

## DESERET EVENING NEWS.

MUNICIPAL. JULY 11, 1894.

## Taxes You A Bond.

If not it will pay you to investigate the advantages of Forest Dale before buying elsewhere. We have our own water system; water piped in, most durable cast iron pipes, and the ownership of the water, including the extension of the pipes past your door costs purchases in Forest Dale little if any more than laying the mains in most cases. The advantage this affords will be readily seen, for the water belongs to the residents (and purchaser of a lot being allowed his proportion of the capital stock of the Forest Dale Water Company) and it rests with them to fix the water rates charged. The expense of running the system is very small, and after the first expense of laying the mains is paid the rates need not be more than one-tenth those charged by Salt Lake City.

## Have You Saved Anything?

Some people have been waiting for years for land to reach bottom prices. In the meantime they have paid rent, and if they have made any improvements or done any work on their residences, the improvements have been made, or the work done, for their landlords. Many other people have built houses, and while these first mentioned have been waiting for something to turn up, have paid for their property and now own the house that shelters them.

## Don't Get in Debt.

unless you feel assured you can get out again. But if you have money saved, buy a home. If you have an income, buy a home. It pays to have an object in view, and there is no more worthy object than purchasing a home for those dependent upon you.

My clerk, at room 122 Constitution building, will give you prices and show you the property.

Geo. M. CANNON, Owner.

## AS OPINION GOES.

Recently Mr. J. B. Tommies, of North Dakota, visited the Mountain Valley, Virginia, and other recently established parts of the country, including Wisconsin, he writes in Mr. C. P. Mason, Baltimore & Ohio Railroad, Baltimore, Maryland, as follows: "I have been most pleased with the results of the trip, and am ready to make any opinion that that valley surpasses all older sections in the Union. The lands are now in prime, and promise great profits. I have a good report concerning the coal fields, and am looking forward to great things in like to come in this country."

Now just over and about halfway, in driving north on a single track, we find the road bed is composed of a heavy load of sand. This especially about to fall out.
