THIS COUNTRY AND EUROPE.

The difference between this country and the countries of the Old World is never more strikingly illustrated than in the matter of homes. There, few people ever expect to own their own roof; still fewer to ever have title to the land on which their house stands. On the contrary, in this country, any man possessed of health, energy and intelligence is sure that before many years he may not only build himself a house; but may also own the land surrounding it. Are you content to fasten upon yourself and your innocent children the system of tenantry that ages of feudalism fastened upon the countries of Europe? Do you pay rent? If so, why not pay that amount upon the purchase price of a home for yourself in Forest Dale? In this delightful suburb you can buy land, build your house, and pay for it with little more exertion than is required to pay your landlord. If you rent, every nail you drive, every wood you pull goes to improve your temporary quarters, but eventually results only in benefiting him whose tenant you are. If you buy a home, every shrub, flower or tree you plant grows for you and your children. If you have money enough, pay all cash, and get discount therefor. If you have only your wages, buy on the installment plan, paying so much each month; and your wife and children will gladly help you save rather than live in a rented house.

We have at Forest Dale the best of soil, first-class water, both from springs and artesian wells, district schools, Sunday schools and good neighbors. You may buy land by the rod, by the lot or by the acre. Depth of lots varies from 150 feet to 46 rods. No trouble to show property. Call at room 361 Constitution block, and make arrangements with my agents. Correspondence solicited.

FRAGMENTS.

The new district attorney, Hon. J. W. Judd, took the oath of office in Judge Zane's court this morning.

JOHN REARDON, the gardman and florist, left this morning for a three weeks business trip in California.

NEPHI special transport in the United States court this morning, he will the "swearing in" of the new United States district attorney.

THE ninth quorum of Elders will meet in the Eleventh ward meeting house on Monday evening, at 7:30. Elder J. H. Ward will deliver a lecture on "Home."

HON. C. S. VARIAN made a graceful little speech in introducing his successor, Assistant district attorney Simmons and Smith will hold on until substitutes have been found.

A GREAT many people now scramble daily at the new vehicle gates on the east side of the Temple block and peer into the enclosure with a curiosity that is almost inconsiderable.

JUDGE ZANE having cleared the slate at finance, returned to the office this morning and will assist next week with the trial of civil cases on the second branch of the Third District Court.

THIS has been a day of local incorporations. No fewer than three sets of articles had been filed with clerk Meloy of the County Court before the noon hour. They are given in detail in this issue of the News.

A FAREWELL concert will be given in the Ninth ward meeting house, Monday evening, May 15th, for the benefit of Elders George Dowdle and James Barrow, previous to their departure on a mission to New Zealand.

"PLENTY of water all around but not a drop for irrigation purposes," is the crys set up by residents in the southeastern part of the city. It is said that Mr. Harvey sends all of the surplus water to flood the premises of the people living in the low lands.

AT the Theater tomorrow morning Mr. Uher will conclude his series of sermons on the highest criticism with a discourse upon the period of the Babylonian Captivity, showing that the Old Testament mainly originated at that time. Services begins at 11 o'clock.

FOLLOWING is the paragraph adopted by the National Republican League at Louisville, on Thursday, in relation to female suffrage: "We recommend to the favorable consideration of the Republican clubs of the United States as a matter of education the question of granting to the women of the state and nation the right to vote at elections on the same terms and conditions as male citizens."

Wonderland.

The engagement of the Ideal Opera company was inaugurated at this place of amusement Thursday. The company is a very good one. Miss Flossie Moore is exceptionally good, having a clear, sweet soprano voice. Another noticeable feature is the chorus, it being well trained, and contains some very good voices.

Take it all in all, this is the best performance yet seen in this house.

Probate Court Today.

Estate of Rupert Simpson, deceased. Hearing on petition for order of sale of real estate, and order made as prayed.

Estate and guardianship of Warren *Frazier*. Hearing on account and petition for allowance. Order made allowing account. Also hearing on citation to Andrew Frazier to appear and render an accounting to executrix.

MUTTON AND BEER.

The Council, Mayor, and Land and Water Commissioner Pendleton.

AN EASY OFFICIAL BERTH.

The Question of a Big Salary, Fine "Grub" and Tow Tools.—Spring Once More.

The lot of Land and Water Commissioner Pendleton was cast in green fields and pleasant places by Mayor Bashin, but those members of the city council who pride themselves in opposing nearly all appointments and official acts of his honor are now aroused over what Mr. Pendleton is doing, or rather what he is not doing in the way of earning his salary of $1,800 a year to ride up and down the canyons occasionally.

The councilmen were very lavish in their compliments to the gentleman at their meeting last night. Kelly's sarcasm was very marked. He thinks no fault should be found with the splendid appointments of the Mayor. When it was understood that this fifth-wheel-to-the-coach official had only bought 10,000 worth of tools with which to graciously salve $500 worth of "grub" and crawl $1500 cash for services, the council would probably set the Mayor to make other similar appointments on the ground of economy.

It remained to Pendleton's proposed sheep travel through the mountains, as published in the account of the Council proceedings in the issue of the News, Hardy openly charged that it was a needless expenditure of public funds and that the scheme was wholly for the benefit of the brewery president the sequel in this case.

"What, what?" exclaimed Lawson, excitedly, as he took the floor, "Is it possible that our Pendleton (laughter) is engaged in the brewing business?"

Mayor Bashin—Well, I just wanted to know if all of the Mayor's appointees are brewers? That is all. (Renewed laughter).

Folland intimated that he was getting very tired of hearing reports about this man working in the interest of the brewery. It was an old scandal and was so disgusting as the carcasses of the few sheep the city had buried at an expense of $150 a month was nauseating.

Only one councilman had the temerity to say a word in defense of the accused commissioner and that was Hardy, who said it is only natural for him to take the side of the underdog. Mr. Pendleton, he said, was an efficient servant of the public and the only reason that he was a member of a brewery commissioner instead of a land and water one was wrong.

PROVO.

Insane Asylum Affairs.—Borrowing Money a Necessity.—Improving the Cemetery. — Lehi Democrats. — Notes.

Correspondence Deseret News.

PROVO, May 13.—A session of the Territorial Insane Asylum board was held yesterday. The following business was transacted:

Two bids were received for the construction of fire ladders, one for iron ladders from Henry Saunders of this city, at $525, and another from T. S. Schenck of California for portable wooden ladders at $217.50. Mr. Saunders was given the contract for erecting the ladders considered necessary by the executive committee.

The medical superintendent reported the disbursement during April of $1,689.12 for general expenses, and $1,237.15 in payment of salaries. The report was audited and found correct.

Bids for supplies for the ensuing six months were opened and contracts awarded as follows: Joseph E. Cheever, beef at 5½ cents per pound for two months, and 5 cents for four months, mutton at 6½ cents per pound; Provo Milling Co., wheat at 82½ cents per bushel; Howe & Tait, groceries and corn; Smoot Drug Co., drugs and medicines, etc. The medical superintendent was instructed to purchase coal and coal oil in the opening market.

J. B. Jones, of the special committee on asylum claims, reported that Weber County would not allow the claims of $291.85 for care of patients, as the claim was outlawed; other counties claims for care of patients could not be collected. Report adopted.

The medical superintendent reported as follows: Patients in asylum, 153; males, 102; females, 51; one patient discharged during the month. Report accepted.

A resolution was adopted by the board, declining to consider the claim of S. Liddard of $500.50, for changing air duct and walls in building, on the ground that said claim had before been passed upon and had been considered invalid.

The following resolution was adopted:

Whereas, There are no funds in the treasury, and

Whereas, The $25,000 territorial warrants now on hand cannot be paid until November, 1893, and

Whereas, The current expenses of the asylum need to be arranged for, therefore be it

Resolved, That the treasurer be and he is hereby authorized and directed to negotiate such loan or loans as may be necessary to provide for said expenses, not exceeding the sum, and to secure the payments of said loans, he is hereby authorized to file as collateral security therefor the Territorial warrants in his possession, provided that the rate of interest on said loans shall not exceed 9 per cent per annum if $10,000 is borrowed, four per cent per annum for a less sum.

The board adjourned.

NOTES.

Garland Wood, familiarly called "Pat," of Springville, who was consigned to the insane asylum a couple of weeks since, died suddenly at the asylum last night. The young man was well known throughout the county, and many friends regretted his sad condition, and will also regret the sad event which prevents the possibility of his being restored to them, in this life, sound and well.

The Provo country, in the main, has a rather sad and neglected appearance. To obviate this condition of affairs in the city of the dead, Chairman Farrer of the council committee on irrigation has arranged for the use of an irrigating stream in the cemetery on Tuesday and Saturday afternoons.

The Democrats of Lehi have adopted resolutions condemning and repudiating the action of the administration in appointing a man who was not the choice of the people of Lehi, as being "Non-American and non-Democratic."

The right eyebrow of Charles Vincent of this city was yesterday partial off by a beating cue. He wears a bandage in consequence.

A large piece of quartz was exhibited on the street yesterday by Messrs. Thompson and Kuder, which they had brought in from Tooele county. They claim that a small selected piece of ore from their location at that place went 1100 ounces in silver, $25 in gold and 14 per cent in copper.

Miss May Babcock and her B. Y. A physical culture class give an entertainment in the Opera house this evening.

The Grand Naval Review.

We are all glad and proud that our country is so large, and there are those who hope to live till they see it bigger yet. But there are always a few inconveniences attached to greatness of every kind, and one of our inconveniences just now is the impossibility of even a reasonable part of the people of this great country seeing the magnificent naval pageant which will be displayed the last days of this month all the way from Hampton Roads to New York harbor. April 27 the vessels will perform their evolutions in New York bay and the Hudson river.

The old countries of Europe are so glad Columbus discovered America and gave them a spot on which to dump their surplus population that they will join heartily in the review, proceeding to Hampton Roads for that purpose. The first to arrive on the ground was the Russian flagship Dmitri Donskoi, and she gave a salute at Fortress Monroe which included one gun for almost every thousand Jews we have taken off the czar's hands. Brazil and Argentina will be represented, because on their port they are so glad Columbus discovered a continent where great republics could be founded and every man of common blood, if he had brains, could have a fighting chance for the best this world has to give. Yes, the guns ought to boom long and loud, over the waters and through the hills. Let the eagle scream!

More than 40 war vessels will participate in the review, besides scores of small craft. The largest vessel built for travel will be the monster British protected cruiser Blake, 9,000 tons. There, too, will be the quaint little "caravels" Santa Maria, Pinta and Nina, built in imitation of the vessels constituting the fleet of Columbus. Eight of our new cruisers, all named for cities in this Union, will take part, besides the combined dynamite cruiser and coast defense vessel, the Vesuvius. It is safe to say that the finest navies will be the ship of the American navy which will attract the most attention from foreigners, she being of a type that is unique. The flagship will be the Philadelphia, and in this Admiral Gherardi will lead all the rest, home and foreign. Our gunboats Yorktown, Concord and Bennington will also be in the show.

The grandest sight of all will be witnessed in New York harbor. There all the ships will draw up in two lines. Between them will pass the huge monitor Miantonomoh, having on board President Cleveland, and as he passes each vessel will fire a salute until 800 guns have burned their powder in honor of this glorious republic and its president. It stirs the blood to think of the booming guns, the waving flags, the splendid ships. The Union forever!

To persons of artistic tastes one of the rarest displays at the World's fair will be the collection of laces from Italy. It is a twice told tale, how when sweet Queen Margherita came to the throne she was troubled sorely over the poverty and distress she found among the peasant girls and women of Italy. On some of her visits to them she found in a poor hut an old lace with knitting late. It was of a pattern for which Italy's shops had been famous centuries before. Queen Margherita undertook to restore the lost industry and give paying employment to the poor girls and women. She assembled a number of girls in a little school and had the old woman teach them how making. These in turn taught others, and new patterns were devised. For years royal Margherita worked at her chosen task with enthusiasm. The result has equaled her expectations. The poor women have profited greatly by learning such forms for her beautiful laces. The collection sent by Queen Margherita is the most valuable in the world. It includes not only the priceless crown laces, heirlooms and Queen Margherita's own purchases, but also specimens of all the varieties of old Italian lace that can be found. To compare with the old will be samples of all the kinds known to the revived Italian lacemaking industry.

There will be at least one man whose traveling expenses in connection with the World's fair preparation no man will grudge, and that is Professor Fernow, chief of the United States forestry division. He has gone to Germany to procure a forestry exhibit for the exposition. Germany takes care of her forests better than any other nation, and Professor Fernow's exhibit will illustrate to Americans how this is done. The administration of forest government and the methods of replanting, thinning and preserving woods will all be laid before us in an object lesson that none should fail to take in.

The popular doctrine that money must be used plentifully to influence legislation has been terribly shaken up by the results of the trial of the French official bribe-takers. It is a satisfaction to know that the outraged Panama "patriots" will at least get back of their money the $2,000,000 which Bulfont, the minister of public works, took as his share of the spoils.

Now that we begin to have a navy we must have women enough to man it. It will be only reasonable, therefore, the petition that will be made to congress next session to increase the navy's enlisted men from 7,000 to 12,000.

Caution.

These dull times when money is getting scarcer because it is being sent away for Eastern made goods, everyone should buy home-made clothing. The money for manufacturing these goods when paid to Utah wool growers, Utah workmen at the mills and Utah tailors to make them up, in turn is paid out by them to the Utah farmer for provisions of all kinds, thus keeping the money at home. John C. Cutler & Bro., agents of the Provo Woolen Mills, have just received a fine line of Spring Suitings. Call and see them. No. 20 Main street.

Removal Notice.

The attention of the public is called to the fact that Osbel S. Knight have removed their Carriage and Wagon Shops to their new building at 145-147 E. 1st South Street, half block east of Theater.

"I Am So Hoarse"

Is a common exclamation at this season. There is a certain bracing effect in cold air which is lost when the weather grows warm, and when Nature is renewing her youth, her airs are fickle and chill, slippery and treacherous. This condition is owing mainly to the impure condition of the blood, and its failure to supply healthy tissue to all the various organs of the body. It is remarkable how susceptible the system is to the help to be derived from a good medicine at this season. Those who use them purifying, building-up qualities which the body craves. Hood's Sarsaparilla meets every one of these needs, relieves the specific particular to the blood, and, in short, imparts vigorous health. Its thousands of friends as with one voice declare "It Makes The Weak Strong."

Removed.

J. S. Jensen, the Jeweler, has removed to three doors West of Theater.

Only $15 to Denver, via the Union Pacific.

The only reliable bicycle repairers are Meredith, 209 W. 2nd South.

"Brace Up"

Is a tantalizing admonition to the one who at this season feel all tired out, weak, without appetite and discouraged. But the way in which Hood's Sarsaparilla builds up the tired frame and gives a good appetite is really wonderful. So we say, "Take Hood's, and it will brace you up."

For a general family cathartic we confidently recommend Hood's Pills.

THE PRINCIPAL CAUSES OF DECAY

In Meats and fruits are dampness and varying temperature, causing the expansion and contraction of tissues, which hasten decay; hence a dry atmosphere and uniform temperature conduce to their preservation. The ALASKA REFRIGERATOR is constructed on strictly scientific principles, by which low temperature and dryness of air are naturally and inevitably obtained. The Alaska have preserved fresh meats perfectly for three weeks in the hottest weather.
