LOCAL AND OTHER MATTERS.

MISSIONARY NOTICE.

The Elders appointed on missions to Europe are expected, so far as they can be ready at that time, to leave Salt Lake City at 5 a.m., and Ogden city about 8 a.m. of May 1st, and New York on the 6th of May. Those who prefer going to Europe are expected to arrive in New York as to be able to call on the Williams and Gunn steamship, which leaves that port on Wednesday next week; the office of that company is at 22 Broadway, near the Stevens House, where the Elders are recommended to stay while in New York.

They will please not neglect procuring their Elders' certificates from Brother David McKenna, at President Young's Office.

THEATRE.—We are not sure that the Theatre-going public are fully aware of the excellence of the entertainment presented by the American Concert Troupe. It is really superior. All the artists are able, and the infant violinist is worthy of the encomiums passed upon him. Go and see them to-night if you wish to enjoy a very pleasant entertainment, and be home again in good time.

MATINEE.—There will be a matinee tomorrow at 2 o'clock, by the American Concert Troupe. A fine opportunity to witness the baby fiddler.

THAT SNOW.—The late heavy snow in Bear Lake Valley is likely to result in a very serious loss to the people in that locality, judging from a letter from Bishop William Hodge to A. M. Musser, Esq., recently published in the News, which stated that feed for stock had almost entirely given out, and of course the range is kept from being used. A deep snow or rain, which has been falling for some time, is likely to result in a very serious loss to the people in that locality, judging from a letter from Bishop William Hodge to A. M. Musser, Esq., recently published in the News, which stated that feed for stock had almost entirely given out, and of course the range is kept from being used.

THE BLOCKADE.—Here are dispatches about snow-storms and the railroad blockade, received last night.

Corinne, 11:30 p.m.—The storm, which began on the 5th, has been general north and west, and still continues.

Evansville, 11:30 p.m.—Six inches of snow have fallen, and it yet continues to fall. To-day's westward train was blocked at Aspen Hill, ten miles east of Evansville, and has been sent to the assistance.

Butte Creek, 11:30 p.m.—More snow has fallen than last night, and it is still falling. The snow is light and the plows go through easily.

Bryan, 11:30 p.m.—There is a heavy snow-storm to-day, and it is still falling.

Laramie, 11:30 p.m.—The weather is extremely cold and stormy. The Union Pacific is blocked. One train from the East is now stuck near Sherman. No trains from the West.

Ogden, 11:30 p.m.—The Union Pacific train, due this evening, is stuck at Ogden. There is about three feet of snow in the cut, and the passengers are waiting for the train to be stuck until morning. The train which left here this morning is at Evansville, waiting to have the road clear.

The Central Pacific train, due this evening, is stuck at Ogden. There is about three feet of snow in the cut, and the passengers are waiting for the train to be stuck until morning. The train which left here this morning is at Evansville, waiting to have the road clear.

At last accounts the boy was doing well. Ogden Junction, April 10.

ACCIDENT NEAR OGDEN.—Thursday last two boys, Frank Day and Charles Michels, were on the range about four miles west of this city, herding sheep and hunting jack-rabbits. The former took a pistol from the latter, and holding it against the latter's head, pointed it towards his side, endeavoring to raise the hammer. The weapon was discharged and the contents, a full charge of shot, passed through his side near the heart. He ran a distance of a mile to the residence of his parents, and there died. He was carried to his home, and medical aid summoned. At last accounts the boy was doing well.

RUNAWAY.—Yesterday afternoon, about four o'clock, a mule team with wagon attached, ran away on South Temple Street, taking a westward direction. The animals evidently intended to turn down South Temple Street, as they struck for the side walk by Mayor Wells' corner. As they approached the corner they seemed to have a faint glimmering of "futile reason," as they skinned the corner. It was then that they did, or the wagon would have been dashed to pieces, for the whole thing came to a dead lock against a couple of trees and a corner post. The trees were considerably peeled in places. The team belongs, we believe, to the Deseret Telegraph Co.

A HEAVY FALL.—A few miles south of this city the late snow fall was considerably greater than it was, reaching to the depth of about four feet in the vicinity of Union Fork and Little Cottonwood. It will doubtless, as an earth moistener, prove very beneficial to vegetation, especially on the bench lands, which a short time back were becoming parched.

UPPER NORTHERN RAILROAD.—Bro. W. J. Silver, master mechanic of this road, informs us that he was on the line from Tuesday until Friday of last week, and was engaged in running the engine, which, he says, works splendidly. It has a nine-inch cylinder, with a sixteen-inch stroke, and forty-eight-hundred driving wheels. Besides the engine the line has one passenger car, two dumps, one box and two flat cars.

The line is narrow gauge, being three feet wide. Up to Thursday night about five miles of track were laid, and it was being put down at the rate of half a mile a day. There is a large amount of iron on the ground and Brother Silver passed seven car loads on his way back to this city. The grading is nearly completed to Cache Valley.

HIS VIEW.—It will be seen by a dispatch from Washington, that Judge McKenna has been invited by the Judiciary Committee to give his views on his judicial policy in Utah and on the merits of the Voorhees Utah bill, also that he was to appear before them for that purpose to-day. The views of the missionary judge on the judicial policy in Utah, are well known to the generosity of the intelligent people of America, for they have been sufficiently indicated by his extra-judicial course while acting in his judicial capacity here, and have been handled accordingly to their merits by every fair-minded and honest and sound legal gentleman commenting on them.

It is man may entertain pernicious views and probably do no further injury than to corrode his own mind. On these grounds we do not care a fig what the missionary judge's views are. He is a free man, and he has the right to hold any views he pleases. But to his being permitted to carry them out to the injury of a whole community of law-abiding people, we must enter our most unhesitating and unqualified approval and protest, and we do know that it would be a disgrace overlooking to the most despotic government on earth to permit him to do so. We have at present the remotest notion that the free Republic of America will give him any such opportunity and favorable power.

With regard to obtaining an expression of the views of the judge who thinks his course in Utah has been entirely legal, it is like asking a person of his stamp for his views about his pet baby. Of course there never was such a nice baby; it is perfect in every particular and beautiful beyond compare. Who is the father of this
