BRIGHAM YOUNG,
EDITORS AND PUBLISHERS.

Tuesday . . March 5, 1878.

## EDITORIAL NOTES.

The late strike of the masons in London was a terrible failure; they lost $150,000 by "kicking against the bricks."

Oleomargarine, or butter made out of refuse grease has become a big business. Over $2,000,000 is invested in its manufacture, and the investors are making a fat thing out of it.

Seven suicides are reported in the Chicago papers for Sunday, the 24th ult. The adage of "the better the day the better the deed" will not apply in these cases. Self murder is a dreadful crime and is becoming very common in the great cities of the United States.

The Hoosac tunnel is now a favorite with the traveling public. It takes ten minutes for a passenger train to pass through it, and it is very dark and full of smoke. Only three equi-distant lights for the guidance of engineers serves to vary the gloom, and they make the general darkness more ridiculous.

A farmer in Ohio, whose wood pile had been depleted by thieves, determined to punish the culprit and detect him at the same time, so loaded a good stick of wood with gunpowder. The explosion occurred in the Congregational Church at Bellevue, on the following Sunday. And now the question is, which pious deacon supplied the fuel for that Sabbath day?

Petroleum is one of the great exports of the country. The income from this source has decreased, however, while the volume has increased. From 1866 to 1873, the quantity exported was 3,500,000,000, and the amount netted $185,000,000. From 1871 to 1873 twice as much oil was shipped, but the income was only $165,000,000. The decrease in price from 34 cents to 15 cents per gallon accounts for the great falling off in the receipts.

Washington Territory wants to be admitted as a State. A constitutional convention will be held on the 11th of June; the election for delegates to the convention will take place on the 3rd of April. With half the qalifications of Utah, and less than half its population, Washington is more likely to obtain its desires in this respect. If Congress can afford to be unjust, Utah can afford to wait and be patient.

The rapid diffusion of intelligence in our own times is illustrated by a report of the time it took to telegraph the speech of the Queen of England in opening Parliament. It consisted of 800 words. Seven minutes after its delivery it was forwarded, and in 23 minutes and 10 seconds it was in the hands of the Czar of Russia. The Sultan of Turkey had it in 40 minutes, it was read in New York in 3 minutes, while it reached Paris and Berlin in 14 minutes. In an hour 300 newspapers in Great Britain had the speech ready to set up in type and publish to the world.

A gay and festive widower of Brunswick, New Jersey, named Oliver P. Dunn, aged 91 years, wants to wed a willing widow, Mrs. Elizabeth Way, aged 80 years. Both are good-looking and in good health, and are members of the First Baptist Church. But the hard-hearted pastor thinks their lives are too many and will not unite them in matrimony, and none of the ministers of the vicinity will tie the nuptial knot. So their young affections are doomed to be blighted, and they sigh in single-verxation. Oliver, in the absence of a clergyman, vainly seeking for the Way, and Elizabeth wondering how soon he will be Dunn.

The exposure of the treatment of prisoners in the Trenton, New Jersey, penitentiary has aroused the whole country, and great indignation is everywhere expressed against the "Christian" officials of that institution. They treated prisoners in the same spirit which prompted the Utah penitentiary "sweatbox." One keeper testified in an off-hand way that he saw as many as five or six convicts at one time with gags in their mouths; saw men chained down to the floor, at the same time gagged so tightly that they could hardly breathe; men bound to that modern adaptation of the rack—the stretcher, their hands fastened to the ceiling and their toes touching the floor; convicts chained to the floor with their handcuffs on; and all heard screams coming from the dungeon; had so a woman with black-and blue marks on her wrists, who told him that she had been strung up." Hanging up is too good for the monsters who inflict such tortures upon the helpless persons placed in their charge.

### THE "ENTERPRISE" AND WOMAN SUFFRAGE.

THE Virginia *Enterprise* is a smart paper, and frequently utters some very smart sayings. But like all papers that assume an anti-Mormon attitude, it loses its usual brightness when touching on Utah affairs, and in its bitterness becomes extremely stupid. The *Enterprise* has something to say on the new election law, which, of course, does not suit its high-mightiness, because the assessors that are to be the registrars "will of course be all Mormons." But it finds no fault with the Governor in signing the bill, except for "not excepting the provision allowing women to vote, &c." The *Enterprise* ought to understand a little more of this subject before handling it. The act conferring on women the elective franchise was passed in 1870, long before the present Governor came to the Territory; so its single word of blame for him is without effect.

The *Enterprise* goes on to say.

"There is a strange inconsistency in clothing a woman with the dignity of a citizen and an elector in her own right, and then according her the same privileges, in addition, by virtue of being or having been the wife of a naturalized citizen. But it is too much, perhaps, to look for complete consistency in Mormon laws."

If the sage of the *Enterprise* will examine the Revised Statutes of the United States he will find that this "strange inconsistency" is the product of Congressional statesmanship; that the laws of the nation make every woman a citizen who is married to a citizen, and that marriage has the same virtue in her case as naturalization. Every woman born in the United States is a citizen thereof, just as much as a man, and there is nothing in the Constitution or laws of the United States to prevent her from voting, if the laws of the State or Territory in which she resides confers the right upon her. An alien woman has no need, under the general law, to take out naturalization papers in order to become a citizen if she is the wife of a citizen.

The subject of woman suffrage is debatable, and women may yet obtain that right in any part of the Union to vote at elections, which is conferred upon her in Utah, a Territory popularly supposed to be a place of bondage for the weaker sex, but in which they enjoy more true freedom and stand on a fairer equality with man than in any other section of the country.

The *ipse dixit* of the *Enterprise* as to the "inconsistency of clothing woman with the dignity of a citizen and elector" is mere assumption, and a little argument would be in far better taste. But we notice that argument has a very small place in the opposition to woman suffrage, ridicule and assertion being its principle strongholds.

Now, if the *Enterprise* wishes to give any reasons in support of its charge of "strange inconsistency," let them be directed against the law-makers of the nation, who are responsible for the principle involved in "clothing a woman with the dignity of a citizen, &c.," But to use its own language, "it is too much, perhaps, to look for complete consistency" in any anti-Mormon newspaper.

## TO-DAY'S DISPATCHES.

### CONGRESSIONAL.

#### SENATE.

WASHINGTON, 5.—Thurman introduced a bill to prohibit members of Congress from becoming sureties on certain bonds, referred.

Wallace, who is in charge of the unfinished business long bond bill, being still unavoidably absent, the bill was passed over for the present, with the understanding that it should retain its place as unfinished business.

Beck called up the resolution submitted by him on the 21st of January declaring it inexpedient at this time to levy and collect a tax for the maintainence of a sinking fund, and spoke at length in favor of the resolution.

#### HOUSE.

WASHINGTON, 5.—Marsh offered a resolution reciting that the Union Pacific and Central Pacific Railway Companies owe the United States $25,000,000 of accrued interest on the bonds guaranteed by the United States, and that the earnings of said companies have been consumed by dividends declared on the capital stock in violation of their charters, and directing the judiciary committee to report whether it is expedient to enact such laws as will prohibit the payment of dividends on said stock until the indebtedness to the United States is liquidated; referred.

On motion of Eden the Senate amendment to the House bill, making an appropriation for the payment of claims, reported allowed by the Secretary of the Treasury, were concurred in.

The Speaker then called the committees for reports.

Crapo, from the committee on foreign affairs, reported back the bill supplementary to the act to carry into effect the convention between the United States and China, concluded in 1858, and to give the court of claims jurisdiction in certain cases. The bill authorizes any person or persons having any claim against the balance of the fund designated as the Chinese indemnity fund, for losses sustained by the plunder of the bark *Caldera*, to commence, within 12 months next, after the passage of this act, proceedings in the United States court of claims; passed.

### EASTERN.

**Terrible Destruction of Life and Property by a Tornado.**

LOUISVILLE, Kentucky, 5.—A Stanford, Kentucky, special to the *Courier Journal*, says a terrible tornado, with a width of 400 yards, swept through Casey County on Saturday afternoon, doing frightful damage in the neighborhood of Richville and Mount Olive. The whole of the family of Vincent Wesley, near Richville, consisting of himself, wife, two grown daughters, and a boy named Sloan, a nephew, and Wm. Taylor, a neighbor stopping at his house, were killed outright. Mrs. Wesley's body was blown 400 yards and her clothing entirely stripped off. The two daughters were carried 50 yards and found locked in each others arms. The father and nephew were fearfully mangled, and all must have been killed by the first force of the tempest. The dwelling, stables and out-houses were blown entirely away, the logs being scattered for many yards along.

A man named Richardson was frightfully crushed.

In the vicinity of Mount Olive, Mrs. Morgan, wife of John W. Morgan, was killed, and the dwelling and out-houses of R. Floyd completely swept away. The timbers were scattered in every direction.

In the village of Mount Olive several houses were swept away and the remainder otherwise injured. Fences were blown away along the course of the tornado, post and rail fence being drawn out, torn into splinters and utterly destroyed. Large trees were twisted from their roots and carried hundreds of yards.

Considerable numbers of horses, cattle and other stock, in its course, were killed. The probable damage is $50,000.

**Hard Money League.**

CHICAGO, 5.—The hard money league, an organization, with headquarters at Chicago, and designed to comprise among its members the leading business men of the northwest, has just been organized, principally by the efforts of the citizens of Milwaukie, Racine and Chicago. Its object is to secure concerted action against greenback principles and eradicate the false ideas of finance, but the originators will not oppose the working of the silver bill. Already several hundred prominent business men have expressed their sympathy with the movement and an intention to cooperate.

**Terrible Conflagration.**

LITTLE ROCK, Ark., 5.—A private dispatch from Hot Springs announce a terrible conflagration in progress at that place. Nearly the whole of the business part has already been burned, including the Hot Springs Hotel, the American House, and numerous bath houses, banks, printing offices, etc.

**The Carnival.**

MEMPHIS, 5.—This being carnival day, the streets are filled with maskers, and spectators are present from all parts of the Union. Good nature and happiness attends the king and his followers.

**New York Stocks.**

Silver coin 1@1¼ per cent discount; Gold closed weak, 11; Money easy, 4 @ 5; Governments, active firm; Stocks, strong higher; Western Union, 76¼; Quicksilver, 17¼; Pacific, 20½; Mariposa, 1⅞; Wells, Fargo, 84½; New York Central, 105½; Erie 9½; Panama 130; Union Pacific, 68½; Bonds 106½; Central Pacific, 105½.

### WESTERN.

**Municipal Affairs at a Dead Lock.**

SAN FRANCISCO, 5.—The board of supervisors, last night, adjourned till April 1st. The affairs of the municipality have come to a dead lock for want of funds. The bill recently passed by the legislature restricts the board to a monthly expenditure of one-twelfth of the annual revenue, holding the members and their bondsmen personally responsible for any over-draft. As a consequence, nearly every fund is exhausted for the current month. The fire department has not money enough on hand to buy feed for its horses. No resolution can go to print, and no authorization can be passed for payment owing to the exhaustion of the adversing fund. The hospital and alms house have but $600 to run on for the current month. Some legislation will probably be sought to relieve the city government.

### FOREIGN.

#### GREAT BRITAIN.

**The Eastern Question.**

LONDON, 5.—A special, dated San Stefano, Monday, says General Ignatieff will go to Constantinople, to-morrow. It is not certain whether the Grand Duke Nicholas will accompany him. The Grand Duke will remain in Turkey some weeks.

A St. Petersburg correspondent telegraphs that the treaty will probably not be published until the text is received by a courier, a week or ten days hence.

It is now hoped the congress will assemble in Berlin, and that three chancellors will attend. There is reason to believe that Prince Bismarck has already consented to preside.

A Vienna correspondent says Austria rather prefers a congress to a conference.

It is confidently believed that negotiations as to the place of meeting will proceed speedily enough to permit its assembling in the last week of March.

A Paris correspondent says it is asserted that Germany is trying to induce England to occupy Egypt, and thus protect her interests in a way which could not cause a conflict with Russia.

A St. Petersburg correspondent says the southern boundary of Bulgaria has not been closely defined, but will probably depend on the nationality and wishes of the population.

A correspondent at San Stefano gives the following additional details of the treaty, derived from Gen. Ignatieff:

The exchange of the Dobrodscha for Bessarabia, to be subject to Germany's consent.

The Prince of Bulgaria not to be a member of any reigning European family.

The amount of Bulgarian tribute not to be fixed for two years.

Bulgaria will have the seaport of Kavala.

The Russians will embark on the Sea of Marmora and proceed home through the Bosphorus, but not enter Constantinople.

All the Bulgarian fortresses are to be razed and no Turkish troops to remain in the country.

It is stated that the Russians will begin to leave Roumelia immediately, some are embarking here and others at San Stefano. The treaty of peace has been sent to St. Petersburg for formal ratification.

A Vienna dispatch says: At the opening of the congress a motion will be brought forward, probably by the German delegate, in favor of the immediate annexation to Austria of Bosnia, and Herzegovina. Prince Bismarck has quite recently renewed his advice in favor of such annexation.

**Amount of Tribute to Bulgaria.**

A San Stefano correspondent says: The amount of tribute to be paid by Bulgaria is not to be fixed for two years, during which measures will be taken to ascertain the resources and revenue of the country, which will be occupied by 50,000 Russian troops for two years or until the nation's army can be formed and rendered capable of maintaing order. The tribute, when paid will go towards paying the Russian war indemnity. The ultimate form of government, whether constitutional or absolute, will be decided partly by the Bulgarian Prince and the assembly, and partly by Europe. Servia will have Nisch, but not Widdin, which will remain Bulgarian. Thessaly and Epirus will share the administrative reforms stipulated for Bosnia and Hergeoona.

**Bulgaria Not Included.**

Another correspondent says, Roumania is not included in the peace conditions. Russia has told Turkey that she must treat directly with Roumania, whose pretentions are too great.

**Dissatisfied with the Conditions.**

A Vienna dispatch says: The newspapers are dissatisfied with the peace conditions as far as they are known. They express the opinion that the most difficult phase of the crisis is yet to be passed. They say nobody wishes to disturb the great result of the war, the liberation of Christians, but while the demands calculated to lead to a conflict with England has been dropped by Russia, similar consideration has not been shown for Austria. It is stated that Count Andrassy will make a full exposition of his policy to the delegations, which will meet probably on Thursday.

**The Danube Obstructions.**

A special to Lloyds from Galatz says: The work of removing the obstructions in the Danube will begin to-morrow. We expect navigation will open in two weeks.

**The Ship and Needle.**

In the *Cleopatra* salvage suit the court of admiralty fixed the joint value of the ship and obelisk at £25,000.

**Peaceful Talk.**

The talk in the lobbies of Parliament, yesterday evening, was all peaceful, the members even discussing the prospect of a longer easter recess than usual and an earlier prorogation in autumn.

**Stocks.**

Consols 95¼; four and a half per cent. bonds 103½; 67's 107½; 10-40's 105½; new 5's 104½; Erie 9½.

#### RUSSIA.

**Congratulatory.**

ST. PETERSBURG, 5.—The Sultan has sent the following telegram to the Emperor:

"Constantinople, 3.

"On the occasion of your majesty's accession to the throne, I offer my congratulations, with a desire of renewing our friendly relations."

The Emperor, in reply, telegraphed as follows;

"I thank your majesty for your congratulations, which I received simultaneously with the news of the signature of peace. I perceive in this coincidence a presage of good and lasting relations between us."

### DIED.

In the 6th ward of this city, March 2d, 1878, of inflammation of the lungs, GEORGE QUAYLE, son of James and Catherine M. Anderson, aged 2 years, 11 months, and 23 days.
