IN TOWN.—E. Mitchell, Esq., proprietor of the Novelty Plaster Works, at Lowell, Mass., is in the city, his object being to introduce the various kinds of plasters manufactured at his works to the noted physicians, surgeons, druggists, etc. The Novelty Works make a specialty of the improved India Rubber, English Plaster, corn and bunion, all kinds of strengthenings, pastes, etc., etc.

FATIGUE.—Elder Amasa Tucker, of Fairview, Sampson Co., writes on the 23d ult., that the 5th ult., the new meeting-house at that place, was dedicated by President Jason Elbridge. Elder Tucker says it is capable of holding all the citizens of Fairview, and is the best house for public worship in the county, and has been completed under unfavorable circumstances as any house of the kind in the Territory; for during the time of its erection, the people of Sampson valley have had to endure repeated Indian and grasshopper war. The winter has been mild, and tolerably healthy; but many of the people are now suffering from the prevailing epidemic.

PANAMA.—Silas S. Smith, Esq., writing from Panama, Iron Co., on the 23d ult., says "There has been considerable sickness of late; many have had the measles, and now nearly every one is afflicted with a severe cold—a sort of delirium, with a hard cough, and, in most cases, a high fever for a few days. Whole families, in fact nearly every one in the settlement, being taken down in a day."

HALLIFAX, ENGLAND.—Elder Charles Lambton, of the 7th Ward, of this city, now on a mission in England, writes from Halifax, Yorks'ire, on the 4th ult., He is assisting in the Leeds Conference, is well received, and enjoys his labors. He sees a marked change since he left England, now nearly thirty years since; there is a great increase of wickedness; he has always appreciated his home in the mountains, but thinks he will be able to do no more there when he reaches it again.

PACIFIC COAST BUSINESS DIRECTORY.—We had a call, this morning from C. S. Halley, Esq., who is connected with the Business Directory Office, of San Francisco. The Directory is now published, and we do not hesitate to say that a more valuable compilation of useful information could scarcely be placed in the hands of the business men of the Pacific Coast and Rocky Mountain Territories. It contains a large amount of accurate data with regard to Post offices, the organization of the different States and Territories of the Pacific Coast, and the officers thereof, and the resources—manufacturing, mineral and commercial—of the States and Territories included in the plan of the work, are carefully exhibited. It also contains the returns of the tenth Federal census for 1870. The tenth part of the work includes a classified Business Directory containing the names of each merchant, manufacturer and professional in the States of California, Oregon, Nevada, the Territories of Washington, Idaho, Montana, Utah, Colorado, New Mexico, and the Colony of British Columbia, with the nature of the business in which each person named is engaged. The work contains nearly 800 pages of solid information, and cost only \$1.00. Hon. H. G. Loring, Esq., Editor of the California "State Register," "Pacific Almanac," etc. Mr. Massey will call upon most of our business men during his stay in this city, and we recommend him to all our friends for attention. The Director has been so anxious to be appreciated. The price is but \$0.50.

A SINGULAR SNOWER.—On the night of Tuesday, Feb. 21st, a shower of this kind prevailed in some parts of Cache and in Manti Valley. People who were out of doors during the storm had their clothing completely bespattered from head to foot. The mud was of a lightish color.

MORE ABOUT NARROW GAUGE RAILROADS.—Narrow gauge railroads, constructed according to the plan of the Festing North Wales railroad, are fast coming into notice in this country. A road on this plan is being surveyed from San Francisco to Mono Park, Cal. A similar road is proposed between Piqua and Celina, Ohio. Its gauge is to be thirty-six inches. The locomotives will weigh five tons, and will draw from twenty to twenty-five freight cars, carrying two and one-half tons. A single engine car on this road will hold twenty tons. Such a road is already in operation between Akron and Massillon, in the same State.

EVERY SATURDAY.—Tow cents will purchase today's number of "Every Saturday," splendidly illustrated, on the first page with a portrait of the American orator and statesman Charles Sumner; the centre contains a large engraving of the signatures assembled in the English Foreign Office, and the back page contains a portrait of the Queen of England. They are seven in number, Hon. Wm. Stuart and Earl Granville, English; Count D'Apoli, Austria; Count Bismarck, Germany; Mme. Paola, Turkey; Cavalere Cadorna, Italy, and Baron de Brunnow, Russia. Besides the preceding the number also contains several news stories in French, coal price in England, sketches on the Hudson river, etc., which, with a few lines of reading, make it a rare two cents' worth. It is published by Osgood & Co., New York, and may be bought at Dwyer's News Depot, East Temple Street.
