EASTERN DISPATCHES.

WASHINGTON.—The Treasury Department received to-day by express the Cuban flag taken from the privateer *Pioneer*, forwarded by the Captain of the *Moccasin*, which captured the Cuban.

The Secretary of the Treasury has ordered a board to convene in Washington on the 9th of November for examination of officers of revenue in the marine service for promotion of candidates for admission in the service. Captain Geo. R. Slicer is president of the Board of Examination. The engineers will recommend several candidates for promotion by the admission in a day or two.

Frederick C. Lord has been appointed assessor of internal revenue for Nevada, vice Mills resigned.

The supervising inspector general of steamboats, having examined the evidence in the case of the steamer *Oceanus*, reports that no action seems required in view of the fact that the boat was burned to the water's edge and sunk in thirty feet of water. All her licensed officers were drowned except the chief engineer, who was exonerated from all blame. The immediate cause of explosion was the boat striking the bar.

ATLANTA, Ga.—J. K. Townsend and Hanston F. Force, two young men belonging to most respectable families, fought a duel last evening with double-barrelled guns, charged with buckshot, at a distance of forty paces. Townsend was seriously wounded at the first fire.

ALBANY.—The person who committed suicide at Stanwix Hall, on the 2nd inst., was not Levison, of San Francisco, as reported. The name of the suicide is still a mystery.

NEW YORK.—The English historian Froude has been very adversely criticised by the New York press in his attempt to create public sentiment here concerning the English domination in "Ireland." The *World* speaks of his mission as fantastic and visionary.

A reform organization, comprising Charles O'Conor and other prominent citizens, is to tender the nomination of the mayoralty to Hauemeyer on Tuesday next.

It was learned at Tweed's law office to-day that Tweed is quite ready to appear to offer bail, and will do so when requested.

ST. LOUIS, 19.—The Brotherhood of Locomotive Engineers adopted a resolution favoring the abolition of Sunday trains, and appointed a committee to confer with the railroad officials on the subject. A clause will be inserted in the act of incorporation, providing for the expulsion of any engineer addicted to the use of intoxicating liquor. The brotherhood this afternoon were shown round the city.

LOUISVILLE.—Benj. J. Bartlett was killed and Mike Manyor fatally wounded in a stone quarry in the suburbs, a ledge of rock falling on them.

Reports about the smallpox here are greatly exaggerated, the cases being mainly among negroes, and the disease is on the decrease.

The National Board of Trade to-day indefinitely postponed the resolution to memorialize Congress to repeal the duty on railroad iron. The Boston Board of Trade submitted the following:

Resolved, that the National Board of Trade reaffirms emphatically its declaration of December, 1871, that it is incumbent upon the national government to prepare by moderate but steady contraction of legal tender currency for ultimate resumption of specie payment by the National Treasury and National Banks. It believes that such movement, instead of curtailing legitimate credit and industry of the people, will rather tend to enlarge them by checking unwarantable speculation, thus restoring capital to its proper channels by greatly enhancing the value of all national securities, by restoring the just standard of value by substituting for a fixed unelastic volume of irredeemable paper precious metals and credit legitimately based on them, the amount of which is practicably inexhaustible. A lively discussion ensued, which was ended by the adoption of an amendment, asking Congress to revise the national system so as to provide for the ultimate resumption of specie payments.

A resolution from the New Orleans Board to memorialize for the construction of a ship canal from the deep water of the Mississippi River near Fort Phillip to the Gulf; and a resolution of the Mobile Board asking for a government survey across it. Adopted.

A resolution was passed, asking Congress to amend the bill now pending for the reduction of the weight of a silver dollar to 384 grains by adding one grain and 8-10ths, or less than half one cent, to the proposed weight and to bear on its face "Liberty." A vote of thanks to the Chamber of Commerce for its hospitality was passed. Adjourned.

CHICAGO.—The Union Bolt and Screw Company's works in the extreme north-west part of the city was burned this morning. Loss $125,000. Insured, $50,000.

SANDUSKY, Ohio.—A fire last night destroyed the tool and handle factory. Loss $40,000. Insurance $15,000. It burned 300,000 feet of lumber in the yard of Gilcher & Co. Loss $30,000. Insurance, $20,000.

LEXINGTON, Ky.—In the trotting races to-day Price's black colt Doble won the race for two year olds. Mile heats best three in five; in the first heat distancing the competitor, making the mile in 2.40½, the fastest two year old time on record.

ST. LOUIS.—The executive sub-committee of the straight-out Democratic State committee will issue an address to the people to-morrow, presenting to the citizens of Missouri Chas. O'Conor and Adams for President and vice-President, also a full electoral ticket, embracing the names of several prominent citizens of St. Louis and State. The address reviews the reform movement, declares it a failure, and states that there is no candidate in the field that represents it or the Democratic party.

NEW YORK.—Wm. Cullen Bryant will deliver the oration at the unveiling of the Walter Scott monument in Central Park on Saturday.

By the breaking of the gangway fifty-four seamen of the *Hartford* were precipitated into the water at the navy yard. All were rescued.

A Baltimore dispatch says the second trial of Mrs. Wharton for poisoning will come up in November or December.

WASHINGTON.—The secretary of the treasury has authorized the assistant treasurer and the United States depositories to commence payment of interest maturing Nov. 1st, without rebate.

RICHMOND.—The installation of the Right Rev. James Gibbons, Catholic Bishop, was with the most imposing ceremonies. Archbishop Bayley, of Baltimore, and Bishop Becker, of Wilmington, were present.

BOSTON.—General William Schouler is dangerously ill.

CHARLESTON.—The amendment prohibitory of increase in the State debt was ratified by an overwhelming vote.

PHILADELPHIA.—A fire this morning destroyed R. J. Lehmon's planing mill and the stables of the Knickerbocker Ice Co. Loss, $50,000; insured.

NEW ORLEANS, 20.—The Longshoremen's strike for four dollars a day terminated successfully.

TITUSVILLE.—The decrease in the production of petroleum for September was 2,256 barrels.

PITTSBURGH.—A petition, signed by a large number of the heaviest firms, will be presented early this week to the Secretary of the Treasury by a delegation of influential business men, setting forth the opinion that the best interests of the country demand a reissue of forty-four millions in greenbacks, the present monetary stringency seriously embarrassing the business interests of the country.

CHICAGO.—In compliance with the ratification of the Superintendent of Police, all liquor saloons, save three beer places, closed their doors from midnight on Saturday to Monday morning. Those violating the Sunday ordinance will be cited to appear before the police court to-morrow. The total number of arrests for the day were nine.

NEW YORK.—The United States Marshal this morning boarded the steamer *Hermann* from Bremer and arrested Luding Julius and August Keibs, upon a warrant issued upon application of Wm. Zach, consul of the German Empire at New York. Keibs was charged with forgery committed in Bremer and committed to the Toombs.

EUROPEAN.

LONDON, 19.—The Board of Public Works voted almost unanimously for removing of tolls on Waterloo and other toll bridges across the Thames. A conference with the government for the carrying out of the measure will shortly be held.

PARIS.—Sumner visited Gambetta yesterday and expressed the warmest sympathy with the French Republic. Gambetta was deeply impressed by the interview.

PARIS.—The government has resolved to support in the approaching session of the Assembly the motion for the appointing of a commission to investigate the actions of the Olliver and Palacca Cabinets, preparatory to impeachment of the Imperial ministers on a charge of having provoked the war with Prussia. This motion was made by the "Left" during the last session, but was voted down, the government at the time taking no part.

The London *Times* says of the fire at the Palace of the Escurial, Spain, not a book, manuscript nor picture was injured. The church and palace, with the contents, were saved, and 40,000 dollars will repair the building, which the King will defray from his private purse.

MADRID.—A bill, which has been introduced in the Cortes, abolishing the penalty of death for political offences, has passed its first reading.

PARIS.—The syndicate of the Chamber of Commerce publishes the text of Secretary Boutwell's circular directing all goods imported into the United States in French vessels from countries other than from France shall be charged with a discriminating duty 10 per cent ad valorem. The comment is appended that the circular was issued in relation to the new French law imposing differential dues on foreign bottoms and will cause loss to France carrying the trade of the numerous countries exporting goods via Havre.

WEST INDIES.

HAVANA, via Key West.—Detachments of colored freemen, from towns in Western Cuba, have gone to New Trocha, to build forts and do military duty. Those arrested on suspicion of being in league with the insurgents have been released by order of the Captain General.
