FROM TUESDAY'S DAILY, FEB. 10.

EXCOMMUNICATED.

FARMINGTON, Feb. 7, 1885.

Editor Deseret News:

At a meeting of the High Council of Davis Stake, held on the 6th inst., at Farmington, Jesse Brandham was cut off the Church of Jesus Christ of Latter-day Saints for dishonesty and apostasy.

WM. R. SMITH,
President of the Council.
J. E. ROBINSON, Clerk.

Death of a Pioneer.—Elder Thos. Bullock, one of the Pioneers of Utah, and well known to many of our readers, died at his home in Coalville at 10 a. m. to-day.

Death from Natural Causes.—The inquest held yesterday afternoon over the remains of Mrs. Householder, of the 10th Ward, resulted in a verdict of death from natural causes. There was no doubt but that she died while under the influence of a soporific prescribed by a physician; but the evidence produced at the inquest went to show that there was nothing unusual or irregular in giving morphine under such circumstances, and that in her case death was more likely the result of general weakness than of the drug which had been administered.

Plenty of Snow.—From Bishop F. A. Hammond, of Huntsville, who is on a brief visit to our city, we learn that the snow is fully two feet deep on the level in Ogden Valley. It was still deeper before the recent rain, which tended to settle it somewhat. He thinks there is already more snow in the mountains than there was last winter, and that means more than for quite a number of years. If this be true very high water next summer is among the probabilities, and measures to prevent damage thereby ought to be inaugurated forthwith.

Court Proceedings.—The jury in the case of the People vs. B. F. Bell, etc., for assault with intent to rob, being unable to agree, were discharged. They were in the jury room until about three o'clock this morning.

In the case of J. E. Bamberger et al. vs. Joseph Manan et al., the demurrer to the complaint heretofore submitted was sustained, and an exception taken.

The motion to strike out part of the answer in the case of A. C. Bixen vs. E. R. Kneass heretofore submitted was overruled, and the court decided that the wife had no right to set up as against the mortgage. Exception taken. Royal B. Young and Agnes McMurrin were arraigned, the former for polygamy and unlawful cohabitation, and the latter for perjury. They were allowed until Friday to plead.

Geo. Kellogg pleaded guilty of grand larceny, and will receive sentence next Friday.

An Invention.—John Devey, a clever and ingenious mechanic of Alpine, Utah Co., whose inventive genius has already been noticed in our columns, in connection with a superior kind of wheel-barrow which he devised and placed upon the market some time since, has now invented a hay-baling machine, which is not only quite different but very much superior to any other baling machine known. It has one-third more leverage power, and is capable of doing double the work of any of the baling machines now in use in this Territory. Five tons are considered a very good day's work for any other machine, but with this which Brother Devey has invented and manufactured three men and a horse—the same force required for other machines—have actually baled ten tons of hay in ten hours.

A patent has been applied for, and Brother Devey is quite confident that he will be able to

obtain the same. In the meantime there is quite a demand for the machine among those who have seen it work, and he has already made and sold four of them.

A new style of garden rake has also been invented by Brother Devey, which ought to, and probably will, soon take the place of the imported article in that line.

Funeral of Elder H. C. Kimball.—The funeral services over the remains of Elder Heber P. Kimball, were conducted this afternoon at the family residence, in the 18th Ward. The proceedings were directed by Bishop O. F. Whitney. The opening prayer was offered by Bishop John Sharp. President Angus M. Cannon delivered a discourse, in which he eulogized the deceased as a brave, intrepid, and true man, whose integrity was beyond question, those traits having been exhibited at various times in his career under the most trying circumstances. The speaker also dwelt upon the hopes embodied in the Gospel, to the faith of which the deceased adhered to the last. Words calculated to comfort the bereaved were spoken.

The singing exercises were executed by a quartette—Brothers H. G. Whitney and John D. Spencer and Sisters Agnes Olsen Thomas and Louie Wells. The benediction was pronounced by Elder John Nicholson.

The rooms in which the services were held were crowded, while many were unable to gain admittance and remained on the porch of the residence. The family connections present were numerous, and in the audience were also many very old friends of the deceased.

The remains were followed to the cemetery by a large cortege.

Returned Missionaries.—Elders Sidney Teeples and Thomas Godfrey, who arrived in this city last evening per the D. & R. G., from missions to the Southern States, called upon us this morning. The former left his home in Holden, Millard County, almost eighteen months since, and for the first year labored in Texas with only indifferent success, the people of that region not being inclined to receive the Gospel. From there he was sent to San Luis Valley, Colorado, where he has since been engaged in laboring among and endeavoring to encourage the Saints who have emigrated from the Southern States. He reports a rather better feeling in that region than usual. The change from the warm climate of the Southern States to the high altitude and cold climate of San Luis has been rather hard on the Southern people who have located there, and many of them whose faith was not very strong have felt to complain thereat, but last year good crops were reaped, and that, together with the fact of their becoming acclimatized, has tended to encourage them.

Brother Teeples' health was very poor when he left Texas, but it has been better since, and he returns looking quite rugged and in excellent spirits.

Elder Godfrey, who is a resident of Clarkston, Cache County, left here almost two years ago, and labored during the whole of his stay in the South in Tennessee. He met with the usual amount of persecution of the shape of threats, etc., but suffered no violence. He made many friends while there, and was tolerably successful in making converts. The bitter persecution to which our Elders were subjected in that State some months since at the time when Elders Gibbs and Berry were killed, has resulted in producing a more favorable feeling towards the Saints in general among a great many people in that region, but among others the feeling is just as hostile as ever. Quite recently a lawyer of Claiborne County, by the name of Yaidon, who has considerable local influence, proffered to do all in his power to screen or defend any one who had engaged in mobbing or killing the Elders in the past or might do so in the future.

Both these brethren have filled honorable missions, gained the esteem of both Saints and strangers among whom they have labored, as well as the full approval of those who have presided over them, and are thankful for the experience they have gained while laboring in the ministry.

FROM WEDNESDAY'S DAILY, FEB. 11.

Fall of a Barn.—A large barn belonging to H. C. Jacobs, of the 18th Ward, broke in this afternoon from the weight of snow upon it. We were unable to learn of the extent of the damage before going to press.

Arraigned.—Angus M. Cannon was arraigned before the District Court this morning on an indictment charging him with unlawful cohabitation. He was allowed until next Friday to plead, and his bail was fixed at \$2,000, which was furnished by Elias Morris and John R. Winder.

Michael Sullivan.—The body of Michael Sullivan, the miner who was killed day before yesterday by falling down the shaft of the Eureka mine,

was brought to this city last evening. The remains were accompanied by seventy-five of his fellow-miners and delegations from Park City and Bingham. His funeral service was held in the Catholic church to-day. An inquest held over the remains resulted in a verdict that no one was responsible for the accident.

A Surprise.—Mr. Thomas Guest, paymaster and chief clerk of the D. & R. G. Western, was seen purchasing a lot of furniture, a short time ago; it looked suspicious, but Mr. Guest said nothing until yesterday afternoon, when he invited a few friends to call and see a pleasant home which had been fitted up. In the evening Mr. Guest's friends assembled and Rev. I. C. Iliff appeared and Miss Annie Spencer of Cincinnati, Ohio, was made Mrs. Guest. A pleasant time was had by all until late hour.

Captured.—J. M. Lawrence, a man who skipped out of Salida, Colorado, some days ago, with money collected at an entertainment given by the Eastern Star Lodge of that place, has been in this city for several days. On last Sunday he was arrested by Captain Hawley, chief detective of the D. and R. G., who received telegraphic orders to make the arrest. The prisoner left to-day in company with Capt. Hawley, who goes as far as Grand Junction, where he will be met by Deputy Sheriff Duffer, who will escort Lawrence back to Salida.

Stuck in the Mud.—The Grand Jury paid a visit to Bountiful yesterday, to take the testimony of the witnesses, Mrs. Merritt and Mrs. Stayner, who were subpoenaed last week, but whose delicate state of health would not permit them to attend court. A mammoth carry-all was chartered for the occasion, and the jurymen and escort seemed to enjoy the excursion until they lost their way, through the ignorance of the pilot or from some other cause. Instead of keeping the upper road leading direct to the settlement, they went through South and West Bountiful, and on the way got stuck in the mud twice. Too much irritation may possibly have had something to do with their misfortunes.

Court Proceedings.—The demurrer to the complaint in the case of Otto Homitz vs. Thos. Cupit et al., was overruled, an exception taken, and ten days allowed to answer.

The case of the People vs. B. F. Bell as dismissed, as the jury were unable to agree.

Angus M. Cannon, indicted for unlawful cohabitation, was arraigned and given until Feb. 13th to plead.

In the case of the United States vs. Wm. F. Williams for assault with a deadly weapon, the jury found the defendant guilty of battery.

John Aird indicted for polygamy and unlawful cohabitation entered a plea of not guilty.

Examination of witnesses in the case of the People vs. John Keilly for burglary, was in progress when we went to press.

Land Surveys.

OFFICE OF UNITED STATES

SURVEYOR GENERAL,

SALT LAKE CITY,

Feb. 10, 1885.

The Plat of Township 16 S. R., 19 W., surveyed by A. J. Stewart, Jr., U. S. Deputy Surveyor, has this day been filed in the U. S. Land Office.

FRED SALOMON,

U. S. Surveyor Gen'l.

By O. E. SALOMON,

Chief Clerk.

FROM THURSDAY'S DAILY FEB. 12.

Address Wanted.—A cash remittance was received at this office last month from James N. Walker, who failed to send his address, and consequently the papers ordered have not been sent to him. If he will kindly let us know where he resides his order will be promptly filled.

Sentenced.—John Keilly, whose trial for robbery was in progress when we went to press last evening, was found guilty by the jury and sentenced by Judge Zane to a term of one year in the Penitentiary.

This morning Wm. Gustavson was tried for forging a check or order on the Co-op last summer. Three witnesses were examined, and the testimony given by them was so conclusive that the defendant was found guilty of the charge by the jury, and he was sentenced to three years' imprisonment. The crime of forgery is a grave offense, as the defendant probably realizes by this time, and the Judge pronounced a pretty heavy penalty as an example to others.

Child Died in the Night.—A correspondent to the Utah Journal, writing from Richmond, Cache Co., says:

"On Saturday morning the family of Mr. Wm. Cottle was thrown into a paroxysm of grief upon waking up and finding their baby, a child about six weeks of age, dead on its mother's arm. The infant was apparently perfectly well when the family retired the night previous and the grief of the parents can better be imagined than described when they found it a corpse the next morning. The child was a mere mite, weighing at birth only 3 or 4 pounds. It seemed to be perfectly formed however and was growing nicely. The bereaved family has the sincere sympathy of the entire community."

A Home Industry Worth Encouraging.—We were shown to-day samples of shawls, nubias, hoods, jackets, mits, socks, etc., made at Ogden by William Haddenham & Son, which compare favorably in style, quality and price with any imported goods in that line. The firm are familiar with the business of manufacturing all kinds of knitted goods, having been engaged in that line for very many years in Nottingham, England, from which place they imported the machinery they are now using in their business. They have not met with a great deal of encouragement yet in their work, and complain particularly of merchants discriminating in favor of imported articles, but we firmly believe if they could get their goods directly before the people they would be appreciated. We see no necessity for importing goods that can just as well be made at home. With some additional machinery to what they already have, this firm are confident that they can easily supply the home demand for all articles in the line of knitted woolen and silk goods. They deserve encouragement, and we hope they will receive it.

LAND ACTS NOT YET REPEALED.

Editor Deseret News:

We are in receipt of information from Washington that the bill repealing the pre-emption, desert and timber culture acts, was not passed by the

Senate, as stated in the dispatches, but that it was simply reported favorably by the committee in charge. It is now being discussed however, and will probably be amended and passed. Persons who have supposed the laws on pre-emption, desert and timber culture were obsolete, are hereby informed that they can still enter under these laws, if otherwise qualified. But as the time for doing this is uncertain, we would recommend immediate action on their part. If they will write us, we will give them full information free of cost, and perhaps save them a trip to the city.

Respectfully,
STAYNER & SIMMONS,
Land Agents and Attorneys.

SNOW SLIDE IN BINGHAM.

TWO MEN KILLED AND MORE UN-HEARD FROM.

The following telegram was received in this city, by a gentleman this afternoon:

BINGHAM, U. T., Feb. 12th, 1885.

About 3 o'clock this a. m., as the night shift at the Nast mine was going from the mine to the bunk house, a snow slide came down, just grazing the bunk house and crushing the office, in which Samuel Deall and L. Lundgreen, were sleeping, killing them instantly. Deall's neck was broken, and he was otherwise badly bruised about the head. Lundgreen had a bad bruise on his back, which must have stunned him, or he could have got out, as there were only two feet of snow on him. One of the men coming off the shift got caught and was rolled some distance, but escaped uninjured. The bunk house contained 25 men at the time the slide came.

There are ten men at the Frisco mine, in Car Fork, not yet heard from, though two men were sent this morning to find them. We expect to hear bad news from there too. Snow is 30 feet in depth in the upper end of the cañon in places. Last night's storm was the worst ever known here. Lundgreen leaves a wife and two children. Deall was a bachelor. His friends are in the east. He has an uncle in New York State.

TERRITORIAL ITEMS.

CULLED FROM LATEST EXCHANGES.

—It is expected that Mr. Joseph Clark will be the Chief of the Ogden Fire Department for the ensuing term.

—The Yellowstone river is said to present a magnificent sight now, with the immense ice structures piled up along the banks.

—An old man named Scotty, employed at the Meaderville copper works, Butte, was lately stabbed by an unknown man, and will die.

—On the 9th inst., the telephone and electric light wires of Butte, through imperfect insulators, came in contact, and the augmented electric current nearly resulted in the death of a Mr. Richards and the telephone operator, both receiving severe shocks. Mr. Richards' hand was badly burned. Measures are being taken to prevent similar accidents in the future.

—Officers Cuddehe and McDonald, of Butte, made an arrest the other night which probably saved the arrested party the loss of nearly \$1,200. The man is a Swede, and was drinking pretty freely with a gang of worthies whom the officers suspected were trying to get their victim drunk for the purpose of "robbing" him. Taking in the situation, the officers named arrested the Swede for drunkenness, and after marching him to the "cooler" found the above named sum upon his person.

—On a certain street in Denver is a stone mansion of surpassing elegance, which, with its grounds, cost nearly \$1,000,000. Directly opposite on a vacant lot, is a tent, boarded up inside as far as the angle of the roof. The back end of it is pierced with a stove-pipe, and in the front end are a door and window. In the window hangs a curtain of costly lace, and in the tent is a piano of exquisite tone. The tent itself did not cost over \$20. The piano, upholstery and furniture inside, are said to have cost over \$3,000. The owner planted his tent here over twenty five years ago, and is one of the moderately successful Colorado miners. He prefers his tent to any dwelling house, and says he would not exchange it for Windsor Castle. —Denver Times.

To Get Rid of Misery.

What is the use of suffering from dyspepsia, nervous prostration or debility, when Brown's Iron Bitters will tone you up and cast these horrors out? There is joy in every bottle of this valuable tonic. It makes bad blood good, and bids dismal people be cheerful. It brings good cheer to the dinner table, and makes the family happy. It drives away the blues, and helps you to enjoy a hearty laugh. And all he respectable druggists keep it.
