting off water claimed by the North Ogden Irrigation company under the decrees of the court. The case was not completed, and arguments will be made today at 1:30 in Salt Lake. Judge Ritchie intimated that he wished to hear from the attorneys on but one ni, namely, whether those not having or appropriation rights may go up he stream and tear out any dams they ish until they have all the water hich they may claim under the decree of the cour

The entire day was consumed with case, hearing testimony given by plaintiffs and arguments on the the case. umarous technical questions. The aintiffs sought to show that there was ot enough water coming down the orth Ogden headgate for filling of the orth Ogden canal, excepting water benging to companies having prior ghts. It appeared from this testimony hat about 40 feet of water flowed from outh Fork into the Ögden river, but hat a considerable portion was divert-i by the Ögden Waterworks company, a Orden Bench Canal company, and ogden Bench Canal company and Utah Light & Railway company, defendants claimed that the North Ion people had no right to come so up the stream as Eden, but should ike the water from some of these oth-companies. Judge Ritchie intimated his was the only phase that he

That this was the only phase that he cared to hear arguments on. One of the many technical questions that came up during the day was one affecting the validity of the deed of the old North Ogden Irrigation company the new North Ogden Irrigation npany. The deed had been execut-

DEATH OF A. H. SWAN.

Col. A. H. Swan, who was one of the most prominent cattlemen in Wyoming a number of years ago, but who of late years has, resided in Ogden, died last night shortly after 10 o'clock at Provo. A strange coincidence is that his wife is seriously III at the home of Walter Ritchie in Ogden, and her death is ex-pected hourly. sected hourly.

OLD FOLKS AT GLENWOOD.

The old folks all over 60 years of age, were made happy at Glenwood today. A delicious repast was served and all kinds of amusements were provided for the entertainment of the honored

GIRL IN SORRY PLIGHT.

Grace Colvin is still detained at the Grace Colyn is still detained at the police station and the officers are some-what puzzled as to what to do with her. The law evidently requires that she be sent to the state industrial chool, but the officers of that institution are not anxious to receive an intion are not anxious to receive an in-mate who, according to her own states ments, has sunk so low in vice. The girl stated yesterday to Judge Patten of the Juvenile court that she would not return home, and if she was sent there she would run away. Her mother pleaded with her, but without avail, and Judge Patton put off passing on her case. The boys who were taken into case. The boys who were taken into custody at the same time that she was were yesterday released by the officers, no charges being preferred against them.

them. Mrs. Eliza C. Larkins, wife of W. J. Larkins of Farr-West, Weber county, one of the best known and most re-spected women of the section, died at 6:10 p. m., Wednesday evening, of general debility. Mrs. Larkins was 68 years of age, and

was born at Raleigh. N. C., in 1837. While still a girl she joined the Church with her parents, Mr. and Mrs. Benwith her parents, Mr. and Mrs. Ben-jamin Taylor, and accompanied them to Utah in 1865, coming direct to Weber county. She was married here in 1870 to Mr. Larkins, and leaves three chil-dren and eight grandchildren. Her children are Charles Larkins, Laura Larkins Brown, and John Larkins. For a long period Mrs. Larkins was coun-selor to be president of the Far-West

selor to the president of the Farr-West Relicf society, and was a devoted wife and mother. Her final illness was brought on by an accident of last win-ter in which she injured her nervous ter in which she injured her hervous system by falling on the ice. Funeral services will be held Sunday at 1 o'clock in the Farr-West meeting-house. The remains may be viewed at the home during the morning.

FUNERAL OF MRS. MOORE.

Cures Sciatica. Rev. W. L. Riley, LL.D., Cuba, New York, writes: "After fitten days of ex-cruciating pain from sciatic rheumatism, under various treatments. I was induced to try Baliard's Snew Liniment; the first application giving my first relief and the second entire relief. I can give it un-qualified recommendation." 25c, 20c, 11.00. Sold by Z. C. M. They employ simply an ordinary han-They employ simply an organize in camera, which is focused for an inde-nie distance, and placed with the le against the eyeplece of the microscop Care is necessary to have the axis the camera lens coincide with that of the camera lens coincide with that of the symplece. Many photographs have been taken with exposures of three seconds or less, and a pleture of a di-atom enlarged 1,200 diameters clearly shows strise smaller than 20,000 to the tab.

The isometrope lens of a French op-tician is made from a combination of several substances by a secret process, and is affirmed to have numerous ad-vantages over ordinary optical glass. To sufferers from defective eyesight these qualities offer improved vision, with greater ense and rest to the eyes. The new glass is free from the ordina ary greenish thirt it can be much thinner than usual, giving a wider focus; and it outs off entirely the in-furious viole rays. The last namied fact is shown by placing specimens of the two kinds of glass behind the screen of a Roentgep roy apparatos, when the isometrope lens is quite black, proving that the viole rays have been stopped, while the ordinary lens ap-pears quite transparent.

In his experiments with colored lights, Prof. Redard, of the university of Geneva, has found that red light ex-cites the higher nerve-centers to the cites the higher nerve-centers to the extent of being irritating, while yellow light is depressing, and blue light is calming and gives a general feeling of well-being. A further psychic effect of the blue light is a brief insensibility to pain. A sixteen candle-power electric light, enclosed in a blue glass globs, is placed a few inches in front of the patient's even, his head and the lamp are covered with a blue cloth, and he is told to size at the light and he will feel no pain. In two or three minutes el no pain. In two or three minutes le patient is found to be in a condition general anaesthesia, which is suf-lently deep to render painless any ficiently deep to render painless any brief dental or surgical operation. Prof. Redard has had few failures, and others have had similar results.

Antimony poisoning is thought by Dr. F. A. Pond, of Liverpool, to be a pos-sible cause of appendicitis and other in-testinal and digestive troubles now so common. Antimony forms nearly one-third of the weight of the red rubber rings or washers of water bottles and fruit jars, and it is readily absorbed by the contents of such bottles and jars. Frequently repeated small doges of antimony steadily weakened the muscular coats of stomach and in-testines. testines.

A new white paint, lately patented n Germany, is claimed to be superfor o white lead in fineness, covering power, permanence and cheapness. The principal ingredient seems to be lime containing magnesia-that burnt from dolomite having 20 to 50 per cent of containing magnesia-that burnt from dolomite having 20 to 50 per cent of magnesia being best-and this is mixed with a hydrocarbon and fired until all carbon is burned. The material is then ground flue. It may be mixed with pigments giving any desired colors, and is treated with linseed or other saponifable oils, even mineral oil-giv-ing partial suponification-yielding a fair paint. The paint is adapted to walls and woodwork generally. It is stated to dry quickly without driers, to be unaffected by light or by ammonia or sulphuric acid, to harden like enamel after some months, to have a dull gloss, to stand exposure to the sun winthout blistering and to be washable. The fixation of the nitrogen of the air The fixation of the nifrogen of the air by the electrical process of Bradely and Lovejoy has proven a scientific success, but has not yet been developed com-mercially. Interest is still felt, there-fore, in any means of adding artificial alkaline nitrates to our rapidly besen-ing stock of fertilizing materal. The chemical process of Prof. Eschweiler, of Hanover is being adonted in Engined chemical process of Prof. Eschweiler, of Hanover, is being adopted in England, and consists in passing a mixture of air and steam over peat in slow com-bustion. The steam is decomposed, the hydrogen combining with nitrogen af the air and of the peat to produce ainmonia. This is taken up by sui-phuric acid, forming suppare of am-monia, and it is claimed that enough can be produced at moderate cost, to avert a fertilizer famine for a long vert a fertilizer famine for a long

Special Correspondence. Coalville, Summit Co., Aug. 8 .- Stake conference was held here on the 5th

and 6th. President Francis M. Lyman Was present at the opening session and Elders Hyrum M. Smith, Joseph M. Tanner and Andrew Jensen were presnt on Sunday. ElderAndrew Jensen is going through

the stake getting the history of the organizations of the different wards. Elder J. M. Tanner came out in the interest of the stake academy. He gave a lecture on education at the Hoytsville last night and at Henefer this evening.

COUNTY JAIL CONTRACT LET. Board of county commissioners met yesterday and awarded the contract for building a new county jail to J. H. Salmon for \$6,400.

The Primary association gave a cantata in the Opera House Saturday even-ing, entitled "Cinderella in Flower Land," which was well rendered. Much credit is due those who trained the children. The entertainment was well patronized.

Boyden Brothers will soon begin the erection of a two-story brick building, 32x50 feet, to be used for a drug store, offices and a hall to be occupied by the K. P. lodge. Born, to the wife of Mr. N. J. Jen-

son, a daughter, July 27.

Rheumatism.

Rheumatism. When pains or irritation exist on any part of the body, the application of Bal-lard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno. O. T. writes, June 6, 1802: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25e, 10c, 11.09, Seld by Z. C. M. I. Drug Dept. B

POCATELLO, IDAHO.

DEPLORABLE ACCIDENT. Young Girl Falls from Ferris Wheel and

Is Killed. Special Correspondence.

Pocatello, Ida., Aug. 9.-A depiorable accident in which Miss Carrie Hansen, aged 14 years, was fatally injured, oc-curred here today. During the prog-ress of the street carnival now being held here, a large ferris wheel has been in operation on Cleveland avenue, near Center street. The wheel is about 60 feet high, and has 10 boxes, or seats fastened upon it, in which passengers may make the ride around the circle have the ride around the circle described by the wheel. About 4 o'clock this afternoon Miss Hansen purchased a ticket from the man in charge, and was duly fastened in by the rod used for that nurpose. The wheel was we for that purpose. The wheel was well loaded with passengers all shouting and chaffing as it went slowly round in its course, when suddenly the man in charge looked up, and was horrified to see the head of the girl hanging over the back of the box. Instantly sur-mising that something was wrong he called to three men standing near to be ready to catch the girl in case she ----

be ready to catch the girl in case she should fall, and immediately threw the leaver to cause the wheel to revolve power! bringing the box with the unfortunate girl in it to the ground. But whether the men misunderstood his meaning.

failed to realize the danger of the

but by its close intense heat was again prevalent; a number of local showers ocurred, heavy enough in some sections to be of material benefit to vegetation, while in other places the rainfall did while in other places the raintail did not exceed a mere sprinkle; thunder-storms were in some instances accom-panied by high wind and a little hall, while, despite the high temperature of the valleys, some snow fell on the higher mountains. Water in all streams continues to fall, and in many localitles water must be used with the strictest economy, CROPS.

Hill Drug Co.

SCIENTIFIC MISCELLANY,

Public health has been promoted by the registration of deaths, which is a survey of longvity and the causes diminishing it, the public physique can undobutedly be safeguarded and im-proved by the plan of the British An-thropological Institute, which is urgthropological institute, which is urg-ing a pational survey at regular inter-vals of the bodily condition and en-vironment of the people. The accumu-lating records, it is contended, would serve as a most effective weapon in the struggie of metions. The proposed an-thropometric survey is to include a reg-ister of sickness; and measurements are to be made of height, weight and chest-girth; of length, breadth and height of the head; of breadth of shoulders and hips; of vision, and of pigmentation. The records will guide to better conditions, showing, for example, better conditions, showing, for example, whether the British race is deteriorat-ing from lack of fresh air, as Mr. Balfour has asserted.

The special and expensive camera hitherto used in microscopic photog-raphy has been made unnecessary by Messrs, Thomas and Bellieni, of Nancy,
