Administration of the Island Has Been Entrusted to Provisional Committees.

### SITUATION AGAIN IS GRAVE.

Young Turkish Party Mistrusts Present Turkish Ministry and Fears Sovereignty Will Be Lost.

Canea, Island of Crete, Aug. 15.—The British battleship Swiftsure, arrived in Huda bay, in the western portion of the island.

The Cretan government has resigned and the administration of the island has been entrusted to provisional committees. The committees have had the armed peasants expelled from the fortress, which they occupied Saturday night, intending to resist the order of the powers that the Greek flag be lowered. The committees, however, have not had the flag hauled down.

### PEASANTS OCCUPY FORTRESS.

A band of armed peasants entered Canea last night and occupied the fortress determined to prevent the carrying out of the powers' command for the removal of the Greek flag. Numbers of deputies arrived in Canea during the evening to attend parliament.

### SITUATION DISTURBING.

London, Aug. 15.—A peaceful solution of the Cretan situation appeared practically to have been secured last week through the intervention of the four protecting powers. The situation is again disturbing, however, and a naval demonstration will be made. The Young Turkish party plainly mistrusts the present Turkish ministry and fears that Turkey will lose sovereignty of Crete, as she has lost that of Bulgaria. This feeling has led to a strong movement among the Albanians against the Turkish government and to a serious boycott against Greek trade.

At the same time the population of Crete has shown such strong Greek

sympathies as to induce Crete to defy the order of the protecting powers—Great Britain, France, Italy and Russia—to haul down the Greek flag, which was raised when the troops of the powers recently evacuated the island. As a result of this latter difficulty, the situation again has become acute.

The powers have ordered warships to Crete and probably will re-occupy the island in order to force compliance with their wishes.

### CENSUS EMPLOYEES MUST NOT ENGAGE IN POLITICS

Beverly, Mass., Aug. 15.—In a letter addressed today to Secy. Nagel of the department of commerce and labor, President Taft served notice that any man employed in taking the thirteenth census who engages in politics in any way, will immediately be dismissed.

Outside of casting their votes, the president believes that census supervisors and enumerators should keep clear of anything that savors of politics, national state or local.

Mr. Taft says that in appointing census supervisors it has been found necessary to select men recommended by senators and congressmen in their districts. He says he realizes that this method of selecting might easily be perverted to political purposes, and it is to take the census out of politics, so far as the actual work is concerned, that he has explicitly expressed his desire regarding regulations.

Among the appointments of supervisors announced today are these: California—First district, Julian Wright; Fourth district, John Dean; Sixth district, Louis L. Lincoln; Denver, Second district, George F. Hahn; Idaho district, Joseph Perreault, Jr.

It was hoped that the flames would be stayed at the Konkawa canal, where a great fight was made, but at 12:30 the fire leaped the canal and spread toward the Ume Dai station, the great station on the Tokaido road. Thence it pursued its course southeasterly to the commercial museum, and still further westward, burning the museum, the Osaka court of appeals, the northward district office, a newspaper office, a rice exchange, a commercial school, a girls' high school, the meteorological station, the governor's official residence, the Kaiser hospital and the northern Moshikawa, beside a very large number of private buildings.

Field hospitals were established by the militia and many injured were brought in for treatment. The proprietor of the hosiery factory where the fire started and his wife were stopped by police from throwing themselves into the flames, shouting that they did so to atone for the catastrophe.

USING DYNAMITE.

In the afternoon four battalions of engineers came from Takatsuki, a suburb, with dynamite and began blowing down the houses in the northern Yachiya on a large scale, to try to stop the fire, but they were driven back. Their efforts had the result of splitting the path of the flames.

The street cars on Dojin were stopped, passengers were ordered to alight and the cars were rushed through the burning area to the car sheds.

Falling utterly with the scant water supply, the troops toward evening devoted all their energies to aiding citizens save goods and to assisting children and the old and feeble to places of safety.

Most of the large factories, which are in suburbs, escaped. The Nippon and Fukushima cotton mills were endangered, but were saved.

The fire destroyed in all about 1,500 buildings.

Osaka is divided into four wards, with very narrow, but very clean streets. Kitah-Ku, the north ward, which covers four and a half miles, being almost wiped out. The east ward, which escaped, is the richest, containing the residences of the upper and middle classes. The offices of the banks and of the leading commercial companies were located there and most of these were saved.

The Tokyo Marine Insurance Co. fire insurance companies have lost so heavily that they will not be able to make payments.

RIO GRANDE WRECK VICTIMS NUMBER TEN

Colorado Springs, Colo., Aug. 15.—With the death of C. M. McCrory of Dallas, Tex., at the St. Francis hospital this morning, the number of fatalities resulting from the Husted wreck on the Denver & Rio Grande yesterday morning was increased to 10. None of the injured, numbering close to two score, in the local hospital, is believed to be in a critical condition.

MOST BEAUTIFUL CHINESE WOMAN IN N. Y. MURDERED

New York, Aug. 15.—Chinatown was excited today on discovery of the murder of the most beautiful of the few Chinese women in New York. Kim 21 years old, who came here from San Francisco a few years ago with an Americanized Chinaman, Chin Len, 31 years old.

Just as the usual Saturday night revelry was quieting down, Chin Len dashed out of a tenement house at 17 Mott street, crying:

"My woman has been murdered." The street, filled with loitering Chinamen and parties of American "sight-seers," all of whom quickly recalled the sensational murder of Edith Sigmund, was thrown into excitement. A policeman and a detective hurried into the house under Len's direction. In a bedroom the murdered woman lay on the floor, stabbed in half a dozen places. Her slender neck was fringed with bloody marks, indicating a struggle with her assailant, and beside her lay a blood-crusted hunting knife.

It was evident that the woman had been dead for two or three hours. On

## FIRE DESTROYS JAPANESE CITY

Flames Swept Over Five Square Miles of Osaka, Wiping Out All in Their Path.

### TENNOHI TEMPLE WAS SAVED

Priests Busted Themselves Rescuing Art Treasures—Loss So Great Insurance Company Cannot Pay.

Victoria, B. C., Aug. 15.—When the Empress of India, which reached port yesterday afternoon was leaving Kobe, sufferers of the fire that swept over five square miles of Osaka, were strung out over the main road around the bay and making their way by junk and sampan to Kobe for succor. The deaths numbered 18 and 300 persons were injured.

The main building of the great Tennohi temple was saved, and the superstitious Japanese declare that this was due to miraculous intervention. The flames started at a hosiery factory in Nichomo, northward, shortly before daylight, July 31, and spread rapidly, licking up the wattle and bamboo houses across six streets while the firemen from Osaka waters were vainly trying to keep the flames from reaching the Osaka garrison and began drenching houses in the path of the fire.

temples are reported to have been destroyed and more than 1,000 others badly damaged.

The shock occurred at 3:30 o'clock Saturday afternoon and affected a wide area in the Shiga and Gifu prefectures. The town of Ozaki in Gifu, suffered terribly. The banks of the Hida river there broke and the country was inundated. The people of the district fled to higher ground and remained in the open all night. Intermittent shocks were felt throughout Saturday night and early this morning. The mountain Ibi, a short distance west of Gifu, emitted smoke in the early stage of the earthquake and then collapsed with a thunderous roar.

Slight damage was done at Nagoy, to the southward of Gifu, and neighboring villages.
